Spirituality is the core of our humanness, the essence of who we are and how we express our vitality - our aliveness - whether we are religious or not. In Building Heaven on Earth, Dwight Webb encourages readers to challenge religion's claim to be caretakers of our spiritual life. He argues that we are spiritual beings by nature and that our search must first and foremost be inward, and not skyward. He asks readers to consider that it is our soul self within, that expresses our tangible spirit as we choose to act with kindness, compassion, and forgiveness. Dr Webb draws upon his personal experiences as well as his four decades of teaching and research as a Professor of Counseling Psychology in the Graduate School at the University of New Hampshire. His book asks us to claim our human spirit and not relegate it to any religions, cults or other institutions requiring devotion and unquestioned faith. It is in our inner life that we will sort our values, our purpose, and personal meaning. It is in our inner life where we make the decisions and take responsibility for contributing to the common good, as each person builds his or her own heaven on earth.

This is the story of a child that was wrongly born male, and through revelation realized nature had made a serious mistake. It chronicles the struggles of dealing with a great and terrible secret, thinking there was no way out of the dilemma of being born the wrong sex. Trying to find a cure, that child tried many ways to conform to her biology, only to find out all her attempts were in vain. Then, after many long years of frustration, quite by accident, a door was opened. Call it fate, or divine intervention, that child, now an adult, was able to crossover the strange and mysterious void between the sexes and emerge a new and beautiful female creature; a Changeling. Finally mind, spirit, soul, and body were in agreement, and a wonderful new life journey began. Like the ugly, repulsive caterpillar that abandons its life to become a beautiful, wondrous butterfly, I have lived, died, and come back as the whole woman I was meant to be.

"With the fate of the free world hanging in the balance, women pilots went aloft to serve their nation. . . . A soaring tale in which, at long last, these daring World War II pilots gain the credit they deserve."—Liza Mundy, *New York Times* bestselling author of *Code Girls* "A powerful story of reinvention, community and ingenuity born out of global upheaval."—*Newsday* When the Japanese attacked Pearl Harbor in December 1941, Cornelia Fort was already in the air. At twenty-two, Fort had escaped Nashville's debutante scene for a fresh start as a flight instructor in Hawaii. She and her student were in the middle of their lesson when the bombs began to fall, and they barely made it back to ground that morning. Still, when the U.S. Army Air Forces put out a call for women pilots to aid the war effort, Fort was one of the first to respond. She became one of just over 1,100 women from across the nation to make it through the Army's rigorous selection process and earn her silver wings. The brainchild of trailblazing pilots Nancy Love and Jacqueline Cochran, the Women Airforce Service Pilots (WASP) gave women like Fort a chance to serve their country—and to prove that women aviators were just as skilled as men. While not authorized to serve in combat, the WASP helped train male pilots for service abroad, and ferried bombers and pursuits across the country. Thirty-eight WASP would not survive the war. But even taking into account these tragic losses, Love and Cochran's social experiment seemed to be a resounding success—until, with the tides of war turning, Congress clipped the women's wings. The program was disbanded, the women sent home. But the bonds they'd forged never failed, and over the next few decades they came together to fight for recognition as the military veterans they were—and for their place in history.

A compassionate, shame-free guide for your darkest days "A one-of-a-kind book . . . to read for yourself or give to a struggling friend or loved one without the fear that depression and suicidal thoughts will be minimized, medicalized or over-spiritualized."—Kay Warren, cofounder of Saddleback Church What happens when loving Jesus doesn't cure you of depression, anxiety, or suicidal thoughts? You might be crushed by shame over your mental illness, only to be told by well-meaning Christians to "choose joy" and "pray more." So you beg God to take away the pain, but nothing eases the ache inside. As darkness lingers and color drains from your world, you're left wondering if God has abandoned you. You just want a way out. But there's hope. In *I Love Jesus, But I Want to Die*, Sarah J. Robinson offers a healthy, practical, and shame-free guide for Christians struggling with mental illness. With unflinching honesty, Sarah shares her story of battling depression and fighting to stay alive despite toxic theology that made her afraid to seek help outside the church. Pairing her own story with scriptural insights, mental health research, and simple practices, Sarah helps you reconnect with the God who is present in our deepest anguish and discover that you are worth everything it takes to get better. Beautifully written and full of hard-won wisdom, *I Love Jesus, But I Want to Die* offers a path toward a rich, hope-filled life in Christ, even when healing doesn't look like what you expect.
