In the process meet someone who can assist only there is the small snag the item they require does not exist anymore. RISE OF THE HUMAN ANDROIDS

In this sequel to the Rise of the Human Androids, lizard like aliens called the Sharptors have perfected high-energy shields for hyperspace travel and begun exploring the galaxy. Meanwhile, James decides to not run for re-election for President of Mars. He plans instead to search the galaxy for old ones technology in a heavy cruiser with a supergun named after his wife. His wife and two children will join him on this journey. Susan, Mars' Secretary of State and former President of the U.S. will run for James' spot and James' adopted human android daughter Martha will run for vice-president. James' actions are motivated by the re-emergence of Ergone as the Marshall of the powerful and independent Altararian military. James knows Ergone wants to avenge his loss to Mars and Earth in their last war. James fears the Altararians with their vastly superior forces will crush Mars if he can't find advanced technology to stop them. In a chance meeting, James encounters the Sharptors while looking at a promising planet for exploration. A fight breaks out. James wins the encounter but the Sharptor warship escapes. Still, a plan begins to emerge in James' mind of how to use the aggressive new aliens against the Altararians. Meanwhile James and his associates explore an old ones site on their promising new earth like world Sisney 1. They must battle a super aggressive mammal the Ratang and insect the Botos, which have stripped Sisney 1 of almost all of its land animal life as they explore the site. They find new technology at the site, which they plan to use against the Altararians. Meanwhile a secret organization called the Committee, which has controlled many economic events on Earth, finds it difficult to control Mars and its allied planets. As a result, to make themselves relevant in the changing world around them, they join with bigoted groups on Mars and Ganymede and in a secret deal with the Altararians to sabotage

Mars efforts to arm itself against the expected Altararian invasion. Many characters on Earth, Mars and Ganymede battle this super secret group in their efforts to prepare Mars for the Altararian invasion. All these forces clash as Mars struggles to survive its confrontation with the Altararians and preserve its Utopian World of human androids and human immigrants.

Galaxy at War: Mystery of the Relics

Ensign Vic Mabry is a space fighter pilot for the Empire whose home base is on the planet Armenia. He finds himself fighting against Rebel forces that had succeeded in winning their independence from the Empire. The Empire was a very suppressive environment and he finds himself more sympathetic toward the cause they were fighting against than his own side so he defects. He then becomes a fighter pilot for the Rebel Fleet. Lieutenant Ben Scott grew up on Armenia but succeeded in defecting to the Rebel side while still a teenager. He joins the Fleet Marines for the Rebels and becomes a platoon commander within a few years. On Armenia guerilla soldiers work full time to help defectors defect to the Rebel side. In fact, a primary source of recruits for the Rebel Fleet seems to be discontents from the Empire. They are smuggled out in smuggling ships. The Fleet pilots, fleet marines and guerilla soldiers find themselves working in concert to liberate a planet from Imperial rule. It appears at times that they are up against more than they can deal with. Vic is shot down and has to fight on land, hoping to be rescued and Ben finds that his men are in danger of being overwhelmed.

When the ongoing battles claim the lives of Blazer Vaughnt's parents, it sets him on a path of vengeance. Wings of Battle (Liberators Book 1)

Combat Narratives are a series of studies of United States of Earth Alliance Galactic War operations of the current war for the information of officers. They are based upon official documents and contain an account of several actions. Material printed herein is Confidential [declassified] and should be guarded (1) in circulation and custody of the Narratives and (2) in avoiding discussion of their contents with or within the hearing of any others than commissioned or warrant officers. Combat Narratives

have been prepared by the Publication Section of the Combat Intelligence Branch of the Office of Galactic Intelligence for the information of the officers of the United States of Earth Alliance Navy. The data on which these studies are based are those official documents which are suitable for a confidential publication. This material has been collated and presented in chronological order. In perusing these narratives, the reader should bear in mind that while they recount in considerable detail the engagements in which our forces participated, certain underlying aspects of these operations must be kept in a secret category until after the end of the war. It should be remembered also that the observations of men in battle are sometimes at variance. As a result, the reports of commanding officers may differ although they participated in the same action and shared a common purpose. In general, Combat Narratives represent a reasoned interpretation of these discrepancies. In those instances where views cannot be reconciled, extracts from the conflicting evidence are reprinted. Thus, an effort has been made to provide accurate and, within the above-mentioned limitations, complete narrative with charts covering raids, combats, joint operations, and battles in which our Fleets have engaged in the current war. It is hoped that these narratives will afford a clear view of what has occurred, and form a basis for a broader understanding which will result in ever more successful operations.

Hail retires her gun and throws herself into the rebuilding of her Empire. Her hard-won peace is short-lived. When Indrana's closest ally asks Hail to intervene in an interstellar military crisis, she embarks on the highest stakes diplomatic mission the Empire has ever faced. Caught between two alien civilizations at each other's throats, she must uncover each side's true intentions before all of humanity becomes collateral damage in a full-blown galactic war. There Before the Chaos begins a fresh, pulse-pounding space opera series from an exciting new voice in science fiction. For more from K. B. Attack of Star Base Pearl

"Pangaea: Origins of The Galactic War" is the first book in a series of novels that takes the reader through a fictional "War of The Worlds" adventure. The story is based around four friends of completely different species that learn to co-exist with one another, and try to spread their view of love, peace, and tolerance for one another through a time of war. The basis behind Pangaea is that love comes in many shapes and sizes. And, through the toughest of circumstances, no matter what your physical structure is, we are all the same on the inside.

There Before the Chaos

One more roll - that's all habitual gambler Joey Czerinski needs to get himself off Old Earth and away from the bad-ass loan shark hunting him down like a mongrel to be euthanized. But a sneaky ATM looking to fill its Foreign Legion new recruits quota has something else in mind for Mr. 'Big Spender' Czerinski. When he agrees out of desperation to take a loan from the crazy ATM, all bets are off. War is hell, and hell comes knocking when it's time for Czerinski to pay up. Forced into the Legion by the tricky ATM and an unscrupulous lawyer, Czerinski finds himself deeper in trouble than he'd ever imagined. But what's one more roll for a perennial rule-bender? If Czerinski can survive what's thrown at him amid galactic war against a spider-like enemy that could spell doom for the human race, maybe ... just maybe ... he'll manage to come out alive in this grisly game of shoot-'em-up - if his luck holds out.

Pangaea: Origins of The Galactic War

The Year is 2478, mankind has colonized the solar system and has ventured out into the deeper void of space. Yet despite this progress old grudges and hatreds span the flames of war. As the Earth Sphere Republic and the Outer Rim Empire find themselves locked in a brutal stalemate an ancient threat returns. Six warriors are tasked with the defense of humanity, will they answer the charge, or will the young spark of humankind be swallowed by this approaching doom... Some themes and content within the novel are not suitable for those under 18, parental discretion advised.

America's Galactic Foreign Legion - Book 1

The Galactic warriors are a young intergalactic group that stands between freedom and destruction against the mighty Neptonian empire. After 10 years of peace, it's rumored that the Neptonians are preparing to battle the one planet that defeated them during the Galactic wars. Totally outmanned and overmatched can the Galactic Warriors of Nebulan protect the last remaining independent planet in the Zartonian solar system? This will be a battle of spiritual, physical, and emotional proportions. This will test the very character of our Galactic Warriors.

Our Galaxy War

Old world is gone. Captured. Tortured. POW. War against the undead. Fenshian War. I am, Alexandra and I am trained to fight a war that I have been waiting to come for several hundred years. After twenty five thousand years in a cocoon things have changed and the war begins and even though we win against the Fenshian most of the future is gone.

Galactic Warriors

The survival of the human race is at risk when Earth goes to war against a vast enemy. Despite his desperate efforts, peaceful resolutions elude Ric. As death surrounds him, he fights to keep his body above ground and to maintain his self-identity while unraveling the mysteries of the universe.

First War

An uneasy truce had resulted from the opening stages of the First Galactic War in the Milky Way Galaxy. The star nations had battled themselves into a stalemate. Both sides searched for someone who could lead their side to ultimate victory. In the Galactic Year 2647, the military mind and spirit of Alexander the Great was found and released from its prison. Alexander's new war set the Galaxy On Fire!

The Galactic War

Centuries into the future, humankind journeys between the stars by using the mysterious realm of Two-Space, but Thomas Melville soon discovers that some of the alien races he encounters could embroil Earth in an intergalactic war.

Galaxy on Fire

Ancestors of a previous war. New War. Alliances. Black Crystal Castle. All disappear. I am Kalima, and these people call me Firebird. A young man called Dragonfin takes care of me and we all head to a castle to fight this war from a defensive position worth holding and I leave another world in a strange way.

The Two-Space War

An exciting, action-packed SpaceFed Series follow-on from Book Seven. The Garoden War had come to an inconclusive end. As a consequence, many members of the Tri-axis Alliance between the Humans, Crillions, and Solverons, were unclear as to why Frank Richardson was still trusted so much. Especially since the Alliance having seemed to have had the advantage in the war against the Garodens, had lost it. Earth's Space Navy had now merged with the other races, and the Galactic Empire had become a reality. However, it was clear by now, that something or someone had been playing both the Tri-Axis Alliance and Temporal players like puppets. But, what was their Endgame? Delta's Supervisor Javon had been devastated, when Senior Predictor Platos had shown him his team's forward prediction that the Human's timeline now had a significant deviation in its Up-Time. In fact, it showed that the human's Timeline wouldn't exist beyond 2773. Now, seventeen years on from the end of the Garoden war, and the Galactic Empire is about to face the ultimate killer.... Mankind itself.

Second War

This is a combat narrative of the "Battle of Sirius" which is now considered the most stunning and decisive blow in the history of Galactic Warfare. Combat Narratives are confidential publications issued under a directive of the Commander-in-Chief, United States of Earth Alliance and Chief of Naval Operations, for the information of commissioned officers of the United States of Earth Alliance Navy only. Information printed herein should be guarded (a) in circulation and by custody measures for

confidential publications as set forth in Articles 75.5 and 76 of United States of Earth Alliance Naval Regulations and (b) in avoiding discussion of this material within the hearing of any but commissioned officers. Combat Narratives are not to be removed from the ship or station for which they are provided. Reproduction of this material in any form is not authorized except by specific approval of the Director of United States of Earth Alliance Naval Intelligence. Officers who have participated in the operations recounted herein are invited to forward to the United States of Earth Alliance Director of Naval Intelligence, via their commanding officers, accounts of personal experiences and observations which they esteem to have value for historical and instructional purposes. It is hoped that such contributions will increase the value and render ever more authoritative such new editions of these publications as may be promulgated to the service in the future. When the copies provided have served their purpose, they may be destroyed by burning. However, reports acknowledging receipt or destruction of these publications need not be made. To read the beginning of the start of the Second Galactic War please read "The Star Base Pearl Attack".

Galactic War. (SpaceFed StarShips Series Book 8).

A revision of the past going in to the future. This is a add on for the Galactic War 2 series. It explains the CIC in use and the basics on board the Galactic Fleet.

The Battle of Sirius

The complete Storyarc 1 Edition of the "Galaxy at War" series contains the first three novels: "Rise of a Legion," "Mystery of the Relics," & "A Prophecy Fulfilled." More than 300,000 words all within the confines of a stellar new cover. This grand story starts in the year 2111, nine years after an intergalactic war has erupted through the Milky Way Galaxy. In a galaxy filled with interstellar species, the Alliance of Republic Worlds continue to step in the way of the rising Wersillian Legion, a theocratic alliance determined to colonize other worlds. Throughout the course of all three books James Stone, a soldier with extraordinary gifts, is at the center of it all. He is not alone. Others come and go in this tale of tragedy and trials, betrayal and heartbreak, blood and war, and adventure and mystery. Amid the many plots and counterplots, the fate of the galaxy hangs perilously on the decisions of a few, as each choice can lead the galaxy either closer or further away from destruction.

But Mankind's quest for the stars come abruptly to an end as the Varon's bogus 'Timeline' correction for the human race, shatters everything the alliance has achieved. Now, the Galactic Empire was gone. Can our intrepid six save the day? It seems not, as they are flung back into a seemingly backward 2300. With no Time shaft, and little hope of getting off the Earth. The six survivors struggle to find a way to outwit the now dominate race. The Varons.....? The Eve of War (Ruins of the Galaxy Book 1)

UNITY OR TYRANNY. THE ONLY DIFFERENCE IS THE BODY COUNT. In the aftermath of a system-wide war between the Admin and Corp Loyalists and the non-citizen population of the Algols, everything once resembling order has been leveled. Scattered enclaves of survivors dot the worlds, living in snarled lawlessness how ever they can. Aly Erikson and her crew have carved out a niche of relative peace, doing their best to go on with their lives through salvaging, scavenging, and stealing. But with no force left to keep the lid on the pot, the pressures of chaos and discord soon cause conflicts to boil over. As enemies close in from all directions, even sometimes from within, the crew once again must fight—not just for survival, not just for their way of life, but this time for a future that can finally lay to rest the system's bloody and savage past.
