Make Sure You Demonstrate The Following Skills & Attributes During Your Health & Safety Manager Interview

The role of a Health and Safety Manager is the type of position where you have to have the support of your employer.

My role, as your Health and Safety Manager would be first and foremost to monitor the various safety risks and hazards within the workplace to ensure all staff and visitors are safe from harm.

There are five important steps to consider when creating a suitable and appropriate risk assessment At the end of the day, health and safety is law, and he or she would need to cooperate, or they could find themselves in breach of their employment contract.
