Pulmonary Complications Of Non Pulmonary Malignancy An Issue Of Clinics In Chest Medicine The Clinics Internal Medicine

[#pulmonary complications](#) [#non-pulmonary malignancy](#) [#lung complications cancer](#) [#systemic cancer respiratory issues](#) [#secondary lung effects cancer](#)

This article delves into the critical area of pulmonary complications that arise from malignancies originating outside the lungs. It explores the diverse range of respiratory issues and challenges faced by patients with non-pulmonary cancers, highlighting the importance of early diagnosis and management within the field of internal and chest medicine. Understanding these secondary lung effects is crucial for comprehensive patient care.

Each journal issue is carefully curated to ensure scholarly integrity and originality.

Not all chemo meds cause hair loss

Cold Cap therapy could be an option for you.

Hair loss occurs everywhere.

Nails may be affected.

Neuropathy is a common side effect.

Your taste will change.

You will likely have nausea.

Drink lots of water for the days around chemo!

Your mouth may be affected.

Talk to your doctor about preserving your fertility.

You will be tired.

10. You will be "foggy" aka chemo brain.

You can live a pretty normal life.
