WELCOME This video will test your knowledge in

Get a pen and paper to write your answers. 2. You can also use the Notepad in your computer.

1. The four basic needs of living things are

The place where the animal naturally lives in is known as

What is the basic requirement of an organism to stay alive?

What do you call the reduction of activity by animals during summer?

Which of the following is a food chain?

Which level of biological organization includes all the others listed?

A chicken ate a worm that ate the leaves of a plant. A snake ate the chicken. What is the chicken called?

Organism keep their internal conditions relatively stable through

Which is NOT a fish?

A relationship where in both organisms benefit from each other is called

Which of the following animals is cold blooded?

The life cycle undergone by insects is called

When pollen grains are carried from anther to stigma of another flower, the process is called

The taxon that includes the other is

Which if the following source of energy is needed for photosynthesis?

What carries the oxygen-rich blood to the head, arms, and down to the legs?

What pigment gives the skin its natural color?

Who is the father of binomial nomenclature?

How many bones does a human adult have?

Which of the following animals feeds on necrotic and decaying matter?

Which molecule contains an organism's genetic makeup?

Single-celled organisms that lack membrane bound organelles are called

Prions that cause disease are made-up of

Which part of the respiratory tract is colloquially called windpipe?

The male primary reproductive organ is the

The asexual reproduction which occurs when a new organism develops from an outgrowth is called

Absorption of nutrients happen in the

Where does one experience the longest and coldest winters?

The growth of roots towards water is an example of

What is the smallest part of a living thing which performs all the processes a living organism does?

Quantum Biology: The Hidden Nature of Nature - Quantum Biology: The Hidden Nature of Nature by World Science Festival 10,266,850 views 8 years ago 1 hour, 35 minutes - Can the spooky world of quantum physics explain bird navigation, photosynthesis and even our delicate sense of smell?

John Hockenberry's introduction

Participant Introductions

How is there a convergence between biology and the quantum?

Are particles in two places at once or is this based just on observations?

Are biological states creating a unique quantum rules?

Quantum mechanics is so counterintuitive.

Can nature have a quantum sense?

The quantum migration of birds... With bird brains?

Electron spin and magnetic fields.

Cryptochrome releases particles with spin and the bird knows where to go.

How is bird migration an example for evolution?

photosynthesis and quantum phenomena.

Bacteria doing quantum search.

Is quantum tunneling the key to quantum biology?

What are the experiments that prove this?

When fields converge how do you determine causality?

We have no idea how life began.

Replication leads to variation which is the beginning of life?
