Normalization with the Syrian regime | Explainer | Chatham House - Normalization with the Syrian regime | Explainer | Chatham House by Chatham House 807 views 2 years ago 2 minutes, 6 seconds - Short animation showing the impact of normalizing trade relations between the **Syrian**, regime and Arab countries both on the ...

The estimated increase in trade over the coming four years (see.is based on gravity model of trade between Syria and the Arab countries, the Syrian government trade data in 2020, and the pace of the normalization process observed between 2018 and 2020.

The pattern of distribution of the increase in trade among the regime affiliates and the small and medium traders (see.is estimated based on the distribution of the official import and export licenses between traders in regime-controlled areas, on informal interviews with officials and businesspersons in regime-controlled areas, and on the fact that small and medium traders pay around 25 per cent of their trade values to different government entities.

The estimated increase in the annual trade deficit by the end of 2024 (see.is based on the current trade structure in Syria which makes around 80 per cent imports and 20 per cent exports.
