Fertility problems are one of the fastest growing areas of medicine, with failure to conceive causing immense pain and suffering for those looking to get pregnant. Due to increased media hype, many women are entering their thirties terrified that they will struggle to get pregnant. For many women, anxiety about fertility and their ticking body clock starts long before they get pregnant. *Is Your Mind Fertility-Friendly?* aims to help busy women become aware of the impact stress and negative emotions can have on the body, including the detrimental effects they can have on your fertility. Fertility expert Jackie Brown provides women with the essential information they need to overcome their stress and create the perfect environment to increase fertility. Although many women do not feel particularly stressed, emotions such as worry, anxiety, fear and anger can still evoke the stress response that can interfere with fertility. This book will educate and offer self-help techniques to enable women to take back control of their fertility. Inspired by books such as *The Secret* by Rhonda Byrne and *Conquering Infertility* by Dr. Alice Domar, this book is an essential read for those looking to understand fertility.

A rare and valuable jewelry piece is stolen from the Palm Beach mansion of a wealthy industrialist. The piece itself, called the "Eye of the Sun," includes fragments of the famous Hope Diamond, rumored to be cursed. The industrialist asks his nephew, Greg, to find the lost treasure, with the assistance of private investigators Mike and Tina. The twisted trail of the Eye of the Sun leads up and down South Florida and over to San Juan, Puerto Rico, but finally ends at the mansion of a powerful drug dealer in the Bahamas. Greg uses his charm to befriend an attractive Cuban American named Flora, along with sly tipster Olivetti. With their help, Greg and his team steal the Eye of the Sun back. But just when he thinks his troubles are over, Greg begins to suspect the Hope Diamond curse to be true. He and anyone who comes into contact with the Eye of the Sun are on a downward spiral toward destruction. Copywriting Secrets Of Million Dollar Marketers Revealed

Learn to find the happiness that is natural to you, and enjoy better relationships, better health, more success and a longer life. The peculiar thing about us humans is, we spend a lot of time working to find people and things that will make us happy. In fact, we seem to spend the majority of our time doing this. However, there is no guarantee that any of this effort will work. There are lots of people who have hordes of people around them, and who have lots of things, but have been unable to make themselves happy. The truth is, happiness can be had with little effort. Have you ever been happy for no reason at all? Of course you have. Without anything changing in life, happiness just appears. We see it in young children all the time. In fact, we expect to see it in children. If you happen to ask a smiling child why he or she is so happy, at best the answer may be, "Because." For an adult this may be an unsatisfying answer, but for the child it is the truth -- happiness exists "just because." As we age we seem to lose touch with happiness-for-no-reason-at-all. We see a world where everyone is striving for stuff, striving for popularity, striving, striving, striving. The natural fount of happiness we once enjoyed disappears as we join them. However, that happiness is not gone. All that happened is we lost our connection to it. This book is about recovering that connection. We all grow up believing that if we work hard, and if we are good people, we will enjoy good relationships with others, good health, success and a long life. Obviously this is not true. There are a lot of rich old people who are not happy. What we have, what we do, and the other circumstances of our lives do not provide authentic happiness. Instead, happiness comes from inside of us, and all by itself enables us to have secure relationships, good health, more success and longer lives. So, what is the secret of being happy? Being happy is a little like flipping a switch. When it's on you are happy and when it's off you are not. It's so easy. How else can you explain being happy for no reason. What you need to do is learn to turn it on, and keep it turned on. This book discusses seven practices that help you do that. There is a lot of wisdom available about how to be happy. Most of it is thousands of years old, but some is quite new. The seven practices we will look at incorporate this wisdom to help you learn how to turn on happiness in your life. This kind of happiness does not require changing anything in your life. All you have to do is learn to turn it on.

Can't Hurt Me

"Are You Ready to Conquer Your Fears and Start Turning Your Dreams into Reality?" I'm telling you, you can! ...because you have the power - the power to mold your personality into someone you always wanted to be, the power to shape your future according to how you wanted to live, and the power to create your destiny as to how you wanted to make certain things happen. Exciting, isn't it? Definitely!

I bet you haven't thought how powerful you can be. Yes, you are capable of attaining your heart's deepest desires - by unleashing the hidden powers of your mind! "A Mind Is A Wonderful Thing To Use: Unleashing your full potential" will teach you how to do just that! You'll learn how to train your mind on how to create positive reality through positive thoughts. There's a saying that "If you think you can or you can't, you're right." There is no doubt that you can accomplish anything if you put your mind into it. The only problem is that many people do not know how to use their minds to their best advantage. Is there any instance in your life that you refuse to do a particular job, say joining a beauty contest or singing in front of a crowd, because you think you can't do it? Too bad... You haven't started the competition yet, but you have already lost. That's true! Losing is not about not being able to win; it's more about not even trying. So, the moment you say 'no' to something, it's just as bad as giving up and accepting your failure. You wouldn't want to always be a loser, would you? On the other hand, real success is not really always about being able to reach your goal, or winning that gigantic trophy; rather, it's more of standing up after every fall and never losing hope to finish what you once started. Really, there's no harm in trying. The Real Harm is Not Believing in Yourself - Making You Worthless and Insignificant! When you don't believe in yourself - what you can be or what you can do - all you can say are superficial thoughts such as I am not good enough, or I can't really do that. The Mind is So Powerful that Once These Thoughts Enter Your System, There Will Be No Turning Back! When you think you are not capable, you truly will not be good enough and you won't really be able to do a certain task. If you could only understand thoroughly how the human mind works, you'll realize that it is so much better if you fill the mind with positive ideas in order to create positive reality. Fortunately, prepared and compiled in a single book called "A Mind Is A Wonderful Thing To Use: Unleashing your full potential" are the most essential things you need to know about the human mind and why it is better to think positively. You Have the Power to Achieve Your Dreams! Just as long as you know how to properly train your mind to focus on important things, getting what you want will be as easy as snapping your fingers.

Samurai Zen brings together 100 of the rare riddles which represent the core spiritual discipline of Japan's ancient Samurai tradition. Dating from thirteenth-century records of Japan's Kamakura

temples, and traditionally guarded with a reverent secrecy, they reflect the earliest manifestation of pure Zen in Japan. Created by Zen Masters for their warrior pupils, the Japanese Koans use incidents from everyday life - a broken tea-cup, a water-jar, a cloth - to bring the warrior pupils of the Samurai to the Zen realization. Their aim is to enable a widening of consciousness beyond the illusions of the limited self, and a joyful inspiration in life - a state that has been compared to being free under a blue sky after imprisonment.

In today's competitive environment, it's easy to underestimate the power of our minds, which is why a single bad review can be enough to ruin a reputation and make a business seem unreliable, so you need to be aware of what people are thinking about you. You will never reach a place of total peace and contentment in this life until you learn to accept the things you cannot change and simply move on. The first step in this process is to become aware of the things you can change... and then, to stop obsessing about them. This is not an easy thing for most people to do. It's much easier to dwell on what's wrong with your life than it is to simply accept it as it is. One of the most important lessons is that our minds are much more powerful than we give them credit for. Most people never learn this lesson because they don't know any better. They get an education that teaches them only a small part of what their mind is capable of learning. They get an education that makes them "cognitive cripples," unable to think outside the box. These people will be perfectly happy living in the world as it is today, with all its problems. It is not the strongest of the species that survives, nor the most intelligent. It is the one that is most responsive to change. A short time ago, a group of scientists proved that what you focus on expands. They did this by having a group of people stare at a dot for two hours per day, five days per week, for a period of eleven weeks. Then, they measured the size of their "focus pool" and found it to be much larger than expected. In fact, it was more than 2,000% bigger! What does this mean? Simply put, what you focus on expands. This discovery is huge because it proves that we are all capable of changing our focus, as long as we are aware that what we focus on expands. It also means that we can control where we focus. If you have ever played the games Concentration or Tetris, then you know that what you focus on will grow. It's similar to how a person playing an instrument will eventually develop muscle memory for a particular note or scale. The question now becomes: how do you focus? Well, to tell you the truth, I don't know exactly how to focus. However, I do know that whenever I start to get stressed out, my ability to focus seems to diminish. And, whenever I take some time off, my ability to focus seems to improve. In other words, when my stress levels are high, I am less able to focus, and when my stress levels are low, I am more able to focus. It appears to me that the best way to get into the "groove" of becoming more focused is to do something physical, like exercise or working on a puzzle. Another thing you can do to improve your focus is to learn to meditate. There are many different types of meditation. But, in general, most forms of meditation reduce your overall stress level. This means that you will be able to focus better. Here's another little-known fact: the human eye can see about 1/10th of one percent (0.01%) of what it sees. In *Power of the Mind*, Amoo O. Olaleye explains that the brain has many parts that interact with each other. From the earliest of times, people have known that certain mental techniques could help us improve our lives—and they've used the power of the mind to enhance their lives and to become better leaders. It's amazing what a little knowledge can do. For example, do you know that the world's best salesmen are not born, but rather, they are made? It's true. The real masters of closing the deal are those who know the art and science of brainwashing. They have the ability to program the minds of their prospects so that they will buy from them without even realizing it. One way to do this is by using a strong "engineered" emotion. This is one of the most powerful ways to close the sale. A brain is a wonderful machine, but it's not perfect. It can be influenced by external factors, and one of the most important is your state of mind. So, if you want to change how you think about something or how you feel about it, then you have to train your brain to think or feel in a new way. And that's exactly what we're going to do in this book. This book will give you the mental tools you need to achieve all your goals, no matter how big or small they may be. *How to Use Your Mind to Achieve Greater Success in Life and Work!* Your mind is what makes you. It is what you use to think, remember, decide, create, imagine, and feel. Your mind is the most important tool you have in life. It is truly the most powerful tool you have. It's one of the main reasons you are here reading this guide. Your mind is what got you interested in this book; it is what will keep you coming back for more. What you will learn in this book:

- How to use your mind to get yourself out of any situation, even if that situation is in your own mind.
- How to use your mind to instantly increase your self-esteem.
- How to use your mind to achieve virtually anything you can think of.
- How to use your mind to become a "super-human" being.

Some parts of this book contain the core principles you must understand in order to use your

mind effectively. These are the bedrock basics you must learn if you ever want to use your mind to be more successful in life and work. Another section of this book is where all the magic happens. It is here that you will learn specific techniques you can use to put these principles into action in your daily life. Throughout this entire book, I will be giving you tools, techniques, hints, and insider secrets on how to use your mind to be more successful. I am going to give you an incredible number of instructions to chew on. You won't be able to stop thinking about what you are going to learn in this book! This book was written for everyone. No matter who you are, what you do for a living, or how much money you make.

Morgan Russell, Sienna Borden, and Lenore Huston almost always see each other in the infusion lab of the Oncology Department of The Center. All three are being treated by Dr. Lucille Peyton, a hardworking, dedicated physician and friend. All of them are battling one common enemy: cancer. While life itself is a constant challenge in the course of their treatment, The Center is undergoing rapid changes under new management that are determined to keep the hospital from bankruptcy. Dr. Jerry Cherry, an accountant, currently heads the board of directors. His resolve to downsize the hospital staff and departments for financial stability clashes with the doctors' ethos and primary duty: the treatment of patients to the best of their abilities. For unknown reasons, the Oncology Department seems to be the hardest hit by layoffs, and Dr. Peyton becomes the recipient of charges for company violations that threaten to end her career as physician forever.

A Gemstone Book (TRADE PAPERBACK) - 349 pages *** To escape a life of abuse, fifteen-year-old Evan Adamson sacrifices the love of his childhood sweetheart only to find himself caught up in the ill-begotten adventures of three Gypsy outcasts who ultimately teach him the ways of the heart and the soul, and most importantly that, ..".there will always be that in this world which goes beyond understanding and speaks to the heart in a more meaningful way." When Evan finds himself torn between the dark girl of his dreams and a promise he made to his mother years before, he sees in a single moment the reflection of his own true nature and the capacity for a love that transcends all else. By the very enigma of riddles, he comes to discover himself. And those discoveries are heartbreaking and wise, as complex as they are devastating-for in heaven and in our dreams, love is simple and glorious, but it is something quite different in the world of flesh.

"I made him cry because he made you cry," Kabir exclaimed to a dewy-eyed Ashima when they were kids. "If he made me laugh, would you tell him jokes?" She chuckled. Kabir and Ashima were unlike, but they loved each other. After fifteen years, Ashima said, "The whole concept of love is fake." She had not confessed her love nor accepted Kabir's half-hearted proposals. She had seen her parents fall out of love. But can someone really fall out of love? Can love or the expression be half-hearted? Eventually, they united, but this love story had its own challenges.
