Bond 11+ - English

This volume documents international, national, and small-scale testing and assessment projects of English language education for young learners, across a range of educational contexts. It covers three main areas: age-appropriate 'can do statements' and task types for teaching and testing learners between the ages of 6 to 13; innovative approaches to self-assessment, diagnostic testing, self-perception, and computer-based testing; and findings on how young learners perform on vocabulary, listening, speaking, pronunciation, and reading comprehension tests in European and Asian contexts. Early language learning has become a major trend in English language education around the globe. As a result of the spread of teaching English to a growing number of young children, assessment of and for learning have emerged as key issues. In line with this development, there is a clear and emerging need to make early language programs accountable and to assess both the progress children make over time and to quantify their achievement at various stages of development. This volume informs stakeholders about the realistic goals of early language learning, their efficiency, and how much progress children make over time.

Assessing Young Learners of English: Global and Local Perspectives

Bond Assessment Papers for 9-10 years have been designed by Bond, the number 1 provider of 11+ practice materials. These books provide practice questions that begin to establish the core skills for success in English, Maths, Non-verbal Reasoning and Verbal Reasoning.

A Book of Middle English

This essential Middle English textbook, now in its third edition, introduces students to the wide range of literature written in England between 1150 and 1400. New, thoroughly revised edition of this essential Middle English textbook. Introduces the language of the time, giving guidance on pronunciation, spelling, grammar, metre, vocabulary and regional dialects. Now includes extracts from 'Pearl' and Chaucer's 'Troilus and Criseyde'. Bibliographic references have been updated throughout. Each text is accompanied by detailed notes.

An Old and Middle English Reader

Excerpt from An Old and Middle English Reader: With a Vocabulary King Alfred's west-saxon Version of Gregory's Pastoral Care ed. By Henry Sweet, London, 1871, p. 3. The text follows chiefly the Hatton Ms. 20, formerly 88, in Oxford. Corpus Chr. Coll. Cambr. 12. Junius' transcript in Oxford of the almost entirely burned Cotton. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

An Old and Middle English Reader

This reader remains the only major new reader of Old English prose and verse in the past forty years. The second edition is extensively revised throughout, with the addition of a new 'Beginning Old English' section for newcomers to the Old English language, along with a new extract from Beowulf. The fifty-seven individual texts include established favourites such as The Battle of Maldon and Wulfstan's Sermon of the Wolf, as well as others not otherwise readily available, such as an extract from Apollonius of Tyre. Modern English glosses for every prose-passage and poem are provided on the same page as the text, along with extensive notes. A succinct reference grammar is appended, along with guides to pronunciation and to grammatical terminology. A comprehensive glossary lists and analyses all the Old English words that occur in the book. Headnotes to each of the six text sections, and to every individual text, establish their literary and historical contexts, and illustrate the rich cultural variety of Anglo-Saxon England. This second edition is an accessible and scholarly introduction to Old English.

An Old and Middle English Reader

Featuring numerous updates and additional anthology selections, the 3rd edition of Introduction to Old English confirms its reputation as a leading text designed to help students engage with Old English literature for the first time. A new edition of one of the most popular introductions to Old English Assumes no expertise in other languages or in traditional grammar Includes basic grammar reviews at the beginning of each major chapter and a "minitext" feature to aid students in practicing reading Old English Features updates and several new anthology readings, including King Alfred's Preface to Gregory's Pastoral Care

Old and middle English reader

This selection of literary texts ranges from the earliest writings in the vernacular up to the time of Chaucer. Spanning almost seven centuries, it encapsulates the foundation and consolidation of literature written in English.

The Cambridge Old English Reader

This highly respected anthology of medieval English literature features poetry, prose, and popular tales from Arthurian legend and classical mythology. Includes notes on each extract, appendices, and an extensive glossary by J. R. R. Tolkien.

Introduction to Old English

This highly respected anthology of medieval English literature features poetry, prose and popular tales from Arthurian legend and classical mythology. Includes notes on each extract, appendices, and an extensive glossary by J. R. R. Tolkien.

Old and Middle English

An Introduction to Middle English combines an elementary grammar of the English language from about 1100 to about 1500 with a selection of texts for reading, ranging in date from 1154 to 1500. The grammar includes the fundamentals of orthography, phonology, morphology, syntax, regional dialectology, and prosody. In the thirty-eight texts for reading are represented a wide range of Middle English dialects, and the commentary on each text includes, in addition to explanatory notes, extensive linguistic analysis. The book includes many useful figures and illustrations, including images of Middle English manuscripts as an aid to learning to decipher medieval handwriting and maps indicating the geographical extent of dialect features. This introduction to Middle English is based on the latest research, and it provides up-to-date bibliographical guidance to the study of the language.

A Guide to Old English

This introduction provides the guidance that modern readers need to come to an informed appreciation of the writings of medieval England. An introduction to English literature written in the four centuries following the Norman Conquest. Written by the well-known medievalist, Thorlac Turville-Petre. Demonstrates that Middle English literature is more accessible than is often supposed. Provides readers with the guidance they need to come to an informed appreciation of the writings of medieval England. Designed to be used alongside *A Book of Middle English*, (Third Edition, Blackwell Publishing, 2005).

A Middle English Reader

The Routledge Companion to Medieval English Literature offers a new, inclusive, and comprehensive context to the study of medieval literature written in the English language from the Norman Conquest to the end of the Middle Ages. Utilising a Trans-European context, this volume includes essays from leading academics in the field across linguistic and geographic divides. Extending beyond the traditional scholarly discussions of insularity in relation to Middle English literature and 'isolationism', this volume: Oversees a variety of genres and topics, including cultural identity, insular borders, linguistic interactions, literary gateways, Middle English texts and traditions, and modern interpretations such as race, gender studies, ecocriticism, and postcolonialism. Draws on the combined extensive experience of teaching and research in medieval English and comparative literature within and outside of anglophone higher education and looks to the future of this fast-paced area of literary culture. Contains an indispensable section on theoretical approaches to the study of literary texts. This Companion provides the reader with practical insights into the methods and approaches that can be applied to medieval literature and serves as an important reference work for upper-level students and researchers working on English literature.

A Middle English Reader and Vocabulary

The texts in this reader include prose, metrical prose, and poetry, and represent a variety of genres (saints' lives and metrical charms as well as heroic verse). Frequently taught canonical texts are balanced with interesting, lesser-known works. The glossary is at the back of the book, and the companion website includes texts with clickable glossing, as well as additional texts for study.

A Middle English Reader

This Norton Critical Edition presents significant examples of one of the most important bodies of English poetry written before the Renaissance.

An Introduction to Middle English

'Essentials of Early English' is a practical and highly accessible introduction to the early stages of the English language: Old English, Middle English, and Early Modern English. A bibliography is included and a glossary of key terms.

A Bibliography of Publications on Old English Literature to the End of 1972

Before the 1760s -- with the major exception of Chaucer -- nearly all of Middle English literature lay undiscovered and ignored. Because established scholars regarded later medieval literature as primitive and barbaric, the study of this rich literary heritage was relegated to antiquarians and dilettantes. In *The Making of Middle English, 1765-1910*, David Matthews chronicles the gradual rediscovery of this literature and the formation of Middle English as a scholarly pursuit. Matthews details how the careers, class positions, and ambitions of only a few men gave shape and direction to the discipline. Mostly from the lower middle class, they worked in the church or in law and hoped to exploit medieval literature for financial success and social advancement. Where Middle English was concerned, Matthews notes, these scholars were self-taught, and their amateurism came at the price of inaccurately edited and often deliberately "improved" texts intended for a general public that sought appealing, rather than authentic, reading material. This study emphasizes the material history of the discipline, examining individual books and analyzing introductions, notes, glossaries, promotional materials, lists of subscribers, and owners' annotations to assess the changing methodological approaches of the scholars and the shifts in readership. Matthews explores the influence of aristocratic patronage and the societies formed to further the editing and publication of texts. And he examines the ideological uses of Middle English and the often contentious debates between these scholars and organizations about the definition of Englishness itself. A thorough work of scholarship, *The Making of Middle English* presents for the first time a detailed account of the formative phase of Middle English studies and provides new perspectives on the emergence of medieval studies, canon formation, the politics of editing, and the history of the book.

Reading Middle English Literature

This work presents a collection of some 130 contributions covering a wide range of topics of interest to historical, theoretical and applied linguistics alike. A major theme is the development of English which is examined on several levels in the light of recent linguistic theory in various papers. The geographical dimension is also treated extensively with papers on controversial aspects of a variety of studies, as are topical linguistic matters from a more general perspective.

The New Cambridge bibliography of English literature, vol. 1

In this volume, specialists in literature, theology, liturgy, manuscript studies, and history introduce the medieval culture of the Bible in Western Christianity. Emphasizing the living quality of the text and the unique literary traditions that arose from it, they show the many ways in which the Bible was read, performed, recorded, and interpreted by various groups in medieval Europe. An initial orientation introduces the origins, components, and organization of medieval Bibles. Subsequent chapters address the use of the Bible in teaching and preaching, the production and purpose of Biblical manuscripts in religious life, early vernacular versions of the Bible, its influence on medieval historical accounts, the relationship between the Bible and monasticism, and instances of privileged and practical use, as well as the various forms the text took in different parts of Europe. The dedicated merging of disciplines, both within each chapter and overall in the book, enable readers to encounter the Bible in much the same way as it was once experienced: on multiple levels and registers, through different lenses and screens, and always personally and intimately.

Register of the University of California

This volume explores the conflicting representations of ancient Rome—one of the most important European cities in the medieval imagination—in late Middle English poetry. Once the capital of a great pagan empire whose ruined monuments still inspired awe in the Middle Ages, Rome, the seat of the pope, became a site of Christian pilgrimage owing to the fame of its early martyrs, whose

relics sanctified the city and whose help was sought by pilgrims to their shrines. C. David Benson analyzes the variety of ways that Rome and its citizens, both pre-Christian and Christian, are presented in a range of Middle English poems, from lesser-known, anonymous works to the poetry of Gower, Chaucer, Langland, and Lydgate. Benson discusses how these poets conceive of ancient Rome and its citizens—especially the women of Rome—as well as why this matters to their works. An insightful and innovative study, *Imagined Romes* addresses a crucial lacuna in the scholarship of Rome in the medieval imaginary and provides fresh perspectives on the work of four of the most prominent Middle English poets.

The Aberdeen University Calendar

This book is a guide to the development of English syntax between the Old and Modern periods. Beginning with an overview of the main features of early English syntax, it gives a unified account of the significant grammatical changes that occurred during this period. Four leading experts demonstrate how these changes can be explained in terms of grammatical theory and the theory of language acquisition. Drawing on a wealth of empirical data, the book covers a wide range of topics including changes in word order, infinitival constructions and grammaticalization processes.

The Routledge Companion to Medieval English Literature

This book explores the history and development of English alliterative meter, and considers why the form has remained so enigmatic.

Teach Yourself Old English

Presents a history of the English language, beginning with the Old English of the seventh century, through the Great Vowel Shift between the time of Chaucer and Shakespeare, and the later full emergence of modern English.

Old English Reader

In an updated edition of his hugely successful student introduction to English literature from 1100 to 1500, J. A. Burrow takes account of scholarly developments in the field, most notably devoting a final chapter to the impact of historicism on medieval studies. Full of information and stimulating ideas, and a pleasure to read, Burrow's book deals with circumstances of composition and reception, the main genres, 'modes of meaning' (allegory etc.), and medieval literature's afterlife in modern times. It shows that the literature of authors such as Chaucer, Gower, and Langland is more readily accessible than usually imagined, and well worth reading too. By placing medieval writers in their historical context - the four centuries between the Norman Conquest and the Renaissance - Professor Burrow explains not only how they wrote, but why.
