

The Tudor Rose Princess Mary Henry Viii's Sister

[#Princess Mary Tudor](#) [#Henry VIII sister](#) [#Tudor Rose history](#) [#English royal family](#) [#Mary Tudor biography](#)

Princess Mary, famously known as a sister of King Henry VIII and often associated with the iconic Tudor Rose, played a significant role within the tumultuous Tudor dynasty. Her life was intertwined with royal politics, power struggles, and the grand narrative of English history during a pivotal era. This fascinating period saw her navigate complex alliances and family ties, making her a compelling figure in the royal lineage.

The Cambridge Companion to Nelson Mandela

Nelson Mandela is one of the most revered figures of our time. The essays in this Companion, written by experts in history, anthropology, jurisprudence, cinema, literature, and visual studies, examine how Mandela became the icon he is today and ponder the meanings and uses of his internationally recognizable image.

The Cambridge Companion to Nelson Mandela

"Nelson Mandela is one of the most revered figures of our time. He committed himself to a compelling political cause, suffered a long prison sentence, and led his violent and divided country to a peaceful democratic transition. His legacy, however, is not uncontested: his decision to embark on an armed struggle in the 1960s, his solitary talks with apartheid officials in the 1980s, and the economic policies adopted during his presidency still spark intense debate. The essays in this Companion, written by experts in history, anthropology, jurisprudence, cinema, literature, and visual studies, address these and other issues. They examine how Mandela became the icon he is today and consider the meanings and uses of his internationally recognizable image. Their overarching concerns include Mandela's relation to "tradition" and "modernity," the impact of his most famous public performances, the oscillation between Africanist and non-racial positions in South Africa, and the politics of gender and national sentiment. The volume concludes with a meditation on Mandela's legacy in the twenty-first century and a detailed guide to further reading"--

The Cambridge Companion to the African Novel

Africa's strong tradition of storytelling has long been an expression of an oral narrative culture. African writers such as Amos Tutuola, Naguib Mahfouz, Wole Soyinka and J. M. Coetzee have adapted these older forms to develop and enhance the genre of the novel, in a shift from the oral mode to print. Comprehensive in scope, these new essays cover the fiction in the European languages from North Africa and Africa south of the Sahara, as well as in Arabic. They highlight the themes and styles of the African novel through an examination of the works that have either attained canonical status - an entire chapter is devoted to the work of Chinua Achebe - or can be expected to do so. Including a guide to further reading and a chronology, this is the ideal starting-point for students of African and world literatures.

The Cambridge Companion to Dietrich Bonhoeffer

This Companion serves as a guide for readers wanting to explore the thought and legacy of the great German theologian Dietrich Bonhoeffer (1906-45). The book shows why Bonhoeffer remains such an attractive figure to so many people of diverse backgrounds. Its chapters, written by authors from differing national, theological and church contexts, provide a helpful introduction to, and commentary on, Bonhoeffer's life, work and writing and so guide the reader along the complex paths of his thought. Experts set out comprehensively Bonhoeffer's political, social and cultural contexts, and offer biographical information which is indispensable for the understanding of his theology. Major themes arising from the theology, and different interpretations to it, lead the reader into a dialogue with this most influential of thinkers who remains both fascinating and challenging. There is a chronology, a glossary and an index.

The Cambridge History of South African Literature

South Africa's unique history has produced literatures in many languages, in both oral and written forms, reflecting the diversity in the cultural histories and experiences of its people. The Cambridge History offers a comprehensive, multi-authored history of South African literature in all eleven official languages (and more minor ones) of the country, produced by a team of over forty international experts,

including contributors from all of the major regions and language groups of South Africa. It will provide a complete portrait of South Africa's literary production, organised as a chronological history from the oral traditions existing before colonial settlement, to the post-apartheid revision of the past. In a field marked by controversy, this volume is more fully representative than any existing account of South Africa's literary history. It will make a unique contribution to Commonwealth, international and postcolonial studies and serve as a definitive reference work for decades to come.

Long Walk to Freedom

"Essential reading for anyone who wants to understand history – and then go out and change it."
—President Barack Obama
Nelson Mandela was one of the great moral and political leaders of his time: an international hero whose lifelong dedication to the fight against racial oppression in South Africa won him the Nobel Peace Prize and the presidency of his country. After his triumphant release in 1990 from more than a quarter-century of imprisonment, Mandela was at the center of the most compelling and inspiring political drama in the world. As president of the African National Congress and head of South Africa's antiapartheid movement, he was instrumental in moving the nation toward multiracial government and majority rule. He is still revered everywhere as a vital force in the fight for human rights and racial equality. *Long Walk to Freedom* is his moving and exhilarating autobiography, destined to take its place among the finest memoirs of history's greatest figures. Here for the first time, Nelson Rolihlahla Mandela told the extraordinary story of his life -- an epic of struggle, setback, renewed hope, and ultimate triumph. The book that inspired the major motion picture *Mandela: Long Walk to Freedom*.

The Cambridge Companion to Modernism

In *The Cambridge Companion to Modernism*, ten eminent scholars from Britain and the United States offer timely new appraisals of the revolutionary cultural transformations of the first decades of the twentieth century. Chapters on the major literary genres, intellectual, political and institutional contexts, film and the visual arts, provide both close analyses of individual works and a broader set of interpretive narratives. A chronology and guide to further reading supply valuable orientation for the study of Modernism. Readers will be able to use the book at once as a standard work of reference and as a stimulating source of compelling new readings of works by writers and artists from Joyce and Woolf to Stein, Picasso, Chaplin, H. D. and Freud, and many others. Students will find much-needed help with the difficulties of approaching Modernism, while the essays' original contributions will send scholars back to this volume for stimulating re-evaluation.

Nelson Mandela

Nelson Mandela: A Reference Guide to His Life and Works cover the life of Nelson Rolihlahla Mandela who was a freedom fighter, a political prisoner, Nobel Peace Prize winner and first president of a democratic South Africa. This book guides readers in understanding the background to Mandela's life and the context of his political career and it emphasizes the perspectives and philosophies that formed Mandela as he grew up in the world of segregationist and apartheid South Africa. Includes a detailed chronology of Mandela's life, family, and work. The A to Z section includes the major events, places, and people in Mandela's life. The bibliography includes a list of publications concerning his life and work. The index thoroughly cross-references the chronological and encyclopedic entries.

The Cambridge Companion to Hip-Hop

This Companion covers the hip-hop elements, methods of studying hip-hop, and case studies from Nerdcore to Turkish-German and Japanese hip-hop.

Mandela

This official companion book to the epic major feature film *Mandela: Long Walk to Freedom* retraces the life of Nelson Mandela, weaving together his own words and historic humanitarian efforts with cinematic narrative and exclusive behind-the-scenes content. It's a movie tie-in unlike any other: a combination of dramatic recreations and history, featuring film stills alongside archival photographs of actual events; commentary from the acclaimed cast and filmmakers plus interviews with Mandela's own family and comrades; excerpts from his books and personal papers, with lush, full-color panoramas of the South African landscapes where the film was shot on location. Fans of the movie and Mandela admirers,

whatever their age, will relish this unique look at the making of an epic motion picture and the life of a beloved historical icon.

The New Cambridge Companion to Nietzsche

Provides comprehensive and up-to-date coverage of Nietzsche's philosophy, his key works and themes, his major influences and his legacy.

Leading Like Madiba

This is a book about a many-sided man whose legacy is his unquenchable desire to spend himself for the well-being of others. Through a series of stories told by men and women about how Nelson Mandela touched their lives, the book shows what it is that has made him one of the greatest people of our time: the way he has managed to inspire people through ordinary human actions. Here in essence are some of the key qualities of great leadership. Most of the stories in this book are from ordinary men and women. A few came from newspapers, television and magazines. Whether they happened exactly as they are narrated is not important. What is true about these stories is that they are an attempt by people to describe the 'Madiba phenomenon'. They are a way in which people seek to treasure what Mandela has taught the world. Their significance lies in their ability to inspire those that share and listen to them.

Reassessing Mandela

Seven years since his death (2013), Nelson Mandela still occupies an extraordinary place in the global imagination. Internationally, Mandela's renown seems intact and invulnerable. In South Africa, however, his legacy and his place in the country's history have become matters of contention and dispute, especially amongst younger black South Africans. The essays in this book analyse aspects of Mandela's life in the context of South Africa's national history, and make an important contribution to the historiography of the anti-apartheid political struggle. They reassess: the political context of Mandela's youth; his changing political beliefs and connections with the Left; his role in the African National Congress and the turn to armed struggle; his marriage to Winnie Madikizela-Mandela and their political relationship. By providing new context, they explore Mandela as an actor in broader social processes such as the rise of the ANC and the making of South Africa's post-apartheid constitution. The detailed essays are linked in a substantial introduction by Colin Bundy and current debates are addressed in a concluding essay by Elleke Boehmer. This book provides a scholarly counterweight both to uncritical celebration of Mandela and also to a simplistic attribution of post-apartheid shortcomings to the person of Mandela. This book was originally published as a special issue of the *Journal of Southern African Studies*.

The Cambridge Guide to African American History

Intended for high school and college students, teachers, adult educational groups, and general readers, this book is of value to them primarily as a learning and reference tool. It also provides a critical perspective on the actions and legacies of ordinary and elite blacks and their non-black allies.

Worlds Elsewhere

Anti-apartheid activist, Bollywood screenwriter, Nazi pin-up, hero of the Wild West: this is Shakespeare as you have never seen him before. 'Extraordinarily exhilarating ... like no other Shakespeare criticism you have ever read' (Margaret Drabble) ~ 'A tour de force by any standards' (David Crystal) ~ 'Revelatory' (James Shapiro) ~ 'Brilliantly original' (Michael Pye) From the sixteenth-century Baltic to the American Revolution, from colonial India to the skyscrapers of modern-day Shanghai, Shakespeare's plays appear at the most fascinating of times and in the most unexpected of places. But what is it about William Shakespeare – a man who never once set foot outside England – that has made him at home in so many places around the globe? Travelling across four continents, six countries and 400 years, *Worlds Elsewhere* is an attempt to understand how Shakespeare has become the international phenomenon he is – and why.

The Cambridge Companion to Rorty

This Companion provides a systematic introductory overview of Richard Rorty's philosophy. With chapters from an interdisciplinary group of leading scholars, the volume addresses virtually every aspect of

Rorty's thought, from his philosophical views on truth and representation and his youthful obsession with wild orchids to his ruminations on the contemporary American Left and his prescient warning about the election of Donald Trump. Other topics covered include his various assessments of classical American pragmatism, feminism, liberalism, religion, literature, and philosophy itself. Sympathetic in some cases, in others sharply critical, the essays will provide readers with a deep and illuminating portrait of Rorty's exciting brand of neopragmatism.

A Companion to African History

Covers the history of the entire African continent, from prehistory to the present day A Companion to African History embraces the diverse regions, subject matter, and disciplines of the African continent, while also providing chronological and geographical coverage of basic historical developments. Two dozen essays by leading international scholars explore the challenges facing this relatively new field of historical enquiry and present the dynamic ways in which historians and scholars from other fields such as archaeology, anthropology, political science, and economics are forging new directions in thinking and research. Comprised of six parts, the book begins with thematic approaches to African history—exploring the environment, gender and family, medical practices, and more. Section two covers Africa's early history and its pre-colonial past—early human adaptation, the emergence of kingdoms, royal power, and warring states. The third section looks at the era of the slave trade and European expansion. Part four examines the process of conquest—the discovery of diamonds and gold, military and social response, and more. Colonialism is discussed in the sixth section, with chapters on the economy transformed due to the development of agriculture and mining industries. The last section studies the continent from post World War II all the way up to modern times. Aims at capturing the enthusiasms of practicing historians, and encouraging similar passion in a new generation of scholars. Emphasizes linkages within Africa as well as between the continent and other parts of the world. All chapters include significant historiographical content and suggestions for further reading. Written by a global team of writers with unique backgrounds and views. Features case studies with illustrative examples. In a field traditionally marked by narrow specialisms, A Companion to African History is an ideal book for advanced students, researchers, historians, and scholars looking for a broad yet unique overview of African history as a whole.

Writing South Africa

During the final years of the apartheid era and the subsequent transition to democracy, South African literary writing caught the world's attention as never before. Writers responded to the changing political situation and its daily impact on the country's inhabitants with works that recorded or satirised state-enforced racism, explored the possibilities of resistance and rebuilding, and creatively addressed the vexed question of literature's relation to politics and ethics. Writing South Africa offers a window on the literary activity of this extraordinary period that conveys its range (going well beyond a handful of world-renowned names) and its significance for anyone interested in the impact of decolonisation and democratisation on the cultural sphere. It brings together for the first time discussions by some of the most distinguished South African novelists, poets, and dramatists, with those of leading commentators based in South Africa, Britain and North America.

The Works of Jonathan Edwards

A behind-the-scenes glimpse at the making of the motion picture, plus a look into the life of the revolutionary statesman whose story inspired the film. This official companion book to the epic major feature film *Mandela: Long Walk to Freedom* retraces the life of Nelson Mandela, weaving together his own words and historic humanitarian efforts with cinematic narrative and exclusive behind-the-scenes content. This is a combination of dramatic recreations and history, featuring film stills alongside archival photographs of actual events; commentary from the acclaimed cast and filmmakers plus interviews with Mandela's own family and comrades; excerpts from his books and personal papers, with lush, full-color panoramas of the South African landscapes where the film was shot on location. Fans of the movie and Mandela admirers, whatever their age, will relish this unique look at the making of an epic motion picture and the life of a beloved historical icon.

Mandela

With Nelson Mandela's stalwart deeds and defiance fresh in our minds, this History Makers biography offers a complete narrative of his life and his impact on the world. This title illustrates the difficult

and empowering chapters of Mandela's upbringing, his activism, his imprisonment, and his election. Readers will be riveted and inspired by the transformation of a young man seeking to end apartheid to a world leader who continues to inspire courage in pursuit of justice.

Nelson Mandela

The Eiffel Tower—this symbol of industrial development and the French Republic is now associated with a romantic vacation in Paris. Nelson Mandela—the hero of the struggle against apartheid was featured in a British Airways magazine article called “The Power of Brand Mandela.” This book explores these and other contemporary cultural icons that, over time, have been endowed with a complex and powerful layering of meanings. The authors analyze the way in which such icons, whether objects or persons, living or mythical, are constructed and disseminated. They also critically investigate the implications, in semiotic and cultural terms, of the accretion of meaning and popular recognition attached to them, their moral and aesthetic ambiguity, and their enduring appeal to a fascinated public. This slim and provocative volume is ideal for courses in and related to cultural studies.

Cultural Icons

The death of Nelson Mandela, the great South African fighter for freedom, in December 2013 prompted several colleagues within the World Council of Comparative Education Societies community to come together to think about the significance of his life and his work for education. This book is the result of that coming together. The contributing authors reflect on what his life, the commitments he made and principally the values he took into the struggle for freedom in South Africa mean for education. The point of departure for the book is that of honouring the man. It begins with the argument that the values for which he stood, namely, the unconditional dignity of all human beings, respect for difference and principally his lifelong commitment to justice, have a special significance for how we as inhabitants of an increasingly connected and interdependent world conduct our personal lives, our relationships with one another and with the material and living space which surrounds us. It is an ecological approach. As the world moves into a twenty-first century where, paradoxically, we know so much and yet appear to understand so little, and so find ourselves struggling to create social lives in which all of us can feel respected, can offer respect to others and live lives free of fear and anxiety, the values for which he stood have specific relevance for how we do the important job of teaching and what we put into it. Mandela poses deeply provocative questions about the kinds of lives we seek for ourselves and for everybody else around us.

Nelson Mandela

This official companion book to the major feature film MANDELA based on his international bestselling book LONG WALK TO FREEDOM, retraces the life of Nelson Mandela, weaving together his own words and historic humanitarian efforts with cinematic narrative, and featuring exclusive behind-the-scenes interviews with the filmmakers.

Mandela

The Rough Guide to Nelson Mandela is a fresh, honest overview of the life story and the impact of one of the world's greatest modern icons. It assesses the influence of his rural, traditional childhood on his later personality, and his early years as a revolutionary leader and master strategist; including his private life and troubled marriages. It explores his 27 years in an apartheid jail and reveals the inside stories of the white government's first secretive contacts with him and how he encouraged their intelligence chiefs to advise their political masters to abandon apartheid and negotiate a political settlement. The Rough Guide to Nelson Mandela attempts to explain Mandela's remarkable lack of bitterness and his commitment to reconciliation with the white minority after his release. Readers get a rare insight into Mandela's role in during the crucial negotiations period and his term as South Africa's first black president. It critically examines his iconic status and impact on the world stage. The Rough Guide to Nelson Mandela liberates Nelson Mandela from cloying myths and partisan portraits, pinpointing the true impact and legacy of one of the world's most recognizable figures.

The Rough Guide to Nelson Mandela

This transhistorical, international and interdisciplinary work will be of interest to students, theater professionals and Shakespeare scholars.

The Cambridge Guide to the Worlds of Shakespeare

This book examines 21st-century South African autobiographical writing that addresses the nation's socio-political realities, both past and present. The texts in focus represent and depict a South Africa caught in the midst of contradictory and competing images of the 'Rainbow Nation'. Arguing that recent memoirs question and criticize the illusion of a united nation, the study shows how these texts reveal the flaws and shortcomings not only of the apartheid past but of contemporary South Africa. It encompasses a broad range of autobiographical works, largely published since 2009, that engage with South Africa's past, present and future. At its centre is the quest for space and belonging, and this book investigates who can comfortably 'belong' in South Africa in its post-apartheid, post-Truth and Reconciliation, post-Mbeki and post-Zuma state.

South African Autobiography as Subjective History

This volume investigates the development of biographical study in African history. Preceded by an introduction on the relevance of biography in history, case studies deal with methodological insights, personas living through societal transition, and biographical subjects and their discursive worlds.

The Individual in African History

Examines the response of American leftist writers from the 1930s to the rise of mass culture, and to the continued propagation of the values of consumerism during the Depression. It traces in the work of Kenneth Fearing and Nathaniel West certain theoretical positions associated with the Frankfurt school (especially Walter Benjamin) and with contemporary theorists of postmodernism.

The Great Depression and the Culture of Abundance

Very Short Introductions: Brilliant, Sharp, Inspiring A pathbreaking analysis of the relationship between Mandela the myth, and Mandela the historical figure, looking at the way images, stories, and politics have been combined to create the iconic image of Mandela that we know today. Boehmer explores the long trajectory of Mandela's life, explaining first the historical and political context of the struggle against apartheid in South Africa, and then the post-apartheid period of difficult reconciliation, including the shifts and changes in Mandela's reputation since the millennium. This innovative postcolonial reflection takes on board the more critical revisionist literature on Mandela that has emerged since 2015, looking at responses to his death in 2013, and the 2018 commemorations of the 100th anniversary of his birth. The first edition set a trend in scholarship on Mandela by reading his character and achievements through the lens of his influences, interests, and leading ideas. The second edition extends this focus with a far-reaching critical look at meanings of reconciliation and Mandela's ethic of reciprocity. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Nelson Mandela: A Very Short Introduction

The global rise of festival culture and experience has taken over that which used to merely be events. The Cambridge Companion to International Theatre Festivals provides an up-to-date, contextualized account of the worldwide reach and impact of the 'festivalization' of culture. It introduces new methodologies for the study of the global network of theatre production using digital humanities, raises questions about how alternative origin stories might impact the study of festivals, investigates the festivalized production of space in the world's 'Festival Cities', and re-examines the social role and cultural work of twenty-first-century theatre, performance, and multi-arts festivals. With chapters on festivals in Africa, Asia, Australia, the Arab world, the francophone world, Europe, North America, and Latin America it analyses festivals as sites of intercultural negotiation and exchange.

The Cambridge Companion to International Theatre Festivals

Time Inc. presents a biographical sketch of Nelson Mandela as part of the "LIFE" magazine Hall of Heroes. South African statesman and President Nelson Mandela (1918-) was a political activist and spent 26 years in prison before the collapse of apartheid.

Nelson Mandela

This edited collection looks at ruins and vacant buildings as part of South Africa's oppressive history of colonialism and apartheid and ways in which the past persists into the present

Falling Monuments, Reluctant Ruins

Travel Writing in an Age of Global Quarantine is an anthology of travel accounts, by a diverse range of writers and academics. Challenging conventional academic 'authority', each contributor writes, from memory during the Covid-19 lockdown, about a place they have previously visited, 'accompanied' by an historical traveller who published an account of the same place. As immobility is forced upon us, at least for the immediate future, we have the chance to reflect. *Travel Writing in an Age of Global Quarantine* presents opportunities to approach a text as a scholar differently. We break with the traditional academic 'rules' by inserting ourselves into the narrative and foregrounding the personal, subjective elements of literary scholarship. Each contributor critiques an historical description of a place about which, simultaneously, they write a personal account. The travel writer, Philip Marsden, posits a fundamental difference between traditional 'academic' writing and travel writing in that travel narratives do not, or ought not anyway, begin by assuming a scholarly authoritative understanding of the places they describe. Instead, they attempt to say what they found and how they felt about it. The very good point we think Marsden makes, and the one this book tries to demonstrate, is that, as a matter of form, the first-person narrative has the ability to expose the research process: to allow the reader to see when and how a scholarly transformation takes place; to give the scholar the opportunity to openly foreground their own subjectivity and say 'this is the personal journey that led me to my conclusions'; to problematize the unchallenged authority of the scholar. *Travel Writing in an Age of Global Quarantine* challenges the idea of scholarly authority by embracing the subjective nature of research and the first-person element. We address a problematic distance between travel writing practice and travel writing scholarship, in which the latter talks about the former without ever really talking to it. Defining travel writing as a genre has often proved more difficult than it might seem, but Peter Hulme has suggested that it is ethically necessary for the writer to have visited the place described. Hulme asserts that 'travel writing is certainly literature, but it is never fiction'. If this seems obvious, *Travel Writing in an Age of Global Quarantine* asks the reader to consider the idea that if visiting the place described is necessary for the writer to claim they have produced a travel account, might it also be necessary, or at least advantageous and valuable, for the writer of a scholarly critique of that account to have done the same.

Travel Writing in an Age of Global Quarantine

Since the advent of democracy in 1994, South Africa has been engaged in an unprecedented exercise of national soul-searching, torn between the need to lay to rest centuries of racial conflict and the desire to come to terms with its traumatic history. This book asks whether the country has begun to turn the corner on the legacy of collective hurt. To do so it ranges in scope across 350 years of South African history, encompassing the struggle against the apartheid regime, the downfall of white supremacy, the Truth and Reconciliation Commission and the first 25 years of democracy, up to more recent movements, such as #RhodesMustFall, or the inquests into the 2012 Marikana massacre, that point to the persistence of traumatic memory in contemporary society. The authors assembled here set out to analyse the representation of such memory, how it has been woven into narratives, recorded, preserved and questioned, and how issues of individual and collective responsibility have been grafted onto it through the visual arts, literature, political discourse and public action. In focusing on memory along with its derived forms of memorialization, collective memory, nostalgia, or post-memory, our contributors pose a fundamental question: is South Africa finally coming to the end of the post-apartheid transition period? Do the decades of memory work on racial violence and repression examined here hold out hope for the nation to make peace with its past?

The Legacy of a Troubled Past

This Companion is the first to explore postcolonial poetry through regional, historical, political, formal, textual and gender approaches.

The Cambridge Companion to Postcolonial Poetry

Failed attempts in Africa to develop, democratise and instil virtues of a just state and society which promote benevolent leadership and advance political and economic rights and freedoms call for a 'new' imagination. By exploring a wide range of issues concerning justice, human rights and leadership,

this book makes two major contributions to the extant literature in each of these areas. Firstly, as a project in decoloniality, it constitutes an 'epistemic break' from mainstream logics and approaches to understanding state, society and development in Africa, presenting an approach that is filtered through a Euro-American lens that reifies the hegemony of a particular spatio-temporality. In other words, it emphasises the importance of situatedness by thinking from rather than about or with Africa. And secondly, it addresses a fundamental shortcoming in decolonial thought, which is often criticised for rejecting western paradigms of thought without providing viable alternatives. The issues covered include state failure in Africa, the geopolitics of US and NATO military interventions on the continent, individual states' responses to international law, indigenous moral political leadership, authentic inclusion of marginalised voices in development practice, an endogenous approach to environmental ethics, and a spiritualist reflection on the need for Africa to chart her own course to political, social and economic redemption. By searching for alternative paths to justice, human rights and leadership, this book represents an effort to actualise the core vision of the African Renaissance to find 'African solutions for African problems'.

Reimagining Justice, Human Rights and Leadership in Africa

Imagining Vernacular Histories is centered on the idea of engaging with indigenous African cosmologies that signal at pluriversality. In conversation with Toyin Falola's reading of the African pluriverse and his exploration of the idea of "ritual archives," the contributors to this volume rethink the historical archive in search of vernacular histories. Simultaneously, they recognize the contributions from various other disciplines in pluralizing the term vernacular. The book brings together a wide range of topics, such as reflections on African historiography; the relationship between memory, history and literature; gender relations; and the construction of historical archives. While appropriating Falola's conception of vernacular histories, the contributors collectively argue that pluriversality and ritual archives can potentially rescue African historical and creative scholarship from the sustained practices of epistemicide. Simultaneously, Imagining Vernacular Histories focuses on the emerging interdisciplinary conversations on constructing the pluriverse as well as on the geopolitics of knowledge production. Through a critical appreciation of Falola's engagement with the ideas of postcoloniality, decolonizing epistemologies, and pluriversality, this book locates his scholarship in relation to postcolonial theory emerging from the Global South.

Imagining Vernacular Histories

The Cambridge Companion to Shakespeare and Race shows teachers and students how and why Shakespeare and race are inseparable. Moving well beyond Othello, the collection invites the reader to understand racialized discourses, rhetoric, and performances in all of Shakespeare's plays, including the comedies and histories. Race is presented through an intersectional approach with chapters that focus on the concepts of sexuality, lineage, nationality, and globalization. The collection helps students to grapple with the unique role performance plays in constructions of race by Shakespeare (and in Shakespearean performances), considering both historical and contemporary actors and directors. The Cambridge Companion to Shakespeare and Race will be the first book that truly frames Shakespeare studies and early modern race studies for a non-specialist, student audience.

The Last Viking

The Last Viking unravels the life of the man who stands head and shoulders above all those who raced to map the last corners of the world. In 1900, the four great geographical mysteries—the Northwest Passage, the Northeast Passage, the South Pole, and the North Pole—remained blank spots on the globe. Within twenty years Roald Amundsen would claim all four prizes. Renowned for his determination and technical skills, both feared and beloved by his men, Amundsen is a legend of the heroic age of exploration, which shortly thereafter would be tamed by technology, commerce, and publicity. Fêted in his lifetime as an international celebrity, pursued by women and creditors, he died in the Arctic on a rescue mission for an inept rival explorer. Stephen R. Bown has unearthed archival material to give Amundsen's life the grim immediacy of Apsley Cherry-Garrard's *The Worst Journey in the World*, the exciting detail of *The Endurance*, and the suspense of a Jon Krakauer tale. *The Last Viking* is both a thrilling literary biography and a cracking good story.

The Last Viking

A Globe and Mail top 100 book of 2012 The untold story of the great polar explorer who conquered the world's last unknown places, before vanishing in a daring bid to rescue his nemesis. In the early 1900s, many of the great geographical mysteries that had intrigued adventurers for centuries remained unsolved, leaving some large blank areas on the increasingly detailed maps of the world. The polar regions -- the Northwest Passage, the South Pole, the North Pole and the Northeast Passage -- despite having claimed countless lives, were still shrouded in mystery. One man would claim all these prizes within a span of 20 years. Roald Amundsen was an adventurer and entertainer of the highest order. Larger than life, arrogant and competitive, he was also a meticulous organizer and planner, willing to learn from the mistakes of others, and humble enough to seek the advice of indigenous peoples skilled in arctic survival -- thus avoiding the early death that was so common among others who challenged the most desolate places on the planet. But Amundsen's life was one of sharp contrasts: reviled by the British for defeating Robert Falcon Scott in a desperate race to the South Pole, he was loved by his men, hailed as a hero in his native Norway and idolized as a charming and eccentric celebrity in the United States. Drawing on hundreds of recently uncovered press clippings, *The Last Viking* goes beyond Amundsen's conflicted legacy, revealing a humorous, self-deprecating storyteller who had unusual opinions and dreams; a visionary and showman who won over both his sponsors and his audiences with the same verve that characterized his geographical conquests.

The Last Viking

100 years have passed since Robert Scott's expeditionary team arrived at the South Pole in January 1912, only to find they had been beaten to their goal by the Norwegian explorer Roald Amundsen (the 'Last Viking') some 33 days previously. 'The Last Viking' is the fascinating story of the life and death of Roald Amundsen.

White Eskimo

Among the explorers made famous for revealing hitherto impenetrable cultures-T. E. Lawrence and Wilfred Thesiger in the Middle East, Richard Burton in Africa-Knud Rasmussen stands out not only for his physical bravery but also for the beauty of his writing. Part Danish, part Inuit, Rasmussen made a courageous three-year journey by dog sled from Greenland to Alaska to reveal the common origins of all circumpolar peoples. Lovers of Arctic adventure, exotic cultures, and timeless legend will relish this gripping tale by Stephen R. Bown, known as "Canada's Simon Winchester."

My Life as an Explorer

The 1927 autobiography, in English translation, of the first man to traverse the North-West Passage and to reach the South Pole.

Island of the Blue Foxes

The story of the world's largest, longest, and best financed scientific expedition of all time, triumphantly successful, gruesomely tragic, and never before fully told The immense 18th-century scientific journey, variously known as the Second Kamchatka Expedition or the Great Northern Expedition, from St. Petersburg across Siberia to the coast of North America, involved over 3,000 people and cost Peter the Great over one-sixth of his empire's annual revenue. Until now recorded only in academic works, this 10-year venture, led by the legendary Danish captain Vitus Bering and including scientists, artists, mariners, soldiers, and laborers, discovered Alaska, opened the Pacific fur trade, and led to fame, shipwreck, and "one of the most tragic and ghastly trials of suffering in the annals of maritime and arctic history.

The Politics and Culture of Modern Sports

This study examines the role of modern sports in constructing national identities and the way leaders have exploited sports to achieve domestic and foreign policy goals. It focuses on the development of national sporting cultures in Great Britain and the United States, how the rest of Europe and the world adopted or rejected their games, and the impact of sports on politics.

Madness, Betrayal and the Lash

From 1792 to 1795, George Vancouver sailed the Pacific as the captain of his own expedition — and as an agent of imperial ambition. To map a place is to control it, and Britain had its eyes on America's Pacific coast. And map it Vancouver did. His voyage was one of history's greatest feats of maritime daring, discovery, and diplomacy, and his marine survey of Hawaii and the Pacific coast was at its time the most comprehensive ever undertaken. But just two years after returning to Britain, the 40-year-old Vancouver, hounded by critics, shamed by public humiliation at the fists of an aristocratic sailor he had flogged, and blacklisted because of a perceived failure to follow the Admiralty's directives, died in poverty, nearly forgotten. In this riveting and perceptive biography, historian Stephen Bown delves into the events that destroyed Vancouver's reputation and restores his position as one of the greatest explorers of the Age of Discovery.

1494

When Columbus triumphantly returned from America to Spain in 1493, his discoveries inflamed an already-smouldering conflict between Spain's renowned monarchs, Ferdinand and Isabella, and Portugal's João II. Which nation was to control the world's oceans? To quell the argument, Pope Alexander VI - the notorious Rodrigo Borgia - issued a proclamation laying the foundation for the Treaty of Tordesillas, an edict that created an imaginary line in the Atlantic Ocean dividing the entire known (and unknown) world between Spain and Portugal. Just as the world's oceans were about to be opened by Columbus's epochal voyage, the treaty sought to limit the seas to these two favoured Catholic nations. The edict was to have a profound influence on world history: it propelled Spain and Portugal to superpower status, steered many other European nations on a collision course and became the central grievance in two centuries of international espionage, piracy and warfare. At the heart of one of the greatest international diplomatic and political agreements of the last five centuries were the strained relationships and passions of a handful of powerful individuals. They were linked by a shared history, mutual animosity and personal obligations.

Captain Scott

Sir Ranulph Fiennes is uniquely qualified to write a new biography of Captain Scott. This is the first biography of Scott by someone who has experienced the deprivations, the stress and the sheer physical pain that Scott lived through; he has suffered all but the final tragedy endured by the much maligned Scott. He is determined to put the record straight. As well as being the definitive biography of Scott, written with the full and exclusive cooperation of the Scott Estate, this book traces the way that Scott's reputation has been attacked and his achievements distorted. 'Sir Ranulph Fiennes has done Captain Scott's memory some service...he has certainly written a more dispassionate and balanced account than Huntford ever set out to do.' - Simon Courtauld, Spectator

Roald Amundsen

On 14 December 1911, the Norwegian explorer Roald Amundsen and his team became the first human beings to reach the South Pole, just over a month before Robert Falcon Scott's ill-fated Terra Nova expedition. He had already led the first expedition to traverse the North West Passage, and would go on to lead the first successful attempt to cross the Arctic by air (perhaps even becoming the first to reach the North Pole, according to some interpretations). Yet his personal life was messy to say the least, with a string of mistresses, including Eskimo girls he brought back to Norway, and a poisonous relationship with his brother. He disappeared in 1928 while taking part in an airborne rescue mission in the Arctic; his body was never found. Tor Bomann-Larsen's account of his life is the only full biography of Amundsen to be published in English.

Let Heroes Speak

Whitehots Apr/02.

Scurvy

In the Age of Sail scurvy was responsible for more deaths at sea than piracy, shipwreck and all other illnesses, and its cure ranks among the greatest of military successes – yet its impact on history has mostly been ignored. Stephen Bown searches back to the earliest recorded appearance of scurvy in the sixteenth century, to the eighteenth century when the disease was at its gum-shredding, bone-snapping worst, and to the early nineteenth century, when the preventative was finally put into service. Bown

introduces us to James Lind, the navy surgeon and medical detective, whose research on the disease spawned the implementation of the cure; Captain James Cook, who successfully avoided scurvy on his epic voyages; and Gilbert Blane, whose social status and charisma won over the British Navy. Scurvy is a lively recounting of how three determined individuals overcame the constraints of eighteenth-century thinking to solve the greatest medical mystery of their era.

Race for the South Pole

In 1910 Robert Falcon Scott and Roald Amundsen set sail for Antarctica, each from his own starting point, and the epic race for the South Pole was on. For the first time Scott's unedited diaries run alongside those of both Amundsen and Olav Bjaaland, never before translated into English. Cutting through the welter of controversy to the events at the heart of the story, Huntford weaves the narrative from the protagonists' accounts of their own fate. What emerges is a whole new understanding of what really happened on the ice and the definitive account of the Race for the South Pole.

Ice Ship

In the golden age of polar exploration (from the mid-1800s to the early 1900s), many an expedition set out to answer the big question: was the Arctic a continent, an open ocean beyond a barrier of ice, or an ocean covered with ice? No one knew, for the ice had kept its secret well; ships trying to penetrate it all failed, often catastrophically. Norway's charismatic scientist-explorer Fridtjof Nansen, convinced that it was a frozen ocean, intended to prove it in a novel if risky way: by building a ship capable of withstanding the ice, joining others on an expedition, then drifting wherever it took them, on a relentless one-way journey into discovery and fame . . . or oblivion. *Ice Ship* is the story of that extraordinary ship, the *Fram*, from conception to construction, through twenty years of three epic expeditions, to its final resting place as a museum. It is also the story of the extraordinary men who steered the *Fram* over the course of 84,000 miles: on a three-year, ice-bound drift, finding out what the Arctic really was; in a remarkable four-year exploration of unmapped lands in the vast Canadian Arctic; and on a two-year voyage to Antarctica, where another famous Norwegian explorer, Roald Amundsen, claimed the South Pole. *Ice Ship* will appeal to all those fascinated with polar exploration, maritime adventure, and wooden ships, and will captivate readers of such books as *The Endurance*, *In the Heart of the Sea*, and *The Last Place on Earth*. With more than 100 original photographs, the book brings the *Fram* to life and light.

Nansen

Behind the great polar explorers of the early twentieth century - Amundsen, Shackleton, Scott in the South and Peary in the North - looms the spirit of Fridtjof Nansen (1861-1930), the mentor of them all. He was the father of modern polar exploration, the last act of territorial discovery before the leap into space began. Nansen was a prime illustration of Carlyle's dictum that 'the history of the world is but the biography of great men'. He was not merely a pioneer in the wildly diverse fields of oceanography and skiing, but one of the founders of neurology. A restless, unquiet Faustian spirit, Nansen was a Renaissance Man born out of his time into the new Norway of Ibsen and Grieg. He was an artist and historian, a diplomat who had dealings with Lenin, Trotsky and Stalin, and played a part in the Versailles Peace Conference, where he helped the Americans in their efforts to contain the Bolsheviks. He also undertook famine relief in Russia. Finally, working for the League of Nations as both High Commissioner for Refugees and High Commissioner for the Repatriation of Prisoners of War, he became the first of the modern media-conscious international civil servants.

The Ice Balloon

In 1897, at the height of the heroic age of Arctic exploration, the visionary Swedish explorer S. A. Andrée made a revolutionary attempt to discover the North Pole by flying over it in a hydrogen balloon. Thirty-three years later, his expedition diaries and papers would be discovered on the ice. Alec Wilkinson uses the explorer's papers and contemporary sources to tell the full story of this ambitious voyage, while also showing how the late 19th century's spirit of exploration and scientific discovery drove over 1,000 explorers to the unforgiving Arctic landscape. Suspenseful and haunting, Wilkinson captures Andrée's remarkable adventure and illuminates the detail, beauty, and devastating conditions of traveling and dwelling on the ice.

The Last Place on Earth

A refreshingly clearheaded and taboo-breaking look at race relations reveals that American culture is neither Black nor White nor Other, but a mix-a mongrel. Black Like You is an erudite and entertaining exploration of race relations in American popular culture. Particularly compelling is Strausbaugh's eagerness to tackle blackface-a strange, often scandalous, and now taboo entertainment. Although blackface performance came to be denounced as purely racist mockery, and shamefacedly erased from most modern accounts of American cultural history, Black Like You shows that the impact of blackface on American culture was deep and long-lasting. Its influence can be seen in rock and hiphop; in vaudeville, Broadway, and gay drag performances; in Mark Twain and "gangsta lit"; in the earliest filmstrips and the 2004 movie White Chicks; on radio and television; in advertising and product marketing; and even in the way Americans speak. Strausbaugh enlivens themes that are rarely discussed in public, let alone with such candor and vision: - American culture neither conforms to knee-jerk racism nor to knee-jerk political correctness. It is neither Black nor White nor Other, but a mix-a mongrel. - No history is best forgotten, however uncomfortable it may be to remember. The power of blackface to engender mortification and rage in Americans to this day is reason enough to examine what it tells us about our culture and ourselves. - Blackface is still alive. Its impact and descendants-including Black performers in "whiteface"-can be seen all around us today.

Black Like You

1912 was an incredible year, marking the height of the Heroic Age of Exploration. Curiosity about Antarctica was at fever pitch, and between 1910 and 1914 five teams of intrepid explorers embarked on the greatest race of the era, to travel beyond the edges of the known world and conquer this last great frontier. Pitted against each other were Captain Robert Falcon Scott for Britain, Roald Amundsen for Norway, Sir Douglas Mawson for Australasia, Wilhelm Filchner for Germany and Nobu Shirase for Japan. 'Conquest of the South Pole!' trumpeted the world's newspapers in March 1912. Amundsen had won. But behind all the headlines, there was a much bigger story. The exploits of these larger-than-life explorers, often narrated in their own words, thrilled and enthralled the world; the limits of our planet were pushed all the way to the South Pole and the door to Antarctica flung wide open. Drawing on his own polar experiences, Chris Turney reveals why 1912 witnessed the dawn of a new age in our understanding of the natural world. The tales of endurance, self-sacrifice and technological innovation that marked 1912 laid the foundation for modern scientific exploration and have continued to inspire future generations. 1912 is an awe-inspiring journey - part nail-biting adventure, part scientific history - through an ancient and fascinating land.

1912: The Year the World Discovered Antarctica

A rich and compelling account of the life of King Harald Hardrada of Norway, one of the greatest Viking warriors to have ever lived.

The Last Viking

In an exhilarating tale of historic adventure, the Pulitzer Prize-winning author of *Confederates in the Attic* retraces the voyages of Captain James Cook, the Yorkshire farm boy who drew the map of the modern world. Captain James Cook's three epic journeys in the 18th century were the last great voyages of discovery. His ships sailed 150,000 miles, from the Arctic to the Antarctic, from Tasmania to Oregon, from Easter Island to Siberia. When Cook set off for the Pacific in 1768, a third of the globe remained blank. By the time he died in Hawaii in 1779, the map of the world was substantially complete. Tony Horwitz vividly recounts Cook's voyages and the exotic scenes the captain encountered: tropical orgies, taboo rituals, cannibal feasts, human sacrifice. He also relives Cook's adventures by following in the captain's wake to places such as Tahiti, Savage Island, and the Great Barrier Reef to discover Cook's embattled legacy in the present day. Signing on as a working crewman aboard a replica of Cook's vessel, Horwitz experiences the thrill and terror of sailing a tall ship. He also explores Cook the man: an impoverished farmboy who broke through the barriers of his class and time to become the greatest navigator in British history. By turns harrowing and hilarious, insightful and entertaining, *BLUE LATITUDES* brings to life a man whose voyages helped create the 'global village' we know today.

Roald Amundsen--my Life as an Explorer

Biografie van de Noorse ontdekkingsreiziger (1872-1928), bekend door zijn poolexpedities.

Blue Latitudes

Narrative of the first expedition to navigate the Northwest Passage in a single vessel, the expedition that brought Amundsen to prominence as a polar explorer. In 1901 he gave up the idea of medicine and decided to become an explorer. After several months in Hamburg studying the science of terrestrial magnetism, he purchased an old ship, the Gjoa, 70ft long and thirty years old. He put in a 14 hp engine; then, with six dogs and enough provisions on board, he got under way with a crew of six on 17 June, 1903. His aim was to find the North-West Passage which had been sought in vain since the time of John Cabot. In September, he crossed Peel Sound and anchored in a sheltered bay on King William Island. Eskimos came up to him who knew of the existence of white men by oral tradition only. Seventy-two years earlier, James Ross, had sailed in these regions with Parry. Amundsen bought tooth and bone necklaces and clothes which later enriched the Oslo museum. He also spent two winters learning about the Eskimo way of life. In October, 1905, he set out again for the North-West Passage. On August 30th the Gjoa entered the Nome roadstead. For the first time in world history a ship sailing north of America had found a way from the Atlantic to the Pacific.

De laatste Viking / druk 1

Edmund Hillary – A Biography is the story of the New Zealand beekeeper who climbed Mount Everest. A man who against expedition orders drove his tractor to the South Pole; a man honoured around the world for his pioneering climbs yet who collapsed on more than one occasion on a mountain, and a man who gave so much to Nepal yet lost his family to its mountains. The author, Michael Gill, was a close friend of Hillary's for nearly 50 years, accompanying him on many expeditions and becoming heavily involved in Hillary's aid work building schools and hospitals in the Himalaya. During the writing of this book, Gill was granted access to a large archive of private papers and photos that were deposited in the Auckland museum after Hillary's death in 2008. Building on this unpublished material, as well as his extensive personal experience, Michael Gill profiles a man whose life was shaped by both triumph and tragedy. Gill describes the uncertainties of the first 33 years of Hillary's life, during which time he served in the New Zealand air force during the Second World War, as well as the background to the first ascent of Mount Everest in 1953, when Hillary and Tenzing Norgay became the first climbers to reach the summit – a feat that brought the pair instant worldwide fame. He reveals the loving relationship Hillary had with his wife Louise, in part through their touching letters to each other. Her importance to him during their 22 years of marriage only underlines the horror of her death, along with that of their youngest daughter, Belinda, in a plane crash in 1975. Hillary eventually pulled out of his subsequent depression to continue his life's work in the Himalaya. Affectionate, but scrupulously fair, in Edmund Hillary – A Biography Michael Gill has gone further than anyone before to reveal the humanity of this remarkable man.

Roald Amundsen's The North West Passage

'An epic of survival' -- MICHAEL PALIN 'A "grade-A classic"' -- SUNDAY TIMES 'Utterly enthralling' -- GEOFF DYER, GUARDIAN 'Deeply engrossing' -- NEW YORK TIMES LISTED AS A BOOK OF THE YEAR IN THE TIMES, NEW STATESMAN, SUNDAY TIMES The harrowing, survival story of an early polar expedition that went terribly wrong, with the ship frozen in ice and the crew trapped inside for the entire sunless, Antarctic winter August 1897: The Belgica set sail, eager to become the first scientific expedition to reach the white wilderness of the South Pole. But the ship soon became stuck fast in the ice of the Bellinghausen sea, condemning the ship's crew to overwintering in Antarctica and months of endless polar night. In the darkness, plagued by a mysterious illness, their minds ravaged by the sound of dozens of rats teeming in the hold, they descended into madness. In this epic tale, Julian Sancton unfolds a story of adventure gone horribly awry. As the crew teetered on the brink, the Captain increasingly relied on two young officers whose friendship had blossomed in captivity - Dr. Frederick Cook, the wild American whose later infamy would overshadow his brilliance on the Belgica; and the ship's first mate, soon-to-be legendary Roald Amundsen, who later raced Captain Scott to the South Pole. Together, Cook and Amundsen would plan a last-ditch, desperate escape from the ice-one that would either etch their names into history or doom them to a terrible fate in the frozen ocean. Drawing on first-hand crew diaries and journals, and exclusive access to the ship's logbook, the result is equal parts maritime thriller and gothic horror. This is an unforgettable journey into the deep.

Edmund Hillary - A Biography

Narrative of Amundsen's attainment of the South Pole, December 1911. Vol. 2. contains appendices on the eastern sledge journey, the voyage of the Fram, the construction of the Fram, and scientific results of the expedition.

Madhouse at the End of the Earth

Examines the differences in the two men's approaches to the discovery of the South Pole. A eulogy of Roald Amundsen and a debunking of R.F. Scott. Well researched, but unduly biased.

My Life as an Explorer

A brief biography of the Norwegian explorer who, in 1911, became the first to conquer the icy elements of the South Pole.

The South Pole

Roald Amundsen, born in 1872 near Oslo / Norway, was one of the most famous and important polar explorers ever. His journeys to the Arctic and Antarctica brought great insights of science, after all, he was the first one shot through the Northwest Passage and reached both the geographic North Pole and South Pole. Researching the arctic parts of the world at that time belonged to the highest goals of the polar researchers, the achievement of these continents was fought like matches among them. After Robert Edwin Peary claimed to have reached the North Pole first, Amundsen decided almost simultaneously with Robert Falcon Scott for the expedition to the South Pole. On December 14, 1911 Amundsen was first to reach the South Pole ahead of his competitors. In this book all the details around the expedition to the South Pole are described.

The South Pole: Account of the Norwegian Antarctic Expedition in the Fram, 1910-1912

The South Pole is Roald Amundsen's firsthand account of the Norwegian Antarctic Expedition of 1910-12, which was the first successful expedition to reach the South Pole. In this book, Amundsen describes the planning and execution of the expedition, the challenges faced by the team, and the triumph of finally reaching the South Pole. The book is a classic of polar exploration literature and a testament to the bravery and determination of the men who took part in this historic expedition. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in the "public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Scott and Amundsen

The South Pole is a book by Roald Amundsen and it represents an interesting first-hand account of the Norwegian expedition's successful attempt to reach the South Pole in 1911. Amundsen spends a great deal of time talking about logistics and placing of depots in preparation for his polar attempt all the way from the preparation leading up to the initial sea voyage, the voyage itself and then the establishing of a camp at the Antarctic. Although they were lucky with the weather, and Amundsen attributed the success of the expedition to "good luck"

Roald Amundsen

This book attempts to explain how Roald Amundsen won the race to the South Pole. It contains information and original photos gleaned from his expeditions and meticulous planning and preparations over many years. It reveals his ability to foresee the challenges ahead and change plans when new factors came into play, and it presents his well-qualified team members and his hard-earned lessons from the Arctic. Luck is certainly a factor when skiing 3000 km through some of the coldest and toughest terrain on Earth, but as you will see, luck had very little to do with Amundsen's success. Included in this book is a detailed breakdown of Amundsen's and Robert Falcon Scott's southern journeys day by day. It also has chapters on Amundsen's and Scott's chosen methods of transport: dogs, ponies and motor-sledges. The book is printed in colour and contains more than 600 photos, maps and illustrations,

many never seen before. The many quotes from Amundsen's crew members' diaries from the Northwest Passage and the South Pole Expedition have never previously appeared in English -- [page 4 of cover].

The South Pole

"My love for Linton is like the foliage in the woods: time will change it, I'm well aware, as winter changes the trees. My love for Heathcliff resembles the eternal rocks beneath: a source of little visible delight, but necessary." – Wuthering Heights, Emily Bronte In the classic Wuthering Heights Catherine is forced to choose between passionate, tortured gypsy Heathcliff and gentle, well-bred Edgar Linton. Catherine surrenders to the expectations of her class and sets off a domino effect with lasting consequences. As Heathcliff's bitterness and vengeance at his betrayal are visited upon the next generation, their innocent heirs must struggle to escape the legacy of the lovers tortured past. This e-book includes select, highly designed pages featuring quotes about the winter season. The Seasons Edition - Winter collection includes Little Women, Pride and Prejudice, A Tale of Two Cities, and Wuthering Heights.
