This children's book series The Rainbow Travellers, puts children in control of the world they will grow up in as their decisions decide what happens next. What kind of world will they grow up in? Let our children decide! As an adult you may remember the Pick-A-Path franchise of books of the late 80's and early 90's. The Rainbow Travellers also lets children choose their next adventure empowering them to make decisions, show courage and lead at every step of the way. I'm proud to have written these books with my own son Joseph in mind because I want him to grow up having the best possible head on his shoulders and know that there is more than one way to carve your own path forward. The North Pole is home to few mammals—it is far too cold for most to survive. Luckily, polar bears have a thick layer of fat and a heavy fur to keep them warm in this climate. In this unforgiving world, the bears dig dens in the snow to survive each winter. Inside, where they stay until spring, the mother bear's cubs are born. When the weather has warmed up enough for the bears to come outside, the mother takes her cubs along as she hunts for food. Readers will see how the cubs learn to wait by holes in the ice

for seals to pop up, or swim through the icy water to find their prey—and eventually learn to live and hunt on their own. Combining colorful photos and clear, simple text, this coming-of-age introduction to polar bear cubs is sure to delight emergent readers.
