The master floral designer inspires novices and experts alike in creating clean, classic, and contemporary flower arrangements so beautiful and original, they make the heart skip a beat. Paula Pryke, Britain's acclaimed master floral designer, sets the paradigm for excellence throughout the world—so much so that she was recently awarded an OBE. One of her defining characteristics is to go back to nature—to flowers in the wild, natural state—for inspiration and bold color combinations. In this book, Pryke explores the process of how to move from the source of inspiration to the glorious finished flower arrangement. She ties together key aspects of making a good arrangement: mixing color, form, shape, texture, and scale; being inspired by how plants and flowers combine in nature; using foliage and fruit for visual surprise; and much more. A separate section of the book discusses the ins and outs of tools and equipment, and the volume is rounded out with a catalogue of flowers organized into thematic types, which eases searching for the ideal flower—or alternates if the desired one is unavailable. Packed with ideas, skills, and techniques, this book explores the latest trends, encourages the reader to let his or her creativity and personal style flow freely, and is sure to inspire professionals and beginners alike.

SIMPLY FLOWER ARRANGING

The Japanese have an innate sense of style in the arts, architecture, interior design and especially in their attitude to flowers and plants within the home. Until now, in the West we haven't explored ikebana, the ancient art of arranging plant material, in any great depth. With the trend towards pared-down, simple rooms, now is the time to discover how its sculptural style can complement contemporary interiors. 'Ikebana' is much more than simply flower arranging. Over the centuries, Japanese masters have developed precise rules that take into consideration the natural shapes and lines of plants, the space around them and the best way of displaying them. In Japan, ikebana is practised by millions of people as a relaxing art form and is even part of the school curriculum. Diane Norman is a master of the Ohara School, which is known for its modern interpretation of traditional styles. Michelle Cornell has an art history background, and together they have written a book that brings ikebana into the twenty-first century, explaining how its sculptural qualities and calm creative techniques are perfectly suited to today's interiors, as well as being an ideal antidote to the stresses of modern living. After a brief history of ikebana, the book guides you through the basic techniques needed to create your own arrangements. Then a selection of arrangements illustrates the importance of the changing seasons in choosing plant material, while fantastic free-style designs show how ikebana can echo specific details of an interior.

The Frozen Daffodil

www.sheilalaureta.com This is a story of a modern-day woman stranded in her apartment in Ohio during a severe winter storm. While memories of her colorful and extraordinary life flash through her mind, she finds herself back amidst the WWII bombings of her childhood home in London and traces her early life in an orphanage, then a modeling career, to America as a young wife and mother. She becomes a professional singer-entertainer on stage, yet all the while, she is on a venture, a lifelong spiritual quest of metaphysical studies and Buddhist practice. It is a story of romance, abuse, rape, abortion, near homelessness, and earthquakes. It takes place in UK, USA, and Japan. It is a story of spiritual undertones, wild escapades, and quiet reflection on lessons learned. Sheila is no ordinary woman--you will marvel at her, pity her, love her, scorn her, but never forget her.

Speeding Up Flowering in the Daffodil and the Bulbous Iris

Narcissus and Daffodil is the first book to provide a complete overview of the genus Narcissus. Prized for centuries in western Europe as an ornamental plant, it has recently attracted attention as a source of potentially valuable pharmaceuticals. In eastern European countries, however, Narcissus and other Amaryllidaceae have been valued as a source

Narcissus and Daffodil

"When Sophie Sapwood discovers a whalebone pendant hidden in a chest of drawers, the ghost of Captain Cathardo awakens from an ancient sleep, trapped in the frozen wastes on his ship, The Riddle. His cries for help travel through the stratosphere to three different pairs of ears - Sophie's famous explorer father Boniface Sapwood, renowned naturalist Corona Wottley and oily villain Rancid Swarthy. All three parties immediately organise trips to the Antarctic"--Back cover.

The Riddle of the Frozen Phantom

WAITING FOR THE DAFFODILS is a memoir detailing a tragic loss that changes the course of the author's life as well as her immediate family. Each member suffers in his or her own way and struggles to deal with their loss. Two years later, the oldest grandchild is involved in an auto accident that ends up in court with a trial by jury to decide the young woman's fate. Following the trial, the grandfather suffers a heart attack. While inserting a stent the doctor discovers a large mass in the man's chest. With the author's husband given less than two years to live, the already fractured family struggles to make the best of the time he has left. Caring for her husband, a functional yet verbally abusive alcoholic, known only by their closest and dearest friends, makes the author's task more difficult. Days after his death, drama unfolds and takes her several months to sort out. Over the course of this four-year tribulation,

the author becomes fixated on the daffodils she had planted in her backyard. To her dismay, only a solitary daffodil blooms each year. Later, she learns that a single bloom foretells misfortune. Besieged with guilt, she still hangs on to the hope associated with the hardy annual flower that pushes its way through the frozen earth after a long winter, not unlike how she herself must do. Looking forward to better days, the author continues to seek out those elusive daffodils that once flourished in her youth.

*****Daffodils, one of the first flowers of spring, symbolize rebirth and new beginnings. It is also a symbol of hope because of its reputation as a hardy annual flower, pushing its way through the frozen earth after a long winter to herald the return of spring, new life, vitality, and growth.

The Daffodil Journal

Fabulous family saga of secrets held through two generations, set against the atmospheric background of the Lake District at ChristmasThe year of 1936 is drawing to a close. Winter grips Wetmoreland and causes a rare phenomenon: the lakes freeze. For two local families, the Richardsons and the Grindleys, this will bring unexpected upheaval, as the frozen lake entices long-estranged siblings and children to return home for the holiday season. Some are aware of what is happening in Europe; others don't want to know. Everyone's keen to put aside their troubles -- money worries, love tangles, career problems, domestic rifts -- and enjoy themselves skating while they can. But one visitor carries the seed of violence and not even the redoubtable matriarch of the Richardson clan can prevent the carefully buried secrets of the past from reappearing and transforming everything. A compelling blend of family closeness and strife, dazzling passion and the dark influence of history, this is an enthralling read to curl up and savour.

Frozen Lake

The Quatrains and Selected Poetry of V. Paul Hall is a volume of poetry dedicated to those people who enjoy reading poetry. Those people who enjoy the beautiful poetry of the old masters are more likely to enjoy this volume. It consists of some of the best of the works of the poet, though it is by no means a complete collection of his works. For those who desire a better understanding of the rhythms employed by the old masters of poetry, the forward is a tutorial on that subject. It also grapples with the subject of just what it is that makes poetry, a question, which has not yet been definitively answered. The poems are not obscure and hard to understand. It is the belief of the poet that, if the reader cannot understand the meaning of the poem, the poem probably has no meaning worthy of being sought. It has often been said that poetry should communicate emotion. In order to do this, it is essential to communicate as clearly, concisely, and beautifully as the poet's ability will permit. However, that communication needs to be conformed to the rhythmic rules of poetry. We may alter the rules by introducing new rhythms, but they must be rhythmic, not arrhythmic.

The Midwest Gardener's Handbook, 2nd Edition is an essential resource for growing a garden in the Midwestern states, covering a wide variety of topics, including soil care, plant choices, and garden maintenance.

Letters from Stacy

A candid and heartwarming memoir of reinvention about a city girl who trades her career and her heels for five acres and a herd of goats “Jake Keiser is my favorite kind of woman—gutsy, tenacious, and not afraid to be vulnerable. And the animals are pretty f*cking adorable, too.”—Tara Schuster, author of *Buy Yourself the F*cking Lilies* Jake Keiser was living the life in Tampa, Florida, running a high-powered PR firm and juggling drink dates, shopping sprees, and charity galas. But at age thirty-eight, following a failed marriage, a series of miscarriages, and a still-blistering breakup, she began to suffer from extreme anxiety. Hit with the realization that no amount of Botox could fill the hole in her heart, she decided to make the impulse purchase of a lifetime and bought a farm in the middle of nowhere, Mississippi. Suddenly responsible for more than seventy-five animals and five acres of land, and with only one bar of cell service, Jake begins her search for inner peace. She learns to fix a well, haul wood, shoot a gun, and care for baby chicks, goats, turkeys, geese, dogs, and a cat, playing spa music for them when they're sick and naming them after her favorite fashion designers. The only problem is that she still can't figure out how to truly care for herself. Unable to escape the accumulated pain of her past, Jake hits rock bottom. With nowhere left to run, she's finally forced to confront a bracing reality: The farm won't save her. Only she can save herself. Poignant, hilarious, and utterly charming, *Daffodil Hill* is for anyone who feels stuck—for those of us strapped to our desks and dreaming of an unconventional life, for those of us searching for something more. Most of all, it is for people who believe that the greatest love story of all is the one we write with ourselves.

The Garden

One of our finest writers on one of her greatest loves. Jamaica Kincaid's first garden in Vermont was a plot in the middle of her front lawn. There, to the consternation of more experienced friends, she planted only seeds of the flowers she liked best. In *My Garden (Book)* she gathers all she loves about gardening and plants, and examines it generously, passionately, and with sharp, idiosyncratic discrimination. Kincaid's affections are matched in intensity only by her dislikes. She loves spring and summer but cannot bring herself to love winter, for it hides the garden. She adores the rhododendron *Jane Grant*, and appreciates ordinary *Blue Lake* string beans, but abhors the Asiatic lily. The sources of her inspiration -- seed catalogues, the gardener *Gertrude Jekyll*, gardens like *Monet's at Giverny* -- are subjected to intense scrutiny. She also examines the idea of the garden on *Antigua*, where she grew up. *My Garden (Book)* is an intimate, playful, and penetrating book on gardens, the plants that fill them, and the persons who tend them.

A lushly photographed cookbook and travelogue showcasing the regional cuisines of the Alps, including 80 recipes for the elegant, rustic dishes served in the chalets and mountain huts situated among the alpine peaks of Italy, Austria, Switzerland, and France. “A passionate exploration of all things Alpine . . .

this one is a must-have for every ski bum foodie.”—Vogue NAMED ONE OF THE BEST COOKBOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW From the wintry peaks of Chamonix and the picturesque trails of Gstaad to the remote villages of the Gastein Valley, the alpine regions of Europe are all-season wonderlands that offer outdoor adventure alongside hearty cuisine and intriguing characters. In *Alpine Cooking*, food writer Meredith Erickson travels through the region--by car, on foot, and via funicular--collecting the recipes and stories of the legendary stubes, chalets, and refugios. On the menu is an eclectic mix of mountain dishes: radicchio and speck dumplings, fondue brioche, the best schnitzel recipe, Bombardinos, warming soups, wine cave fonduta, a Chartreuse soufflé, and a host of decadent strudels and confections (Salzburger Nockerl, anyone?) served with a bottle of Riesling plucked from the snow bank beside your dining table. Organized by country and including logistical tips, detailed maps, the alpine address book, and narrative interludes discussing alpine art and wine, the Tour de France, high-altitude railways, grand European hotels, and other essential topics, this gorgeous and spectacularly photographed cookbook is a romantic ode to life in the mountains for food lovers, travelers, skiers, hikers, and anyone who feels the pull of the peaks. Praise for *Alpine Cooking* “This generous cookbook and travelogue will have readers booking trips to the Alps of Italy, France, Austria, and Switzerland. . . . Erickson beautifully captures Alpine food and culture in this standout volume.”—Publishers Weekly (starred review)

Daffodils

The Geranium Farm Cookbook is a collection of recipes and lore offered by The Geranium Farmers, the 10,000+ members of the worldwide virtual community of spiritual seekers created by Episcopal priest, author, lecturer, and spiritual director Barbara Cawthorne Crafton. As "farmers" began sharing recipes with each other via the e-mail list and the Geranium Farm website www.geraniumfarm.org, the idea for a cookbook was born. Because Barbara Crafton devoutly believes in the "life is short?eat dessert first" school of theology, the desserts section is first and longest. Each recipe in the book includes a description of how the recipe came to be part of the writer's family or what traditions surround its use. Each of the main dish recipes has a wine suggestion accompanying it, recommended by the executive chef at a noted restaurant in North Carolina's Smoky Mountains. And interspersed among the recipes are meditations by Barbara Crafton on food, cooking, and community.

The Garden

A step-by-step guide for Michigan gardeners

The Quatrains and Selected Poems

Each of us is a citizen of two worlds -- the spiritual and the physical. As we age and face new demands on our bodies -- illnesses, limited mobility, loss of vision or hearing -- it is easy to focus on only the changes to our physical bodies and forget about the transformations our spiritual selves are going through. *Keeping Spiritual Balance As We Grow Older* guides readers through readings and practical exercises that reintroduce them to their spiritual side. Addressing specific issues connected with aging, Molly and Bernie Srode demonstrate how the power of spirit can help overcome the obstacles of old age. Written for religious and non-religious readers alike, *Keeping Spiritual Balance As We Grow Older* is a unique and inspiring guide to achieving healthy stability later in life.
