? One of the prevailing issues in trading is the attachment of a false narrative to explain price changes in the market. Don't easily believe in subjective stories behind a stock price movement. Do your own research using historical data.

? Humans are most predictable in times of high stress. They act instinctively and panic. Therefore, future traders will react the way traders did in the past in times of stress.

? Finding an edge in the market is time consuming. The key is to spend your time efficiently. Don't waste time proposing trading ideas. Let the data discover trading opportunities. Human bias can easily take us on a wrong path, consuming our precious time for no good.

Hunt the Dawn

Lathan Montgomery's genetic anomaly allows him to smell and see people's memories. He uses his skills to help the Ohio Department of Criminal Investigation, and is on the path of an active serial killer. When he saves plucky, down-on-her-luck Evanee Brown from an abusive encounter, he finds she's the only person who doesn't trigger his powers. Evanee would escape her job, the town, and her abuser, if she could. Until she meets Lathan and her nightmares embroil her in his investigations. Together they are an indomitable force, but everyone around them is trying to tear them apart.

The Hunt Series, Book 1: Dawn Memories

The Hunt are children sent from an endangered world in another universe/dimension of reality, to protect them from a despot who wants to command their Talents. Given into the keeping of the Hounds of Hamin, the members of the Hunt have been separated by time as well as distance. They know each other by the scars--rows of teeth marks--on their wrists. Some have been in our world for decades, others only for a few years. Before more enemies show up to destroy them, they must locate each other, soon, to find a way back home to save their world. The explosion nearly killed her, but it also brought her back to life... The explosion that should have killed Dawn ignites a fiery trail of buried memories, all leading to the point where it all began. She remembers... She's not from Earth at all. She's the daughter of one of the ruling families of another world in another dimension, sent to Earth by her parents to protect her from a galactic despot who wants all the rulers' children as hostages. She's from the Hunt, branded as such by two thin white lines on her wrist, caused by the Hounds of Hamin--interdimensional guardian beasts that hold the children's wrists in their mouths as they pull them through the vortex from their world to Earth. But Dawn remembers something else. Someone else. Stayn, her best friend and her betrothed. Where is he? Can he rescue her from the 'safe' house where she's currently guarded by federal agents? And can they rekindle what time and distance has torn apart?

Hunter's Dawn

An ancient inscription raises more questions than answers. Shadow and the Nephilims' hunt for Black Cronos is far from over. When they find a hideout, they discover an ancient Sumerian stone tablet that forces them to rethink the Nephilims' history – and Black Cronos's plans. It seems their quest for the ultimate warrior is far from over. The hunt takes them back to the desert, and resumes the search for a civilisation long thought buried. Harlan's involvement with the Paranormal Division isn't over, either. In fact, it's just beginning, and it seems there's more to JD than he realised. And more to Black Cronos, too. As tensions rise, what they uncover could change everything. Double agents, betrayals, murky occult organisations, and nonstop action, make this the best instalment in the White Haven Hunters

series yet! If you love magic, mystery, and danger, with plenty of action, intrigue, and humour, you'll love Hunter's Dawn.

Dawn: Before the Hunt

In a world where everything is going right, life is moving into the direction that you want it to go it seems like nothing can go wrong. A run in the morning is something that makes Sam feel free and relax before the day begins. Yes she goes to school, and yes it never seems like any normal day for others, but it is for her. When one day this mysterious guy named Kevin moves into her life, everything changes. Not just her life around her, but who she is as a human and who she might not be. Some things that were not important to her anymore come into the light and she wishes that none of it ever happened. Especially when she finds out that she is the Queen or Leader to a bunch of children that she never really met, but only saw come out of the woods during the day. Too many are after her and she doesn't understand who is her enemy and who isn't. With death at her door and having a life on the run, the only ones that help her stay in control is the mystery boy and another friend she meets along the way. All she has to do is stay alive and stay in control of herself. Sounds easy right?

The Magical Hunt

The hunt is only beginning, and magic swirls within it keeping them both on the right path, and leading them astray... Malediction has claimed Princess Elodie of Zelnor and her friends. What is lost is their key to returning to Zelnor, and Elodie's rightful place on the throne. There are two different paths, both desired, but one will bring her home—the other could lead to her downfall. Some prophecies are self-fulfilling, and Elodie must be careful she doesn't make her worst fears happen. She has many decisions to make—and once they're in Zelnor, the true battle will begin. Along with the duties of her kingdom, she must also discern the means to her happiness. Does she believe in love, and if so, who does she give her heart to...

The Hunt for the Dawn Monkey

Publisher Description

The Hunt for the Dawn Monkey

Taking us back roughly 45 million years into the Eocene, "the dawn of recent life," Chris Beard, a world-renowned expert on the primate fossil record, offers a tantalizing new perspective on our deepest evolutionary roots. In a fast-paced narrative full of vivid stories from the field, he reconstructs our extended family tree, showing that the first anthropoids—the diverse and successful group that includes monkeys, apes, and humans—evolved millions of years earlier than was previously suspected and emerged in Asia rather than Africa. In The Hunt for the Dawn Monkey, Beard chronicles the saga of two centuries of scientific exploration in search of anthropoid origins, from the early work of Georges Cuvier, the father of paleontology, to the latest discoveries in Asia, Africa, and North America's Rocky Mountains. Against this historical backdrop, he weaves the story of how his own expeditions have unearthed crucial fossils—including the controversial primate Eosimias—that support his compelling new vision of anthropoid evolution. The only book written for a wide audience that explores this remote phase of our own evolutionary history, The Hunt for the Dawn Monkey adds a fascinating new chapter to our understanding of humanity's relationship to the rest of life on earth.

Dawn, Dusk and Deer

Dawn, Dusk and Deer is about memories. Fond memories. It is my belief that one of the principal things gained from deer hunting is the host of great memories that one can visit, at will, year after year. All one has to do to get into a very enjoyable conversation is find another deer hunter to share memories with. True deer hunters not only love to hunt deer, but they also love to tell about and hear others tell about hunting deer. Deer hunting is patriotic sport. The Native Americans were here and hunting deer when Europeans arrived. The settlers then hunted deer until they were almost extinct in many parts of America. With conservation they have recovered in population. And many Americans still practice the sport of their ancestors. I do. And I like to hear the stories of other hunters and to tell the stories that came to me on my deer hunting trail. The story recorded here is not so much about harvesting of deer for food but about the many experiences that come along on the deer trail. Some good and some bad.

By Dawn's Early Light

Daniel Prentice's technological skill helped save the world from the deadly impact of Y2K in the popular thriller Flee the Darkness. But that victory didn't stop the encroaching evil. In this gripping sequel, tension mounts in the 21st century as a Russian-Arab invasion of Jerusalem seems imminent. Now Daniel must guide NSA chief Captain Michael Reed in the battle ahead. More than a battle for the land, the offensive could be the fulfillment of Ezekiel's ancient biblical prophecy of Gog and Magog invading Israel. As the world shudders in response, the invaders offer Israel a choice: surrender or be obliterated. As the State of Israel fortifies itself against the coming onslaught of missiles, biological weapons, and an invasion force attacking from all four borders, Reed and his Israeli counterpart, Sergeant Major Deborah Cohen, exhaust every military resource to prevent a nuclear war. Soon Reed and Cohen realize that the real battle they face is one of spiritual origin—for which no military drill could prepare them. Will Michael and Deborah find faith to confront the enemy? Never have the forces of evil been stronger, the stakes higher, or the world's possible destruction nearer than By Dawn's Early Light.

The Hunt for the Dawn Monkey

A leading authority on the primate fossil record sheds new light on the human evolutionary tree, reconstructing the early roots of modern-day humans, offering a compelling new vision of anthropoid evolution, and analyzing the relationship between humans and other primates.

Hunt for the Dawn Monkey

If the major outlines of human origins are settled, the search for anthropoid origins remains scientifically in its infancy. We remain fairly ignorant of such basic questions as when, where, how, and why our earliest anthropoid ancestors evolved. Paleontology is one of the few academic disciplines in which field exploration remains a fundamental part of the quest to expand knowledge and understanding. This unique combination of the possibility for personal adventure and intellectual fulfillment is what attracted the author to paleontology in the first place. He hopes to impart a fraction of what he has experienced and learned during these past few years in this book. Winner, Phi Beta Kappa Award in Science and the Howells Prize, Amer. Sources from the Dawn of the Great Witch Hunt in Lower Navarre, 1370

This book provides an annotated source edition of the only two extant documents related to the sorcery trial brought against Pes de Guoythie and Condesse de Beheythie in Lower Navarre, in 1370. It provides full transcriptions of both documents, and English translations of the most salient passages. These sources illustrate at an early date many of the features prevalent in later sources on which trials, such as the metamorphosis of those accused into animals; infanticide; poisoned apples; collective meetings; and ointments made from various creatures. As such, it offers a fascinating insight into allegations of witchcraft in the High and Late Middle Ages.

Orphaned as an infant and raised by an exiled branch of the church to become a warrior for God, she and her fellow members of Venatores Daemonum have trained all their lives with only one purpose: destroy all demons in the mortal realm. But when Ryann and her team are sent to hunt down a vampire who has killed one of their own, a new world of danger, betrayal, and conspiracy greets her. Allied with an irreverent psychic detective and the very monsters she was raised to kill, Ryann will risk everything—her life, her faith, and her heart—in pursuit of the truth as the black and white existence she knew turns a murky shade of gray. ----- Series order (main novels): Bloodlines, Hunter, Lineage, Exhumed, Oblivion (coming soon)

The Eye of the Hunter

From the bestselling author of the Iron Tower trilogy and The Silver Call duology comes the magnificent epic of Mithgar... A thousand years had passed since the Eye of the Hunter last glared in the heavens. A thousand years since the immortal Elfess Riatha brought word of the prophecy to the Warrows Tomlin and Petal with whom she had leagued to hunt down and defeat Baron Stoke, one of the most evil beings to ever stalk the lands of Mithgar. The price of Stoke's doom had been a beloved companion's life, the two plunging, locked in combat, down an icy chasm which had sealed shut the ring of eternity. Now the comet known as the Eye of the Hunter again rode Mithgar's skies, and the creatures of darkness once again ravaged the lands, heralding the imminent return of their dread master, Baron Stoke. And now five brave souls must answer the call of prophecy: Riatha and the elf called Aravan; Gwylly and Faeril, last in a long line of Firstborn Warrow descendants of Tomlin and Petal; and one other, one restored to them from Death's chill grasp.

The Dawn Stand-to

In 1936, at the age of 18, Peter Mills, son of a Norfolk doctor, went in search of adventure. He sailed for Kenya, then sparsely populated, teeming with game, and almost untouched by civilization. He set out to hunt and explore but funds ran out and he had to find an income to avoid repatriation. In a remote police station he spoke to the Inspector in charge. An hour later, he joined the prestigious Kenya Police. His romantic exploits, gun battles with wild tribesmen, cattle rustlers and criminals, encounters with dangerous animals and eccentric settlers are a hair-raising and often hilarious adventure. Eventually, as a high-ranking officer he played a crucial role in the war against the Mau Mau. This is a thrilling story of the last days of Empire and one man's account of his exploits in a beautiful, untamed land peopled by eccentric settlers and primitive tribes people. A story of the courage and tenacity of one rugged individualist and his part in bringing civilization to that land.
