San Souci retells this popular folktale in a lilting narrative that includes all the magic of the beloved Cinderella story and traditional elements from Spanish tales. Adelita

Hace mucho tiempo—a long time ago—there lived a beautiful young woman named Adelita. So begins the age-old tale of a kindhearted young woman, her jealous stepmother, two hateful stepsisters, and a young man in search of a wife. The young man, Javier, falls madly in love with beautiful Adelita, but she disappears from his fiesta at midnight, leaving him with only one clue to her hidden identity: a beautiful rebozo—shawl. With the rebozo in place of a glass slipper, this favorite fairy tale takes a delightful twist. Tomie dePaola's exquisite paintings, filled with the folk art of Mexico, make this a Cinderella story like no other. Please note that the majority of this text is in English, with Spanish vocabulary throughout.

Perrault's Stories

In *Rewriting Womanhood*, Nancy LaGreca explores the subversive refigurings of womanhood in three novels by women writers: *La hija del bandido* (1887) by Refugio Barragán de Toscano (Mexico; 1846–1916), *Blanca Sol* (1888) by Mercedes Cabello de Carbonera (Peru; 1845–1909), and *Luz y sombra* (1903) by Ana Roqué (Puerto Rico; 1853–1933). While these women were both acclaimed and critiqued in their day, they have been largely overlooked by contemporary mainstream criticism. Detailed enough for experts yet accessible to undergraduates, graduate students, and the general reader, *Rewriting Womanhood* provides ample historical context for understanding the key women's issues of nineteenth-century Mexico, Peru, and Puerto Rico; clear definitions of the psychoanalytic theories used to unearth the rewriting of the female self; and in-depth literary analyses of the feminine agency that Barragán, Cabello, and Roqué highlight in their fiction. *Rewriting Womanhood* reaffirms the value of three women novelists who wished to broaden the ruling-class definition of woman as mother and wife to include woman as individual for a modern era. As such, it is an important contribution to women's studies, nineteenth-century Hispanic studies, and sexuality and gender studies.

Sweeping across two millennia and every literary genre, acclaimed scholar and biographer Jonathan Bate provides a dazzling introduction to English Literature. The focus is wide, shifting from the birth of the novel and the brilliance of English comedy to the deep Englishness of landscape poetry and the ethnic diversity of Britain's Nobel literature laureates. It goes on to provide a more in-depth analysis, with close readings from an extraordinary scene in *King Lear* to a war poem by Carol Ann Duffy, and a series of striking examples of how literary texts change as they are transmitted from writer to reader. The narrative embraces not only the major literary movements such as Romanticism and Modernism, together with the most influential authors including Chaucer, Donne, Johnson, Wordsworth, Austen, Dickens and Woolf, but also little-known stories such as the identity of the first English woman poet to be honoured with a collected edition of her works. Written with the flair and passion for which Jonathan Bate has become renowned, this book is the perfect Very Short Introduction for all readers and students of the incomparable literary heritage of these islands. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. The Cinderella Collection

Cinderella's transformation from a lowly, overlooked servant into a princess who attracts everyone's gaze has become a powerful trope within many cultures. Inspired by the Cinderella archive of books and collectables at the University of Bedfordshire, the essays in this collection demonstrate how the story remains active in various different societies where social and family relationships are adapting to modern culture. The volume explores the social arenas of dating apps and prom nights, as well as contemporary issues about women's roles in the home, and gender identity. Cinderella's cultural translation is seen through the contributors' international perspectives: from Irish folklore to the Colombian Cenicienta costeña (Cinderella of the coast) and Spanish literary history. Its transdisciplinarity ranges from fashion in Charles Perrault and the Brothers Grimm's publications to a comparison of Cinderella and Galatea on film, and essays on British authors Nancy Spain, Anne Thackeray Ritchie and Frances Hodgson Burnett.

Folktales and fairy tales are living stories; as part of the oral tradition, they change and evolve as they are retold from generation to generation. In the last thirty years, however, revision has become an art form of its own, with tales intentionally revised to achieve humorous effect, send political messages, add different cultural or regional elements, try out new narrative voices, and more. These revisions take all forms, from short stories to novel-length narratives to poems, plays, musicals, films and advertisements. The resulting tales paint the tales from myriad perspectives, using the broad palette of human creativity. This study examines folktale revisions from many angles, drawing on examples primarily from revisions of Western European traditional tales, such as those of the Grimm Brothers and Charles Perrault. Also discussed are new folktales that combine traditional storylines with commentary on modern life. The conclusion considers how revisionists poke fun at and struggle to understand stories that sometimes made little sense to start with.

Fairy Tales for the Disillusioned

This volume brings together diverse, cross-disciplinary scholarly voices to examine gender construction in children's and young adult literature. It complements and updates the scholarship in the field by creating a rich, cohesive examination of core questions around gender and sexuality in classic and contemporary texts. By providing an expansive treatment of gender and sexuality across genres, eras, and national literature, the collection explores how readers encounter unorthodox as well as traditional notions of gender. It begins with essays exploring how children's and YA literature construct communities formed by gender, ethnicity, sexuality, and in face-to-face and virtual spaces. Section II's central focus is how gendered identities are formed, unpacking how texts for young readers ranging from Amish youth periodicals to the blockbuster *Divergent* series trace, reproduce, and shape gendered identity socialization. In section III, the essential literary function of translating trauma into narrative is addressed in classics like *Anne of Green Gables* and *Pollyanna*, as well as more recent works. Section IV's focus on sexuality and romance encompasses fiction and nonfiction works, examining how children's and young adult literature can serve as a regressive, progressive, and transgressive site for construction meaning about sex and romance. Last, Section IV offers new readings of paratextual features in literature for children -- from the classic tale of Cinderella to contemporary illustrated novels. The key achievement of this volume is providing an updated range of multidisciplinary and methodologically diverse analyses of critically and commercially successful texts, contributing to the scholarship on children's and YA literature; gender, sexuality, and women's studies; and a range of other disciplines.

What are the patterns of teaching and learning that make a classroom holistic? How do children invent oral and written language? How do they create the culture and curriculum of a classroom? How does the spirit of community and collaboration develop among children and teachers? What are the

relationships between literacy, schooling, and socialization as they form among the children? These are a few of the broad questions that Kathy Whitmore and Caryl Crowell answer in this absorbing portrait of Caryl's third-grade classroom, "the Sunshine Room." Over the span of a school year, we watch the students in this bicultural classroom within a bilingual, working-class neighborhood work and develop together as a community of learners. It is the story of how the Sunshine Room, like many whole language classrooms, invents itself; and how in this process the children themselves are continually inventing oral and written language, culture, and curriculum. In two separate collaborative voices, the authors carry readers through several critical events in the life of the classroom: the process through which the children and the teachers negotiate the curriculum, the creation of a theme study about the Middle Ages, and a vicarious experience of the Middle East war through children's literature and discussions. On an individual level, the deep friendship between Seaira, an English-speaking child from the volunteer community, and Lolita, a bilingual Latina from the barrio, is symbolic of the bicultural experience fostered in the Sunshine Room.

Gender(ed) Identities

Cinderella is a folk tale embodying a myth-element of unjust oppression/triumphant reward. Thousands of variants are known throughout the world. The title character is a young woman living in unfortunate circumstances, that are suddenly changed to remarkable fortune. The oldest documented version comes from China, and the oldest European version from Italy. The most popular version was first published by Charles Perrault in *Histoires ou contes du temps pass * in 1697, and later by the Brothers Grimm in their folk tale collection *Grimms' Fairy Tales*. Although the story's title and main character's name change in different languages, in English-language folklore "Cinderella" is the archetypal name. The word "Cinderella" has, by analogy, come to mean one whose attributes were unrecognized, or one who unexpectedly achieves recognition or success after a period of obscurity and neglect. The still-popular story of "Cinderella" continues to influence popular culture internationally, lending plot elements, allusions, and tropes to a wide variety of media. The Aarne-Thompson system classifies Cinderella as "the persecuted heroine". The story of Rhodopis, about a Greek slave girl who marries the king of Egypt, is considered the earliest known variant of the "Cinderella" story (published 7 BC), and many variants are known throughout the world.
