This manual is designed to help teachers establish a principled framework for developing English at Key Stages 1 and 2. Covering all aspects of English, it will help teachers raise standards of achievement in pupils at all levels of fluency and confidence. The author uses case study material to relate theory to practice, covering issues such as classroom organization and management. She also provides guidance for planning and developing ideas with colleagues and with children, and offers suggestions for teaching strategies with photocopiable sheets and formats and ways to evaluate teaching. Separate sections deal with reading, writing, speaking and listening, and these different threads are drawn together in sections on knowledge about language - including spelling, grammar and punctuation - and study of texts - including media, poetry, drama, response to literature and the use of non-fiction texts. The final section deals with policy and schemes of work. Each chapter also offers information on:

- \* assessment, recording and reporting, linked to scales of progression
- \* frameworks for screening and supporting children who have difficulties with English
- \* gender
- \* working with parents
- \* linguistic and cultural diversity

Eve Bearne teaches at Homerton College, Cambridge.

## Making Progress in English

You've never used a video guide like this before. You loved Chariots of Fire and you want to see something like it. Where do you start? Look up Chariots of Fire in the index, and find it in Drama. There you'll see it listed under White Flannel Films: Welcome to the glory days of the British empire when the ruling class rode horses on large country estates, servants were in plentiful supply, and only an adulterous lover questioned the status quo. As in other costume dramas, the period details are celebrations of all that was brilliant and luxurious, with the camera sweeping over British, Indian, or African countryscapes and exquisite turn-of-the-century interiors. But all this lush upholstery doesn't cover up the intelligent, thoughtful stories -- usually based on Lawrence, Forster, and Waugh novels -- played by stellar British actors. In White Flannel Films there are concise, witty reviews of select movies like A Room with a View A Passage to India Heat and Dust The Shooting Party Out of Africa White Mischief and more There is also a unique ratings system that helps you distinguish the bombs from the sleepers. But the key is that all these films offer the same kind of viewing experience -- if you like one, chances are good you'll like the others, too. Seen That, Now What? is your own personal video genius, who knows everything about movies and exactly what you like to watch.

#### Theatre Record

With the huge global success of Hollywood 'family film' franchises, such as Harry Potter, it is unsurprising that there have been many attempts to emulate this success. In recent years, there has been an explosion in international production of films for both adults and children - resulting in an erosion of the dominance of The Disney Company and the other major Hollywood Studios in family film production. *Family Films in Global Cinema* is the first serious examination of films for child and family audiences in a global context. Whereas most previous studies of children's films and family films have concerned themselves with Disney, this book encompasses both live-action and animated films from the Hollywood, British, Australian, East German, Russian, Indian, Japanese and Brazilian cinemas. As well as examining international family films previously ignored by scholars, the collection also presents a fresh perspective on familiar movies such as *The Railway Children*, *The Nightmare Before Christmas*, *Babe*, and the *Harry Potter* series. --Provided by publisher.

#### The Book of Video Lists

Mirabelle's past is shrouded in secrecy, from her parents' tragic deaths to her guardians' half-truths about why she can't return to her birthplace, Beau Rivage. Desperate to see the town, Mira runs away—and discovers a world she never could have imagined. In Beau Rivage, nothing is what it seems—the strangely pale girl with a morbid interest in apples, the obnoxious playboy who's a beast to everyone he meets, and the chivalrous guy who has a thing for damsels in distress. Here, fairy tales come to life, curses are awakened, and ancient stories are played out again and again. But fairy tales aren't pretty things, and they don't always end in happily ever after. Mira has a role to play, a fairy tale destiny to embrace or resist. As she struggles to take control of her fate, Mira is drawn into the lives of two brothers with fairy tale curses of their own...brothers who share a dark secret. And she'll find that love, just like fairy tales, can have sharp edges and hidden thorns.

It should be simple: a dragon defeated, a slumbering princess in a castle, a prince poised to wake her. But when the prince falls asleep as his lips touch the fair maiden's, it is clear that this fairytale is far from over. With a desperate fairy's last curse controlling her mind, Princess Aurora must escape from a different castle of thorns and navigate a dangerously magical landscape-created from her very own dreams. Aurora isn't alone-a charming prince is eager to join her quest, and old friends offer their help. But as Maleficent's agents follow her every move, Aurora must discover who her true allies are and, moreover, who she truly is. Time is running out. Will the sleeping beauty be able to wake herself up?
