Henry VIII and His Queens

A study of Henry VIII's reign and his wives, which examines the role of each queen in Henry's personal and political development. Family relationships are also considered, with particular emphasis placed on Henry's attempts to resolve his succession-dominated domestic policy.

Tudor Women

In this book the women of the royal family are the central characters; the royal women set the style and between them they provide a dazzling variety of personalities as well as illustrating almost every aspect of life as it affected women in Tudor England. We know what they ate, how they dressed, the books they read and the letters they wrote. Even the greatest of them suffered the universal legal and physiological disabilities of womanhood - some survived them, some triumphed over them and some went under.

Letters of the Queens of England, 1100-1547

Illustrated throughout and complemented by detailed genealogical tables and a useful table of marriages, *The Letters of the Queens of England 1100-1547* is an invaluable reference source for historians and a fascinating introduction for the general reader to the foremost women of medieval and Tudor England.

The Politics of Marriage

A fresh interpretation of the life and reign of Henry VIII which concentrates on the relationship between him and his queens, and the impact of each marriage on his domestic policies.

Lady Jane Grey

For most, the name of Lady Jane Grey means the "nine days queen," the child who was used as a pawn in the power politics of the Tudor realm by both her parents and the Northumberland. This volume tells the tragic story of Jane's life and death, but also reveals her to be a woman of unusual strength of conviction with an intelligence and steady faith beyond her years. It also provides insight into the least known of Henry VIII's wives, Katherine Parr.

Tudor Women

The Tudor era belongs to its women. No other period of English History has produced so many notable and interesting women, and into other period have they so powerfully influenced the course of political events. Mary Tudor, Elizabeth 1 and, at moments of high drama, Mary Queen of Scots dominated the political scene for more than half a century, while in the previous fifty years Henry VIII's marital escapades brought six more women to the centre of attention. In this book the women of the royal family are the central characters; the royal women set the style and between them they provide a dazzling variety of personalities as well as illustrating almost every aspect of life as it affected women in Tudor England. We know what they ate, how they dressed, the books they read and the letters they wrote. Even the greatest of them suffered the universal legal and physiological disabilities of womanhood - some survived them, some went under. Now revised and updated, Alison Plowden's beautifully written account of the women behind the scenes and at the forefront of sixteenth-century English history will be welcomed by anyone interested in exploring this popular period of history from the point of view of the women who made it.

The House of Tudor

The Tudors have a special fascination. The astute statesmanship of the first Henry Tudor, the enterprising marital career of the second and the tragedy of the son he laboured so murderously to get, the unhappy reign of Mary and finally the flowering of Elizabeth in whom the family genius reached its apotheosis, all find their place in this chronicle of five turbulent, passionate, tragic and prodigious generations of Tudors.

The Six Wives and Many Mistresses of Henry VIII

For a King renowned for his love life, Henry VIII has traditionally been depicted as something of a prude, but the story may have been different for the women who shared his bed. How did they take the leap from courtier to lover, to wife? What was Henry really like as a lover? Henry's women were

uniquely placed to experience the tension between his chivalric ideals and the lusts of the handsome, tall, athletic king; his first marriage, to Catherine of Aragon, was on one level a fairy-tale romance, but his affairs with Anne Stafford, Elizabeth Carew and Jane Popincourt undermined it early on. Later, his more established mistresses, Bessie Blount and Mary Boleyn, risked their good names by bearing him illegitimate children. Typical of his time, Henry did not see that casual liaisons might threaten his marriage, until he met the one woman who held him at arm's length. The arrival of Anne Boleyn changed everything. Her seductive eyes helped rewrite history. After their passionate marriage turned sour, the king rapidly remarried to Jane Seymour. Henry was a man of great appetites, ready to move heaven and earth for a woman he desired; Licence readdresses the experiences of his wives and mistresses in this frank, modern take on the affairs of his heart. What was it really like to be Mrs Henry VIII?

Chronicles of the Tudor Queens

Recreating the dramatic events and personalities of Mary and Elizabeth's reigns, this book uses the words of their contemporaries as witnesses to an extraordinary period of history in the making.

Catherine Howard

A biography of Henry VIII's fifth wife, beheaded for playing Henry at his own game - adultery.

Kings, Queens, Bones, and Bastards

Who invented The ``House of Windsor" as a royal name? Who founded Westminster Abbey? Which king had twenty-one illegitimate children? David Hilliam answers all these questions plus many, many, more, covering unusual incidents of royal history which rarely appear in The text books!

The Queen's Confidante

London, 1501. Henry VII's heir is dead... Elizabeth, his queen, fears foul play, but who can she trust with her suspicions that their son has been murdered? In her darkest hour she turns to Varina Wescott, a lowly candle maker and widow. Despite the difference in their stations they share a bond. Both women know the sorrow of losing a child. Varina is tasked with discovering all she can about the Prince's death. Aided by the handsome and ambitious Nicholas Sutton, Varina's mission will be a difficult one, as both Henry and Elizabeth have enemies determined to bring down the Tudor dynasty...

Marriage with My Kingdom

Born in 1533, Elizabeth I was the product of the doomed marriage of Henry VIII and Anne Boleyn. In 1558, on her Catholic sister Mary's death, she ascended the throne and reigned for 45 years. Loved and respected by her subjects and idolised by future generations, Gloriana's fierce devotion to her country and its people made her England's fairest queen and icon. Royal marriage in the age of Elizabeth was a political business. Unions between great families could be the key to security at home and to the making of great empires. No one represented a better prize than Elizabeth. She encouraged attention and spent her life surrounded by suitors, but she remained, until the end, married only to her kingdom. This, the third volume of Alison Plowden's Elizabethan quartet, plots the true story of the Virgin Queen's courtships and her career as "the greatest tease in history".

Catherine Parr

Romantic, chaotic and terrifying, Catherine Parr's life unfolds like a romance novel. Married at seventeen to the grandson of a confirmed lunatic and widowed at twenty, Catherine chose a Yorkshire lord twice her age as her second husband. Caught up in the turbulent terrors of the Pilgrimage of Grace in 1536, she was captured by northern rebels, held hostage and suffered violence at their hands. Fleeing to the south shortly afterward, Catherine took refuge in the household of Princess Mary and in the arms of the king's brother-in-law, Sir Thomas Seymour. Her employment in Mary's household brought her to the attention of Mary's father, the unpredictable, often-wed Henry VIII. Desperately in love with Seymour, Catherine was forced into marriage with a king whose passion for her could not be hidden and who was determined to make her his queen.

The Six Wives of Henry VIII

The marital ups and downs of England's most infamous king.

History of Two Queens 1. Catharine D'Aragon, 2. Anne Boleyn By William Hepworth Dixon

Ever wondered how fat Henry VIII really was? Or what made Mary I 'Bloody'? Over many hundreds of years royalty has had its fair share of accidents, rumours, scandals, misrepresentations and misconceptions. For instance, was George III's 'madness' caused by porphyria, or was it due to arsenic poisoning? Or what really happened between Queen Victoria and her Highland servant John Brown? In today's world, where newspapers clamour to report new revelations about the Royal Family, this informative and quirky book gives the inquisitive reader an in-depth look at the secrets of our past royals. For anyone interested in royal matters, or curious about what went on behind the palace walls, Raymond Lamont-Brown helps answer all those intriguing, confusing, mysterious and entertaining questions we might have about our monarchs.

How Fat Was Henry VIII?

Royalty.

The Six Wives of Henry VIII

The six-week New York Times bestselling history of the legendary six wives of Henry VIII--from an acclaimed biographer. "Admirably succeed(s) in bringing to life the six women who married England's ruler. . . ."--New York Times Book Review. 16 color plates. 32 pages of illustrations.

Henry VIII and His Six Wives

Seventeen-year-old Henry VIII was 'a youngling, he cares for nothing but girls and hunting.' Over the years, this didn't change much. Henry was considered a demi-god by his subjects, so each woman he chose was someone who had managed to stand out in a crowd of stunning ladies. Looking good was not enough (indeed, many of Henry's lovers were considered unattractive); she had to have something extra special to keep the king's interest. And Henry's women were every bit as intriguing as the man himself. In this book, Henry's mistresses are rescued from obscurity. The sixteenth century was a time of profound changes in religion and society across Europe – and some of Henry's lovers were at the forefront of influencing these events. Kelly Hart gives an excellent insight into the love life of our most popular king, and the twelve women who knew the man behind the mask.

The Wives of Henry VIII

No one in history had a more eventful career in matrimony than Henry VIII. His marriages were daring and tumultuous, and made instant legends of six very different women. In this remarkable study, David Starkey argues that the king was not a depraved philanderer but someone seeking happiness -- and a son. Knowingly or not, he elevated a group of women to extraordinary heights and changed the way a nation was governed. *Six Wives* is a masterful work of history that intimately examines the rituals of diplomacy, marriage, pregnancy, and religion that were part of daily life for women at the Tudor Court. Weaving new facts and fresh interpretations into a spellbinding account of the emotional drama surrounding Henry's six marriages, David Starkey reveals the central role that the queens played in determining policy. With an equally keen eye for romantic and political intrigue, he brilliantly recaptures the story of Henry's wives and the England they ruled.

The Mistresses of Henry VIII

Drawing upon the rich fund of documentary material from the Tudor period, Alison Weir, author of *Britain's Royal Families* and *The Princes in the Tower*, examines the lives of Henry VIII's wives.

Six Wives

The relationship between Queen Elizabeth I of England and her cousin, Mary Queen of Scots, is one of the most complex, tempestuous and fascinating in history. United in blood but divided by religion, the two women were in some ways uniquely close; in others, poles apart. Championed by English Catholics as the rightful Queen of England, Mary was nevertheless given protection by her cousin after she was deposed amid outrage at her immoral behaviour. Rumours of papist plots involving Mary were rife and Elizabeth was put under extreme pressure to be rid of this dangerous threat to her sovereignty and to the Protestant church in England. After much reluctance and procrastination Elizabeth finally signed Mary's death warrant. Alison Plowden shows how political fear brought out the worst and yet the best in these women, and how history was overshadowed for centuries afterwards.

The Six Wives of Henry VIII

Henry VIII is probably the best known king in English history, famous - even in his own day - for the notorious treatment of his wives. Yet Henry believed he acted only for the good of England. This beautifully illustrated Pitkin Guide looks at the life of this fascinating man. Look out for more Pitkin Guides on the very best of British history, heritage and travel.

Two Queens in One Isle

Author is a renowned expert on the Tudors. The story of Henry VIII's third queen, the wife who gave him what he most desired - a son.

King Henry VIII

Jane Seymour

The visitor's companion to the palaces, castles and houses associated with Henry VIII's six wives

Observations and remarks upon the lives and reigns of King Henry VIII., King Edward VI., Queen Mary I., Queen Elizabeth, and King James I., with particular characters ... of all their favourites, and the most eminent ... persons ... By the author of the History of England in 2 vol. 8o [i.e. The history of England faithfully extracted from authentic records, etc. London, 1702?]. Third edition

A study of Richard III that looks behind the myths to present an accurate picture of the man. This also looks at why he has remained an enigma for so long.

Henry VI, Margaret of Anjou and the Wars of the Roses

Despite five centuries of investigation by historians, the sinister deaths of the boy king Edward V and his younger brother Richard, Duke of York, remain two of the most fascinating murder mysteries in English history. Did Richard III really kill "the Princes in the Tower," as is commonly believed, or was the murderer someone else entirely? Carefully examining every shred of contemporary evidence as well as dozens of modern accounts, Alison Weir reconstructs the entire chain of events leading to the double murder. We are witnesses to the rivalry, ambition, intrigue, and struggle for power that culminated in the imprisonment of the princes and the hushed-up murders that secured Richard's claim to the throne as Richard III. A masterpiece of historical research and a riveting story of conspiracy and deception, *The Princes in the Tower* at last provides a solution to this age-old puzzle.

The Lives of the Kings & Queens of England

Take a tour with the author round a courtly palace and see what the kitchens, the bakery, the laundry, the bedrooms, the gardens and the privvies were like. Everything you could wish to know is here, as the book describes the different lifestyles of the court, and the people who served them.

Richard III

Elizabeth Woodville, *The White Queen* (2009), Margaret Beaufort, *The Red Queen* (2010), and Jacquetta, Lady Rivers, *The Rivers Woman* (2011) are the subjects of the first three novels in Philippa Gregory's *Cousins' War* series, and of the three biographical essays in this book. Philippa Gregory and two historians, leading experts in their field who helped Philippa to research the novels, tell the extraordinary

'true' stories of the life of these women who until now have been largely forgotten by history, their background and times, highlighting questions which are raised in the fiction and illuminating the novels. With a foreword by Philippa Gregory - in which Philippa writes revealingly about the differences between history and fiction and examines the gaps in the historical record - and beautifully illustrated with rare portraits, *The Women of the Cousins' War* is an exciting new addition to the Philippa Gregory oeuvre.

The Princes in the Tower

Draws on original documents, archaeology, and other sources to share the stories of Jacquetta, Duchess of Bedford; Elizabeth Woodville, the wife of Edward IV; and Margaret Beaufort, the founder of the Tudor dynasty.

Life in a Tudor Palace

The story of Anne's marriage to Henry and how the daughter of Cleves - out of all his wives - survived him.
