Limitless Mind

The psychic abilities of most humans are dampened by the clutter of our conscious minds. In this timely book, Russell Targ shows readers how to quiet this noise and see into the far reaches of time and space through remote viewing. He also illuminates the phenomena of intuitive medical diagnosis and distant healing in a groundbreaking synthesis of research and empirical data. Drawing on a broad range of spiritual traditions, Targ demonstrates that these psychic abilities offer a path of self-inquiry and self-realization and have the power to expand each person's limited awareness into the consciousness shared by all beings. Targ explores the scientific and spiritual implications of remote viewing, as well as offering practical techniques and exercises to nurture this universally available but often untapped skill.

Remote Viewing Secrets

Remote viewing is not simply using psychic ability to obtain information. It is using scientific protocol to develop and extend that ability, so that ordinary people can learn to do what "psychics" do. This book teaches you how to teach yourself. Joseph McMoneagle learned remote viewing in the U.S. Army--he was Remote Viewer #001 in the Army's Stargate program--and was awarded the Legion of Merit for his contribution to various intelligence operations. In Remote Viewing Secrets, the author of Mind Trek and The Ultimate Time Machine uses examples, exercises, and anecdotes to share what he learned and how he learned it, and gives you everything you need to begin developing your own abilities. Remote Viewing Secrets is easily the most complete, authentic, and informative guide to remote viewing published to date.

Remote Viewing

Resurrecting the Mysterious

RE-INTERPRETING WHAT IT MEANS TO BE AWAKE The Hidden Revelation, a previously unpublished manuscript of Ingo's, was discovered by Nick Cook in 2016 in a nondescript folder tucked inconspicuously among some of Ingo's notes. Now, together with Beyond the Gods' Devices, another undiscovered manuscript, it is published for the first time as Resurrecting The Mysterious, a posthumous compilation that delivers what we (that is Nick and Swann-Ryder Productions, LLC) offer here as Ingo's 'grand unified theory' of the human experience (and, in part, of consciousness itself). This asserts

that paranormality is part of an 'expanded reality-set' rooted in the relationship between quantum theory, us the observer and something infinitely more profound, even, that is fully described in *Beyond the Gods' Devices*. The *Hidden Revelation* is more concerned with us, the immanent experience, the inward journey; *Beyond the Gods' Devices* with that world, whatever that world truly is, that binds and connects us to 'the numinous' -- that, which, at present, science is unable to describe. For many, it may also make the 'hard problem' of consciousness just that little bit easier to comprehend. We certainly hope so ...

The Essential Guide to Remote Viewing

Written by one of the world's leading experts in the field, *The Essential Guide to Remote Viewing* is a basic introduction to the extraordinary extrasensory perceptual skill which was developed for the US military during the Cold War. This book describes what remote viewing is, how it came to be, what kinds of remote viewing there are, and counters skeptical arguments against remote viewing's legitimacy. Further, the book contains examples of successful remote viewing attempts, explains how remote viewing can be used for practical purposes, how ordinary civilians can themselves now learn to do it, and outlines experiments that readers can try for themselves. The ideal reader of *The Essential Guide to Remote Viewing* will be someone who knows little or nothing about remote viewing and wants an inexpensive source for credible information. Others who will be interested are those who are involved in remote viewing and want an easily-accessible introduction to give to friends or relatives who have questions about what this thing is their loved ones have gotten involved with. Finally, those who are already involved with remote viewing but feel the need to extend their basic knowledge will find this book both interesting and useful.

Remote Viewing

For the past thirty years, the United States government has secretly trained a select corps of military personnel in the art of "remote viewing" -- the psychic ability to perceive the thoughts and experiences of others through the power of the human mind.... Now, for the first time, Lyn Buchanan -- a world-renowned expert on remote viewing and its potential -- tells the complete, candid story of his experiences. Assigned for nearly a decade to a clandestine U.S. Army intelligence group, Buchanan trained military personnel who utilized their inherent psychic abilities as a data-collection tool during

the Iran hostage crisis, the Chernobyl disaster, and the Gulf War. In this incredible account, Buchanan tells how he was selected for his unique psychic abilities, and how he was transformed from an ordinary soldier into one of our nation's leading psychic spies. Working on top-secret government and military projects using "mental espionage" created permanent, life-altering changes within Buchanan. Now, after many years of analysis and interpretation, he reveals the techniques and mental exercises used to train remote viewers, and demonstrates that each of us carries a dormant psychic ability that we can explore and use ourselves. For anyone interested in a hard, scientific look at the reality of psychic covert operations in the world today, or anyone who has ever wondered if he or she could have the inherent skills to become a remote viewer, this fascinating chronicle of life as a psychic spy will reveal the answers.

The Seventh Sense

It is said, necessity is the mother of invention. In the early 1970s, information started to reach the West that the Soviet Union had begun to take psychic research seriously. This prompted frantic U.S. intelligence agencies to pour millions into top-secret research programs in hopes that a trainable, mental technique might emerge. Physicists at the Stanford Research Institute, funded by the CIA to investigate non-conventional forms of communication, were successful in developing such a system. It is known today as remote viewing. The scientists at SRI discovered that a non-material library of information exists, which contains data about everything in both the physical and non-physical universe. Remote viewing allows the individual to tap into this dimension, and accurately describe targets that would have otherwise been inaccessible. Now, almost five decades later, this skill-set has reached a level of sophistication that truly unlocks a world without secrets. Information about any person, place, thing or event in the past, present and future is obtainable by the adept viewer. Technical Remote Viewing: The Complete Guide offers both beginners and advanced students a complete blueprint for this revolutionary information gathering skill. It is the first written guidebook to cover every aspect of the Technical Remote Viewing methodology.

Technical Remote Viewing

Joseph McMoneagle is an extraordinary remote viewer, a "psychic spy," whose experiences have given him a special insight into the nature of time and human perception. For more than seventeen years, he was a researcher and remote viewer for the top-secret Army project STARGATE. For years after that, he journeyed through time while working in a consciousness-development lab with out-of-body experience pioneer Robert A. Monroe. McMoneagle explores the questions that philosophers have for centuries debated: Does time really exist? Do our actions today really affect our future? Can we change the past? Do we slip between alternate realities? In *The Ultimate Time Machine*, McMoneagle delivers new insights into these mysteries, including: First-hand information--including transcripts from lab sessions--on the origins of humanity, the crucifixion of Jesus Xhrist, and the building of the Egyptian pyramids. Provocative suggestions about the nature of time, creation, and a constantly changing past. A detailed picture of our immediate future through the year 2075. More than 150 very explicit predictions on world population, aging, religious fragmentation, lifestyle changes, technological developments, and dozens of major changes to laws, customs and practices--all within a positive and constructive framework. A vision of the year 3000, comprising a test of what the author calls the "Verne Effect"--our ability to create and manipulate our future.

The Ultimate Time Machine

The authors begin with compelling evidence of psychic abilities gathered in Targ's remote-viewing experiments for the Stanford Research Institute. Targ reveals how the experiments were conducted and how subjects were able to describe remote locations with precise detail. Targ also presents the results of recently declassified, covertly funded CIA experiments in remote spying during the Cold War, published here for the first time. After surveying the scientific evidence of the mind's nonlocal powers, Targ and Katra apply this evidence to the field of healing. Incorporating ancient Eastern teachings and modern scientific evidence published in the most prestigious scientific journals, Targ and Katra explain the process of spiritual healing, which they describe as a quieting of the mind to open it to the community of spirit. The book stays with you long after you put it down. It can change the way you view the world — and yourself.

Miracles of Mind

Have you had experiences with telepathy, precognition or subtle energies? You are not alone. These and many other extraordinary abilities have been reported since the earliest days of humankind and hint at an indwelling potential we all share. To broaden our understanding of these abilities, Infinite Possibility compares eight different spiritual traditions and the Scientific paradigm to understand: How different cultures understand the extraordinary The range of abilities seen across cultures Where in the hierarchy of consciousness extraordinary abilities occur The methods used to evoke abilities And the risks reported in undertaking the extraordinary Perhaps you are interested in what your particular tradition has contributed to our understanding of the extraordinary. Or you may simply enjoy reading about the exploits of saints, lamas, shaman and intuitives. Whatever your reason, this exceptional survey of the worlds traditions is guaranteed to deepen your understanding of our infinite human potential.

Infinite Possibility

Characterizing the mind as a maze with multiple pathways, Jean Millay explores the realms of sensory perception, resonance, trance, memory, logic, and belief.

Multidimensional Mind

New discoveries in physics combined with a greater awareness of extra-ordinary phenomena all around us challenge our traditional beliefs. Research into resonant viewing crop circles and extraterrestrials shows our world to be vibrant, multidimensional, and full of mystery.

Opening Minds

"Russell Targ's Third Eye Spies is a masterwork in the history and practice of remote viewing." —Dean Radin, MS, PhD, chief scientist at the Institute of Noetic Sciences and author of Real Magic and other books Explore the evidence of psychic powers and learn the skills of remote viewing from the masters for yourself. Russell Targ has been successfully teaching people how to tap into their psychic abilities for more than fifty years. This began in 1972 when he cofounded a CIA-sponsored ESP research program at Stanford Research Institute. The program yielded such incredible results as the description of a secret Russian weapons factory in Siberia and the location of several kidnapped US officials, including the ambassador to Iran. The founders also trained six Army intelligence officers to create an Army psychic corps that became known as Stargate. Third Eye Spies will introduce you to the most successful and gifted remote viewers in the world along with the evidence of their psychic abilities. Remote viewing is the opportunity to describe and experience objects and events in the distance, the past, and the future. Targ shares the simple techniques masters of remote viewing use to expand the mind's eye beyond one's physical location. With Third Eye Spies, you will be able to step beyond the boundaries of your physical body and learn to live with psychic abilities.

Third Eye Spies

For centuries mankind has been exploring the nature of reality. The materialistic scientific worldview would have us believe that physically measurable phenomena are all that exist. Yet the answers to the key of reality go far beyond this mindset. This book explores the clues we have about the nature of reality, especially those aspects that cannot yet be proven. If we can understand the most baffling aspects of reality, then we will move closer toward understanding its ultimate cause and nature.

Phenomenal World

As a child, the author believed that everyone shared her psychic abilities. As an adult, she realized that her abilities were special, and became first a participant in and later a researcher of psychic functioning. In Remote Perceptions, she explores past, remote viewing, out-of-body experiences (OBEs), the psychic spying of international intelligence agencies, and the possible future of psychic research. Detailing her own experiences and development as a psychic, the author shares the ups and downs of her growth and ponders the future of humankind as we learn to use our abilities to the fullest. A comprehensive introduction to the current state of psychic functioning.

Remote Perceptions

Ingo Swann -- renowned psi researcher -- reveals a long-held secret series of experiences with a "deep black" agency whose apparent charter was simple: UFOs and extraterrestrials on the moon and

worries about ET telepathic/mind control powers. The agency was so secret that it had no paper trail, and hence no written secrecy agreements. Only the verbal ones, which in Ingo's case expired several years ago. Now, in this era of burgeoning UFO "glasnost," he tells a story of meetings held in a secret underground facility not far from Washington DC, and of being taken to a remote location near the Arctic Circle to witness the expected arrival of a huge UFO over the surface of an Alaskan lake. This book discusses undeveloped human telepathy and contrasts it with the probable existence of fully developed alien telepathy, which may have many different forms. Ingo also explores the fact that we officially know far more than we're admitting about the Moon -- its origins, its atmosphere, its occupants and many other unusual features. Penetration is about one of the means by which we can learn more about those not of this earth (and vice-versa) -- telepathy. Do we have the means to answer some very important questions that many have been asking for quite a long time? Inside this book are the answers to some.

Penetration

Imagine being able to see people, landmarks, or objects in a far away location without physically going there! Offering a unique combination of intuitive and analytical guidance, *Psychic Vision* includes everything you need to know about using clairvoyance and remote viewing to enhance your life. With chapter-by-chapter exercises created specifically to take you on a clairvoyant journey—as well as instructions for the exact protocols used by government intelligence agencies—*Psychic Vision* is an indispensable guide to developing your psychic sight. Sharing true stories of actual remote viewing events, this book provides practical applications for clairvoyance and introduces you to an extraordinary and inspiring spiritual awareness.

Mind Trek

We are all, to some extent, natural psychics; it is an innate ability. *Natural Remote Viewing* offers a concise and practical introduction to expanding your awareness through a mental martial art of self-discovery. The goal of this slim guide is that given some free time, a pen and paper, a little effort, and intention you can have your own experience of verifiable psychic functioning. Nothing esoteric is required. A step by step remote viewing procedure guides you through the process - just sit down, relax, and let your mind tell you things not accessible through your regular senses. Amaze yourself and others! A clear and concise explanation of the history, terms, and methods used in the 20 year US government funded research and operational programme are outlined. Resources are offered for those interested in continuing with their research into this fascinating topic; ourselves.

Psychic Vision

Remote viewing is the mental ability to perceive and describe places, persons, or events at distant locations in the past, present, and future. This book describes the science and theory of the remote-viewing phenomenon. The reality of the remote-viewing phenomenon is not in dispute among a large body of respected researchers – both inside and outside of academia – who have published an extensive collection of high-quality investigations over the past few decades. But profound mysteries remain. This volume breaks new ground by resolving some of remote-viewing's greatest enigmas. In these pages, new research and new theories explain why remote viewing works, and why it is scientifically possible. These investigations utilize remote-viewing methods that are derivative of those used for decades in well-documented U.S. government funded psi research sponsored by the Central Intelligence Agency (C.I.A.) and the Defense Intelligence Agency (D.I.A.). Filled with descriptions and analyses of highly original experiments, here is an investigation into the fascinating characteristics of time and physical reality using remote viewing as a tool of exploration, offering evidence that the past, present, and future truly exist simultaneously. The idea of differing future and past time lines is not just science fiction.

Natural Remote Viewing

Remote Viewing (RV) is the ability to perceive and describe detailed information about a remote place, person, or thing—regardless of the normal boundaries of time and space. For over twenty-five years it has represented the cutting edge of research into the powers of the mind. *Mind Trek* provides us with insight into new perceptions and realities and gives us an understanding of how to deal with the doubts and fears of the RV learning process. By showing the effects research has had on the author as a subject, it points to consciousness as the ultimate time-machine and the mind as the gateway to human creativity. It also establishes our own clear responsibility for the design of our future. This

book also provides excellent guidelines for how to begin your own journey toward perfecting the art of Remote Viewing.

Remote Viewing

Nanotechnology in a shot Earthquakes Directed weather bombs Electromagnetic havoc over vast distances These are just four of today's fascinating and frightening weapon systems in development discovered over six years of investigation from 2012 to 2018 by Kiwi Joe, a seasoned remote viewer. The revised second edition of the fourth installment in Kiwi Joe's 'Remote Viewed' series is a shocking and compelling read. Ten countries. Ten weapons. Nine remain secret. At least two hidden in plain view. Our world has transformed into a global battlefield. Conventional wars are no longer the only domain of nations, and secret weapons are not solely aimed at military targets. You will find the book generously illustrated throughout with the original sketches from the remote viewing sessions. The author is a trained remote viewer, applying a learned skill with roots in psychic espionage and the groundbreaking research by the Defense Intelligence Agency (DIA) and the Stanford Research Institute (SRI) in the 1970s. Delve into how the innate ESP present in each of us can be harnessed to unveil covert projects that silently shape our times. As the lines blur between military operations and global safety, this book seeks to uncover truths hidden from a global population that, while witnessing the aftermath, remains largely blind to the cause. Brace yourself for a revelation. A glimpse into the concealed realities exposed by remote viewing.

Mind Trek

Follow the fascinating story of one man's journey into the realm of the fantastic: the CIA-sponsored psychic spies with the ability to extend their consciousness to accurately describe targets not only half a world away but to look into the future as well. It all sounded like science fiction to John Herlosky after reading an expose by former member of the CIA's Project Stargate, Dr. David Morehouse. Two years later, skeptical but intrigued by the possibilities implied, John entered the classroom of Dr. Morehouse to find out the truth—and never looked back. Sorcerer's Apprentice is an autobiographical account of the author's experience learning the CIA-sponsored scientifically validated form of extrasensory perception called "remote viewing." The book chronicles the author's journey from interested skeptic to operational remote viewer working his first mission as well as his former life as a police officer and private military contractor. He takes you on a journey from the crushing depths and pathos of the wreck of the Titanic to the fate of a downed pilot missing for 19 years from the first Gulf War. Witness the personal turmoil as the author's long-held beliefs clash with the powerful implications of his experiences.

Join an aerospace engineer and physicist on his journey of discovery from the world of science and technology to the realm of parapsychological phenomena. In this riveting odyssey, Dale Graff shares his experiences as the director of the highly classified Project Stargate--a U.S. government program founded during the Cold War to research the applications of remote viewing, the as-yet unexplained mental ability to access information without using our physical senses. With the ability to "remote view" refined, U.S. agents would be better able to gather important data with far less risk to their lives. As he presents vignettes from his professional and personal explorations, his transition to a new perspective of reality unfolds, offering inspiration to those interested in searching for their own "tracks in the psychic wilderness." Practical lessons are included to help you develop your powers of remote viewing and precognitive dreaming and to recognize synchronicity in your life.

Everybody's Guide to Natural ESP

The fine internal structure of the atomic nucleus and elementary particles may never be discovered by instrumental methods. This paper describes detailed observations of their structures by "remote viewing". This is a mind-based faculty for magnifying objects, requiring specialized meditation training. This paper reconciles these observations with modern physics. Remote viewing has been verified by experiments published in Nature by Targ & Puthoff in 1974, with a possibility of only 1 in a million that it could have occurred by chance.

Remote Viewing observations of Atoms & Quarks:

Most books about power only deal with the societal formula of the few having power over the enormously larger powerless masses, and which is mistaken as the so-called "natural order of power." But it is not well understood that this formula also requires social conditioning measures aimed at perpetuating the continuing depowerment of the powerless so that the powerful CAN have power over them. This in turn requires the societal suppression and secretizing of all knowledge about the superlative human powers known to exist in individuals of the human species, but which are socially forced into latency in most. It is broadly understood that power and secrecy go together, but the scope of the "web" of secrets surrounding the larger nature of human power(s) is surprising. As discussed

in this Volume I of SECRETS OF POWER, empowerment is difficult if the larger panorama of societal power and depowerment are not more fully understood.

Boundless: Your How-To Guide to Practical Remote Viewing

Mind-Reach is the book that led to the U. S. Army's psychic spy program and the subsequent prominence of remote viewing. The protocols that physicists Targ and Puthoff developed at the Stanford Research Institute are still in use today and have proven again and again in laboratory settings that psychic ability is universal.

Over thirty years ago, Angela Thompson Smith started on a journey that began with sending off for a paper on Dr. Hal Puthoff and Russell Targ's research into a topic known as remote viewing. Over the decades, Angela's career path swerved away from medical studies into the fields of consciousness

research, parapsychology and shamanism. Excerpts from thirty years of personal journals and case studies form the core of SEER, that serve to show what remote viewing is, how it can be used in a practical way, and what the future might hold for human consciousness. Our potential as humans is unlimited! The journey is not yet over - the adventure continues.

Discover the breakthrough solution to one of the world's most pressing nuclear threats! On March 11, 2011, a devastating earthquake and tsunami transformed Japan's Fukushima Daiichi Nuclear Power

Plant into a potential catastrophe for the entire Pacific. The repercussions of this nuclear disaster continue to unfold as the world searches for a way to end it. Where science and policy fall short in providing a safe and effective solution, a remote viewing team believe they have the answer. Why is this book crucial? • Hidden Depths: understand the events leading up to that fateful day and the subsequent and largely untold impact on the Pacific. • Pioneering Solution: Discover the novel engineering solution to the radiation leak revealed by a team of remote viewers. An approach utilizing a military intelligence protocol that taps into the ESP ability existing in all of us. • Beyond the Obvious: The sheer scale and complexity of the problem can be compared to the construction of the pyramids of Giza, but that didn't stop the ancient Egyptians. • Inside Look: The original illustrations from Kiwi Joe's remote viewing sessions sets out the plan in a series of steps. What are the Benefits? • Grasp the Situation: Understand the challenges scientists and engineers face as they try to mitigate radiation leakage and its extensive implications. • Untold Methods: Learn about the effectiveness and reliability of remote viewing used as a tool to address global crises. • Solutions Within Reach: Discover the actionable steps proposed by the remote viewing team to curb the radiation leak founded on data collected using a rigorous protocol. • A Better Way? Have you ever wondered if there isn't a more effective response to this radiation dilemma than the current strategy of slowly releasing radioactive wastewater into the Pacific?
