Edward the Second

The first full critical edition of Marlowe's highly controversial Edward II for twenty-five years, Richard Rowland's scholarly edition presents an old-spelling text which adheres more closely to the first quarto than any prior edition. A full commentary and introduction contextualize the play and give an entirely original account of the relationship between the play, Marlowe's own age, and events which immediately followed it.

Edward II

The first full critical edition of Marlowe's highly controversial Edward II for twenty-five years, Richard Rowland's scholarly edition presents an old-spelling text which adheres more closely to the first quarto than any prior edition. A full commentary and introduction contextualize the play and give an entirely original account of the relationship between the play, Marlowe's own age, and events which immediately followed it.

The Greatest Traitor

King Edward II was deposed and apparently murdered by the lover of his estranged Queen Isabella, Sir Roger Mortimer. This biography of 14th century England's evil genius offers a new and controversial theory regarding the fate of Edward II.

Edward II (Penguin Monarchs)

'He seems to have laboured under an almost child-like misapprehension about the size of his world. Had greatness not been thrust upon him, he might have lived a life of great harmlessness.' The reign of Edward II was a succession of disasters. Unkingly, inept in war, and in thrall to favourites, he preferred digging ditches and rowing boats to the tedium of government. His infatuation with a young Gascon nobleman, Piers Gaveston, alienated even the most natural supporters of the crown. Hoping to lay the

ghost of his soldierly father, Edward I, he invaded Scotland and suffered catastrophic defeat at the Battle of Bannockburn. After twenty ruinous years, betrayed and abandoned by most of his nobles and by his wife and her lover, Edward was imprisoned in Berkeley Castle and murdered - the first English king since the Norman Conquest to be deposed.

Maclehose & sons, 1907 History; Europe; Great Britain; Great Britain; Heraldry; History / Europe / Great Britain; History / General; Reference / Genealogy

The Place of the Reign of Edward II in English History

Edward II is a Renaissance or Early Modern period play written by Christopher Marlowe. It is one of the earliest English history plays. The full title of the first publication is *The Troublesome Reign and Lamentable Death of Edward the Second, King of England, with the Tragical Fall of Proud Mortimer*. Marlowe found most of his material for this play in the third volume of Raphael Holinshed's *Chronicles* (1587). Frederick Boas believes that "out of all the rich material provided by Holinshed" Marlowe was drawn to "the comparatively unattractive reign of Edward II" due to the relationship between the King and Gaveston. Boas elaborates, "Homosexual affection ... has (as has been seen) a special attraction for Marlowe. Jove and Ganymede in *Dido*, Henry III and his 'minions' in *The Massacre*, Neptune and Leander in *Hero and Leander*, and all akin, although drawn to a slighter scale, to Edward and Gaveston." Boas also notes the existence of a number of parallels between Edward II and *The Massacre at Paris*, asserting that "it is scarcely too much to say that scenes xi-xxi of *The Massacre* are something in the nature of a preliminary sketch for *Edward II*." Marlowe stayed close to the account but embellished it with the character of Lightborn (or Lucifer) as Edward's assassin. We are delighted to publish this classic book as part of our extensive Classic Library collection. Many of the books in our collection have been out of print for decades, and therefore have not been accessible to the general public. The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature, and our view is that this is a significant literary work, which deserves to be brought back into print after many decades. The contents of the vast majority of titles in the Classic Library have been scanned from the original works. To ensure a high quality product, each title has been meticulously hand curated by our staff. Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work. We hope that you will enjoy this wonderful classic work, and that for you it becomes an enriching experience.

Edward the Second

"Christopher Marlowe's drama *Edward II* stands as one of the first plays to stage English history, and it has long been seen as a master work on conflicts between the personal and the political. In its day, the play was popular in London's theatres and bookshops, and it continues to inspire actors, directors and audiences. Bolstered with a timeline tracking Marlowe's life and work, an up-to-date bibliography and an extensive index, this collection is an ideal and definitive guide to *Edward II*."--Page [4] of cover.

Edward II: A Critical Reader

We appreciate your understanding of the imperfections in the preservation process, and hope you enjoy this valuable book.

Year Books of Edward II.

The first biography of the rebel baron who deposed and murdered Edward II. One night in August 1323 a captive rebel baron, Sir Roger Mortimer, drugged his guards and escaped from the Tower of London. With the king's men-at-arms in pursuit he fled to the south coast, and sailed to France. There he was joined by Isabella, the Queen of England, who threw herself into his arms. A year later, as lovers, they returned with an invading army: King Edward II's forces crumbled before them, and Mortimer took power. He removed Edward II in the first deposition of a monarch in British history. Then the ex-king was apparently murdered, some said with a red-hot poker, in Berkeley Castle. Brutal, intelligent, passionate, profligate, imaginative and violent: Sir Roger Mortimer was an extraordinary character. It is not surprising that the queen lost her heart to him. Nor is it surprising that his contemporaries were terrified of him. But until now no one has appreciated the full evil genius of the man. This first biography reveals not only the man's career as a feudal lord, a governor of Ireland, a rebel leader and a dictator of England but also the truth of what happened that night in Berkeley Castle. 'Mortimer's book roars, races and sings... with a sense of passion and drama and an unrelenting pace' Daily Telegraph

Year Books of Edward II

The first full critical edition of Marlowe's highly controversial Edward II for twenty-five years, Richard Rowland's scholarly edition presents an old-spelling text which adheres more closely to the first quarto than any prior edition. A full commentary and introduction contextualize the play and give an entirely original account of the relationship between the play, Marlowe's own age, and events which immediately followed it.

The Greatest Traitor

Described by Christopher Marlowe as the 'She-Wolf of France', Isabella was one of the most notorious femme fatales in history. According to popular legend, her angry ghost can be glimpsed among church ruins, clutching the beating heart of her murdered husband. But how did Isabella acquire this reputation? Born in 1292 she married Edward II of England but was constantly humiliated by his relationships with male favourites and she lived adulterously with Roger Mortimer, 1st Earl of March. Had it not been for her unfaithfulness, history might have immortalised her as a liberator- the saviour who unshackled England from a weak and vicious monarch. Dramatic and startling this first full-length biography of Isabella will change the way we think of her and her world forever.

Year Books of Edward II

He is one of the most reviled English kings in history. He drove his kingdom to the brink of civil war a dozen times in less than twenty years. He allowed his male lovers to rule the kingdom. He led a great army to the most ignominious military defeat in English history. His wife took a lover and invaded his kingdom, and he ended his reign wandering around Wales with a handful of followers, pursued by an army. He was the first king of England forced to abdicate his throne. Popular legend has it that he died screaming impaled on a red-hot poker, but in fact the time and place of his death are shrouded in mystery. His life reads like an Elizabethan tragedy, full of passionate doomed love, bloody revenge, jealousy, hatred, vindictiveness and obsession. He was Edward II, and this book tells his story. The focus here is on his relationships with his male 'favourites' and his disaffected wife, on his unorthodox lifestyle and hobbies, and on the mystery surrounding his death. Using almost exclusively fourteenth-century sources and Edward's own letters and speeches wherever possible, Kathryn Warner strips away the myths which have been created about him over the centuries, and provides a far more accurate and vivid picture of him than has previously been seen.

Edward the Second

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars

believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Isabella

Hugh Despenser the Younger and Edward II tells the story of the greatest villain of the fourteenth century, his dazzling rise as favorite to the king and his disastrous fall. Born in the late 1280s, Hugh married King Edward I of England's eldest granddaughter when he was a teenager. Ambitious and greedy to an astonishing degree, Hugh chose a startling route to power: he seduced his wife's uncle, the young King Edward II, and became the richest and most powerful man in the country in the 1320s. For years he dominated the English government and foreign policy, and took whatever lands he felt like by both quasi-legal and illegal methods, with the king's connivance. His actions were to bring both himself and Edward II down, and Hugh was directly responsible for the first forced abdication of a king in English history; he had made the horrible mistake of alienating and insulting Edward's queen Isabella of France, who loathed him, and who had him slowly and grotesquely executed in her presence in November 1326.

Year Books of Edward II

Excerpt from Year Books of Edward II, Vol. 11: 5 Edward II; A. D. 1311-1312 Just one other instance from the report-s contained in this volume may be given. The anonymous case, No. 43 (pp. 159 is included on the authority of five manuscripts. What is clearly the same case is included in the first volume of the Year Books Series on the authority of two manuscripts, which assign it to 2 Edward II. The second version Of the report in the present volume is almost word for word identical with the report as given in the first volume of the series. Maitland was unable to find the record, and I have been as unsuccessful. It may be said here that Fitzherbert notes the case,³ and assigns it to the Michaelmas term of 2 Edward II. Coke cites it from Fitzherbert. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

Edward II

"Informed and informative . . . a meticulous example of outstanding scholarship, and an inherently fascinating read." —Midwest Book Review Edward II is famously one of England's most unsuccessful kings, as utterly different from his warlike father Edward I as any man possibly could be, and the first English king to suffer the fate of deposition. Highly unconventional, even eccentric, he was an intriguing personality, and his reign of nineteen and a half years, from 1307 to 1327, was a turbulent period of endless conflict and the king's infatuation with his male favorites, which ended when his own queen led an invasion of his kingdom. *Following in the Footsteps of Edward II* presents a new take on this most unconventional and puzzling of kings, from the magnificent Caernarfon Castle where he was born in 1284 shortly after his father conquered North Wales, to his favorite residences at King's Langley in Hertfordshire and Westminster, to the castle of Berkeley in Gloucestershire where he supposedly met his brutal death in September 1327, to Gloucester Cathedral, where his tomb and alabaster effigy still exist and are among the greatest glories surviving from medieval England.

Year books of Edward II: 6 Edward II, A.D. 1312-1313

An excellent introduction to an eventful period of history., this spirited work analyzes the three Kings of very different qualities and reputations: the confident and masterful Edward I who conquered Wales; Edward II who was defeated by the Scots in battle and was humiliated and deposed; and Edward III whose reign saw great triumphs against the French, but also the ravages of plague. Michael Prestwich combines lively anecdotes and colorful assessments of each of these Kings' characters. The second edition of this highly acclaimed book updates the story throughout. A great deal of research on this period of history has been undertaken since 1980 when the first edition was published, a great deal of it by the author himself. This new edition presents new and improved maps to help visualize the campaigns and adds a revised guide to further reading.

Scalacronica

A critical old-spelling edition of the complete works of Marlowe edited on the principles that Professor Bowers more than any other scholar has established. Through a choice of copy-texts that stand nearest in direct line to the lost manuscripts, the works are presented in as near the original form as can be recovered, in respect of spelling, punctuation, capitalisation and the actual words themselves. The edition contains a substantial critical apparatus in the form of textual introduction and notes, a historical collation and a list of emendations for each work, of both substantives and accidentals.

Year Books of Edward II.

This is a reproduction of a book published before 1923. This book may have occasional imperfections such as missing or blurred pages, poor pictures, errant marks, etc. that were either part of the original artifact, or were introduced by the scanning process. We believe this work is culturally important, and despite the imperfections, have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide. We appreciate your understanding of the imperfections in the preservation process, and hope you enjoy this valuable book.

Hugh Despenser the Younger and Edward II

The first biography to tell the personal story of the wealthiest, most powerful and most hated man in medieval England.

Year Books of Edward II

The dramatic life and mysterious death of the reviled Edward II, focusing on the vivid personality of the erratic and contradictory king, his unorthodox lifestyle and his passionate relationships with his male favourites, including Piers Gaveston

Year Books of Edward II

During his lifetime and the four centuries following his death, King Edward II (1307-1327) acquired a reputation for having engaged in sexual and romantic relationships with his male favourites, and having been murdered by penetration with a red-hot spit. This book provides the first account of how this reputation developed, providing new insights into the processes and priorities that shaped narratives of sexual transgression in medieval and early modern England. In doing so, it analyses the changing vocabulary of sexual transgression in English, Latin and French; the conditions that created space for sympathetic depictions of same-sex love; and the use of medieval history in early modern political polemic. It also focuses, in particular, on the cultural impact of Christopher Marlowe's Edward II (c.1591-92). Through such close readings of poetry and drama, alongside chronicle accounts and political pamphlets, it demonstrates that Edward's medieval and early modern afterlife was significantly shaped by the influence of literary texts and techniques. A 'literary transformation' of historiographical methodology is, it argues, an apposite response to the factors that shaped medieval and early modern narratives of the past.
