The Rangers' Historical Records From 1859 to the Conclusion of the Great War

This book is laid out in five parts, the first takes the history of the Regiment from 1859 to the outbreak of the Great War and the remaining four consist of one each to the First Battalion, the Second Battalion, the Amalgamated Battalion and finally the Depot and Reserve battalion during the war. There is a list of honours and awards but no roll of honour nor index. The foundation of the Rangers as a unit of the Volunteer Force was laid in 1859 and the first part of the book contains a brief record their history from then to the outbreak of war, including descriptions of dress and equipment and names of officers and the Rangers part in the S African War. On formation of the Territorial Force in 1908 the battalion became The Rangers, the 12th (County of London Battalion), The London Regiment, in the 3rd Brigade of the 1st London Division. In December 1914 the battalion left the division and landed in Le Havre on Xmas Day and joined GHQ troops (L of C) till February 1915 when it was transferred to 84th Brigade, 28th Division; it took heavy casualties during Second Ypres. Then it moved down to Gommecourt and in that ill-fated attack suffered 560 casualties. There is an error on page 48 where the other division in that attack is referred to as the 48th ; it should, of course, be 46th . A second-line battalion (2/12th) was formed in September 1914 (the original battalion became 1/12th) and went to France in February 1917 with 175th Brigade, 58th Division and the third part of the book describes its formation, training and actions at the front. A year later, in February 1918, the two battalions amalgamated to become 12th London (Rangers) in 58th Division and fought with that division for the rest of the war. The chapters in each part of the book were written by various contributors who were present during the events they describe, which include activities out of the line; the list of contents names the authors of each chapter. The maps are good and there is some good detail in the narrative, including identification of officers

and other ranks in the action. Soldiers Died lists 1140 dead in addition to fifty officers; 28 battle honours were awarded.

Rangers O Historical Records from 1859 to the Conclusion of the Great War

We appreciate your understanding of the imperfections in the preservation process, and hope you enjoy this valuable book.

The Rangers' Historical Records from 1859 to the Conclusion of the Great War - Primary Source Edition

Carshalton in Surrey was deeply affected by the First World War: over 1,900 local men enlisted to fight. Of those men, 243 lost their lives and are commemorated on the war memorial. As we find ourselves commemorating the centenary of the war, it is more important than ever that these men are not forgotten. Drawing on over six years of research, this book brings together the stories of the lives – and deaths – of these men. Utilising a wide variety of sources and complemented by many previously unseen photographs, their stories are told here, from the fourteen sets of brothers who were killed, to the devastating effect of the Somme campaign in which nineteen local men lost their lives on the opening day alone.

Their Name Liveth for Evermore

This is a curated and comprehensive collection of the most important works covering matters related to national security, diplomacy, defense, war, strategy, and tactics. The collection spans centuries of thought and experience, and includes the latest analysis of international threats, both conventional and asymmetric. It also includes riveting first person accounts of historic battles and wars. Some of the books in this Series are reproductions of historical works preserved by some of the leading libraries in the world. As with any reproduction of a historical artifact, some of these books contain missing or blurred pages, poor pictures, errant marks, etc. We believe these books are essential to this collection and the study of war, and have therefore brought them back into print, despite these imperfections. We hope you enjoy the unmatched breadth and depth of this collection, from the historical to the just-published works.

John Graves Simcoe (1752 -1806) was first a British army officer who saw action in the American Revolutionary War, in the Siege of Boston. During the siege, he purchased a captaincy in the grenadier company of the 40th Regiment of Foot. In 1777, Simcoe was offered the command of the Queen's Rangers. Simcoe is a central villain in the 2014 AMC drama *Turn*, portrayed by Samuel Roukin. Simcoe wrote a book on his experiences with the Rangers, titled "A Journal of the Operations of the Queen's Rangers" from the end of the year 1777 to the conclusion of the late American War, which was published in 1787. THE military journal of Lt. Col. Simcoe, was printed by the author in 1787, for distribution among a few of his personal friends. The production has hitherto, it would seem, entirely escaped the attention of those who are curious in the history of our Revolutionary War. As a record of some interesting particulars and local occurrences of that memorable struggle, and as a well written documentary illustration of the times and the circumstances of the American Rebellion, it deserves circulation and favour. Simcoe's ambition invariably led him to aspire at command; and even when the army first landed at Staten Island he went to New York to request the command of the Queen's Rangers a provincial corps then newly raised, which he did not finally obtain until after the battle of Brandywine, in October, 1777. He knew that common opinion had imprinted on the partisan the most dishonourable stain, and associated the idea with that of dishonesty, rapine, and falsehood. Yet, on the other hand, he also knew that the command of a light corps had been considered as the best source of instruction, as a means of acquiring a habit of self-dependence for resources, and of prompt decision so peculiarly requisite in trusts of importance. The corps of Rangers claimed all the attention of the now Major-commandant Simcoe, and contributed greatly to lessen his paternal fortune, for though warmly alive to the interests of others, he was always inattentive to his own. The incidents, as recorded, were written out just after the war, while fresh in the memory and the note book of the author. In the narrative we get an interior

view of the camp of the best of the royal partisan warriors, and receive an impression of the spirit of the contest, the feelings of parties, and the state of the country and people, not so well imparted by any previous publication. Simcoe was a highly educated gentleman, and a brave and ingenuous soldier, enjoying the confidence of his superiors in command, the affection of his Rangers, and the respect of his American opponents. We perceive so much of interest to the inhabitants and natives of several parts of the country, that we do not doubt the book will be sought with eager curiosity, and it certainly will well repay a careful perusal. We can merely indicate, here, the neighborhoods of New York and Philadelphia, the grounds of New Jersey, North and South Carolina, and Virginia, and those quarters, generally, where the war was waged at different times, as the fields in which the operations of the corps were performed. We may mention that no account so full and circumstantial of the British campaign of 1781, in Virginia, including Arnold's doings, and Cornwallis's movements, assisted by Simcoe and Tarleton, has, till now, come before us in print. A large proportion of the volume is filled with the details of this concluding scene of the Revolution, finely illustrated by military maps from the author's clever drawings.

The Texas Rangers assumed many roles during the Mexican War (1846-1848), fighting in both the northern and central theaters. Along with frontier knowledge and combat experience, they also brought prejudices and they earned a reputation for ill-discipline. Thus, the central research question is whether the Texas Rangers contributed to the success of conventional army forces or did they materially hinder Generals Taylor and Scott more than they helped? Analysis begins by discussing the Mexican War, the Texas Rangers, and the concept of Compound Warfare (CW) (conventional and unconventional forces employed simultaneously to gain a synergistic advantage). CW theory is used to evaluate the Rangers' contributions. Ranger actions in support of Taylor's first battles and his movement to and conquest of Monterey, followed by the Battle of Buena Vista are described and evaluated. The Rangers' counter-guerilla operations in both theaters are evaluated next. The conclusion is that the Texas Rangers did contribute positively overall to the success of American commanders throughout the war despite some problems and atrocities. The final chapter also discusses the work's current relevance and suggests way for today's commanders to avoid problems when integrating irregular forces from differing cultures into the laws of war.

Mosby's Rangers were some of the most feared Confederate troops of the American Civil War. Under the command of Col. John S. Mosby they executed small raids behind Union lines, raiding at will and then vanishing quickly into the countryside to remain undetected. Formally known as the 43rd Battalion, Virginia Cavalry, they were formed after the Partisan Ranger Act of 1862. By the summer of 1864 Mosby had around four hundred men at his disposal in six cavalry companies and one artillery company. Their success led to the area around Fauquier and Loudoun counties becoming known as "Mosby's Confederacy\

The most comprehensive state project of its kind, the Dictionary provides information on some 4,000 notable North Carolinians whose accomplishments and occasional misdeeds span four centuries. Much of the bibliographic information found in the six volumes has been compiled for the first time. All of the persons included are deceased. They are native North Carolinians, no matter where they made the contributions for which they are noted, or non-natives whose contributions were made in North Carolina.

Historical Record of Eighty-eighth Regiment of Foot Or Connaught Rangers

The Queen's York Rangers have a storied history, beginning under Robert Rogers in 1756, and continuing to the present day. For the first time, their first person accounts of military operations are collected together, allowing the reader to see the breadth of the Regiment's history through the eyes of those who served in it. Many of their observations and concerns echo down through the ages, as all of the technological and social changes of the past three centuries have made little difference to the lot of the common soldier when their experience is stripped to the bare essentials. This anthology has first person accounts of operations from the French & Indian War, the American Revolution, the War of 1812, the Red River Rebellion, the Boer War, the First World War, the Second World War, Domestic Operations within Canada, Peacekeeping Operations, the War in Afghanistan and the War in Iraq.

James Hodgins was born in 1786 in Dromineer, Ireland, and married Mary Napier Hodgins, daughter of John Hodgins, in 1813. They immigrated to Canada in 1831, and settled in Biddulph Township, Huron District, Ontario. He died there in 1869.

Historical Abstracts

Taking advantage of emerging photographic paper printing techniques to create large-format, classically posed portraits, Brady also collaborated with painters such as G.P.A. Healy and Alonzo Chappel, who used his photographs to complete their own heroically scaled images. Contending that Brady's photographs contribute to an ongoing national interest in the Civil War, Panzer concludes that they continue to function as Brady hoped they would, constructing an idealized history in which fact and memory are intertwined.
