Ti Niko

Réputée pour ses musiciens et ses peintres, la République Démocratique du Congo constitue également l'un des pays les plus florissants du continent africain en matière de bande dessinée. Celle-ci a fait son apparition dans les journaux du pays en 1921 et n'a jamais cessé de se développer. Depuis l'épopée flamboyante de la revue Jeunes pour jeunes en 1969 jusqu'à la réussite de Pat Masioni aux Etats-Unis en passant par Barly Baruti, premier Congolais à publier en Europe ou Mongo Sise, collaborateur du studio Hergé, la saga de la BD congolaise est ponctuée d'événements cocasses et riche de talents individuels. L'auteur revient sur cette histoire méconnue tout au long de ces 285 pages remplies d'illustrations.

Histoire de la bande dessinée congolaise

Includes, 1982-1995: Les Livres du mois, also published separately.

Livres hebdo

Filmatised in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet

Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Livres de France

This volume appears now finally in English, sixty years after the death of its author, Lucien Tesnière. It has been translated from the French original into German, Spanish, Italian, and Russian, and now at long last into English as well. The volume contains a comprehensive approach to the syntax of natural languages, an approach that is foundational for an entire stream in the modern study of syntax and grammar. This stream is known today as dependency grammar (DG). Drawing examples from dozens of languages, many of which he was proficient in, Tesnière presents insightful analyses of numerous phenomena of syntax. Among the highlights are the concepts of valency and head-initial vs. head-final languages. These concepts are now taken for granted by most modern theories of syntax, even by phrase structure grammars, which represent, in a sense, the opposite sort of approach to syntax from what Tesnière was advocating. Now Open Access as part of the Knowledge Unlatched 2017 Backlist Collection.

Index of Research Results

The Medieval Warm Period and the Little Ice Age are widely considered to have been the major features of the Earth's climate over the past 1000 years. In this volume the issue of whether there really was a Medieval Warm Period, and if so, where and when, is addressed. The types of evidence examined include historical documents, tree rings, ice cores, glacial-geological records, borehole temperature, paleoecological data and records of solar receipts inferred from cosmogenic isotopes. Growth in the availability of several of these types of data in recent years, and technical advances in their derivation and use, warrant this state-of-the-art re-examination of Medieval Warm Period. The book will be of value to all those with an interest in the natural variability of the climate system, for example those concerned with anticipating and detecting anthropogenic climate change.

Twelve Years a Slave

The protagonist of the series is a boy named Sam. Together with his dog/best friend they explore the beautiful island of Mauritius on the first of one of their many adventures. On their journey, they uncover a lot of secrets, mysteries and surprises. The story is partly fictional and partly factional as many of these experiences were a once in a lifetime situation. Throughout the series, Sam who is seemingly normal discovers that he has superhero powers of the body, mind and soul. As he follows his journey, he uncovers his powers as it unlocks new abilities and realms that he had thought was never possible to travel to.

Elements of French Grammar

Nonfiction. "This is not just the biography of a talented jazz musician, but a fascinating chronicle of the trials, tribulations, and triumphs of a few committed individuals who tried to create beauty in a land of hostility and segregation. Chris McGregor understood that music is more than an organization of sound, it is a measure of human relationships, and can be used to inspire and exhilarate as well as heal. Maxine McGregor's vivid descriptions of their world, and the many passages in Chris's own words, give us insight into the mind of a man for whom music was as natural and necessary as the air we breathe"--Art Lange (co-editor of *Moment's Notice: Jazz in Poetry and Prose*).

Elements of Structural Syntax

Situated along the Senegal River, the Kingdom of Waalo was the smallest of the Wolof states of Senegal, but it illustrates the broader consequences of a shift from trans-Saharan to trans-Atlantic commerce during a time of competing European, Muslim, and indigenous African forces. From the establishment of a French trading post in 1659 to the early nineteenth century, the history of Waalo was closely tied to French interests in St. Louis, popular revolutionary Islamic movements, and internal rivalries between competing royal families and provincial leaders. Stimulating Waalo's socio-political changes were the devastations and fluctuations of the Atlantic slave trade, as well as the Muslim attack on its aristocracy. Torn by internal divisions, devastated by French and Berber incursions, Waalo's institutions and its economy declined. Residents of Waalo sought their own solutions only for external agents to ruin their efforts. By the nineteenth century, the French attempted to establish a

plantation economy in Waalo, culminating in their military control of the state and the Senegal valley. This newly translated study is a vital tool in our understanding of Senegal's history, its place in the era of trans-Saharan and trans-Atlantic commerce, and its development into the present. The book should be of value to African studies scholars, anthropologists, and historians of Africa, colonialism, empire, and post-colonialism.

The Medieval Warm Period

In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

The SugarCane Boy

This is the most comprehensive treatment of a significant episode of the historical avant-garde period to which many refer but with little concrete background. According to Charlotte Douglas (Russian and Slavic Studies, NYU), Zaum "is an encyclopedic account of zaum or 'beyond sense,' the most distinctive feature of Russian avant-garde art and poetry early in the 20th century. Janecek has mined a myriad of arcane and inaccessible sources, gathered the entire historical record in one place, and made it readable and comprehensible. His account of zaum theory and practice will be indispensable for anyone interested in modern poetry and art. Certainly it will become a standard text for all students of Russian Futurism."

Agathiae Myrinaei Historiarum Libri Quinque

This book is a volume in the Penn Press Anniversary Collection. To mark its 125th anniversary in 2015, the University of Pennsylvania Press rereleased more than 1,100 titles from Penn Press's distinguished backlist from 1899-1999 that had fallen out of print. Spanning an entire century, the Anniversary Collection offers peer-reviewed scholarship in a wide range of subject areas.

Boswelliana

Twenty-seven stories by a Serbian writer, many dealing with the destruction of the European Jewish culture in World War II. Others are surrealistic, such as Plastic Combs, whose protagonists are able to talk with inanimate matter.

Chris McGregor and the Brotherhood of Breath

An irreverent and charming collection of deeply personal essays about the joys of low pop culture and bad taste, exploring coming of age in the 2000s in the age of Hot Topic, Creed, and frosted lip gloss—from the James Beard Award-nominated writer of the Catapult column "Store-Bought Is Fine" Tacky is about the power of pop culture—like any art—to imprint itself on our lives and shape our experiences, no matter one's commitment to "good" taste. These fourteen essays are a nostalgia-soaked antidote to the millennial generation's obsession with irony, putting the aesthetics we hate to love—snakeskin pants, Sex and the City, Cheesecake Factory's gargantuan menu—into kinder and sharper perspective. Each essay revolves around a different maligned (and yet, Rax would argue, vital) cultural artifact, providing thoughtful, even romantic meditations on desire, love, and the power of nostalgia. An essay about the gym-tan-laundry exuberance of Jersey Shore morphs into an excavation of grief over the death of her father; in "You Wanna Be On Top," Rax writes about friendship

and early aughts girlhood; in another, Guy Fieri helps her heal from an abusive relationship. The result is a collection that captures the personal and generational experience of finding joy in caring just a little too much with clarity, heartfelt honesty, and Rax King's trademark humor. A VINTAGE ORIGINAL

The Kingdom of Waalo

Jean-Claude Servan-Schreiber enlisted in the French army at the outset of World War II and quickly rose to the rank of lieutenant. Despite his patriotism and courage in defending his country, in which he narrowly escaped death several times, he suffered the bigotry of his fellow soldiers until he was expelled from the army for being Jewish. He sought exile in Spain and was deported and interned in a concentration camp before he managed to join the Allied army in North Africa. He eventually participated in the triumphant liberation of his homeland. His story, almost forgotten, would have remained unknown if not for the efforts of the award-winning and internationally bestselling author Andrei Makine. Retelling Servan-Schreiber's dramatic life with a novelist's skill, he reveals a man who embraced experience in all its joys and sorrows, who knew the pleasures of love amid the savagery of war, and who could forgive the hatred he was subjected to but never forget it. In Servan-Schreiber, who is now nearly a centenarian, Makine celebrates virtues that every citizen should be reminded of: self-sacrifice, honor, love of country, and true heroism.

The Rejection of Consequentialism

You're no idiot, of course. Money's always on your mind; if you're not working to make more, you're wondering where it all went. Will you have to give up movies and CDs to get your bank account to grow? Play it smart and you can have it all! Easy ways to get a grip on your expenses. -Make sense of bank and credit card statements. -Work wise and shop smart; get the most of your money. -Pay less for the things you buy - even designer labels! -Learn what it takes to be a teen entrepreneur.

Zaum

Essays, stories and a play set in Yugoslavia. The title piece, written by Dubravka Ugresic, is a satire on murderous folklore, while Bogdan Bogdanovic's The City of Death is on Belgrade.

The Continuations of the Old French Perceval of Chrétien de Troyes, Volume 2

Theodor Seuss Geisel Honor Award winner! "What do you get when you cross a crusty alligator and a perky bird? A surprising friendship you'll be sure to cheer for. Beak and Ally is a warm, funny winner!" —Terri Libenson, author of the New York Times bestselling Emmie & Friends series A brand-new early reader graphic novel series about finding friendship in unexpected places! This fun and funny buddy comedy is perfect for fans of Narwhal & Jelly, emerging readers, and all kids who love comics. Ally the alligator is perfectly happy being alone . . . until one day a noisy bird named Beak lands on her snout. Beak thinks Ally is lonely and needs a friend. He has all sorts of friendship goals in mind, like riding bikes together, going to the movies together, and even solving mysteries together! But when a Long-Billed Party Pooper crashes Beak's nest-warming party, Ally decides to show Beak something important to her: sticking up for what's right.

Words Are Something Else

Poetry. Women's Studies. Essay. Translation Theory. Translated from the German by Sophie Seita. "This bi-floral or even tri-floral book of poems is for falselandy neighbouring nearspeakers who prefer to hold ear to phoneme to wit. Arranged according to the pleasures of a collaborative conversation between co-translating poets, sinuous between the structured palate and the muscular tongue, Subsisters coheres by means of a joyous principle of augmentation. Wolf and Seita have rendered authority moot; Value here is chosen conviviality. Lightness, charm and play clarify the discovery that all language is polylingual, all worth in shared joy only."--Lisa Robertson

Tacky

Writing is one of humankind's greatest inventions, and modern societies could not function if their citizens could not read and write. How do skilled readers pick up meaning from markings on a page

so quickly, and how do children learn to do so? The chapters in the Oxford Handbook of Reading synthesize research on these topics from fields ranging from vision science to cognitive psychology and education, focusing on how studies using a cognitive approach can shed light on how the reading process works. To set the stage, the opening chapters present information about writing systems and methods of studying reading, including those that examine speeded responses to individual words as well as those that use eye movement technology to determine how sentences and short passages of text are processed. The following section discusses the identification of single words by skilled readers, as well as insights from studies of adults with reading disabilities due to brain damage. Another section considers how skilled readers read a text silently, addressing such issues as the role of sound in silent reading and how readers' eyes move through texts. Detailed quantitative models of the reading process are proposed throughout. The final sections deal with how children learn to read and spell, and how they should be taught to do so. These chapters review research with learners of different languages and those who speak different dialects of a language; discuss children who develop typically as well as those who exhibit specific disabilities in reading; and address questions about how reading should be taught with populations ranging from preschoolers to adolescents, and how research findings have influenced education. The Oxford Handbook of Reading will benefit researchers and graduate students in the fields of cognitive psychology, developmental psychology, education, and related fields (e.g., speech and language pathology) who are interested in reading, reading instruction, or reading disorders.

The Mole Men

This highly original and personal exploration of Tadao Ando's work, one of Japan's leading architects, traverses both the physical and spiritual world. In 2012, Philippe Seclier visited Tadao Ando's iconic Church of the Light, and was immediately compelled to journey around the world to further study the architect's buildings. This unique presentation of Ando's work is the result of what turned into a nine-year project to photograph 130 buildings. Walking around each structure, trying to find the proper framing, helped Seclier understand Ando's genius for siting and composition. Loosely organized by chronology, each building is represented in numerous black and white images, arranged like a mosaic on the page. These fragmented views correspond to Ando's own philosophy of the logic of structure and geometry. This "atlas" embraces not only the geographic but also thematic range of Ando's oeuvre—from transit stations in Tokyo and Kobe to art museums in Fort Worth, Texas and Provence, France; from an artists' retreat on the Mexican coast to the now-demolished Piccadilly Gardens in Manchester, England; from a theater in Milan, Italy, to an upscale restaurant in New York City. Seclier's photographs of Ando's numerous religious structures brilliantly illustrate his use of light and shadow to evoke spiritual depth and timelessness while his short texts offer concise observations of each building. A helpful appendix pinpoints the geographic diversity and range of Ando's oeuvre.

Lieutenant Schreiber's Country

The Complete Idiot's Guide to Money for Teens

A shrewd, laugh-out-loud parody of E. L. James's bestselling "Fifty Shades" series.

Balkan Blues

Hieronymus Bosch (1450-1516) is, without any doubt, one of the most famous artists in the history of Netherlandish painting. This book explores his best-known paintings and drawings, showing them as never before in stunning, full-page details. It is organized by characteristic themes in Bosch's work, such as faces, heaven and hell, the four elements, landscapes, and creatures both fantastic and monstrous. Readers are treated to an exceptional view of masterpieces like The Garden of Earthly Delights, The Haywain Triptych, The Temptation of St Anthony and The Seven Deadly Sins. Till-Holger Borchert, Director of the Bruges Museums and an expert on Netherlandish art, guides us through the painter's oeuvre in clear and accessible language, and from less familiar and surprising angles.

GENOME BIOPHYSICS.

Plant genetic engineering has revolutionized our ability to produce genetically improved plant varieties. A large portion of our major crops have undergone genetic improvement through the use of recombinant DNA techniques in which microorganisms play a vital role. The cross-kingdom transfer of genes

to incorporate novel phenotypes into plants has utilized microbes at every step-from cloning and characterization of a gene to the production of a genetically engineered plant. This book covers the important aspects of Microbial Biotechnology in Agriculture and Aquaculture with an aim to improve crop yield.

Beak & Ally #1: Unlikely Friends

In this quiet, subdued tale, a middle-aged office worker, divorced and alienated from his only son, meets up with two childhood friends who are similarly adrift, without passions or prospects. He's looking for a second act to his mournful life, seeking the harbor of love and a true connection with his son.

Subsisters

A collection of the stories, legends, and rituals surrounding Christmas, featuring colorfully illustrated lithographs. This festive follow-up to *The Little Book of Saints* and *The Little Book of Angels* explores the wonderful rituals and rich history surrounding Christmas. From the story of the nativity to the legends that have inspired beloved holiday traditions (like why Father Christmas arrives through the chimney), this collection includes Christmas customs from around the world. Beautifully illustrated with color lithographs taken from missals and prayer books, this joyful little book is a Christmas treasure for the whole family to gather around year after year.

The Oxford Handbook of Reading

"The book that best describes how an Islamic Fundamentalist is formed." *New York Times* How does a handsome young man who keeps company with poets and dreams of fame and fortune in the movie business turn into a brutal killer who massacres women and children without turning a hair? The story follows Nafa Walid, heart-throb of the Casbah, as he gradually loses control of his destiny and becomes drawn into the Islamic Fundamentalist movement. *Wolf Dreams* illustrates what happens when disillusion intersects with the persuasive voice of fundamentalism and the chaos of civil war.

Atlas: Tadao Ando

While on a school trip to Edinburgh, Scotland, sixteen-year-old Scarlett is reunited with Callum McAndrew, as well as her former St. Tabby's cohorts, providing plenty of suspects when she is targeted in a series of attacks.

Meaning and the lexicon

He's a down-on-his-luck janitor with aspirations of writing the great American trash novel. She's the spoiled, sharp-tongued boss's daughter, always looking for a creative way to spice up her boring life. Normally, these two would never meet, but a higher power has different plans for both of them. The major motion picture from 20th Century Fox starring Ewan McGregor, Cameron Diaz and Holly Hunter hits the box office in October.

Fifty Shames of Earl Grey

Poems.

Bosch in Detail

GENERAL FICTION (CHILDREN'S / TEENAGE). London is dirty, distant and dangerous ...but that's where orphan Tom Falconer is heading. And he's got a whole assortment of vicious criminals hot on his heels. Tom is helpless and alone until he meets Moll Cutpurse, a thirteen-year-old pickpocket. Together they find themselves chased across the city by the murderous Ratsey. But it's only on the first night of a new play - *The Devil and his Boy* - that Tom realizes that the fate of the Queen and indeed the entire country rests in his hand. Ages 9+

Principles of Plant Virology

A soft, snuggly book, with cushiony padded pages in bold, bright colours featuring Maisy and her favourite friends. Suitable for a parent and baby to share at bedtime - or any time - it offers a special introduction to a whole world of pleasure through reading.
