How to Age Paper

Print an image or text on a piece of normal printer paper

Crumple the paper for more texture (optional)

Flatten out on a baking pan

A teaspoon of instant coffee (or brew a strong coffee)

You can use less coffee for a lighter shade and vice versa

Add a little bit of boiling water (1/4 cup)

The stronger the coffee is, the darker the paper will be

Let the paper soak for 5 minutes

Remove the excess coffee with paper towels

Optional: Use a heavy book or any heavy object to flatten the paper

You can add some red wine to the coffee for a deeper color & a very old/antique effect
