Wilderness Survival: Living Off the Land with the Clothes on Your Back and the Knife on Your Belt

Do you have what it takes? You're alone in the wilderness with nothing but a knife and the clothes on your back. Will you survive? Do you have the skills to feed, clothe, and protect yourself? Mark Elbroch, a master tracker, and Mike Pewtherer, a woodland skills educator, put those questions to the test when they embarked on a 46-day, unprovisioned, unequipped journey into the dense wilderness of the northeastern United States. Wilderness Survival is their highly practical and uniquely observant introduction to survival in the deep woods. Mark and Mike tested generally accepted truths, questioned conventional solutions, and distilled the best techniques for making fire, obtaining shelter, finding water, and hunting with primitive weapons. They give you: • A life-saving handbook of survival skills that explores man's place in the natural world • The secret to surviving in the wilderness as part of nature—not its adversary • Explanations of more than 30 wilderness survival skills, including hunting and gathering food, fashioning tools, and preserving and storing food

Wilderness Survival

Wilderness Survival Skills is an outdoor survival guide that utilizes the most popular and versatile tool carried by every hiker, camper and hunter: the knife. It provides you with the essential information and life-saving techniques for all survival situations, including hunting, fishing, and trapping, building a shelter, making a fire, self-defense, and carving useful tools. Each chapter presents the knife skills and activities essential for wilderness survival, including: using a knife and axe, carrying and caring for a knife, securing food with a knife, sharpening an axe, and constructing watercraft with a knife

Wilderness Survival Skills

While no one looks forward to what comes after Doomsday, author K. Scott Bradbury prompts readers to consider what will happen and how to mentally and physically prepare. In his debut work of nonfiction, *The Post-Apocalyptic Primer*, he examines what life might look like after the end of the world and it's not as abysmal as some might fear. In ten chapters including: *Assessing Your Existing Survival Skills*, *Civilization After the Fall of Civilization*, and *Eat, Drink, and Be Wary*, Bradbury offers commonsense strategies that exponentially boost one's chances of a bright future. Among other Apocalyptic scenarios, he describes what one might expect after a seismic catastrophe, an ice age event, nuclear war, and alien invasion as well as the stages of disorder, which he breaks down into *Instant*, *Coming Soon*, and *Slow-Burn* events. Where someone lives makes a big difference, but besides new threats, there are also new careers, new hobbies, and a whole new adventure, the only trick is to be ready for it.

A compassionate, shame-free guide for your darkest days "A one-of-a-kind book . . . to read for yourself or give to a struggling friend or loved one without the fear that depression and suicidal thoughts will be minimized, medicalized or over-spiritualized."—Kay Warren, cofounder of Saddleback Church What happens when loving Jesus doesn't cure you of depression, anxiety, or suicidal thoughts? You might be crushed by shame over your mental illness, only to be told by well-meaning Christians to "choose joy" and "pray more." So you beg God to take away the pain, but nothing eases the ache inside. As darkness lingers and color drains from your world, you're left wondering if God has abandoned you. You just want a way out. But there's hope. In *I Love Jesus, But I Want to Die*, Sarah J. Robinson offers a healthy, practical, and shame-free guide for Christians struggling with mental illness. With unflinching honesty, Sarah shares her story of battling depression and fighting to stay alive despite toxic theology that made her afraid to seek help outside the church. Pairing her own story with scriptural insights, mental health research, and simple practices, Sarah helps you reconnect with the God who is present in our deepest

anguish and discover that you are worth everything it takes to get better. Beautifully written and full of hard-won wisdom, *I Love Jesus, But I Want to Die* offers a path toward a rich, hope-filled life in Christ, even when healing doesn't look like what you expect.

National Book Award Finalist: "This man's ideas may be the most influential, not to say controversial, of the second half of the twentieth century."—*Columbus Dispatch* At the heart of this classic, seminal book is Julian Jaynes's still-controversial thesis that human consciousness did not begin far back in animal evolution but instead is a learned process that came about only three thousand years ago and is still developing. The implications of this revolutionary scientific paradigm extend into virtually every aspect of our psychology, our history and culture, our religion—and indeed our future. "Don't be put off by the academic title of Julian Jaynes's *The Origin of Consciousness in the Breakdown of the Bicameral Mind*. Its prose is always lucid and often lyrical...he unfolds his case with the utmost intellectual rigor."—*The New York Times* "When Julian Jaynes . . . speculates that until late in the twentieth millennium BC men had no consciousness but were automatically obeying the voices of the gods, we are astounded but compelled to follow this remarkable thesis."—John Updike, *The New Yorker* "He is as startling as Freud was in *The Interpretation of Dreams*, and Jaynes is equally as adept at forcing a new view of known human behavior."—*American Journal of Psychiatry*

Wilderness Survival For Dummies

Matt Graham, star of the Discovery Channel's *Dual Survival* and *Dude, You're Screwed*, details the physical, mental, and emotional joys and harrowing struggles of his life as a modern-day hunter-gatherer. Early on in his life, Matt craved a return to nature. When he became an adult, he set aside his comfortable urban life and lived entirely off the land to learn from the smallest and grandest of all things. In this riveting narrative that brings together epic adventure and spiritual quest, he shows us what extraordinary things the human body is capable of when pushed to its limits. In *Epic Survival*, written with Josh Young, coauthor of five New York Times bestsellers, Matt relays captivating stories from his life to show just how terrifying--and gratifying--living off the grid can be. He learns the secrets of the Tarahumara Indians that helped him run the 1,600-mile Pacific Crest Trail in just fifty-eight days and endure temperature swings of 100 degrees. He takes us with him as he treks into the wilderness to live alone for half a year, armed with nothing but a loincloth, a pair of sandals, a stone knife, and chia seeds. He recounts near-death experiences of hiking alone through the snowdrifts at the bottom of the Grand Canyon, and tells us about the time he entered a three-day Arabian horse race on foot--and finished third. Above all, *Epic Survival* is a book about growing closer to the land that nurtures us. No matter how far our modern society takes us from the wilderness, the call remains. Whether you're an armchair survivalist or have taken the plunge yourself, Matt's story is both inspiration and invigoration, teaching even the most urbane among us important and breathtaking lessons.

_____ 'It is almost impossible not to fall under the spell of Eustace Conway ... his accomplishments, his joy and vigor, seem almost miraculous' - New York Times Review of Books 'Gilbert takes a bright-eyed bead on Eustace, hitting him square with a witty modernist appraisal of folkloric American masculinity' - The Times 'Conversational, enthusiastic, funny and sharp, the energy of *The Last American Man* never ebbs' - New Statesman _____ A fascinating, intimate portrait of an endlessly complicated man: a visionary, a narcissist, a brilliant but flawed modern hero At the age of seventeen, Eustace Conway ditched the comforts of his suburban existence to escape to the wild. Away from the crushing disapproval of his father, he lived alone in a teepee in the mountains. Everything he needed he built, grew or killed. He made his clothes from deer he killed and skinned before using their sinew as sewing thread. But he didn't stop there. In the years that followed, he stopped at nothing in pursuit of bigger, bolder challenges. He travelled the Mississippi in a handmade wooden canoe; he walked the two-thousand-mile Appalachian Trail; he hiked across the German Alps in trainers; he scaled cliffs in New Zealand. One Christmas, he finished dinner with his family and promptly upped

and left - to ride his horse across America. From South Carolina to the Pacific, with his little brother in tow, they dodged cars on the highways, ate road kill and slept on the hard ground. Now, more than twenty years on, Eustace is still in the mountains, residing in a thousand-acre forest where he teaches survival skills and attempts to instil in people a deeper appreciation of nature. But over time he has had to reconcile his ambitious dreams with the sobering realities of modernity. Told with Elizabeth Gilbert's trademark wit and spirit, *The Last American Man* is an unforgettable adventure story of an irrepressible life lived to the extreme. *The Last American Man* is a New York Times Notable Book and National Book Critics Circle Award Finalist.
