Sit Still!

As heard on the Tim Ferriss Show podcast 'Meditation for Fidgety Skeptics is well researched, practical, and crammed with expert advice and it's also an irreverent, hilarious page-turner.' - Gretchen Rubin ABC News anchor Dan Harris used to think that meditation was for people who collect crystals, play the pan pipes, and use the word namaste without irony. After he had a panic attack on live television, he went on a strange journey that ultimately led him to become one of meditation's most vocal public proponents. Science suggests that meditation can lower blood pressure, mitigate depression and anxiety, and literally rewire key parts of the brain, among numerous other benefits. And yet there are millions of people who want to meditate but aren't actually practising. What's holding them back? In this guide to mindfulness and meditation for beginners and experienced meditators alike, Harris and his friend Jeff Warren, embark on a cross-country quest to tackle the myths, misconceptions, and self-deceptions that stop people from meditating. They rent a rock-star tour bus and travel across the US, talking to scores of would-be meditators, including parents, police officers, and even a few celebrities. They create a taxonomy of the most common issues ("I suck at this," "I don't have the time," etc.) and offer up science-based life hacks to help people overcome them. The book is filled with game-changing and deeply practical meditation instructions. Amid it all unspools the strange and hilarious story of what happens when a congenitally sarcastic, type-A journalist and a groovy Canadian mystic embark on an epic road trip into America's neurotic underbelly, as well as their own.

That is, until Brandon goes MIA from rehab and Tyler and Ani discover that the game is more than it seems. The Fish Who Could Wish

A stunning story cycle from bestselling New York Times Notable author, Mary-Beth Hughes, *The Ocean House* explores the fractured lives of families from a beach town on the Jersey Shore as the consequences of loss pass through generations. Faith, a mother of two young children, Cece and Connor, is in need of summer childcare. As a member of a staid old beach club in her town and a self-made business consultant, she is appalled when her brother-in-law sends her an unruly, ill-mannered teenager named Lee-Ann who appears more like a wayward child than competent help.

What begins as a promising start to a redemptive relationship between the two ends in a tragedy that lands Faith in a treatment facility, leveled by trauma. Years later, Faith and her mother, Irene, visit Cece in college. A fresh-faced student with a shaved head and new boyfriend, Cece has become a force of her own. Meanwhile, her grandmother, Irene, is in the early stages of dementia. She slips in and out of clarity, telling lucid tales of her own troubled youth. Faith dismisses her mother's stories as bids for attention. The three generations of women hover between wishful innocence and a more knowing resilience against the cruelty that hidden secrets of the past propel into the present. Including stories from an array of characters orbiting Faith's family, *The Ocean House* weaves an exquisite world of complicated family tales on the Jersey Shore. In ever-tender and elegant prose, Mary-Beth Hughes masterfully explores the emotional consequences of loss and the saving graces of love.
