Intro

How do you define trauma?

How is healing defined?

Time itself does not heal emotional wounds

We are all born vulnerable

The inherent expectations we all have

The societal standards we try to live up to

It's not possible to love kids too much

Grief is essential for life

When the past dominates the present reactions

There is no healthy identification

Why are we set on things staying the same

No two children have the same childhood

The difference between loneliness and being alone

How do you see human nature?

Suffering has to be acknowledged

Getting closure and start moving on

Spirituality becomes commoditized
