Known as the "Happy Medium" for her authenticity, warmth, and her honest, positive readings, Kim has helped people from all walks of life to connect with those who have passed on. Now,

this world-renowned medium demystifies the world of the dead for everyone. The key to understanding, she contends, is energy, which cannot be destroyed. The Happy Medium interweaves experiences from Kim's life with some of the best, most astounding behind-the-scenes stories of her celebrity readings from episodes of her Lifetime show, *The Haunting Of . . .*. In addition, she gives you the tools to access the energy that is all around us, including the experiments and lessons she uses in many of her sold-out appearances and courses around the world. When Heaven Calls

America's top psychic medium reflects on his life of speaking to Spirit and the lessons he's learned along the way—from both the living and the dead. Matt Fraser is just an ordinary guy...who happens to talk to dead people. Born into a psychic family, Matt carries on the legacy passed down from his late Grandmother Mary by connecting people to their dearly departed loved ones and delivering messages from the other side. His sold-out live group readings, television appearances, and private readings have allowed him to bring hope and healing to fans from around the world. But people who are not in the habit of talking with the dead have a hard time imagining what his day-to-day life is like. Based on the questions he gets, they seem to think he spends most of his time sitting cross-legged in a trance, maybe hovering a few inches off the ground, leaving his physical body behind as he journeys across the veil to the spirit realm. But it's not like that at all. Now, in *When Heaven Calls*, Matt opens up about it's really like to be a psychic medium—including how he discovered his spiritual gift, what it's like to connect with souls on the other side, what communicating with the dead has taught him about embracing life, and how you can tap into your own intuitive awareness to manifest your dreams, goals, and desires.

There's More to Life Than This

For fans of TLC's *Long Island Medium* and anyone interested in the big questions of life, death, and finding out what's important in between, New York Times bestselling author and medium Theresa Caputo shares how she discovered her gift and her many encounters with Spirit. Beloved medium Theresa Caputo, star of the hit television show *Long Island Medium*, opens the door to her world and invites you to experience her exceptional gift of communicating with those who've crossed over to the Other Side. The always funny, frank, and down-to-earth medium—whether she's talking to her family, the local butcher, or the souls of those who've passed on—began communicating with Spirit at the age of four, but didn't fully accept her gift until she was thirty-three years old. She had a good life as a busy wife and working mom, but also suffered from chronic anxiety that, as it turned out, came from ignoring her abilities. Once Theresa began channeling, she realized that she felt much better after delivering a message from Spirit and releasing that energy. Since then she's used her extraordinary gift to help people heal from the loss of their loved ones. Theresa feels that it's her purpose to make us all aware that there is more to life than what we see here in the physical world. She wants you to know that your deceased loved ones are safe and at peace, and that they're now with you in a different way—watching over you, loving you, and assisting you from the Other Side. She also wants you to realize that the unexplainable things you sense and feel from these souls are real, and that it's healthy and essential to acknowledge them. *There's More to Life Than This* lends insight on how Theresa's mediumship works, what happens to your soul when you die, what Spirit says Heaven is like, what the deceased want you to know, the importance of living a positive life, and the many roles that your family,

friends, angels, guides, souls of faith, and God play here and in the afterlife. It also explores how to safely connect with Spirit, so that you can recognize when your loved ones are reaching out. Through Theresa's personal story, compelling anecdotes, and fascinating client readings, she teaches us about how she communicates with Spirit and helps us to understand and appreciate the important lessons and touching messages that we're meant to embrace every day.

Between Two Worlds

From Tyler Henry, a twenty-year-old clairvoyant and star of E!'s hit reality series *Hollywood Medium with Tyler Henry*, comes *Between Two Worlds*, a memoir about his journey as a medium thus far. "Dying doesn't mean having to say goodbye." Tyler Henry discovered his gift for communicating with the departed when he was just ten years old. After experiencing a sudden, accurate premonition of his grandmother's death—what Tyler would later describe as his first experience of "knowingness"—life would never be the same. Now in his twenties, Tyler is a renowned, practicing medium, star of the smash hit E! reality show, *Hollywood Medium with Tyler Henry*, and go-to clairvoyant of celebrities, VIP's, and those simply looking for closure and healing. He has worked with some of Hollywood's biggest names including Khloe Kardashian, Amber Rose, Margaret Cho, Jaime Pressly, and Monica Potter. Despite struggling to accept his rare talent, Tyler grew to embrace it, and finally found the courage to share it with—and ultimately change—the world. For the first time, Tyler pulls back the curtain on living life as a medium in his first memoir, in which he fearlessly opens up about discovering his gift as an adolescent, what it's truly like to communicate with those who have passed, the power of symbolism in his readings, and the lessons we can learn from our departed loved ones. With unparalleled honesty, Tyler discusses how his complex and fascinating gift has changed his perception of the afterlife, and more importantly, how readings can impact our relationships with our closest friends and family once they're gone.

Inside the Other Side

A *New York Times*–bestselling author and celebrity medium "guides readers. . . to get in touch with the other side in this life-affirming and personable book" (*Publishers Weekly*). World-famous psychic Concetta Bertoldi talks intimately about soul contracts, life lessons, and how dead people help us between here and heaven, as she leads us on an eye-opening tour *Inside the Other Side*. With the same compassion and wit displayed in her well-received book, *Do Dead People Watch You Shower?* the self-proclaimed "average Jersey girl who talks to the dead," shares her own experiences with loss, as well as the fascinating and comforting anecdotes of those she's read for over the years. You'll be inspired by Concetta's powerful insights and guidance as she explains how to cope with life's most difficult issues by getting in touch with angels on the Other Side. "With her fun loving and sparkling personality, it is no wonder the spirit world wants to speak to her." —James Van Praagh, #1 *New York Times*–bestselling author of *Talking to Heaven* "Concetta Bertoldi is definitely not your run-of-the-mill medium." —Billy Baldwin, actor

The Happy Medium

As one of Britain's leading psychic mediums, the author has helped countless people find peace and inspiration during the darkest and most challenging times of their lives. In this title, he explains how his great-grandmother and his grandmother also had the gift of communicating with the Other Side, but paid a tragic price for their abilities.

The Link

Describes the author's first psychic experiences and how his powers developed, from the terrifying outbursts of poltergeist activity at school and the hysteria it produced, through his discovery and use of automatic writing to channel his energies to more creative work. Also, it covers the medical diagnoses, his metal-bending, remarkable pictures, and his collaboration with many of the world's leading scientists, from a Nobel Prizewinner in physics to major figures in the field of parapsychology.

The Holistic Dog

People love their pets—especially their dogs. They treat them as children, as part of the family. They want to do everything they can for them, including making them feel loved, welcomed, and appreciated around the house. By delving into dogs' worlds holistically through their mind, body, spirit, and space, *The Holistic Dog* delivers a thorough understanding of our canine friends. The mind portion covers

their habits and personalities. The book addresses their breeds and physical characteristics. Spirit represents the dogs' dispositions and the many ways they enhance the home atmosphere. Space captures the dogs' connections to the beauty of the unique environments they call home. Lifestyle expert Laura Benko interviews various holistic care practitioners such as holistic veterinarians, a canine masseuse, a canine behaviorist, an animal communicator, and more. Photographs and step-by-step instructions enable readers to gain helpful tips and insights into holistic pet care and teach readers how to implement them on their own dogs. From pug to greyhound, purebred to winning mix, these dogs jump off the pages of *The Holistic Dog* and into our laps, warming our hearts with their charming stories by Benko and photographs by Susan Fisher Plotner, inviting us into their spaces, and introducing us to the trajectory of holistic pet care.

Mrs. Dalloway (Musaicum Must Classics)

Clarissa Dalloway, the wife of a Conservative member of parliament, is preparing to give an evening party, while the shell-shocked Septimus Warren Smith hears the birds in Regent's Park chattering in Greek. There seems to be nothing, except perhaps London, to link Clarissa and Septimus. She is middle-aged and prosperous, with a sheltered happy life behind her; Smith is young, poor, and driven to hatred of himself and the whole human race. Yet both share a terror of existence, and sense the pull of death. The world of Mrs Dalloway is evoked in Woolf's famous stream of consciousness style, in a lyrical and haunting language which has made this, from its publication in 1925, one of her most popular novels.

Probing Parapsychology

Parapsychology is a science made controversial by its subjects: extrasensory perception, psychokinesis (mind over matter) and disembodied minds, which imply life after death. Moreover, these parapsychological phenomena (called "psi") challenge physicalism, the philosophy that everything can be completely understood in terms of physics. This book is a snapshot of the parapsychological field, with essays written by authors of diverse academic backgrounds and experiences. Essays examine parapsychological phenomena from prehistory, through the founding of the science by intellectuals distressed by physicalism, to the postmodern present. It includes both experimental and theoretical evaluations of the phenomena. Parapsychology is a science which may overturn the philosophy which has dominated science since Newton and may inspire curious readers who are disheartened by the consequent denial of the spirit.

Life On The Other Side

In *Life on The Other Side*, Sylvia Browne explains what happens when we die; what The Other Side looks like; who's waiting for us on The Other Side; how we spend our time on The Other Side; why and how we return from The Other Side. With her trademark warm and down-to-earth style, Sylvia Browne's insights into the afterlife are utterly compelling yet wonderfully reassuring. Sylvia looks over her lifelong career as a psychic, using past experiences, readings, hypnosis sessions and research to illustrate her findings about The Other Side. For the very first time, we are shown an unprecedented view of a peaceful place where our departed loved ones are patiently awaiting us - and where the next leg of our eternal journey will begin. This book is absolutely unforgettable!

Shantaram

"A publishing phenomenon" *Sunday Times* It took me a long time and most of the world to learn what I know about love and fate and the choices we make, but the heart of it came to me in an instant, while I was chained to a wall and being tortured. *Shantaram* is a novel based on the life of the author, Gregory David Roberts. In 1978 Roberts was sentenced to nineteen years imprisonment as punishment for a series of robberies of building-society branches, credit unions, and shops he had committed while addicted to heroin. In July 1980 he escaped from Victoria's maximum-security prison in broad daylight, thereby becoming one of Australia's most wanted men for what turned out to be the next ten years. For most of this period he lived in Bombay. He set up a free health clinic in the slums, acted in Bollywood movies, worked for the Bombay mafia as a forger, counterfeiter, and smuggler and, as a gun-runner, resupplied a unit of mujaheddin guerrilla fighters in Afghanistan. This is the setting of *Shantaram*. Apart from having this highly unusual personal background, Greg Roberts is a very gifted writer. His book is a blend of vivid dialogue, unforgettable characters, amazing adventures, and superb evocations of Indian life. It can be read as a vast, extended thriller, as well as a superbly written meditation on the nature of

good and evil. It is a compelling tale of a hunted man who had lost everything - his home, his family, and his soul - and came to find his humanity while living at the wildest edge of experience. Gregory David Roberts retired from public life in 2014 to devote time to his family and new writing projects. The Mountain Shadow, sequel to Shantaram, is available now. PRAISE FOR SHANTARAM "A literary masterpiece ... at once erudite and intimate, reflective and funny ... it has the grit and pace of a thriller" Daily Telegraph "Powerful and original ... a remarkable achievement" Sunday Telegraph "Extraordinarily vivid ... a gigantic, jaw-dropping, grittily authentic saga" Daily Mail "At once a high-kicking, eye-gouging adventure, a love saga and a savage yet tenderly lyrical fugitive vision." Time Out Fans of Vikram Seth, John Irving and David Mitchell will love Shantaram.

Good Grief

The star of "Long Island Medium" shares inspiring, spirit-based lessons on how to work through and overcome grief, in a guide that also offers example testimonies about the experiences of her clients

Rediscovering the Wisdom of Human Nature: How Civilization Destroys Happiness

This book was written to get us in touch with our own human nature--the inborn recipe of requirements for human wellbeing. In case you haven't noticed, civilization wants us to follow a totally different recipe--one that keeps telling us to ignore what we feel, and act otherwise. This book tells the truth about what humans need to be happy, and how our civilized way of life insists that we spend the vast majority of our time doing the opposite of what we feel. Evolution made us what we are--feeling beings. And that is how humanity lived, developed, and thrived, in intimate small groups of people who trusted, supported, and protected each other completely. Today, we all live largely in a state of emotional isolation from others. We feel the absence of intimacy--our most powerful need. Most modern humans are aware of the anxieties and irritations of our modern lives, but we accept them as part of life-itself. So, most readers of this book will be shocked to find out how many of those things we call problems are not our own fault, at all, but are brought on by the unnatural weight of what civilization requires of us, emotionally. It wasn't just to shock you that I wrote this book. I wrote it to bring a change in perspective that will free us from the grip that modern institutions now have on the psyche of every human alive.

Signs from the Other Side

LOVE NEVER DIES Finding comfort through communication With stories and insightful suggestions, beloved psychic medium Bill Philipps demonstrates that our loved ones on the other side are available to us. He promises that, with an open heart and mind ready to receive, anyone can recognize the signs that spirits of the departed may be trying to send. Signs from the Other Side offers an in-depth explanation of how Bill does what he does, as well as practical advice on how to receive and interpret signs when they appear. By tapping into our intuition, we can experience deep connections that lead to forgiveness, reassurance, or simply one last moment with a loved one. The book also includes more than twenty inspiring examples of how others experienced comfort through such communications.

Life Lessons

A guide to living life in the moment uses lessons learned from the dying to help the living find the most enjoyment and happiness.

Good Mourning

Theresa Caputo, TLC's Long Island Medium and the three-time New York Times bestselling author, teaches us how to ritualize and recover from the daily losses in our lives. Life on earth comes with losses that often go unrecognized, unacknowledged, and un-mourned. This invisible pain causes deeper emotional damage—devastation that Theresa Caputo has witnessed in many of her clients. Though they are suffering, they rarely understand where the anguish is coming from—or how to deal with it. Theresa's clients often confuse their emotional distress with depression or anxiety. But it's more than that. It's grief, deep and profound, and it consumes the soul. The only relief, according to Theresa's special gift she calls Spirit, is to pay more attention to how we experience, ritualize, and recover from the hurt in our lives. Once we name these feelings of grief, recognize the losses for what they are, and create mourning rituals around them, we can move through the pain and begin to heal. It isn't just a good idea to mourn these types of upsets; it's essential, so that we can then enjoy a fresh beginning.

Signs

A modern guide to connecting with the other side, *Signs* is full of stories of hope. It teaches us how to recognise and interpret the life-changing messages from loved ones and spirit guides, by a renowned psychic medium. Laura Lynne Jackson is a psychic medium and the author of the New York Times bestseller *The Light Between Us*. She possesses an incredible gift: the ability to communicate with loved ones who have passed, convey messages of love and healing, and impart a greater understanding of our interconnectedness. Though her abilities are exceptional, they are not unique, and that is the message at the core of this book. Understanding 'the secret language of the universe' is a gift available to all. As we learn to ask for and recognise signs from the other side, we will start to find meaning where before there was only confusion, and see light in the darkness. We may decide to change paths, push toward love, pursue joy, and engage with life in a whole new way. In *Signs*, Jackson is able to bring the mystical into the everyday. She relates stories of people who have experienced uncanny revelations and instances of unexplained synchronicity, as well as others drawn from her own experience. There's the lost child who appears to her mother as a deer that approaches her unhesitatingly at a highway rest stop; the name written on a dollar bill that lets a terrified wife know that her husband will be okay; the Elvis Presley song that arrives at the exact moment of Jackson's own father's passing; and many others. This is a book that is inspiring and practical, deeply comforting and wonderfully motivational, in asking us to see beyond ourselves to a more magnificent universal design.

Becoming Psychic

A scientific, brain-based approach that provides an understanding of psychic abilities, spirit communication, and energy healing. Jeff Tarrant was fascinated by the paranormal as a child but then his training as a neuropsychologist turned him into a hardcore skeptic. If something could not be reliably and consistently demonstrated in the laboratory, then it wasn't real. These rigid ideas were gradually worn away as he repeatedly witnessed and experienced things that simply should not be possible—telekenesis, clairvoyance, telepathy, mediumship, energy healing, and more.... This book follows his journey of studying, interviewing, and testing a wide variety of mediums, psychics, and healers as he tries to determine what is going on in their brains when they engage in these supernormal abilities. Readers will get to know these gifted people, exploring what makes them tick and discovering firsthand evidence that this stuff is real. If we can understand how the psychic mind works, might the rest of us be able to use this information to help develop our own abilities? *Becoming Psychic* uses knowledge uncovered through case studies, expert interviews, and research to offer a variety of practical insights to help readers develop their own psi abilities. Each chapter concludes with a "try it yourself" section, helping readers apply specific concepts and techniques into their own psychic development practice. In addition to uncovering the tips, skills, and tools identified in Tarrant's research, the book also explores how to use brain-hacking technology, such as neurofeedback, audio visual entrainment, and pulsed electromagnetic fields to "nudge" the brain toward heightened psychic abilities--as well as quieting internal chatter, supporting empathy, and enhancing creativity—all the mental skills necessary to move from balance and wellness to the extraordinary! *Becoming Psychic* fills an important gap in the psychic development literature. There are books that tell the stories of psychics and mediums. There are books that focus on the science and evidence for these practices, and there are books devoted to teaching you how to develop your own skills. This book contains all of the above and more!

Lessons Learned from the Other Side

Barbara Carusos life has been touched too often by death, by sorrow, and by synchronicity. As an accident survivor with a near-death experience, she was inspired to learn more about what happens after the end of life. As a nurse and a scholar, she was able to use her own personal experiences to inform a professional opinion of the one of the great unknowns in the mortal experience. As a grieving daughter, she yearned for understanding on an intensely personal level. With the help of psychic communicators, Barbara was able to get some of the answers she craved. Decades after his sudden and untimely death, she was able to connect with her lost father and quickly and effectively address her most crippling long-term issues, including rejection and lack of love. For more than ten years, she has engaged in powerfully healing conversations with lost loved ones, including beloved, deceased pets. In *Lessons Learned from the Other Side*, she shares her favorite stories of these communications to open eyes, hearts, and minds to the possibility that relationships do not have to end with death. She is dedicated and committed to the use of an authentic psychic connection to assist with the resolution of a concern with those who have passed beyond, and she hopes to inspire others to pursue this spiritual and profoundly healing form of communication.

"As a young child, Claire experienced psychic phenomena, as she grew older her experiences and the communications she received became stronger, resulting in Spirit teachers making their presence known and guiding her. Naturally analytical and now an adult, Claire was forced to question the validity of her experiences against the common academic opinion surrounding survival after physical death and embarked upon a life long quest for the truth. In her refreshingly down to earth, honest and open manner, Claire shares personal stories to bring comfort and hope to many whilst highlighting findings from consciousness studies that challenge our understanding of the world and encourage us to consider our true nature and full potential. Claire teaches us why we may have confidence there is life after death, how we can heal and awaken spiritually through the therapeutic practice of mediumship and most importantly what we can learn from those already on the other side in order to make the most of this life whilst we are here. By the end of this compelling book, readers will have an understanding that we all have a natural connection to the spirit world and will have gained tips and tools to deepen this connection; that death is an illusion; that our loved ones can visit us after their passing and that we can learn to recognise the signs; that genuine mediumship is a therapeutic practice and why visiting a medium is nothing to be feared; that spirit guides gently support us all; that it is natural for a child to display psychic ability and what you can do to support a child that does; that there is scientific research to support the validity of mediumship and psychic ability and that it is possible to seek evidence for survival as well as keeping faith."

What the Dead Are Dying to Teach Us

From Tyler Henry, clairvoyant and star of E!'s hit reality series *Hollywood Medium with Tyler Henry*, comes *Between Two Worlds*, a captivating memoir about his journey as a medium thus far. "Dying doesn't mean having to say goodbye." Tyler Henry discovered his gift for communicating with the departed when he was just ten years old. After experiencing a sudden, accurate premonition of his grandmother's death—what Tyler would later describe as his first experience of "knowingness"—life would never be the same. Now in his twenties, Tyler is a renowned, practicing medium, star of the smash hit E! reality show, *Hollywood Medium with Tyler Henry*, and go-to clairvoyant of celebrities, VIP's, and those simply looking for closure and healing. He has worked with some of Hollywood's biggest names including Khloe Kardashian, Amber Rose, Margaret Cho, Jaime Pressly, and Monica Potter. Despite

struggling to accept his rare talent, Tyler grew to embrace it, and finally found the courage to share it with—and ultimately change—the world. For the first time, Tyler pulls back the curtain on living life as a medium in his first memoir, in which he fearlessly opens up about discovering his gift as an adolescent, what it's truly like to communicate with those who have passed, the power of symbolism in his readings, and the lessons we can learn from our departed loved ones. With unparalleled honesty, Tyler discusses how his complex and fascinating gift has changed his perception of the afterlife, and more importantly, how readings can impact our relationships with our closest friends and family once they're gone.

WINNER OF THE PULITZER PRIZE • THE EMMY AWARD–WINNING HBO MINISERIES STARRING FRANCES MCDORMAND, RICHARD JENKINS, AND BILL MURRAY In a voice more powerful and compassionate than ever before, New York Times bestselling author Elizabeth Strout binds together thirteen rich, luminous narratives into a book with the heft of a novel, through the presence of one larger-than-life, unforgettable character: Olive Kitteridge. At the edge of the continent, Crosby, Maine, may seem like nowhere, but seen through this brilliant writer's eyes, it's in essence the whole world, and the lives that are lived there are filled with all of the grand human drama—desire, despair, jealousy, hope, and love. At times stern, at other times patient, at times perceptive, at other times in sad denial, Olive Kitteridge, a retired schoolteacher, deplores the changes in her little town and in the world at large, but she doesn't always recognize the changes in those around her: a lounge musician haunted by a past romance; a former student who has lost the will to live; Olive's own adult child, who feels tyrannized by her irrational sensitivities; and Henry, who finds his loyalty to his marriage both a blessing and a curse. As the townspeople grapple with their problems, mild and dire, Olive is brought to a deeper understanding of herself and her life—sometimes painfully, but always with ruthless honesty. Olive Kitteridge offers profound insights into the human condition—its conflicts, its tragedies and joys, and the endurance it requires. **NAMED ONE OF THE BEST BOOK OF THE YEAR BY People • USA Today • The Atlantic • The Washington Post Book World • Seattle Post-Intelligencer • Entertainment Weekly • The Christian Science Monitor • San Francisco Chronicle • Salon • San Antonio Express-News • Chicago Tribune • The Wall Street Journal** "Perceptive, deeply empathetic . . . Olive is the axis around which these thirteen complex, relentlessly human narratives spin themselves into Elizabeth Strout's unforgettable novel in stories."—*O: The Oprah Magazine* "Fiction lovers, remember this name: Olive Kitteridge. . . . You'll never forget her. . . . [Elizabeth Strout] constructs her stories with rich irony and moments of genuine surprise and intense emotion. . . . Glorious, powerful stuff."—*USA Today* **BONUS:** This edition includes an excerpt from Elizabeth Strout's *The Burgess Boys*.

Do Dead People Watch You Shower?

At just five years old, Maureen Hancock discovered her ability to communicate with the dead. Descended from a long line of legendary Irish mystics, she was no stranger to the spiritual realm, but for fear of being misunderstood by her friends and family she kept the otherworldly messages to herself, eventually suppressing them completely. Maureen wouldn't hear the spirits again until she was in a near-fatal car crash. Soon after, she had hundreds of voices in her head, many of which helped her crack cases and expose fraud in her role as a litigation paralegal at a large Boston law firm. Then, when tragedy struck on 9/11, Maureen was bombarded with messages from the spirit world. As each one made contact with her, she finally came to terms with her calling: to communicate with the deceased, assist the dying, search for missing children, and teach the living about life after death, all the while raising her children in her suburban home. Maureen Hancock is literally the Medium Next Door, and

in this book and through her stories of her encounters with the otherworld as well as guided exercises at the conclusion of each chapter, she offers the same comfort and wisdom she shares in her healing encounters and lectures about what is out there waiting for all who are open to its mysteries. . . .

The Medium Next Door

The emotionally wrenching yet ultimately uplifting memoir of a Chinese woman struggling to win the love and acceptance of her family. Born in 1937 in a port city a thousand miles north of Shanghai, Adeline Yen Mah was the youngest child of an affluent Chinese family who enjoyed rare privileges during a time of political and cultural upheaval. But wealth and position could not shield Adeline from a childhood of appalling emotional abuse at the hands of a cruel and manipulative stepmother. Determined to survive through her enduring faith in family unity, Adeline struggled for independence as she moved from Hong Kong to England and eventually to the United States to become a physician and writer. A compelling, painful, and ultimately triumphant story of a girl's journey into adulthood, Adeline's story is a testament to the most basic of human needs: acceptance, love, and understanding. With a powerful voice that speaks of the harsh realities of growing up female in a family and society that kept girls in emotional chains, *Falling Leaves* is a work of heartfelt intimacy and a rare authentic portrait of twentieth-century China. "Riveting. A marvel of memory. Poignant proof of the human will to endure." —Amy Tan
