The Lincoln Assassination

Diverse perspectives on Lincoln's assassination, its aftermath, and its place in national memory from some of today's leading Lincoln scholars. The assassination of President Abraham Lincoln remains one of the most significant events in US history. It continues to attract the interest of scholars, writers, and armchair historians, ranging from painstaking new research to wild-eyed speculation. Now leading scholars of Lincoln and his murder offer in one volume their most salient studies and arguments about the assassination, its aftermath, the extraordinary—and complicated—public reaction, and the iconography that Lincoln's murder and deification inspired. Contributors also offer the latest accounts of the pursuit, prosecution, and punishment of the conspirators. Everything from graphic tributes to religious sermons, to spontaneous outbursts on the nation's city streets, to emotional mass-mourning at carefully organized funerals, as well as the imposition of military jurisprudence to try the conspirators, is examined in the light of fresh evidence and insightful analysis. Contributing to this volume are some of the finest scholars specializing in Lincoln's assassination. All have earned well-deserved reputations for the quality of their research, their originality, and their writing. In addition to the editors, contributors

include Thomas R. Turner, Edward Steers Jr., Michael W. Kauffman, Thomas P. Lowry, Richard E. Sloan, Elizabeth D. Leonard, and Richard Nelson Current.

After the trial of the conspirators was over, the Govt. called for claims to the rewards. Many of the Detectives, Soldiers and citizens involved wrote detailed descriptions and sometimes submitted original reports to support their claims.

The Lincoln Assassination - The Rewards Files

On April 14, 1965, President Abraham Lincoln was assassinated while attending a play at Ford's Theatre. Historical accounts tell us the murder was committed by a crazed actor named John Wilkes Booth, and no one else. Now, after more than a century, startling new answers are uncovered.

The Lincoln Conspiracy

The traditional story of Abraham Lincoln's assassination is littered with errors, some of which are accidental while others are willful. Too often, authors describe Lincoln's assassination rather than explain it. The current work is an attempt to explain the underlying causes of Lincoln's assassination and expose those who aided and abetted John Wilkes Booth in his plan to remove Lincoln from office and why.

Lincoln's Assassination

"In this encyclopedia of Lincoln's assassination, Edward Steers, Jr., the foremost scholar of the assassination, has assembled knowledge of the subject scattered in documents and writings over a period of nearly a century and a half, organized it authoritatively and comprehensively, and written about it clearly." —William Hanchett, author of *Out of the Wilderness: The Life of Abraham Lincoln* The definitive A-to-Z reference to the Abraham Lincoln assassination by Edward Steers, author of *Blood on the Moon: The Assassination of Abraham Lincoln*. With a foreword by Manhunt author James L. Swanson.

The Lincoln Assassination Encyclopedia

The eight people charged with conspiring to assassinate President Abraham Lincoln were tried by a military commission under military law. The author contends that this was illegal, since the civilian legal system was fully functioning. The many ways in which the defendants' rights were violated are described, as are the ways in which the trial testimony was either not accurate or not legally obtained. The trial is also compared with other incidents in which the U.S. military was used in police and judicial functions, with questionable results. The book is a warning against unchecked power by the executive branch of the government.

This is a transcript of NARA M599 Reels 8-15. It contains the arguments and summaries as well as the full testimony of each witness. It also contains the testimony of the perjured witnesses. This along with "The Lincoln Assassination: The Evidence" and *The Lincoln Assassination: The Reward Files* constitute a large majority of the primary evidence of the assassination.

The Lincoln Assassination Trial - The Court Transcripts

Assassination of Lincoln is a historical text by Thomas Mealey Harris. It relates to and analyzes the conspiracy issues bordering the assassination of the 16th US president Abraham Lincoln.

Assassination of Lincoln

On April 22, 1865, Brevet Colonel H. L. Burnett was assigned to head the investigation into the murder of President Abraham Lincoln and the attempted murder of Secretary of State William H. Seward.

Burnett orchestrated the collection of thousands of documents for the Military Commission's trial of the conspirators. This deep archive of documentary evidence--consisting of letters, depositions, eyewitness accounts, investigative reports, and other documents--provides invaluable insight into the historical, cultural, and judicial context of the investigation. Only a fraction of the information presented in these documents ever made its way into the trial, and most of it has never been readily accessible. By presenting an annotated and indexed transcription of these documents, this volume offers significant new access to information on the events surrounding the assassination and a vast new store of social and political history of the Civil War era. "With tears in my eyes I think it your duty to hang every rebel caught. I feel as bad as if was my own mother or father & will be one to volunteer to try & shoot every Southern man. May God have mercy on the man's soul that done such a deed. With much Respect for our Country, I remain Weeping" --Anonymous letter, New York, April 15, 1865 "I know Booth. He was in the habit of coming to my place to shoot. . . . He shot well, and practiced to shoot with accuracy in every possible position. . . . He was a quick shot; always silent, reticent." --Deposition of Benjamin Barker, Pistol Gallery proprietor

The Lincoln Assassination

On the night of April 14, 1865, John Wilkes Booth assassinated President Abraham Lincoln in what he envisioned part of a scheme to plunge the federal government into chaos and gain a reprieve for the struggling Confederacy. The plan failed. By April 26, Booth was killed resisting capture and eight of the nine conspirators eventually charged in Lincoln's murder were in custody. Their trial would become one of the most famous and most controversial in U.S. history. New president Andrew Johnson's executive order on May 1 directed that persons charged with Lincoln's murder stand trial before a military tribunal. The trial lasted more than fifty days, and 366 witnesses gave testimony. Benn Pitman, a recognized expert in phonography, an early form of shorthand, was awarded the government contract to produce a transcription of each day's testimony. Pitman made these transcripts available to the prosecution and the defense, as well as to select members of the press. Although three versions of the trial testimony were published, Pitman's edited collection was the most accessible. He skillfully winnowed the 4,300 pages of transcription into one volume, collated the testimony by defendant, indexed the testimony by name and date, and added summaries of the testimony. In *The Trial*, assassination scholars guide readers through all 421 pages of testimony, illuminating Pitman's record. By drawing together the evidence that resulted in the conspirators' convictions, *The Trial* leaves no doubt as to the events surrounding the assassination of Abraham Lincoln, making this book a fascinating account of the trial as well as an essential resource.

Assassination of Lincoln: A History of the Great Conspiracy Trial of the Conspirators by a Military Commission and a Review of the Trial of John H. Surratt

Louis J. Weichmann, one of the principal witnesses at the trial of the conspirators in the assassination of President Lincoln, tells the story of the plotting that took place in the boarding house where Weichmann lived.

The Trial

In this volume Oldroyd recounts the events leading up to and following the assassination, including several chapters on the trials of the conspirators. Oldroyd recounts in great detail the trip he took in May, 1901, in which he traced the route that John Wilkes Booth took during his escape and capture and interviewed several who aided the assassin in high flight. Oldroyd's account is enhanced by his references to the many sources in his collection and augmented further in the accompanying 82 illustrations.

A True History of the Assassination of Abraham Lincoln and of the Conspiracy of 1865

Traces the 1865 military trial of eight people accused of conspiring with John Wilkes Booth to assassinate President Lincoln and other high officials.

The Assassination of Abraham Lincoln

Text, including quotations from contemporary sources such as the diary of John Wilkes Booth, the testimony of witnesses, letters, and accounts by others involved, examines the assassination of President Abraham Lincoln.

Lincoln's Assassins

The most enigmatic of the associates of Lincoln assassin John Wilkes Booth, Confederate soldier Lewis Thornton Powell, using the alias Lewis Paine, was a key player in the postwar attempt to undermine the Federal government. On the night Lincoln was shot, 20-year-old Powell burst into the house of William Seward and attempted to assassinate the secretary of state. Captured shortly after the assassination, Powell stood trial for his crime and was hanged three months later. Powell and his role in the conspiracy has been the subject of debate for many years. Who was this man? This biography attempts to unveil his true character.

The Lincoln Murder Plot

On May 1, 1865, two weeks after Abraham Lincoln's assassination, recently inaugurated president Andrew Johnson appointed John Frederick Hartranft to command the military prison at the Washington Arsenal, where the U.S. government had just incarcerated the seven men and one woman accused of complicity in the shooting. From that day through the execution of four of the accomplices, the Pennsylvania-born general held responsibility for the most notorious prisoners in American history. A strict adherent to protocol, Hartranft kept a meticulously detailed account of his experiences in the form of a letterbook. In *The Lincoln Assassination Conspirators*, noted Lincoln scholars Edward Steers, Jr., and Harold Holzer, in partnership with the National Archives, present this fascinating historical record for the first time with contextual materials and expert annotations, providing a remarkable glimpse behind the scenes of the assassination's aftermath. Hartranft oversaw every aspect of the prisoners' daily lives, from making sure they were fed and kept clean to ensuring that no one communicated with them except on the written orders of Secretary of War Edwin M. Stanton. In his *Letterbook*, Hartranft scrupulously recounts the arrival of each prisoner and describes the prison routine -- which included three simple meals a day, a twice-daily cell inspection by Hartranft himself, and frequent physical examinations by an army physician. The prisoners wore wrist and leg shackles and, controversially, most of them wore special hoods designed to isolate them from their surroundings. When the conspirators' trial began, the nation waited eagerly for news, and many sought retribution against those they held responsible for the nation's grief. Hartranft resisted calls for both vengeance and mercy and continued to treat his notorious charges as humanely as possible, facilitating meetings with clergy and sending letters to and from family members. Yet, as his detached, detailed description of the execution of four of the conspirators shows, he did not allow emotion to impede the performance of his duty. The legal and moral issues surrounding the conspirators' trial -- the extraordinary use of military rather than civil justice, the treatment of the accused while incarcerated, the fine line between swift and precipitous justice -- remain volatile, unsettled issues today. Hartranft's keen observations, ably analyzed by historians Steers and Holzer, will add a riveting new chapter to the story of Lincoln's assassination.

Alias Paine

A nation shattered by its president's murder Two diaries that reveal the true scope of an American conspiracy A detective determined to bring the truth to light, no matter what it costs him From award-winning journalist Timothy L. O'Brien comes a gripping historical thriller that poses a provocative question: What if the plot to assassinate President Lincoln was wider and more sinister than we ever imagined? In late spring of 1865, as America mourns the death of its leader, Washington, D.C., police detective Temple McFadden makes a startling discovery. Strapped to the body of a dead man at the B&O Railroad station are two diaries, two documents that together reveal the true depth of the Lincoln conspiracy. Securing the diaries will put Temple's life in jeopardy—and will endanger the fragile peace of a nation still torn by war. Temple's quest to bring the conspirators to justice takes him on a perilous journey through the gaslit streets of the Civil War-era capital, into bawdy houses and back alleys where ruthless enemies await him in every shadowed corner. Aided by an underground network of friends—and by his wife, Fiona, a nurse who possesses a formidable arsenal of medicinal potions—Temple must stay one step ahead of Lafayette Baker, head of the Union Army's spy service. Along the way, he'll run from or rely on Edwin Stanton, Lincoln's fearsome secretary of war; the legendary Scottish spymaster Allan Pinkerton; abolitionist Sojourner Truth; the photographer Alexander Gardner; and many others. Bristling with twists and building to a climax that will leave readers gasping, *The Lincoln Conspiracy* offers a riveting new account of what truly motivated the assassination of one of America's most beloved presidents—and who participated in the plot to derail the train of liberty that Lincoln set in motion. Praise for *The Lincoln Conspiracy* "History as a dangerous, inventive game . . . fascinating."—Martin Cruz Smith "A notable fiction debut with an appealing detective hero and plenty of action. It gets off to a fast start and never stops."—Library Journal "A historical puzzle as labyrinthine and grandiose as Scheherazade's tales . . . As clever as Sherlock Holmes, as wily as Pendergast in

Preston and Child's series, and wickedly funny on top of it all, the irresistible McFadden is due to return in a sequel—thank goodness!”—Booklist (starred review) “[A] fast-paced, well-conceived adventure . . . There is nothing more fun than losing oneself in O’Brien’s rich and riotous mixture of reimagination and fact.”—Historical Novels Review “Gripping . . . The history and overall arc of the novel are superb . . . and Temple McFadden proves to be a worthwhile hero.”—Associated Press

The Lincoln Assassination Conspirators

John Harrison Surratt, Jr., was a courier for the Confederate Secret Service and the only one of John Wilkes Booth’s co-conspirators in the Lincoln assassination plot to escape hanging by the U.S. government. Fleeing vengeful authorities in the wake of the assassination, Surratt traveled through three continents and served in the Papal Zouaves before being arrested in Egypt. His 1867 trial was a sensation, ending in a hung jury. Upon his release, he sought a quiet life away from the spotlight but privately suffered the consequences of his acts. The most complete study of Surratt’s life to date, this book addresses many unanswered questions and considers theories that have received little attention.

The Lincoln Conspiracy

Excerpt from *Assassination of Lincoln: A History of the Great Conspiracy; Trial of the Conspirators by a Military Commission, and a Review of the Trial of John H. Surratt* It is now more than twenty-seven years since the assassination of Abraham Lincoln, President of the United States, - an event of the greatest importance at the time, not only to the people of the United States, but to the civilized world. The trial of the conspirators by a military commission created the greatest possible interest; and the proceedings and testimony were published from day to day by all of the great newspapers of the country, and read with avidity. The judgment of those who carefully studied the testimony at the time was formed upon a competent knowledge of the facts. And yet, even then, the fate of the prisoners on trial before the Commission, to be found innocent or guilty according to the evidence, constituted the great point of interest, and thus tended to divert attention from the evidence against the other parties charged not only with being co-conspirators, but as being the instigators of the plot. Since that time a new generation has come on to the stage of action, and as the official report of the trial by Ben Pittman, published at the time, is in the hands of but comparatively few people, a concise history of this great event, in popular form, but founded on the evidence, seemed to the writer to be due and called for at the present time. The Assassination of President Lincoln and the Trial of the Conspirators

The assassination of Abraham Lincoln represents a defining moment in the history of the United States. Coming during the closing days of the Civil War, the former country lawyer from Illinois had just guided the nation through some of its darkest hours only to fall victim to an assassin’s bullet. Carried out by one of the most popular stage actors of the day, the death of Lincoln sparked the largest manhunt the nation had ever seen. The first assassination of a sitting U.S. president was, however, the primary component of a much larger plot designed to plunge the Federal Government into chaos by eliminating its most powerful officials. Among other avenues relating to this crucial event, this book relates the various Confederate plots to abduct President Lincoln, the initial kidnapping plot hatched by John Wilkes Booth and its evolution into a scheme of assassination, the intense manhunt for those involved in the assassination conspiracy, the elaborate funeral services held over a thirteen-day period as the body of Abraham Lincoln made its way from Washington D. C. to Springfield, Illinois, the prosecution of the conspirators by a military tribunal, and the execution of six conspirators.

John Surratt

"A Hidden Indictment: What the Slaves and Freedmen Knew About the Lincoln Assassination," provides the reader with a brief history of the development of the country, including major civil war battles, and a new perspective about the facts and events leading up to and surrounding the assassination of President Abraham Lincoln as seen through the eyes and ears of Slaves and Freedmen. The book

tells the story of an African-American enslaved woman (Mary Simms), who testified as one of the chief government prosecution witnesses against the Lincoln assassination conspirators. The author is believed to be a distant relative of Mary Simms. "Frazer Walton revisits the Lincoln assassination conspiracy with a fresh look at the testimony of a slave whose ignored comments could have widened the investigation had she been listened to by authorities. Walton's book delves into the shadowy world of spies, double-dealers, and politicians during the American Civil War. Proving the theories he brings up may be impossible 150 years later, but his research into old records makes for interesting speculation." Clint Johnson, noted American Civil War author of eight books on the civil war, including his well-known book the "Pursuit." "Frazer Walton has fashioned an inspirational book, a page turner that will leave the reader gasping and asking for more. He has resurrected hidden American history for our consideration. And he has done it in the form of a gripping and thrilling mystery that will hold you spell bound until the last page. It is a remarkable and complex story, as it tells the truth about the assassination and the facts surrounding it, a truth that for all these years has remained hidden." Mark Lane, was a famous trial attorney, New York state legislator, civil rights activist and author. He has written several New York Times Best sellers (Rush to Judgment and Plausible Denial) about the assassination of American President John F. Kennedy.

Assassination of Lincoln

Was the Assassination of Abraham Lincoln a Confederate Operation? Conspiracy, terrorism, and obstruction of justice are not unique to recent events, and maneuvering and scheming behind the scenes has a long history. On an April evening, John Wilkes Booth crept into the presidential box at Ford's Theater in Washington, D.C., and shot President Abraham Lincoln. Many have wondered ever since if there was not a wider conspiracy associated with the assassination. Lincoln and Booth: More Light on the Conspiracy takes up these questions, examining the people, issues, and strange happenings related to the assassination and its aftermath. Using the tools of investigative journalism and the latest in scholarly research, H. Donald Winkler describes the events that led to the shooting of the president, including Booth's activities from July 1864 through April 1865, raising questions never before raised and suggesting answers never before considered. Winkler has pulled together relevant, reliable information about the terrorism, intrigue, mysteries, covert actions, betrayals, deceptions, jury tampering, obstruction of justice, subterfuge, execution by trickery, dirty politics, and other shameful acts associated with the assassination. All the controversial issues are considered, including the likely guilt of Samuel Mudd and Mary Surratt, official Confederate involvement, John Surratt's gratuitous reprieve, the veracity of Louis Weichmann, and John S. Mosby's possible involvement. Also discussed are Edwin M. Stanton's motives and decisions related to denying protection to Lincoln on April 14; hurriedly naming and pursuing conspirators; concealing Booth's diary; hanging Mary Surratt while failing to pursue John Surratt; hiring Sanford Conover to find witnesses; and collaborating with the Radical Republicans in their efforts to impeach Andrew Johnson. Lincoln and Booth: More Light on the Conspiracy discusses the various possibilities and options on controversial issues and challenges readers to draw their own conclusions.

Into the Abyss

Every schoolchild knows about the assassination of Abraham Lincoln - how the actor John Wilkes Booth shot the president while he was watching a play, leaped to the stage from the presidential box, and made his escape. But there is far more to the story, including the bizarre scheme that Booth first concocted to kidnap Lincoln and trade him for Confederate soldiers held in Northern prisons. Here is the full story of the plot, the bumbling plotters that Booth recruited, Lincoln's lingering death, the manhunt for the assassin, and the trial of the conspirators. It is essential knowledge of a tragedy that shaped America for a century to come.

A Hidden Indictment: What the Slaves and Freedmen Knew About the Lincoln Assassination

"A Hidden Indictment: What the Slaves and Freedmen Knew About the Lincoln Assassination," provides the reader with a brief history of the development of the country, including major civil war battles, and a new perspective about the facts and events leading up to and surrounding the assassination of President Abraham Lincoln as seen through the eyes and ears of Slaves and Freedmen. The book tells the story of an African-American enslaved woman (Mary Simms), who testified as one of the chief government prosecution witnesses against the Lincoln assassination conspirators. The author is believed to be a distant relative of Mary Simms. "Frazer Walton revisits the Lincoln assassination

conspiracy with a fresh look at the testimony of a slave whose ignored comments could have widened the investigation had she been listened to by authorities. Walton's book delves into the shadowy world of spies, double-dealers, and politicians during the American Civil War. Proving the theories he brings up may be impossible 150 years later, but his research into old records makes for interesting speculation." Clint Johnson, noted American Civil War author of eight books on the civil war, including his well-known book the "Pursuit." "Frazer Walton has fashioned an inspirational book, a page turner that will leave the reader gasping and asking for more. He has resurrected hidden American history for our consideration. And he has done it in the form of a gripping and trilling mystery that will hold you spell bound until the last page. It is a remarkable and complex story, as it tells the truth about the assassination and the facts surrounding it, a truth that for all these years has remained hidden." Mark Lane, was a famous trial attorney, New York state legislator, civil rights activist and author. He has written several New York Times Best sellers (Rush to Judgment and Plausible Denial) about the assassination of American President John F. Kennedy.

Sample Text

A Hidden Indictment: What the Slaves and Freedmen Knew About the Lincoln Assassination

The information in this book is based entirely on the eyewitness accounts in the National Archives and not on the newspaper accounts of 1865. The eyewitness accounts are far different than the newspaper accounts and for this reason were kept from the public by the U.S. Army until 1965 when they became available in the National Archives. The newspaper accounts of 1865 were based entirely on what Joseph Holt told them and could best be labeled "fake news." If you are interested in a factual account of Lincoln's assassination, this is the only book available. As an added bonus the contribution of the African-American community of 1865 to apprehend the conspirators is well documented. John Morris was a colored worker in Ford's Theater and their efforts are best described by his sworn statement " The colored people believe Mr. Lincoln to be the best friend that we had. I would go to the point of my life to find out the murderers." Again, this is the only publication with these facts. I have included the photocopies of the statements which also indicate that the Ford's were involved in the conspiracy to such an extent that Col. Burnett had Harry Ford put in solitary confinement. Read and judge for yourself whether the Union Army got away with the most infamous murder in the history of the United States. The only book ever published that records the effort of the African American community of 1865 to bring the conspirators to justice. Their affection for Abraham Lincoln was so great that they ignored the retribution that was certain for defying the government conspirators and seven African Americans were arrested and put in prison. This is the story of the assassination whose perpetrators were hidden for 150 years. The meticulous preparations of the conspirators are brought to light by the documents and evidence that was collected at the time, but obscured from public view in the national archives.

The Assassination of President Lincoln

Taking place during the most critical period of our nation's birth, *The First Conspiracy* tells a remarkable and previously untold piece of American history that not only reveals George Washington's character, but also illuminates the origins of America's counterintelligence movement that led to the modern day CIA. In 1776, an elite group of soldiers were handpicked to serve as George Washington's bodyguards. Washington trusted them; relied on them. But unbeknownst to Washington, some of them were part of a treasonous plan. In the months leading up to the Revolutionary War, these traitorous soldiers, along with the Governor of New York, William Tryon, and Mayor David Mathews, launched a deadly plot against the most important member of the military: George Washington himself. This is the story of the secret plot and how it was revealed. It is a story of leaders, liars, counterfeiters, and jailhouse confessors. It also shows just how hard the battle was for George Washington and how close America was to losing the Revolutionary War. In this historical page-turner, New York Times bestselling author Brad Meltzer teams up with American history writer and documentary television producer, Josh Mensch to unravel the shocking true story behind what has previously been a footnote in the pages of history. Drawing on extensive research, Meltzer and Mensch capture in riveting detail how George Washington not only defeated the most powerful military force in the world, but also uncovered the secret plot against him in the tumultuous days leading up to July 4, 1776. Praise for *The First Conspiracy*: "This is American history at its finest, a gripping story of spies, killers, counterfeiters, traitors?and a mysterious prostitute who may or may not have even existed. Anyone with an interest in American history will love this book." - Douglas Preston, #1 bestselling author of *The Lost City of the Monkey God* "A wonderful book about leadership?and it shows why George Washington and his moral lessons are just as vital today. What a book. You'll love it." - President George H.W. Bush "This is an important book: a fascinating largely unknown chapter of our hazardous beginning, a reminder of why counterintelligence matters, and a great read." - President Bill Clinton

The Assassination of Abraham Lincoln Flight, Pursuit, Capture, and Punishment of the Conspirators

With all that has already been written about President Abraham Lincoln's assassination, one of the little known stories is the case of the only successful conspirator, John Harrison Surratt, the son of Mary Surratt, who was hanged for her part in the crime. *The Last Lincoln Conspirator* is the true story of John Surratt, who became the most wanted man in America after the death of John Wilkes Booth's and was the only conspirator to escape conviction. The capture and killing of Booth twelve days after he shot Lincoln and the fate of Booth's other accomplices are familiar history. Four accomplices, including Surratt's mother, were convicted and hanged, and four were jailed. John Surratt alone managed to evade capture for twenty months and, once put on trial, to evade prison. The first full-length treatment of Surratt's escape, capture, and trial, this book provides fascinating details about his flight through Canada, England, France, the Papal States, and eventual capture in Egypt. Surratt's desperate journey and the bitter legal proceedings against him that bizarrely led to his freedom hold the reader's attention from first to last page.

The Conspiracy Between John Wilkes Booth and the Union Army to Assassinate Abraham Lincoln

The booklet appears to be a facsimile reproduction.

The First Conspiracy

Discusses the day Lincoln was shot and the weeks following his assassination, including the manhunt for John Wilkes Booth and his co-conspirators.

The Last Lincoln Conspirator

This is the story of John Wilkes Booth's closest associate prior to the assassination of Abraham Lincoln. It traces Surratt's worldwide flight from Ford's Theatre to Italy and shows that he was a conspirator who may be the missing link between Jefferson Davis and Lincoln's death. The book culminates in the trial of Surratt after he was brought back to America from Italy and was set free due to the trial ending in a hung jury.--Publisher.
