Hope and Fear in Margaret Chase Smith's America

Hope and Fear in Margaret Chase Smith's America: A Continuous Tangle provides a fresh interpretation of the life, career, and legacy of former United States Senator Margaret Chase Smith, the first woman elected to both houses of the U.S. Congress.

Courage in The People's House

The remarkable stories of nine US Representatives who helped shape America. Courage in the People's House tells the gripping stories of nine individuals who served in the US House of Representatives—the "People's House"—during a span of over one hundred years, from the 1870s to the 1990s. From the first African American to serve in the House, to immigrants elected at the dawn of the 20th century, all were trailblazers who made significant contributions to the country. The book provides an inspiring story of America through profiles of each of them, representatives of all political stripes who overcame the odds and demonstrated the courage to challenge powerful interests, and at times, their own political allies. The nine members of Congress are: -Joseph Rainey, South Carolina -Josiah Walls, Florida -William B. Wilson, Pennsylvania -Adolph Sabath, Illinois -Oscar Stanton De Priest, Illinois -Margaret Chase Smith, Maine -Henry B. Gonzalez, Texas -Shirley Chisholm, New York -Barbara Jordan, Texas Representative Joe Neguse, the first African American elected to the Congress from Colorado, shares how these nine ordinary Americans served nobly despite the barriers before them and did extraordinary things in service to their constituents, the Constitution, and the country.

The Highest Glass Ceiling

Best-selling historian Ellen Fitzpatrick tells the story of three remarkable women who set their sights on the Presidency. The arduous, dramatic quests of Victoria Woodhull (1872), Margaret Chase Smith

(1964), and Shirley Chisholm (1972) illuminate today's political landscape, shedding light on Hillary Clinton's 2016 campaign for the Oval Office.

Claiming Her Place in Congress

The fall of 2018 saw an unprecedented number of women elected to Congress, changing estimates of how long it might take to achieve equal representation. For the first time, women candidates used techniques honed by America's political families, which have helped women enter politics since 1916. Drawing on extensive research and conversations with successful women politicians, this book offers a history of the political opportunities provided through familial connections. Family networks have a long history of enabling women to run for political office. There is much for the latest group of candidates to emulate.

Winds of Hope, Storms of Discord

In brisk and engaging prose, this comprehensive introductory textbook traverses the broad sweep of US history since 1945. *Winds of Hope, Storms of Discord* explores how Americans from all walks of life – political leaders, businesspeople, public intellectuals, workers, students, activists, migrants, and others – struggled to define the nation's political, economic, geopolitical, demographic, and social character. It chronicles the nation's ceaseless ferment, from the rocky conversion to peacetime in the early aftermath of World War II; to the frightening emergence of the Cold War and repeated US military adventures abroad; to the struggles of African Americans and other minorities to claim a share of the American Dream; to the striking transformations in social attitudes catalyzed by the women's movement and struggles for gay and lesbian liberation; to the dynamic force of political, economic, and social conservatism. Carrying the story to the spring of 2022, *Winds of Hope* also shows how dizzying technological changes at times threatened to upend the nation's civic and political life.

Demagogue

The definitive biography of the most dangerous demagogue in American history, based on first-ever review of his personal and professional papers, medical and military records, and recently unsealed transcripts of his closed-door Congressional hearings. In the long history of American demagogues, from Huey Long to Donald Trump, never has one man caused so much damage in such a short time as Senator Joseph McCarthy. We still use "McCarthyism" to stand for outrageous charges of guilt by association, a weapon of polarizing slander. From 1950 to 1954, McCarthy destroyed many careers and even entire lives, whipping the nation into a frenzy of paranoia, accusation, loyalty oaths, and terror. When the public finally turned on him, he came crashing down, dying of alcoholism in 1957. Only now, through bestselling author Larry Tye's exclusive look at the senator's records, can the full story be told. *Demagogue* is a masterful portrait of a human being capable of immense evil, yet beguiling charm. McCarthy was a tireless worker and a genuine war hero. His ambitions knew few limits. Neither did his socializing, his drinking, nor his gambling. When he finally made it to the Senate, he flailed around in search of an agenda and angered many with his sharp elbows and lack of integrity. Finally, after three years, he hit upon anti-communism. By recklessly charging treason against everyone from George Marshall to much of the State Department, he became the most influential and controversial man in America. His chaotic, meteoric rise is a gripping and terrifying object lesson for us all. Yet his equally sudden fall from fame offers reason for hope that, given the rope, most American demagogues eventually hang themselves.

A Story of Maine in 112 Objects: From Prehistory to Modern Times

Founded in 1836, the Maine State Museum is America's oldest state museum and is known to many as "Maine's Smithsonian" because of the breadth and diversity of its holdings—nearly a million objects covering every aspect of the state's cultural, biological, and geological history—and the thousands of stories its collections tell. For this book the museum selected and photographed 112 artifacts and specimens that, together, tell an epic story of the land and its people from prehistoric times to the present. It is a story covering 395 million years, a story told with a walrus skull and fossils, tourmaline and spear points, mammoth tusks and bone fishhooks, Norse coins and caulking irons, militia flags and survey stakes, treaty documents and wooden tankards, a temperance banner and a locomotive, Joshua Chamberlain's pistol and a cod tub trawl, a Lombard log hauler and a woman's WWII welding outfit, L. L. Bean boots and German POW snowshoes, and many more objects from the museum's collections. Short narratives written by museum curators are woven around each item—including photos of related

objects—and the ensemble has been honed, polished, and introduced by museum director Bernard Fishman. This is a book that historians and Maine residents and visitors will delve into again and again, unearthing new treasures with each reading.

Women in Congress, 1917-2006

Contains profiles, contextual essays, historical images, and appendices that provide information about the 229 women who have served in Congress from 1917 through 2006.

Tennessee Historical Quarterly

This compact volume offers a broad selection of the most important documents in American history: the Declaration of Independence, the Constitution, and the Emancipation Proclamation as well as presidential speeches, Supreme Court decisions, Acts and Declarations of Congress, essays, letters, and much more. The compilation of more than 150 documents, dating from 1606 to 1865, starts with the First Charter of Virginia, issued by King James I, and concludes with the abolition of slavery, as stated in the Thirteenth Amendment to the Constitution. Many of the selections recapture the voices of great Americans, from Powhatan's speech to Captain John Smith at Jamestown and the Pilgrims' Mayflower Compact to Benjamin Franklin's Plan of Union, Tecumseh's address to the Choctaws and Chickasaws, Frederick Douglass' "What to the Slave Is the Fourth of July?"

Congressional Record

The history of the United States has been characterized by fervent idealism, intense struggle, and radical change. And for every critical, defining moment in American history, there were those whose impassioned voices rang out, clear and true, and whose words compelled the minds and hearts of all who heard them. When Patrick Henry declared, "Give me liberty, or give me death!"

Essential Documents of American History

Here are 21 legendary speeches from the country's most inspirational female voices, including Sojourner Truth, Susan B. Anthony, Eleanor Roosevelt, Hillary Rodham Clinton, Nancy Pelosi, and many others.

American Heritage Book of Great American Speeches for Young People

The selected speeches of Senator Margaret Chase Smith of Maine made throughout her 32 year career in the U.S. Congress are critically analyzed in this rhetorical study. The inquiry focuses on the factors of her political persona that garnered her the support of her constituents and the respect of her colleagues. The chapters are each titled with a segment of her political identity—an American, a Republican, and a woman. Thus this work will be of interest to students and scholars of U.S. politics, communications, and women's studies. In addition, this popular political figure should be of interest to readers who want to learn more about the first female U.S. Senator.

Great Speeches by American Women

Public speaking is one of the things many fear the most. This fear is justified—Many eyes to look into and many minds to contend with. Thoughts are elusive. The catcher of powerful thoughts—the apt words—are even more elusive. Yet, you do not need to despair. By standing on the shoulders of great orators, you can also speak with facility, felicity, cogency, and potency. Great orators have produced immortal thoughts couched in immortal words. This book selects the gems and the most versatile phrases in the top 100 speeches in the history of American rhetoric of the last century, so that you do not have to tire your mind and tax your time spending months going through all these speeches to mine the diamonds of powerful thoughts and felicitous words. This book furnishes you with powerful and ready blocks for the efficient construction of edifices of powerful ideas embodied in powerful words. The top 100 speeches are the most significant American political speeches of the 20th century, according to 137 leading scholars of American public address. Their inclusion and ranking are based on their "social and political impact," "rhetorical artistry," "eloquence," and "power."

Freedom is the Right to Choose

Seeks to penetrate the logic, social structure, and daily practice of life in American military communities in Germany Army life has always been known as a life of sacrifice, challenge, and frustration, yet one filled also with deep satisfactions. This is so for the soldiers' families as much as for the soldiers themselves. Over the years, military and civilian leaders of the US Army have tried to reduce the hardships of military life by creating an array of community services designed to provide social support for soldiers and families and help them live satisfying lives in military communities. Unfortunately, this effort has not been particularly successful, and frustration, dissatisfaction, and alienation persist

among soldiers and family member in the US Army communities in Germany. Discontent continues because the underlying sources of alienation in the Army and among its families are highly complex, poorly understood, and therefore hardly addressed by the Army's quality-of-life programs that are intended to make soldier and family life more bearable. In *Army of Hope, Army of Alienation: Culture and Contradiction in the American Army Communities of Cold War Germany*, the author seeks to penetrate the logic, social structure, and daily practice of life in the American military communities that lay scattered along the frontier between East and West Germany during the final years of the Cold War. In coming to understand the life and thought of these American soldiers and families, ordinary American citizens can learn much about their military forces and about their own society and culture. In addition, a greater understanding about how people work and live around an institution that is at once so important and yet tasked with a mission so different from that of ordinary pursuits can stimulate social scientists and concerned citizens to think differently about culture, society, and behavior in general.
