Common quality improvement (QI) methodologies • Root cause analysis • The Model for Improvement

QI Methodology Commonalities All quality management methodologies share four common themes:

• Leadership • Measurement • Staff involvement and team approach • Customer/patient focus

Root Cause Analysis (RCA)

RCA Process 1. Identify the event 2. Form a team 3. Describe the event - where did breakdowns

RCA Process & System Thinking Relies on systems and process thinking • Process

The Model for Improvement: Step by Step

Model for Improvement: Key Benefits • Encourages learning by testing change on a small scale - Pilot the change in one department, with one

What are we trying to accomplish? • Improvement begins with setting aims

Question 1: SMART Goals When setting your goal or aim, make sure it is

How will we know that change is an improvement? Measurement allows us to determine if change is an improvement.

What changes can we make that will result in an improvement? • Clarify actual, current process (process map) • Try to identify these in your current state process

Evaluation • Analyze data • Compare data to your benchmarks and the predicted outcome or goal • What was learned?

Tips for Using PDSA in Your QI Team . Teach the PDSA tool to the group • Discussed and answer the three questions of the Model for Improvement as a group
