Now that he's found his mate, Griffin isn't about to let Isabella go, especially not when he learns that Isabella isn't the killer who is attacking humans in Vegas. Griffin's mate has been set-up, and he'll fight with a wolf's fury to find the enemy who is working against them both. Someone wants Isabella to be judged guilty by the wolves in Vegas, but Griffin won't let that happen. Their mating may be forbidden, but Griffin and Isabella are about to show the paranormal world just how fiercely a vamp and werewolf can fight for each other—because mates bond forever. Bound to You

You're beautiful and kind and very smart. But best of all, you're mine. Do you remember the stories your Grandma used to tell you every night about cursed beasts, village beauties, girls in red capes and wolves in disguises? You will live through it with me. I am Theia Anderson. I am just like any one of you, human, alive, and breathing. But unlike any one of you, I've stumbled upon a world that until yesterday... I couldn't even fathom into existence. This is my story.

The Bad Boy's Girl

Shifter and Vampire True Mates story. Alek's older brother, Justice--the Alpha Zenith--was the first shifter to mate with a vampire in many generations, and it was believed the rare, fated pairing would stop at him. But, it hadn't. Aleksei 'Alek' Volkov was second beta, next in succession to the most powerful shifter in the world. He was proud of his title and he took his duties seriously. It was all he had. Until his true mate literally showed up on his doorstep. While his brother--the overachiever--excelled at having a vampire as a mate, Alek wasn't that optimistic he would. He wasn't averse to love, and he'd often thought of how different his life could've turned out if he'd ever experienced the emotion. His life was a mess and he'd worn a mask of stability for a majority of that time, only showing his siblings and pack what they needed to see--a strong Volkov alpha. Not the damaged man he was, with a tortured soul and a rogue wolf. Alek dropped his heavy head in his hands. Now, for some reason, I've been granted a true vampire mate. And not just any vampire. The intimidating Belleron Liatos. Lord High to the King and the leader of his army. Belleron 'Bell' Liatos had come to the states for one reason--his best friend and Vampire King, Chadwick Bentley. He certainly didn't come to be pounced on by a wolf that could act independently of its master. Not only was his destined cherished a complicated and confused man; but he was also unaware of the powerful presence that lurked in the shadows of his soul. Bell didn't know he'd be the key to unlocking an exceptional triad that would play a critical role in fulfilling the prophesy. This story DOES NOT contain or even mention MPREG. No multiple pairings. No cliffhangers. Ends with a very HFN. Warning: This book is M/M paranormal: If you DO NOT like alpha men shifting into large wolves, or vampires feeding from their destined beloveds, than this may not be the novel for you.

Possess Me at Midnight

Once a righteous missionary man, Jonah Walker now endures immortality with nothing but a body built for battle and a heart set on retribution. But his last devastating fight left him wounded beyond healing--and his only chance for redemption lies with a fallen woman whose passion burns through the shadows...

Prophesy

"You can fight me all you want, Grace, but you can't ignore what you feel for me forever. If neither of us reject each other the bond only grows stronger. You feel it don't you, your need for me," He calmly said, inching his way toward me. I glared at him, the sound of his voice had me pooling in my. I hated that, hated that all it took was his voice to turn me on, "You're not my mate. I refuse to believe it!" Was all I said before I stormed out of there. After a drunken one night stand with a stranger, Grace Evans wakes up with a note left at her bedside. The last words of the note both startle and confuse her especially since she saw her mate die in front of her very eyes. What happens when the mysterious stranger now comes to claim her? Will she give in to him or will she reject him, killing his wolf and breaking his heart?

His Natural Life

Freedom - that is what Lilly Linton wants most in life. Not marriage, not a brood of squalling brats, and certainly not love, thank you very much. But freedom is a rare commodity in 19th-century London, where girls are expected to spend their lives sitting at home, fully occupied with looking pretty. Lilly is at her wits' end - until a chance encounter with a dark, dangerous and powerful stranger changes her life forever... Enter the world of Mr Rikkard Ambrose, where the only rule is: Knowledge is power is time is money. Winner of the People's Choice Award 2015

Vowed in Shadows

Still, to say that it all began when Sophie Mol came to Ayemenem is only one way of looking at it . . . It could be argued that it actually began thousands of years ago. Long before the Marxists came. Before the British took Malabar, before the Dutch Ascendancy, before Vasco da Gama arrived, before the Zamorin's conquest of Calicut. Before Christianity arrived in a boat and seeped into Kerala like tea from a teabag. That it really began in the days when the Love Laws were made. The laws that lay down who should be loved, and how. And how much.

P.S. You're My Mate

Bookstore owner Aubrey Barnes likes his quiet, orderly London life, thank you very much. His shop may be struggling, his only employee is a menace, and his plumbing is one creaky pipe away from disaster, but he can handle it. Maybe. He cannot, however, handle the film company that's thrown his Soho street into chaos. And he definitely can't handle the charismatic American actor Blake Sinclair. Which is why he's extremely reluctant to lease out his shop as a set for Blake's film, but it's his one opportunity to save his business. Now he can't get away from the distractingly hot actor. Then Aubrey finds himself alone with Blake in a trailer...and what happens next turns London's heat wave into an inferno that leaves him breathless. Aubrey is not cut out for the high-profile life of celebrity dating—especially an American actor who's not even out yet. Good thing their tryst is absolutely not going anywhere. But expecting nothing can be complicated...especially when it starts to mean everything. Each book in the When Snow Falls series is *STANDALONE: * An Unexpected Kind of Love * When London Snow Falls*

Ulysses

Sam: It's the first day of summer break and I'm officially done with high school! My softball team just won the championship and it's my two year anniversary with Brett. Everything's coming up Sam right? WRONG. When I found Brett cheating on me, things went from great, to bad, to horrible. Of course my bestie Kyrn ran over for a night of binging on ice cream and chick flicks. That was the plan at least...know what wasn't in the plan? Being kidnapped by a group of guys that look like they were sculpted by the hands of god. Even less expected was when one of my captor's growled "Mine" at me...and yes, I did say growl. Xavier: The moment I laid eyes on Sam I knew she was my mate and I would do whatever it took to have her. When your soul is linked to another, rules go out the window, and nothing or no one can keep you apart. I've followed her scent to her front door and there's no turning back now - she will be mine. When Sam approaches me from the darkness I hear my pack gasp as they say in unison "She's human." But guess what? I don't care.

Storm and Silence

Few of us have been spared the agonies of intimate relationships. They come in many shapes: loving a man or a woman who will not commit to us, being heartbroken when we're abandoned by a lover, engaging in Sisyphean internet searches, coming back lonely from bars, parties, or blind dates, feeling bored in a relationship that is so much less than we had envisaged - these are only some of the ways in which the search for love is a difficult and often painful experience. Despite the widespread and almost collective character of these experiences, our culture insists they are the result of faulty or insufficiently mature psyches. For many, the Freudian idea that the family designs the pattern of an individual's erotic career has been the main explanation for why and how we fail to find or sustain love. Psychoanalysis and popular psychology have succeeded spectacularly in convincing us that individuals bear responsibility for the misery of their romantic and erotic lives. The purpose of this book is to change our way of thinking about what is wrong in modern relationships. The problem is not dysfunctional childhoods or insufficiently self-aware psyches, but rather the institutional forces shaping how we love. The argument of this book is that the modern romantic experience is shaped by a fundamental transformation in

the ecology and architecture of romantic choice. The samples from which men and women choose a partner, the modes of evaluating prospective partners, the very importance of choice and autonomy and what people imagine to be the spectrum of their choices: all these aspects of choice have transformed the very core of the will, how we want a partner, the sense of worth bestowed by relationships, and the organization of desire. This book does to love what Marx did to commodities: it shows that it is shaped by social relations and institutions and that it circulates in a marketplace of unequal actors.

An Unexpected Kind of Love

Eighteen-year-old Trinity is unlike any other werewolf in her pack. For one, there were unusual circumstances surrounding her birth, for another, she is the only pack member to never shift into a wolf form. So now she doesn't quite belong anywhere. Not quite human and not quite wolf. She thought she would be able to live her life how she wanted when she had turned eighteen. Go to college, make some friends, have some fun. But what is she to do when the dangerously sexy Alpha literally falls right into her lap? "I am not human, and I am not a wolf. I don't belong anywhere..." "...we both know that no one is going to mate with me, and even if they did, they would just reject me anyway." What is the sexy, brooding Alpha going to do? The elders are making him hold these ridiculous parties to search for a mate. He doesn't want a mate, but he knows he needs a mate to finish the Alpha Circle. Without a mate, a Luna for the pack, his people would suffer. And what is he going to do when he stumbles across the girl that fate has chosen for him and he finds out she has no wolf? "This cannot be!" I roared. "There is no way that I can mate with a girl that does not even have a wolf. She will be too weak. She will be inferior. She will not be strong enough to be a Luna." "I simply could not accept her as my mate. Not fully. It wasn't safe for her. She would get herself killed. And she would bring my pack down with her." When these two meet, sparks will surely fly. But will it be from passion, or their constant fighting? Neither of them wanted a mate. Neither of them wants the mate that fate chose for them. And neither of them can make that mate bond go away. What are they going to do now that they're literally stuck with each other?

Scarred

An awesome, globe-spanning, and New York Times bestselling journey through the beauty and power of mathematics What if you had to take an art class in which you were only taught how to paint a fence? What if you were never shown the paintings of van Gogh and Picasso, weren't even told they existed? Alas, this is how math is taught, and so for most of us it becomes the intellectual equivalent of watching paint dry. In *Love and Math*, renowned mathematician Edward Frenkel reveals a side of math we've never seen, suffused with all the beauty and elegance of a work of art. In this heartfelt and passionate book, Frenkel shows that mathematics, far from occupying a specialist niche, goes to the heart of all matter, uniting us across cultures, time, and space. *Love and Math* tells two intertwined stories: of the wonders of mathematics and of one young man's journey learning and living it. Having braved a discriminatory educational system to become one of the twenty-first century's leading mathematicians, Frenkel now works on one of the biggest ideas to come out of math in the last 50 years: the Langlands Program. Considered by many to be a Grand Unified Theory of mathematics, the Langlands Program enables researchers to translate findings from one field to another so that they can solve problems, such as Fermat's last theorem, that had seemed intractable before. At its core, *Love and Math* is a story about accessing a new way of thinking, which can enrich our lives and empower us to better understand the world and our place in it. It is an invitation to discover the magic hidden universe of mathematics.

Play of Passion

The Kingdom of Askara has been torn apart by conflict for centuries, where humans exist as subservient beings to their werewolf masters. Legend says it will only be able to heal itself when an Alpha King and a pure omega are mated and crowned together, but a pure omega hasn't been born in over a thousand years. Luca is an Alpha-heir eagerly awaiting the choosing ceremony on his twenty-fifth birthday and the gifts granted by whichever omega he mates. His small pack is destitute due to the decisions of its ruling council, but being only an Alpha-heir, he has no authority to challenge them. Not until now-this moment he has waited a long time for. Kit grew up as a street-rat, an unlicensed human who would never be more than a slave for whichever master owns him. Then one day he came across a young Alpha-heir, attacked and dying of poison, and found out their fates were suddenly entwined. Luca needs to take over his pack and save his people. He cannot afford to be distracted. But when he meets Kit, he develops abilities indicating he is not just a pack Alpha, but the King his world has needed for a thousand years. Is Kit really the cause of Luca's newfound power, the true mate he needs? How is

it possible when the young man isn't even a werewolf, and as merely a human, a mating is not only forbidden, but for Kit, a sentence of death?
