Katie's Journey to Love

Setting out to visit a loved one, a child curiously asks a fellow commuter, "Who are you going to visit?" In answer to this simple question, the child learns about the love and loss in the life of a stranger: a father who lives apart from his small daughter, a husband who has lost his wife, a granddaughter who is forgotten by her grandfather, and a mother who fears for her son's recovery. After each conversation, the child understands that the other commuters have someone in their lives that they love "as much as I love you," and it is this understanding that allows the child to explore the most universal of human experiences: the power of love in the many different forms that it can take. Visiting You also explores a sense of community. Under her mother's supervision, a young child reaches out and connects with the people around them; they're not scared of strangers, or people who might 'look' scary, or people who are different to them. Sometimes it can take conscious decision and determination to look past outward appearances. Visiting You encourages us to find the similarities between people instead of focusing on differences, to recognize some part of ourselves in the life of a stranger.

Journey of Love

Nicky Bell, diagnosed with Ewing's Sarcoma at age thirteen, died five years later, with his mother and best friend at his side. A Journey of Unconditional Love tells Nicky and Michele's story, describing the battle with cancer in great detail. However, this book is about more than cancer and its treatment and the fight to survive. It's about more than a mother and her son who had to face his mortality at such a young age and the despair and anguish that comes in losing that fight. It's about more than death . . . This book is about life. It's about how this mother and son approached the everyday moments of life despite the greater story that was playing out around them and was outside of their control. It's about what each had learned from the other and the influential roles played in their life experiences. It is about how it still affects the life of the one left behind. It's about the depth of human spirit and the soul's ultimate survival, along with what the survivor is supposed to do with that energy. The connection between this mother and her son has lived on long after his passing, and it continues to be a force in this mother's life every day. The inspiration in this story comes from the millions of small everyday moments, the choices made, the words spoken, and the unconditional love that makes such a seemingly senseless experience somehow bearable. This book gives a voice to parents and loved ones, caregivers and patients, those who relate to this loss, and those who know they feel every heartbeat in this story but who also struggle to come to grips with their own experience.

Finding Your Force

"A truly inspiring journey that celebrates the healing power of adventure. A must-read." – Levison Wood
The remarkable and inspirational true story of how one man battled grief and anxiety, one pedal stroke at a time, on a 3,500-mile adventure around Britain. In March 2020, as Britain entered its first lockdown, Simon Parker's life fell apart; his travel journalism career vanished overnight and shortly afterwards he received the tragic news that a close friend had died. With a long-suppressed anxiety disorder starting to rear its head, he turned to the only therapies he knew and trusted: travel and exercise. Setting off on his bike from the northernmost point of Shetland with only a sleeping bag and a camping stove, Simon would end up cycling 3,427 miles around Britain. En route, he would meet hundreds of resilient Britons, who were all, in their own way, riding out the storm just like he was. Even in his gloomiest moments he began to see that a chink of light was never too far away. *Riding Out* is a story of optimism and hope, and a ground-level portrait of Britain as it transforms from a country in crisis to a nation on the mend. From Shetland to the Scillies, Dover to Durness, Simon learns that life's sharpest corners are best navigated at the gentle pace of a bicycle.
