Lavondyss

At the heart of the wildwood lies a place of mystery and legend, from which few return and none emerged unchanged: Lavondyss . . . the ultimate realm, the source of all myth. When Harry Keeton disappeared into Ryhope Wood, his sister Tallis was just an infant. Now, thirteen years old, she hears him whispering to her from the Otherworld. He is in danger. He needs her help. Using masks, magic and clues left by her grandfather, she finds a way to enter the primitive forest and begin her search. Eventually she comes to Lavondyss itself, a realm both beautiful and deadly, a place in which she is changed forever . . . Robert Holdstock's Mythago Wood won the World Fantasy Award and is among the most praised post-war novels of the fantastical. In this haunting sequel, Lavondyss, we are returned

to the Wildwood and the mythos that Holdstock has made his own. Winner of the BSFA Award for best novel, 1989.

Lavondyss

Robert Holdstock was a prolific writer whose oeuvre included horror, fantasy, mystery and the novelization of films, often published under pseudonyms. These twelve critical essays explore Holdstock's varied output by displaying his works against the backdrop of folk and fairy tales, dissecting their spatiotemporal order, and examining them as psychic fantasies of our unconscious life or as exempla of the sublime. The individual novels of the Mythago Wood sequence are explored, as is Holdstock's early science fiction and the Merlin Codex series.

Lavondyss

This book is a detailed examination of one of the most important works of fantasy literature from the twentieth century. It goes through Mythago Wood by Robert Holdstock considering how it engages with war on a personal and family level, how it plays with ideas of time as something fluid and disturbing, and how it presents mythology as something crude and dangerous. The book places Mythago Wood in the context of Holdstock's other works, noting in part how complex ideas of time have been a consistent element in his fiction. The book also briefly examines how the themes laid out in Mythago Wood are carried through into later books in the sequence as well as the Merlin Codex

The Mythic Fantasy of Robert Holdstock

Annotated bibliography of the Arthurian legend in modern English-language fiction, not only in literary texts, but in television, music, and art.

Robert Holdstock's Mythago Wood

This study constitutes the first to analyse the remarkable surge in popularity of Arthurian literature and art in the modern period from a broad range of instances of cultural production. More novels with Arthurian themes have been published since the war than in any previous period, and Silk and Potatoes provides detailed readings of some of the most famous, including works by Marion Zimmer Bradley, Anthony Burgess, C.J. Cherryh, Guy Gavriel Kay, Mary Stewart, Jack Vance and T.H. White. In addition to examining Arthurian fiction (with chapters on the general novel, Historical fiction and Science Fiction), this study examines the key cinematic examples of Arthuriana (Boorman's Excalibur, Bresson's Lancelot du Lac, Rohmer's Perceval Le Gallois and Monty Python and the Holy Grail). A further chapter goes on to look at the myriad other forms of cultural production based on Arthurian themes; from Bugs Bunny to Pop Music, from the Camelot of JFK to the British National Lottery. This is a study that touches on many aspects of Arthuriana whilst developing two connected arguments about (on the one hand) the necessary anachronism of any modern Arthurian Literature, and (on the other) the aesthetic-political implications of this literature's success. The whole, whilst rooted in the scholarly debates on the enduring appeal of King Arthur, is written in an accessible and entertaining style. It will be of interest to students and teachers of Arthurian literature, film and popular culture.

A Bibliography of Modern Arthuriana (1500-2000)

In the mid-1980s, Easton Press began publishing a series of leather-bound collector editions called "Masterpieces of Science Fiction," and "Masterpieces of Fantasy," which featured some of the most important works in these genres. Author James Gunn was commissioned to write introductions to these works, which allowed him to pay tribute to many authors who inspired and influenced him. In Paratexts: Introductions to Science Fiction and Fantasy, Gunn has collected the most significant essays produced for the Easton series, along with prefaces he wrote for reprints of his own novels. Drawing upon Gunn's lifetime of work in the field, these introductions include analyses of the individual works and the fields in which they were written. Gunn also briefly discusses each novel's significance in the science fiction canon. Collected here for the first time, these prefaces and introductions provide readers with insight into more than seventy novels, making Paratexts a must read for science fiction and fantasy aficionados.

Silk and Potatoes

Romance is a varied and fluid literary genre, notoriously difficult to define. This groundbreaking Companion surveys the many permutations of romance throughout the ages. Considers the literary and

historical development of the romance genre from its classical origins to the present day Incorporates discussion of the changing readership of romance and of romance's special relation to women readers Comprises 30 essays written by leading authorities on different periods and sub-genres Challenges the idea that the appeal of romance is exclusively escapist Draws on a wide range of specific and influential literary examples

Paratexts

Imagining the Pagan Past explores stories of Britain's pagan history. These tales have been characterised by gods and fairies, folklore and magic. They have had an uncomfortable relationship with the scholarly world; often being seen as historically dubious, self-indulgent romance and, worse, encouraging tribal and nationalistic feelings or challenging church and state. This book shows how important these stories are to the history of British culture, taking the reader on a lively tour from prehistory to the present. From the Middle Ages to the twenty-first century, Marion Gibson explores the ways in which British pagan gods and goddesses have been represented in poetry, novels, plays, chronicles, scientific and scholarly writing. From Geoffrey of Monmouth to Edmund Spenser, William Shakespeare to Seamus Heaney and H.G. Wells to Naomi Mitchison it explores Romano-British, Celtic and Anglo-Saxon deities and fictions. The result is a comprehensive picture of the ways in which writers have peopled the British pagan pantheons throughout history. *Imagining the Pagan Past* will be essential reading for all those interested in the history of paganism.

A Companion to Romance

From the vaults of the SF Gateway, the most comprehensive digital library of classic SFF titles ever assembled, comes this republication of a trilogy of early, pseudonymous adventure tales by Robert Holdstock, WORLD FANTASY AWARD-winning author of *MYTHAGO WOOD*. The Berserker books are raw, primeval stories of a young Norse warrior, cursed by the gods to a life of savage warfare. Possessed by an animal, ferocious rage - implacable, invincible - Harald Swiftaxe fights his way across the Celtic world in search of release from his curse and, finally, peace. The Berserker omnibus contains *SHADOW OF THE WOLF*, *THE BULL CHIEF* and *THE HORNED WARRIOR*.

Imagining the Pagan Past

As a companion volume to *St. James Guide to Fantasy Writers*, this volume concentrates "on those types of fiction which may be labelled as horror novels, dark fantasies, ghost stories, gothic novels, tales of terror, supernatural fictions, occult fantasies, black-magic stories, psychological thrillers, tales of unease, "grand-guignol" shockers, creepy stories, shudder-pulp fictions, "contes cruels," uncanny stories, macabre fictions and weird tales."--Editor's note, p. ix.

Berserker SF Gateway Omnibus

Plants have played key roles in science fiction novels, graphic novels and film. John Wyndham's triffids, Algernon Blackwood's willows and Han Kang's sprouting woman are just a few examples. Plants surround us, sustain us, pique our imaginations and inhabit our metaphors – but in many ways they remain opaque. The scope of their alienation is as broad as their biodiversity. And yet, literary reflections of plant-life are driven, as are many threads of science fictional inquiry, by the concerns of today. *Plants in Science Fiction* is the first-ever collected volume on plants in science fiction, and its original essays argue that plant-life in SF is transforming our attitudes toward morality, politics, economics and cultural life at large – questioning and shifting our understandings of institutions, nations, borders and boundaries; erecting and dismantling new visions of utopian and dystopian futures.

St. James Guide to Horror, Ghost & Gothic Writers

Concise discussions of the lives and principal works of prominent science-fiction authors, written by subject experts.

Plants in Science Fiction

From the landscapes of prehistory to 40th millennium AD, from post-war England to the full canvas of the inhabited galaxy, Robert Holdstock's haunting mythic imagination weaves eight stories of arresting power and ingenuity. Includes the original story from which the World Fantasy Award-winning novel, *Mythago Wood*, was expanded.

St. James Guide to Science Fiction Writers

For more than 50 years John Clute has been reviewing science fiction and fantasy. Look at the Evidence is a collection of reviews from a wide variety of sources - including *Interzone*, the *New York Review of Science Fiction*, and *Science Fiction Weekly* - about the most significant literatures of the twenty-first century: science fiction, fantasy and horror: the literatures Clute argues should be recognized as the central modes of fantastika in our times. It covers the period between 1987 and 1992.

In the Valley of the Statues: And Other Stories

"These four volumes cover 791 books or series, 238 of them published during the 1980s and 1990s. the entries are 1,000 words long for single books and 1,500 for series, with a one-sentence summary beginning each entry followed by bibliographical information ... Volume 4 contains an extensive bibliography of critical works on science fiction and fantasy, a list of major award winners, a genre index." Booklist.

Look at the Evidence

"Plot summaries and analyses of 180 major books and series in the fields of science fiction and fantasy...all but eight of the essays in these volumes are taken directly from Salem Press's four-volume Magill's guide to science fiction and fantasy literature, which was published in 1996"--Publisher's note.

Magill's Guide to Science Fiction and Fantasy Literature: Lest darkness fall

Concise discussions of the lives and principal works of writers of various forms of fantasy, including heroic fantasy, sword and sorcery, humorous fantasy, adult fairy tales and fables, and children's fantasies still popular with adults. Written by subject experts.

Classics of Science Fiction and Fantasy Literature

Essays on British writers of fantasy and science fiction discuss the changing attitudes towards this genre, including serious consideration by critics. Covers the publication of science fiction in comic books, limited productions of publications by fan presses, the difference between British and American science fiction, the birth of the New Wave, and the revival of horror fiction as a distinct genre.

St. James Guide to Fantasy Writers

This annual selection guide covers new novels in the mystery fiction, science fiction, fantasy, horror, western fiction and romance genres. It is intended to help readers to choose titles of interest published during 1995. By identifying similarities in various books, it seeks to help readers to independently choose titles of interest published during 1995. Entries are arranged by author within six genre sections, and provide: publisher and publication date; series name and number; description of characters; time/geographical setting; review citation; genre and setting notations; and related books.

British Fantasy and Science-fiction Writers Since 1960

A son searching for his father in a British forest discovers a world teeming with live mythological characters. One of them is a Celtic princess-warrior and he falls in love with her.

What Do I Read Next? 1995

Science fiction constitutes one of the largest and most widely read genres in literature, and this reference provides bibliographical data on some 20,000 science fiction, fantasy, and horror fiction books, as well as nonfiction monographs about the literature. A companion to *Reginald's Science Fiction and Fantasy Literature, 1700-1974* (Gale, 1979), the present volume is alphabetically arranged by approximately 10,000 author names. The entry for each individual work includes title, publisher,

date and place published, number of pages, hardbound or paperback format, and type of book (novel, anthology, etc.). Where appropriate, entries also provide translation notes, series information, pseudonyms, and remarks on special features (such as celebrity introductions). Includes indexes of titles, series, awards, and "doubles" (for locating volumes containing two novels). Annotation copyright by Book News, Inc., Portland, OR.

Gate of Ivory, Gate of Horn

The author of the Mythago Wood series presents the story of Jack Chetwin, a man haunted by visions of a fantastical parallel world that suddenly becomes reality when a stranger appears and threatens his family's safety. Reprint.

What Do I Read Next?

Ryhope Wood: a tract of English woodland in the Herefordshire countryside wherein reside the creatures and configurations of ancient myth, the mythagos. In Ryhope Wood, ancient secrets and memories, both real and imaginary, take on physical form, from the Green Man and the Wild Hunt to Jason and Taliesen: heroes made flesh - and yet unpredictable, for they change according to how mankind sees and thinks about them. And those who wander into the shadowed depths of this ancient, primal woodland will never be the same again: they go in seeking adventure, or love, or family, but what they find in Ryhope Wood defies description and changes them for all time.

Science Fiction and Fantasy Literature, 1975-1991

The year's best, and darkest, tales of terror, showcasing the most outstanding new short stories and novellas by both contemporary masters of the macabre and exciting newcomers. As ever, this acclaimed anthology also offers the most comprehensive annual overview of horror around the world in all its incarnations; a comprehensive necrology of famous names; and a list of indispensable contact addresses for the dedicated horror fan and writer alike. The Mammoth Book of Best New Horror remains the world's leading annual anthology dedicated solely to presenting the best in contemporary horror fiction. Praise for Stephen Jones: 'The best horror anthologist in the business is, of course, Stephen Jones, whose Mammoth Book of Best New Horror is one of the major bargains of this as of any other year.' Roz Kavaney 'An essential volume for horror readers.' Locus 'Stephen Jones . . . has a better sense of the genre than almost anyone in this country.' Lisa Tuttle, The Times Books

Ancient Echoes

Simon Bradley, a highly imaginative child, brain-damaged after a bizarre attack, vanishes one day from his home. Months later a body is found on the edge of Ryhope Wood. The wood shields a heart of primeval forest wherein live phantoms and strange creatures - mythagos - those shades generated over time by our dreams and nightmares. Alex has in fact been absorbed by the wood, drawn into its green heart - through a 'hollowing'. There his dreams will continue to populate the wood with its mythagos. But like Alex, they too are damaged: the great heroes he conjures are warped, incomplete and dangerous. Savage and lost, they are compelled to seek their creator. The havoc they wreak threatens those who search for Alex, including his father, Richard. In the end, it will threaten the very existence of the wood itself and of its natural mythagos. Richard must quest repeatedly through Ryhope's hollowings in an attempt to bring his son to safety and quiet the monsters Alex has created. There his dreams continue to populate the wood with "mythagos"

The Mythago Cycle

Deep within the wildwood lies a place of myth and mystery, from which few return, and of those few, none remain unchanged. Ryhope Wood may look like a three-mile-square fenced-in wood in rural Herefordshire on the outside, but inside, it is a primeval, intricate labyrinth of trees, impossibly huge, unforgettable ... and stronger than time itself. Stephen Huxley has already lost his father to the mysteries of Ryhope Wood. On his return from the Second World War, he finds his brother, Christopher, is also in thrall to the mysterious wood, wherein lies a realm where mythic archetypes grow flesh and blood, where love and beauty haunt your dreams, and in promises of freedom lies the sanctuary of insanity

...

The Mammoth Book of Best New Horror 21

For more than 50 years John Clute has been reviewing science fiction and fantasy. As Scores demonstrates, his devotion to the task of understanding the central literatures of our era has not slackened. There are jokes in Scores, and curses, and tirades, and apologies, and riffs; but every word of every review, in the end, is about how we understand the stories we tell about the world. Following on from his two previous books of collected reviews (Strokes and Look at the Evidence) this book collects reviews from a wide variety of sources, but mostly from Interzone, the New York Review of Science Fiction, and Science Fiction Weekly. Where it has seemed possible to do so without distorting contemporary responses to books, these reviews have been revised, sometimes extensively. 125 review articles, over 200 books reviewed in more than 214,000 words.

The Hollowing

Wondrous beings inhabit these woods - creatures born of mythic fable and the mortal subconscious: a snow woman beckons; a scientist succumbs to an age-old madness, tale-tellers weave extraordinary yarns of terrifying primal power. Explore a dark and secret place where daemons roam, where conjurers work their awesome pagan magic in eight stunning short stories of exhilarating imagination by the acclaimed author of Lavondyss and the World Fantasy Award-winning classic Mythago Wood.

Mythago Wood

The triumphant return to the world of MYTHAGO WOOD, one of the greatest fantasy novels of the twentieth century At the heart of Ryhope Wood, Steven and the mythago Guiwenneth live in the ruins of a Roman villa close to a haunted fortress from the Iron Age, from which Guiwenneth's myth arose. She is comfortable here, almost tied to the place, and Steven has long since abandoned all thought of returning to his own world. They have animals, protection and crops. They also have two children, a combination of human and mythago. Jack is like his father, an active boy keen to know all about 'the outer world'; Yssobel takes after her mother, even to her long auburn hair. But this idyll cannot last. The hunters who protected Guiwenneth as a child have come to warn her she is in danger. Yssobel is dreaming increasingly of her Uncle Christian, Steven's brother, who disappeared into Lavondyss, and Jack wants to see 'the outer world' more than anything. Events are about to overtake them.

Jim Kobak's Kirkus Reviews

When Sky and his cousin Kristin find their Norwegian grandfather's runes, they are catapulted into a world filled with more possibilities and more danger than they ever imagined.

Braille Books

On the planet Aeran, the original colonists have undergone a drastic change: under the influence of some strange psychic force they have forgotten their identity and created a new culture - an exact reconstruction of the Stone Age society that flourished in Ireland 6,000 years ago. Has some strange racial memory been awakened? Or are both cultures the product of a social blueprint implanted throughout the cosmos by a long-vanished race?

The Publishers' Trade List Annual

In those days Broceliande was a terrible place, an ancient gloomy forest growing over misty dells, forgotten stones, a place of hidden lakes and strangling thickets. Though the true heart of Broceliande could never be found, the stink of its corruption oozed from the edgewood, shedding ghosts like autumn leaves. This was the forest of legend, where Merlin had come to dream his magic and the enchantress Vivien had come to beguile that magic from him. Martin and Rebecca have long since fled the forest, but when they are forced to return years later for their mother's funeral, they are at once ensnared in the forest's net of enchantment, an evil that has held the local villages in a root-strong grip. And when Rebecca gives birth to Daniel, a beautiful child who is deaf, dumb and blind, she finds herself sucked into a twilight world where she can see only strange, mysterious shadows.
