This interpretation of the constitution is an excuse for not passing gun reform

The constitution treats insurrection as a serious and dangerous offense

Forming a militia and attacking the government is unconstitutional and qualifies as treason

The constitution doesn't even guarantee non-violent civil disobedience

Insurrectionists are not "hostages"

The 2nd Amendment is not unlimited

Q&A start

Our lone-wolf shooters are anything but a well-regulated militia

Why did conservatives change their tune in the last 15 years?

They say gun violence is due to "too many doors"

The say gun violence is due to a mental health crisis, but then do nothing about it

What is the upside to the NRA taking extreme stances against reform?
