Stalin's Works

The remarkable documentary collections of the Hoover Institution Archives are for the first time showcased for the reading public, in the form of a large-format book of illustrations and accompanying text.

A Wealth of Ideas

Fond is Russian for record group. Fond 89 comprises the 3,000 documents from the Constitutional Court of the Russian Federation's trial of the Soviet Communist Party. The entire fond has been micro-filmed and published, and a copy now resides at the Hoover Institute in the US. Soroka, an assistant archivist at the Institute, describes the documents in the order they appear on the microfilm, and indexes names of people, agencies, organizations, countries, regions, and other entities. Soviet Disarmament Policy, 1917-1963

This is the first comprehensive exposition and critical analysis of Trotsky's social and political ideas. Eschewing the polemics which have characterized so much of the literature on Trotsky, but not abandoning the critical approach, the author shows that Trotsky's was the most far-reaching and original of theoretical attempts to deal with the relationship between Marxism and the Social-Democratic movement on the one hand and backwardness and the problems of pre-industrial or underdeveloped society on the other. The author also deals in detail with the problem of why Trotsky, once a violent opponent of Bolshevism, later became one of its most ardent supporters and, indeed, leaders. This book is, therefore, as much a study of the Russian Revolution as of the ideas of one man. [Back cover].

Russia, the Soviet Union, and Eastern Europe: A Survey of Holdings at the Hoover Institution on War, Revolution and Peace

Vols. for 1980- issued in three parts: Series, Authors, and Titles.

Trotskyism in Latin America

1970- issued in 2 vols.: v. 1, General reference, social sciences, history, economics, business; v. 2, Fine arts, humanities, science and engineering.

Trotskyism in Latin America

"Marxism, one of the few philosophies that turned into an effective movement, was not so long ago the official ideology (in one form or another) of much of humanity. It was initially promulgated by the Soviet Union, then imposed on Central and Eastern Europe, later emerged in the People's Republic of China, and gradually spread to other parts of Asia, Africa, and Latin America. Although declining in popularity, the movement still remains in power in several countries and is supported by numerous parties and countless individuals around the world." "The A to Z of Marxism covers, in a comprehensive manner, the history of Marxism and its philosophers and schools of thought. It contains a chronology, a list of acronyms and abbreviations, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries on basic terms and concepts as well as significant people, parties, and countries." --Book Jacket.

Russian social democracy

This book offers, for the first time in English, the proceedings and decisions of the last congress of the Communist International held in Lenin's lifetime. With an analytic introduction, detailed footnotes, 500 biographic notes, glossary, chronology, and index.
