You'Re GonNa Maybe See this Word Channel or Personalty It all Means the Same Thing It Means Personal Property and the Best Way To Define Personal Property Is that Is Anything That's Not Real Property There's Only Two Categories of Stuff Real Property and Personal Property What Do We Said the Number One Characteristic of Personal Property Is Its Move It's Not Attached that's the Number One Characteristic so Anything That's Movable It's Going To Automatically Be Considered Personal Property There Are some Things on Occasion That Are Permanently Attached That Might Also Be Considered Personal Property but I Contend We'Re GonNa Talk about What those Exceptions Are but if that's Movable It's Personal Problem Okay so that's the Easiest Way To Tell if Something Personal Property Will Probably Just Look and See Can You Move Two Thing Easiest One Everybody Good with that Alright So Let's Talk about this Idea of a Fixture

What Did I Say the Number One Characteristic of Real Property Was that It Is What Not Movable So How Would You Convert Something That's Personal Property Aka Movable into Real Property You Would Do It That's Where the Fixture Is a Fixture Is Something That Used To Be Personal Property and through some Process Has Now Been Permanently Attached to the Land Does that Make Sense for Everybody and So Therefore since Has Been Permanently Attached Is It Still Personal Property Is

It Now Real It's Not Real There's Nobody Out There with that Definition Makes Sense for Everybody so Fixture Is Just Something That Used To Be Personal Property That's Now Been Converted into Real Property

So We're Going To Talk about How that Can Impact It All Right in Just a Second so Why Is It Important Why Is It Important To Be Able To Differentiate between What Is a Fixture and What's Not What Is Real Property and What's Not because What Are We Selling What Are We Not Selling Personal Property Is It Important To Know the Difference Yes Is It Important To Be Able To Describe the Difference to a Client Is It Important that We all Have a Basic Understanding That Is the Same Thing That When Carolyn Writes an Offer and Charlotte Is the Listing Agent and that They both Understand What Is Included in that Transaction

They Are Permanently Attached that Is a Modular Home So Do You Think a Modular Home Is Going To Be Real Property or Personal Property Real Property Modular Homes Are Real Property That Are Treated Exactly the Same as Site-Built Home I've Heard People Say Well It Comes on a Trailer It Comes on the Back of a Truck It Just Depends on How Small the Band Visas Are Right It's like the Difference between behind a 50 Piece Puzzle on a Five Thousand Piece Puzzle It's Still a Puzzle Is no Comes In and Pieces That Have To Be Assembled It's Not Important whether It Comes In on the Back of the Truck Its Importance to It once a Gift Center and the Key Is It's Being Won Permanently Attached Therefore It Is Real Property Now that Thing on the Left Is a Whole Different Animal We Just Need To Do What Included Add It In because if We Just Write a Contract for the Lot Have We Sold the Manufactured Home with It or no no no Can We Add It in Absolutely that's What We Need To Get to a Point of Understanding for You Guys That's When You're Doing Real Estate When You Understand My Client Doesn't Just Want this Piece of Land They Want the House Soon and So I Know in Addition to Writing the Contract if He's Alone I Need To Do What with this Manufactured Home Included I Need To Add It in I Need To Write the Contractor Safe this Contract Also Includes the Manufacturing Home and Here's the Vin Number because Event Number What Does Man Stand for Vehicle Identification Number That Don't Tell You What a Thing Is I Don't Know What Will That's What We Need To Get to a Point of Understanding for You Guys That's When You're Doing Real Estate When You Understand My Client Doesn't Just Want this Piece of Land They Want the House Soon and So I Know in Addition to Writing the Contract if He's Alone I Need To Do What with this Manufactured Home Included I Need To Add It in I Need To Write the Contractor Safe this Contract Also Includes the Manufacturing Home and Here's the Vin Number because Event Number What Does Man Stand for Vehicle Identification Number That Don't Tell You What a Thing Is I Don't Know What Will Number So Yes You Can't Include It

I Would Need To Say We're Not Leaving this Projector because if I Don't Say Anything about that Projector What's GonNa Happen to It It's Going with the Building because It Is Was Permanently Attached but Could I Write into the Contract this Thing That's Permanently Attached Is Not Part of this Transaction So Let Me Sum All that Up Why Would I Specifically Mention Personal Property in a Contract if I Wanted To Do What Personal Property Why Would I Mention I Want To Include It because if I Don't Say Anything about It It's One It's Excluded Why Would I Specifically Mention Real Property in a Contract

So We Didn't Talk about the Ones That Are in the Ground Are They Personal Property or Are They Real Property the Book Calls these Fruits of the Soil from Just naturale a Latin Phrase It Means Fruits of Nature these Are Plants That Do Not Require Annual Replanting Cultivation Means for Replanting Year after Year in Other Words once They're Planted One Time They're Fine on Their Own They Come Back Year after Year after Year so that Tree Is an Example of a Freak of Nature because once You've Planted It Do You Have To Do Anything Else with It no That Is Real Property

We Think of Personal Property Has Been Something That's What Movable We Can't Take the Crop with Them It's Not Ready Tenant or the Previous Owner It's Not Part of the Sale and It Has To Be Allowed To Stay There until It Reaches Maturity and Can Be Harvested It Is the Personal Property of Whoever Planted It So if a Tenant Plants That Who Does It Belong to that's in It if a Previous Landowner Planet Is Who Does It Belong to It's a Previous Owner So if You Are Selling a Farm When It's a Good Time To Do It
