Scalia Dissents

Brilliant. Colorful. Visionary. Tenacious. Witty. Since his appointment to the Supreme Court in 1986, Associate Justice Antonin Scalia has been described as all of these things and for good reason. He is perhaps the best-known justice on the Supreme Court today and certainly the most controversial. Yet most Americans have probably not read even one of his several hundred Supreme Court opinions. In *Scalia Dissents*, Kevin Ring, former counsel to the U.S. Senate's Constitution Subcommittee, lets Justice Scalia speak for himself. This volume—the first of its kind—showcases the quotable justice's take on many of today's most contentious constitutional debates. *Scalia Dissents* contains over a dozen of the justice's most compelling and controversial opinions. Ring also provides helpful background on the opinions and a primer on Justice Scalia's judicial philosophy. *Scalia Dissents* is the perfect book for readers who love scintillating prose and penetrating insight on the most important constitutional issues of our time.

The Essential Scalia

Supreme Court Justice Antonin Scalia in his own words: the definitive collection of his opinions, speeches, and articles on the most essential and vexing legal questions, with an intimate foreword by Justice Elena Kagan “[Scalia’s writings] are as readable today as they were when they first appeared. . . . Especially illuminating to anyone who wants to unlock the mystery of why Ginsburg admired Scalia—or who wants to get a sense of where the Supreme Court may be headed.”—*The Wall Street Journal* A justice on the United States Supreme Court for three decades, Antonin Scalia transformed the way that judges, lawyers, and citizens think about the law. *The Essential Scalia* presents Justice Scalia on his own terms, allowing readers to understand the reasoning and insights that made him one of the most consequential jurists in American history. Known for his forceful intellect and remarkable wit, Scalia mastered the art of writing in a way that both educated and entertained. This comprehensive collection draws from the best of Scalia's opinions, essays, speeches, and testimony to paint a complete

and nuanced portrait of his jurisprudence. This compendium addresses the hot-button issues of the times, from abortion and the right to bear arms to marriage, free speech, religious liberty, and so much more. It also presents the justice's wise insights on perennial debates over the structure of government created by our Constitution and the proper methods for interpreting our laws. Brilliant and passionately argued, *The Essential Scalia* is an indispensable resource for anyone who wants to understand our Constitution, the American legal system, and one of our nation's most influential and highly regarded jurists and thinkers.

Scalia's Court

"The passing of this brilliant jurist is a great loss, but his writings—with their plain language and constitutional moorings—will guide generations to come." - Speaker of the House Paul Ryan

The sudden passing of Justice Antonin Scalia shook America. After almost thirty years on the Supreme Court, Scalia had become as integral to the institution as the hallowed room in which he sat. His wise-cracking interruptions during oral arguments, his unmatched legal wisdom, his unwavering dedication to the Constitution, and his blistering dissents defined his leadership role on the court and inspired new generations of policymakers and legal minds. Now, as Republicans and Democrats wage war over Scalia's lamentably empty Supreme Court seat, Kevin Ring, former counsel to the U.S. Senate's Constitution Subcommittee, has taken a close look at the cases that best illustrate Scalia's character, philosophy, and legacy. In *Scalia's Court: A Legacy of Landmark Opinions and Dissents*, Ring collects Scalia's most memorable opinions on free speech, separation of powers, race, religious freedom, the rights of the accused, abortion, and more; and intersperses Scalia's own words with an analysis of his legal reasoning and his lasting impact on American jurisprudence. "I don't worry about my legacy," Scalia once told an audience at the National Archives. "Just do your job right, and who cares?" Now that "the lion of American law has left the stage," as the U.S. Attorney General put it, it is for the rest of America to worry about his legacy—and to care.

Scalia

"[Murphy's] biography of Justice Scalia is patient and thorough, alive both intellectually and morally....Functions as an MRI scan of one of the most influential conservative thinkers of the twentieth century." (The New York Times): An authoritative, incisive and deeply researched book about one of the most controversial Supreme Court justices of our time. *Scalia: A Court of One* is the compelling story of one of the most polarizing figures to serve on the nation's highest court. Bruce Allen Murphy shows how Scalia changed the legal landscape through his controversial theories of textualism and originalism, interpreting the meaning of the Constitution's words as he claimed they were understood during the nation's Founding period. But Scalia's judicial conservatism is informed as much by his highly traditional Catholicism and political partisanship as by his reading of the Constitution; his opinionated speeches, contentious public appearances, and newsworthy interviews have made him a lightning rod for controversy. Scalia is "an intellectual biography of one of [the Supreme Court's] most colorful members" (Chicago Tribune), combined with an insightful analysis of the Supreme Court and its influence on American life over the past quarter century. Scalia began his career practicing law in Cleveland, Ohio, and rose to become the president's lawyer as the head of the Office of Legal Counsel for President Gerald R. Ford. His sterling academic and legal credentials led to his nomination by President Ronald Reagan to the Court of Appeals for the DC Circuit in 1982. In 1986, he successfully outmaneuvered the more senior Robert Bork to be appointed to the Supreme Court. Scalia's evident legal brilliance, ambition and personal magnetism led everyone to predict he would unite a new conservative majority under Chief Justice William Rehnquist and change American law in the process. Instead he became a Court of One. Rather than bringing the conservatives together, Scalia drove them apart. He attacked and alienated his more moderate colleagues Sandra Day O'Connor, David Souter, and Anthony Kennedy. Scalia prevented the conservative majority from coalescing for nearly two decades.

Antonin Scalia's Jurisprudence

In the new afterword Ralph Rossum covers Antonin Scalia's entire career and discusses the thirty-eight major opinions since the original 2006 publication, including *District of Columbia v. Heller*, his dissent in the Obamacare cases of *NFIB v. Sebelius* and *King v. Burwell*, his important recess appointments case of *NLRB v. Noel Canning*, his procedural decisions on the Fourth Amendment and the Confrontation Clause, his equal protection (racial preference) opinions, and *Hein v. Freedom from Religion Founda-*

tion. Lionized by the right and demonized by the left, Supreme Court Justice Antonin Scalia is the high court's quintessential conservative. Witty, outspoken, often abrasive, he is widely regarded as the most controversial member of the Court. This book is the first comprehensive, reasoned, and sympathetic analysis of how Scalia has decided cases during his entire twenty-year Supreme Court tenure. Ralph Rossum focuses on Scalia's more than 600 Supreme Court opinions and dissents-carefully wrought, passionately argued, and filled with well-turned phrases-which portray him as an eloquent defender of an "original meaning" jurisprudence. He also includes analyses of Scalia's Court of Appeals opinions for the D.C. circuit, his major law review articles as a law professor and judge, and his provocative book, *A Matter of Interpretation*. Rossum reveals Scalia's understanding of key issues confronting today's Court, such as the separation of powers, federalism, the free speech and press and religion clauses of the First Amendment, and the due process and equal protection clauses of the Fourteenth Amendment. He suggests that Scalia displays such a keen interest in defending federalism that he sometimes departs from text and tradition, and reveals that he has disagreed with other justices most often in decisions involving the meaning of the First Amendment's establishment clause. He also analyzes Scalia's positions on the commerce clause and habeas corpus clause of Article I, the take care clause of Article II, the criminal procedural provisions of Amendments Four through Eight, protection of state sovereign immunity in the Eleventh Amendment, and Congress's enforcement power under Section 5 of the Fourteenth Amendment. The first book to fully articulate the contours of Scalia's constitutional philosophy and jurisprudence, Rossum's insightful study ultimately depicts Scalia as a principled, consistent, and intelligent textualist who is fearless and resolute, notwithstanding the controversy he often inspires.

American Original

If the U.S. Supreme Court teaches us anything, it is that almost everything is open to interpretation. Almost. But what's inarguable is that, while the Court has witnessed a succession of larger-than-life jurists in its two-hundred-plus-year history, it has never seen the likes of Supreme Court Justice Antonin Scalia. Combative yet captivating, infuriating yet charming, the outspoken jurist remains a source of curiosity to observers across the political spectrum and on both sides of the ideological divide. But for all his public grandstanding, Scalia has managed to elude biographers—until now. In *American Original: The Life and Constitution of Supreme Court Justice Antonin Scalia*, the veteran Washington journalist Joan Biskupic presents for the first time a detailed portrait of this complicated figure and provides a comprehensive narrative that will engage Scalia's adherents and critics alike. Drawing on her long tenure covering the Court and on unprecedented access to the justice, Biskupic delves into the circumstances of his rise and the formation of his rigorous approach on the bench. This book shows us the man in power: his world, his journey, and the far-reaching consequences of a transformed legal landscape.

Scalia Speaks

This definitive collection of beloved Supreme Court Justice Antonin Scalia's finest speeches covers topics as varied as the law, faith, virtue, pastimes, and his heroes and friends. Featuring a foreword by longtime friend Justice Ruth Bader Ginsburg and an intimate introduction by his youngest son, this volume includes dozens of speeches, some deeply personal, that have never before been published. Christopher J. Scalia and the Justice's former law clerk Edward Whelan selected the speeches. Americans have long been inspired by Justice Scalia's ideas, delighted by his wit, and instructed by his intelligence. He was a sought-after speaker at commencements, convocations, and events across the country. *Scalia Speaks* will give readers the opportunity to encounter the legendary man more fully, helping them better understand the jurisprudence that made him one of the most important justices in the Court's history and introducing them to his broader insights on faith and life.

Dissenting Opinions of Justice Antonin Scalia

Introduction : why dissent? / Caleb Stegall -- Constitutional structure -- The judicial power -- Statutory interpretation -- The power of the police -- Speech -- Religion -- Social regulation

Justice Antonin Scalia Dissents

This is a sourcebook of Justice Antonin Scalia's major supreme court decisions, concurrences, and dissents. This entire book is included in my book "Justice Antonin Scalia Decisions, Concurrences, and

Dissents". Supreme court decisions are in the public domain and are freely available at such websites as supreme.justia.com and law.cornell.edu

Justice Scalia Dissents, Justice Thomas Dissents

This is a collection of major concurrences and dissents of Supreme Court Justice Antonin Scalia and Justice Clarence Thomas. Supreme court decisions are in the public domain and are freely available at such websites as supreme.justia.com and law.cornell.edu

Nino and Me

From legal expert and veteran author Bryan Garner comes a unique, intimate, and compelling memoir of his friendship with the late Supreme Court Justice Antonin Scalia. For almost thirty years, Antonin Scalia was arguably the most influential and controversial Justice on the United States Supreme Court. His dynamic and witty writing devoted to the Constitution has influenced an entire generation of judges. Based on his reputation for using scathing language to criticize liberal court decisions, many people presumed Scalia to be gruff and irascible. But to those who knew him as "Nino," he was characterized by his warmth, charm, devotion, fierce intelligence, and loyalty. Bryan Garner's friendship with Justice Scalia was instigated by celebrated writer David Foster Wallace and strengthened over their shared love of language. Despite their differing viewpoints on everything from gun control to the use of contractions, their literary and personal relationship flourished. Justice Scalia even officiated at Garner's wedding. In this humorous, touching, and surprisingly action-packed memoir, Garner gives a firsthand insight into the mind, habits, and faith of one of the most famous and misunderstood judges in the world.

The Justice of Contradictions

An eye-opening look at the influential Supreme Court justice who disrupted American jurisprudence in order to delegitimize opponents and establish a conservative legal order

Uncertain Justice

With the Supreme Court more influential than ever, this eye-opening book tells the story of how the Roberts Court is shaking the foundation of our nation's laws. From *Citizens United* to its momentous rulings regarding Obamacare and gay marriage, the Supreme Court under Chief Justice John Roberts has profoundly affected American life. Yet the court remains a mysterious institution, and the motivations of the nine men and women who serve for life are often obscure. Now, in *Uncertain Justice*, Laurence Tribe and Joshua Matz show the surprising extent to which the Roberts Court is revising the meaning of our Constitution. This essential book arrives at a make-or-break moment for the nation and the court. Political gridlock, cultural change, and technological progress mean that the court's decisions on key topics—including free speech, privacy, voting rights, and presidential power—could be uniquely durable. Acutely aware of their opportunity, the justices are rewriting critical aspects of constitutional law and redrawing the ground rules of American government. Tribe—one of the country's leading constitutional lawyers—and Matz dig deeply into the court's recent rulings, stepping beyond tired debates over judicial "activism" to draw out hidden meanings and silent battles. The undercurrents they reveal suggest a strikingly different vision for the future of our country, one that is sure to be hotly debated. Filled with original insights and compelling human stories, *Uncertain Justice* illuminates the most colorful story of all—how the Supreme Court and the Constitution frame the way we live.

The Making of a Justice

A "timely and hugely important" memoir of Justice John Paul Stevens's life on the Supreme Court (*New York Times*). When Justice John Paul Stevens retired from the Supreme Court of the United States in 2010, he left a legacy of service unequalled in the history of the Court. During his thirty-four-year tenure, Justice Stevens was a prolific writer, authoring more than 1000 opinions. In *The Making of a Justice*, he recounts his extraordinary life, offering an intimate and illuminating account of his service on the nation's highest court. Appointed by President Gerald Ford and eventually retiring during President Obama's first term, Justice Stevens has been witness to, and an integral part of, landmark changes in American society during some of the most important Supreme Court decisions over the last four decades. With stories of growing up in Chicago, his work as a naval traffic analyst at Pearl Harbor during World War II, and his early days in private practice, *The Making of a Justice* is a warm and fascinating account of Justice Stevens's unique and transformative American life.

A Matter of Interpretation

It's 13th-century Europe and a young monk, Michael Scot, has been asked by the Holy Roman Emperor to translate the works of Aristotle and recover his "lost" knowledge. The Scot sets to his task, traveling from the Emperor's Italian court to the translation schools of Toledo and from there to the Moorish library of Córdoba. But when the Pope deems the translations heretical, the Scot refuses to desist. So begins a battle for power between Church and State--one that has shaped how we view the world today.

My Own Words

"The first book from Ruth Bader Ginsburg since becoming a Supreme Court Justice in 1993--a ... collection of writings and speeches from the woman who has had [an] ... influence on law, women's rights, and popular culture"--

Garner's Modern American Usage

A guide to proper American English word usage, grammar, pronunciation, and style features examples of good and bad usage from the media.

The Death of Expertise

"In the early 1990s, a small group of "AIDS denialists," including a University of California professor named Peter Duesberg, argued against virtually the entire medical establishment's consensus that the human immunodeficiency virus (HIV) was the cause of Acquired Immune Deficiency Syndrome. Science thrives on such counterintuitive challenges, but there was no evidence for Duesberg's beliefs, which turned out to be baseless. Once researchers found HIV, doctors and public health officials were able to save countless lives through measures aimed at preventing its transmission"--

The Common Law

A comprehensive history of the people and cases that have changed history, this is the definitive account of the nation's highest court featuring a forward by Howard Zinn Recent changes in the Supreme Court have placed the venerable institution at the forefront of current affairs, making this comprehensive and engaging work as timely as ever. In the tradition of Howard Zinn's classic *A People's History of the United States*, Peter Irons chronicles the decisions that have influenced virtually every aspect of our society, from the debates over judicial power to controversial rulings in the past regarding slavery, racial segregation, and abortion, as well as more current cases about school prayer, the Bush/Gore election results, and "enemy combatants." To understand key issues facing the supreme court and the current battle for the court's ideological makeup, there is no better guide than Peter Irons. This revised and updated edition includes a foreword by Howard Zinn. "A sophisticated narrative history of the Supreme Court . . . [Irons] breathes abundant life into old documents and reminds readers that today's fiercest arguments about rights are the continuation of the endless American conversation." -Publisher's Weekly (starred review)

A People's History of the Supreme Court

NEW YORK TIMES BESTSELLER "I called this book *Out of Order* because it reflects my goal, which is to share a different side of the Supreme Court. Most people know the Court only as it exists between bangs of the gavel, when the Court comes to order to hear arguments or give opinions. But the stories of the Court and the Justices that come from the 'out of order' moments add to the richness of the Court as both a branch of our government and a human institution."—Justice Sandra Day O'Connor From Justice Sandra Day O'Connor, the first woman to sit on the United States Supreme Court, comes this fascinating book about the history and evolution of the highest court in the land. *Out of Order* sheds light on the centuries of change and upheaval that transformed the Supreme Court from its uncertain beginnings into the remarkable institution that thrives and endures today. From the early days of circuit-riding, when justices who also served as trial judges traveled thousands of miles per year on horseback to hear cases, to the changes in civil rights ushered in by Earl Warren and Thurgood Marshall; from foundational decisions such as *Marbury v. Madison* to modern-day cases such as *Hamdi v. Rumsfeld*, Justice O'Connor weaves together stories and lessons from the history of the Court, charting turning points and pivotal moments that have helped define our nation's progress. With unparalleled insight and her unique perspective as a history-making figure, Justice O'Connor takes us on a personal exploration, painting vivid pictures of Justices in history,

including Oliver Wendell Holmes Jr., one of the greatest jurists of all time; Thurgood Marshall, whose understated and succinct style would come to transform oral argument; William O. Douglas, called “The Lone Ranger” because of his impassioned and frequent dissents; and John Roberts, whom Justice O’Connor considers to be the finest practitioner of oral argument she has ever witnessed in Court. We get a rare glimpse into the Supreme Court’s inner workings: how cases are chosen for hearing; the personal relationships that exist among the Justices; and the customs and traditions, both public and private, that bind one generation of jurists to the next—from the seating arrangements at Court lunches to the fiercely competitive basketball games played in the Court Building’s top-floor gymnasium, the so-called “highest court in the land.” Wise, candid, and assured, *Out of Order* is a rich offering of inspiring stories of one of our country’s most important institutions, from one of our country’s most respected pioneers. Praise for *Out of Order* “[A] succinct, snappy account of how today’s court—so powerful, so controversial and so frequently dissected by the media—evolved from such startlingly humble and uncertain beginnings.”—*The New York Times* “A brief and accessible history of the nation’s highest court, narrated by a true historical figure and a jurisprudential giant.”—*The Boston Globe* “A vibrantly personal book [that] displays O’Connor’s uncommon common sense, her dry wit and her reverence for the nation’s institutions.”—*Richmond Times-Dispatch* “Full of riveting anecdotes . . . a compact history . . . albeit a more lighthearted, personality-filled one than you might find in a high school classroom.”—*Associated Press*

Out of Order

A Companion to Ronald Reagan evaluates in unprecedented detail the events, policies, politics, and people of Reagan’s administration. It assesses the scope and influence of his various careers within the context of the times, providing wide-ranging coverage of his administration, and his legacy. Assesses Reagan and his impact on the development of the United States based on new documentary evidence and engagement with the most recent secondary literature Offers a mix of historiographic chapters devoted to foreign and domestic policy, with topics integrated thematically and chronologically Includes a section on key figures associated politically and personally with Reagan

A Companion to Ronald Reagan

Speaking the Truth to America Ruth Bader Ginsburg became a Supreme Court Justice in 1993, but her popularity has exploded over the last couple of years as she has been adopted as a modern feminist icon. An octogenarian who has proven that disagreeing does not make one disagreeable, Ginsburg is well-known for her pithy observations as well as her strongly argued dissents. Beloved by many – including her ideological opposition, former Supreme Court Justice Antonin Scalia, who was her dear friend – Ginsburg’s wisdom has never been more relevant or more important to American democracy. Sample quotes: “Women belong in all places where decisions are being made...it shouldn’t be that women are the exception.” “Fight for the things you care about, but do it in a way that will lead others to join you.” “People ask me sometimes...When will there be enough women on the Court? And I say, ‘When there are nine.’ People are shocked. But there’d been nine men, and nobody’s ever raised a question about that.” “My mother told me two things constantly. One was to be a lady and the other was to be independent. For most girls growing up in the ‘40s, the most important degree was not your B.A. but your M.R.S.” “We have the oldest written constitution still in force in the world, and it starts out with three words, ‘We, the people.’”

You Can’t Spell Truth Without Ruth

This book explores the application of Scalia’s textualism and originalism to education law and reflects upon Scalia’s teachings and his pedagogy. Education law may seem to be an odd vehicle for considering Scalia’s constitutional approach, but thinking about schools requires attention to political fundamentals—freedom of speech, free exercise of religion, equality of opportunity, federalism, and the proper role of the expert. Legal scholars, philosophers, and political scientists provide both critiques and apologies for Scalia’s approach.

Scalia’s Constitution

We are all familiar with the image of the immensely clever judge who discerns the best rule of common law for the case at hand. According to U.S. Supreme Court Justice Antonin Scalia, a judge like this can maneuver through earlier cases to achieve the desired aim—“distinguishing one prior case on his left, straight-arming another one on his right, high-stepping away from another precedent about to tackle

him from the rear, until (bravo!) he reaches the goal—good law." But is this common-law mindset, which is appropriate in its place, suitable also in statutory and constitutional interpretation? In a witty and trenchant essay, Justice Scalia answers this question with a resounding negative. In exploring the neglected art of statutory interpretation, Scalia urges that judges resist the temptation to use legislative intention and legislative history. In his view, it is incompatible with democratic government to allow the meaning of a statute to be determined by what the judges think the lawgivers meant rather than by what the legislature actually promulgated. Eschewing the judicial lawmaking that is the essence of common law, judges should interpret statutes and regulations by focusing on the text itself. Scalia then extends this principle to constitutional law. He proposes that we abandon the notion of an everchanging Constitution and pay attention to the Constitution's original meaning. Although not subscribing to the "strict constructionism" that would prevent applying the Constitution to modern circumstances, Scalia emphatically rejects the idea that judges can properly "smuggle" in new rights or deny old rights by using the Due Process Clause, for instance. In fact, such judicial discretion might lead to the destruction of the Bill of Rights if a majority of the judges ever wished to reach that most undesirable of goals. This essay is followed by four commentaries by Professors Gordon Wood, Laurence Tribe, Mary Ann Glendon, and Ronald Dworkin, who engage Justice Scalia's ideas about judicial interpretation from varying standpoints. In the spirit of debate, Justice Scalia responds to these critics. Featuring a new foreword that discusses Scalia's impact, jurisprudence, and legacy, this witty and trenchant exchange illuminates the brilliance of one of the most influential legal minds of our time.

A Matter of Interpretation

The 2000 case of *Little Sisters Book and Art Emporium v. Customs Canada* provided Canada's highest court with its first opportunity to consider whether the analysis set out in *R. v. Butler* - in which the Supreme Court identified pornography as an issue of sex discrimination - applies to pornography intended for a lesbian or gay male audience. The Court held that it did, finding that, like heterosexual pornography, same-sex pornography also violates the sex equality interests of all Canadians. Christopher Kendall supports this finding, arguing that gay male pornography reinforces those social attitudes that create systemic inequality on the basis of sex and sexual orientation - misogyny and homophobia alike - by sexually conditioning gay men to those attitudes and practices. The author contends that as a result of litigation efforts like those brought by lesbian and gay activists in the *Little Sisters* case, the notion of empowerment and the rejection of those values that daily result in all that is anti-gay have been replaced with a misguided community ethic and identity politic that encourages inequality. This is best exemplified in the gay male pornography defended in *Little Sisters* as "liberation" and "central to sexual freedom." Gay Male Pornography rejects the equality claims of gay male pro-pornography advocates and argues that there is little to be gained from sexualized conformity. To date, no one has taken the position that gay male pornography violates the legal right to sex equality. This book does that and, as such, it will be of value to scholars of law, sociology, and gender studies, as well as to all who have an interest in equality and justice.

Gay Male Pornography

Henry Friendly is frequently grouped with Oliver Wendell Holmes, Louis Brandeis, Benjamin Cardozo, and Learned Hand as the best American jurists of the twentieth century. In this first, comprehensive biography of Friendly, David M. Dorsen opens a unique window onto how a judge of this caliber thinks and decides cases, and how Friendly lived his life. During his time on the Court of Appeals for the Second Circuit (1959–1986), Judge Friendly was revered as a conservative who exemplified the tradition of judicial restraint. But he demonstrated remarkable creativity in circumventing precedent and formulating new rules in multiple areas of the law. *Henry Friendly, Greatest Judge of His Era* describes the inner workings of Friendly's chambers and his craftsmanship in writing opinions. His articles on habeas corpus, the Fourth Amendment, self-incrimination, and the reach of the state are still cited by the Supreme Court. Dorsen draws on extensive research, employing private memoranda between the judges and interviews with all fifty-one of Friendly's law clerks—a veritable Who's Who that includes Chief Justice John R. Roberts, Jr., six other federal judges, and seventeen professors at Harvard, Yale, Stanford, and elsewhere. In his Foreword, Judge Richard Posner writes: "David Dorsen has produced the most illuminating, the most useful, judicial biography that I have ever read . . . We learn more about the American judiciary at its best than we can learn from any other . . . Some of what I've learned has already induced me to make certain changes in my judicial practice."

Henry Friendly, Greatest Judge of His Era

"This book builds on Cicero's foundation by examining the Supreme Court of the United States in terms of how each justice determines his or her position in First Amendment cases. In addition, the profiles drawn in this study can help future Ciceros win their cases before the sitting Court"--Provided by publisher.

A First Amendment Profile of the Supreme Court

A deeply researched portrait of the controversial Supreme Court justice includes coverage of his career achievements, his appointment in 1986 and his party-dividing resolve to support agendas from an ethical, rather than political, perspective.

Scalia

This Encyclopedia on American history and law is the first devoted to examining the issues of civil liberties and their relevance to major current events while providing a historical context and a philosophical discussion of the evolution of civil liberties. Coverage includes the traditional civil liberties: freedom of speech, press, religion, assembly, and petition. In addition, it also covers concerns such as privacy, the rights of the accused, and national security. Alphabetically organized for ease of access, the articles range in length from 250 words for a brief biography to 5,000 words for in-depth analyses. Entries are organized around the following themes: organizations and government bodies legislation and legislative action, statutes, and acts historical overviews biographies cases themes, issues, concepts, and events. The Encyclopedia of American Civil Liberties is an essential reference for students and researchers as well as for the general reader to help better understand the world we live in today.

Encyclopedia of American Civil Liberties

This book explores the various connections between Law and Opera, providing a comprehensive, multi-national, and multidisciplinary (with approaches from jurists, philosophers, musicologist, historians) resource on the subject. Further, it makes a valuable contribution to studies on law and the humanities. While, for example, the relationship between law and literature has been extensively researched, the relationship between Law and Opera remains largely overlooked. The book approaches the topic from three perspectives in three main sections: Law in Opera, Law on Opera, and Law around Opera.

Law and Opera

The First Amendment to the U.S. Constitution guarantees a free press and free speech, but those rights are not unlimited. In *Protecting Hate Speech: R.A.V. v. St. Paul*, award-winning author Susan Dudley Gold looks at the issues involved when the Minnesota city of St. Paul tried to ban hate speech within its borders. The entertaining account of the case explores the fine line legislators must walk when putting restrictions on free speech. The U.S. Supreme Court's decision in the case has become a testament to the sanctity of the First Amendment, even when it protects hateful speech and symbol acts that most Americans despise.

Protecting Hate Speech: R.A.V. v. St. Paul

This volume offers perspectives from political scientists, legal scholars, and practicing judges as they seek to answer the question of how much law actually has to do with judicial behavior and decision-making, and what it means for society at large.

What's Law Got to Do With It?

The sudden passing of Justice Antonin Scalia shook America. After almost thirty years on the Supreme Court, Scalia had become as integral to the institution as the hallowed room in which he sat. His wisecracking interruptions during oral arguments, his unmatched legal wisdom, his unwavering dedication to the Constitution, and his blistering dissents defined his leadership role on the court and inspired new generations of policymakers and legal minds. Now, as Republicans and Democrats wage war over Scalia's lamentably empty Supreme Court seat, Kevin Ring, former counsel to the U.S. Senate's Constitution Subcommittee, has taken a close look at the cases that best illustrate Scalia's character, philosophy, and legacy. In *Scalia's Court: A Legacy of Landmark Opinions and Dissents*, Ring collects Scalia's most memorable opinions on free speech, separation of powers, race, religious

freedom, the rights of the accused, abortion, and more; and intersperses Scalia's own words with an analysis of his legal reasoning and his lasting impact on American jurisprudence. "I don't worry about my legacy," Scalia once told an audience at the National Archives. "Just do your job right, and who cares?" Now that "the lion of American law has left the stage," as the U.S. Attorney General put it, it is for the rest of America to worry about his legacy—and to care.

Scalia's Court

With dramatic storytelling and hard-hitting facts, former Marine, Capitol Hill lawyer, and Reagan Administration official William Pendley puts human faces on Westerners' historic and often precedent-setting fights against big government.

Warriors for the West

In their professional lives, courtroom lawyers must do these two things well: speak persuasively and write persuasively. In this noteworthy book, two noted legal writers systematically present every important idea about judicial persuasion in a fresh, entertaining way. The book covers the essentials of sound legal reasoning, including how to develop the syllogism that underlies any argument. From there the authors explain the art of brief writing, especially what to include and what to omit, so that you can induce the judge to focus closely on your arguments. Finally, they show what it takes to succeed in oral argument.

Making Your Case

This new Liberty Fund edition of James McClellan's classic work on the quest for liberty, order, and justice in England and America includes the author's revisions to the original edition published in 1989 by the Center for Judicial Studies. Unlike most textbooks in American Government, Liberty, Order, and Justice seeks to familiarize the student with the basic principles of the Constitution, and to explain their origin, meaning, and purpose. Particular emphasis is placed on federalism and the separation of powers. These features of the book, together with its extensive and unique historical illustrations, make this new edition of Liberty, Order, and Justice especially suitable for introductory classes in American Government and for high school students in advanced placement courses.

Liberty, Order, and Justice

This book contributes to the international debate on Indigenous Peoples Law, containing both in-depth research of Scandinavian historical and legal contexts with respect to the Sami and demonstrating current stances in Sami Law research. In addition to chapters by well-known Scandinavian experts, the collection also comments on the legal situation in Norway, Sweden and Finland in relation to other jurisdictions and indigenous peoples, in particular with experiences and developments in Canada and New Zealand. The book displays the current research frontier among the Scandinavian countries, what the present-day issues are and how the nation states have responded so far to claims of Sami rights. The study sheds light on the contrasts between the three countries on the one hand, and between Scandinavia, Canada and New Zealand on the other, showing that although there are obvious differences, for instance related to colonisation and present legal solutions, there are also shared experiences among the indigenous peoples and the States. Filling a gap in an under-researched area of Sami rights, this book will be a valuable resource for academics, researchers and policy-makers with an interest in Indigenous Peoples Law and comparative research.

Indigenous Rights in Scandinavia

"This book is the first comprehensive, reasoned, and sympathetic analysis of how Scalia has decided cases during his entire nineteen-year Supreme Court tenure. Ralph Rossum focuses on Scalia's more than 600 Supreme Court opinions and dissents - carefully wrought, passionately argued, and filled with well-turned phrases - which portray him as an eloquent defender of an "original meaning" jurisprudence. He also includes analyses of Scalia's Court of Appeals opinions for the D.C. Circuit, his major law review articles as a law professor and judge, and his provocative book, *A Matter of Interpretation*."--Jacket.

Antonin Scalia's Jurisprudence
