A Negro and an Ofay

In 1952, after a year on the run, disgraced Chicago Police Officer Elliot Caprice wakes up in a jailhouse in St. Louis. His friends from his hometown secure his release and he returns to find the family farm in foreclosure and the man who raised him dying in a flophouse. Desperate for money, he accepts a straight job as a process server and eventually crosses paths with a powerful family from Chicago's North Shore. A captain of industry is dead, the key to his estate disappeared with the chauffeur, and soon Elliot is in up to his neck. The mixed-race son of Illinois farm country must return to the Windy City with the Chicago Police on his heels and the Syndicate at his throat. Good thing he's had a lifetime of playing both sides to the middle. Praise for A NEGRO AND AN OFAY: "A a solid entry in the ranks of African-American crime fiction." —Publishers Weekly "Fans of Walter Mosley and George Pelecanos are going to devour Danny Gardner's brilliant new book. A Negro and an Ofay breathes exciting new life into noir fiction." —Jonathan Maberry, The New York Times bestselling author "Elliot Caprice is a terrific character with his own Midwestern territory and Danny Gardner tells his stories with style and cunning." —Peter Blauner, The New York Times bestselling author and co-Executive Producer of CBS's Blue Bloods "Danny Gardner's Elliot Caprice is a complex mix of muscle and brain, of toughness and heart, of doing wrong and only sometimes getting it right. A Negro and an Ofay reads like a long lost Raymond Chandler, one that he wrote from the south side of Chicago." —Lori Rader-Day, Mary Higgins Clark Award-winning author of Little Pretty Things and The Black Hour "Danny Gardner's masterful debut engenders echoes of the greats. I had the impression I had somehow stumbled across a previously undiscovered work of Chester Himes, or Jim Thompson, or Walter Mosley or all three magically rolled into one." David Corbett, prize-winning author of The Mercy of the Night "Immersive, poignant and utterly enthralling. Written from the middle of America's great racial divide, it's satirical, cool and irrevocably honest; imbued with an inherent nobility that rivals any modern day hero." —Tom Avitabile, bestselling author of Give Us This Day "A Negro and an Ofay is a smart, crisp, historically accurate, and unapologetically racial narrative that signals the arrival of a strong, necessary voice in crime fiction. This is the best debut you'll read in a long time." —Gabino Iglesias, author of Zero Saints "Hard-boiled don't get much harder than this. Danny Gardner hits all the right notes, but with

enough swagger and voice to make it completely his own. Elliot Caprice is a fantastic character, stuck between two worlds—black and white, good and bad—and I really hope to see more of him.” —Rob W. Hart, author of *South Village* “One of the best tools Gardner has in his toolbox...is his sense of humanity.” —Scott Waldyn, *Literary Orphans Journal* “...it manages to be smart, historical, and about identity/racial issues while retaining all the entertainment value that pulpy thrillers bring to the table. This is a book with a carefully crafted plot that touches on a lot of issues that were as relevant six decades ago as they are now.” —Out of the Gutter Review “This is a stunning debut! A powerful combination of brilliant storytelling and a breathtaking grasp of dialog subtext that strongly reminds of Mamet. Gardner is destined to become a big name in this writing game.” —Les Edgerton, author of *The Genuine, Imitation, Plastic Kidnapping* “Elliot Caprice is a trouble magnet and that makes for a great character.” —Simon Wood, author of *The One That Got Away* “Plenty of hardboiled patter and a dense plot with a great sense of place and wonderful dialogue.” —Eric Beetner, author of *Rumrunners* “A Negro and an Ofay forces us to look into the brutal mirror of our past in the hope we might understand our future. With his sharp as a whip crack writing, Gardner may just change the world” —Paul Bishop, author of *Lie Catchers*

The Crisis, founded by W.E.B. Du Bois as the official publication of the NAACP, is a journal of civil rights, history, politics, and culture and seeks to educate and challenge its readers about issues that continue to plague African Americans and other communities of color. For nearly 100 years, The Crisis has been the magazine of opinion and thought leaders, decision makers, peacemakers and justice seekers. It has chronicled, informed, educated, entertained and, in many instances, set the economic, political and social agenda for our nation and its multi-ethnic citizens.

From the mind of brilliant historian Robin Kelley comes the first full biography of legendary jazz musician Thelonious Monk, including full access to the family's archives, dozens of interviews, and an afterword for Monk's 2017 centennial. Thelonious Monk is the critically acclaimed, gripping saga of an artist's struggle to "make it" without compromising his musical vision. It is a story that, like its subject, reflects the tidal ebbs and flows of American history in the twentieth century. To his fans, he was the ultimate hipster; to his detractors, he was temperamental, eccentric, taciturn, or childlike. His angular melodies and dissonant harmonies shook the jazz world to its foundations, ushering in the birth of "bebop" and establishing Monk as one of America's greatest com-posers. Elegantly written and rich with humor and pathos, Thelonious Monk is the definitive work on modern jazz's most original composer

Here is a kaleidoscopic assemblage and poetic history of New York: an unparalleled and original homage to the city, composed entirely of quotations. Drawn from a huge array of sources-histories, memoirs, newspaper articles, novels, government documents, emails-and organized into interpretive categories that reveal the philosophical architecture of the city, Capital is the ne plus ultra of books on the ultimate megalopolis. It is also a book of experimental literature that transposes Walter Benjamin's unfinished magnum opus of literary montage on the modern city, The Arcades Project, from 19th-century Paris to 20th-century New York, bringing the streets to life in categories such as "Sex," "Commodity," "Downtown," "Subway," and "Mapplethorpe." Capital is a book designed to fascinate and to fail-for can a megalopolis truly be written? Can a history, no matter how extensive, ever be comprehensive? Each reading of this book, and of New York, is a unique and impossible passage.

The Negro Equalled by Few Europeans

When the actor Ted Danson appeared in blackface at a 1993 Friars Club roast, he ignited a firestorm of protest that landed him on the front pages of the newspapers, rebuked by everyone from talk show host Montel Williams to New York City's then mayor, David Dinkins. Danson's use of blackface was shocking, but was the furious pitch of the response a triumphant indication of how far society has progressed since the days when blackface performers were the toast of vaudeville, or was it also an uncomfortable reminder of how deep the chasm still is separating black and white America? In *Racechanges: White Skin, Black Face in American Culture*, Susan Gubar, who fundamentally changed the way we think about women's literature as co-author of the acclaimed *The Madwoman in the Attic*, turns her attention to the incendiary issue of race. Through a far-reaching exploration of the long overlooked legacy of minstrelsy--cross-racial impersonations or "racechanges"--throughout modern American film, fiction, poetry, painting, photography, and journalism, she documents the indebtedness of "mainstream" artists to African-American culture, and explores the deeply conflicted psychology of white guilt. The fascinating "racechanges" Gubar discusses include whites posing as blacks and blacks "passing" for white; blackface on white actors in *The Jazz Singer*, *Birth of a Nation*, and other movies, as well as on the faces of black stage entertainers; African-American deployment of racechange imagery during the Harlem Renaissance, including the poetry of Anne Spencer, the black-and-white prints of Richard Bruce Nugent, and the early work of Zora Neale Hurston; white poets and novelists from Vachel Lindsay and Gertrude Stein to John Berryman and William Faulkner writing as if they were black; white artists and writers fascinated by hypersexualized stereotypes of black men; and nightmares and visions of the racechanged baby. Gubar shows that unlike African-Americans, who often are forced to adopt white masks to gain their rights, white people have chosen racial masquerades, which range from mockery and mimicry to an evolving emphasis on inter-racial mutuality and mutability. Drawing on a stunning array of illustrations, including paintings, film stills, computer graphics, and even magazine morphings, *Racechanges* sheds new light on the persistent pervasiveness of racism and exciting aesthetic possibilities for lessening the distance between blacks and whites.

Distinguished linguistics scholar Anatoly Liberman set out the frame for this volume in *An Analytic Dictionary of English Etymology*. Here, Liberman's landmark scholarship lay the groundwork for his forthcoming multivolume analytic dictionary of the English language. *A Bibliography of English Etymology* is a broadly conceptualized reference tool that provides source materials for etymological research. For each word's etymology, there is a bibliographic entry that lists the word origin's primary sources, specifically, where it was first found in use. Featuring the history of more than 13,000 English words, their cognates, and their foreign antonyms, this is a full-fledged compendium of resources indispensable to any scholar of word origins.

The Negro Novel in America

A Tribute for the Negro: Being a Vindication of the Moral, Intellectual, and Religious Capabilities of the Coloured Portion of Mankind; with Particular Reference to the African Race Authored by Wilson Armistead

Capital

Set against the backdrop of the black struggle in society, *Slow Fade to Black* is the definitive history of African-American accomplishment in film--both before and behind the camera--from the earliest movies through World War II. As he records the changing attitudes toward African-Americans both in Hollywood and the nation at large, Cripps explores the growth of discrimination as filmmakers became more and more intrigued with myths of the Old South: the "lost cause" aspect of the Civil War, the stately mansions and gracious ladies of the antebellum South, the "happy" slaves singing in the fields. Cripps shows how these characterizations culminated in the blatantly racist attitudes of Griffith's *The Birth of a Nation*, and how this film inspired the N.A.A.C.P. to campaign vigorously--and successfully--for change. While the period of the 1920s to 1940s was one replete with Hollywood stereotypes (blacks most often appeared as domestics or "natives," or were portrayed in shiftless, cowardly "Stepin Fetchit" roles), there was also an attempt at independent black production--on the whole unsuccessful. But with the coming of World War II, increasing pressures for a wider use of blacks in films, and calls for more equitable treatment, African-Americans did begin to receive more sympathetic roles, such as that of Sam, the piano player in the 1942 classic *Casablanca*. A lively, thorough history of African-Americans in the movies, *Slow Fade to Black* is also a perceptive social commentary on evolving racial attitudes in this country during the first four decades of the twentieth century.

The Negro Around the World

When African American intellectuals announced the birth of the "New Negro" around the turn of the twentieth century, they were attempting through a bold act of renaming to change the way blacks were depicted and perceived in America. By challenging stereotypes of the Old Negro, and declaring that the New Negro was capable of high achievement, black writers tried to revolutionize how whites viewed blacks--and how blacks viewed themselves. Nothing less than a strategy to re-create the public face of "the race," the New Negro became a dominant figure of racial uplift between Reconstruction and World War II, as well as a central idea of the Harlem, or New Negro, Renaissance. Edited by Henry Louis Gates, Jr., and Gene Andrew Jarrett, *The New Negro* collects more than one hundred canonical and lesser-known essays published between 1892 and 1938 that examine the issues of race and representation in African American culture. These readings--by writers including W.E.B. Du Bois, Paul Laurence Dunbar, Alain Locke, Carl Van Vechten, Zora Neale Hurston, and Richard Wright--discuss the trope of the New Negro, and the milieu in which this figure existed, from almost every conceivable angle. Political essays are joined by essays on African American fiction, poetry, drama, music, painting, and sculpture. More than fascinating historical documents, these essays remain essential to the way African American identity and history are still understood today.

The Negro in American Fiction

Presents articles on the period known as the Harlem Renaissance, during which African American artists, poets, writers, thinkers, and musicians flourished in Harlem, New York.

The Negro as Capitalist

Twenty-nine collected essays represent a critical history of Shakespeare's play as text and as theater, beginning with Samuel Johnson in 1765, and ending with a review of the Royal Shakespeare Company production in 1991. The criticism centers on three aspects of the play: the love/friendship debate.

The Conquest

First published in 1965, this is a unique text in the history of the American Civil Rights Movement. Robert Penn Warren interviewed a wide range of African American leaders, activists, and artists across the country, among them Martin Luther King, Malcom X, and James Baldwin. Sections from the transcripts of these interviews are combined with the author's reflections on the interviewees and the Civil Rights Movement as a whole to create a powerful oral history of this all-important struggle. A new introduction by David W. Blight places Warren's book in historical perspective. " In this new edition introduced by the eminent historian David Blight, Who Speaks for the Negro? reveals a provocative admixture of history's variance. Warren's book is a burden of the past from which we cannot escape. It summons us to awaken a more vital national heartbeat of reparations for an American dilemma."—Houston Baker, Vanderbilt University

A Negro and an Ofay

In 1952, after a year on the run, disgraced Chicago Police Officer Elliot Caprice wakes up in a jailhouse in St. Louis. His friends from his hometown secure his release and he returns to find the family farm in foreclosure and the man who raised him dying in a flophouse. Desperate for money, he accepts a straight job as a process server and eventually crosses paths with a powerful family from Chicago's North Shore. A captain of industry is dead, the key to his estate disappeared with the chauffeur, and soon Elliot is in up to his neck. The mixed-race son of Illinois farm country must return to the Windy City with the Chicago Police on his heels and the Syndicate at his throat. Good thing he's had a lifetime of playing both sides to the middle. Praise for A NEGRO AND AN OFAY: "A a solid entry in the ranks of African-American crime fiction." —Publishers Weekly "Fans of Walter Mosley and George Pelecanos are going to devour Danny Gardner's brilliant new book. A Negro and an Ofay breathes exciting new life into noir fiction." —Jonathan Maberry, The New York Times bestselling author "Elliot Caprice is a terrific character with his own Midwestern territory and Danny Gardner tells his stories with style and cunning." —Peter Blauner, The New York Times bestselling author and co-Executive Producer of CBS's Blue Bloods "Danny Gardner's Elliot Caprice is a complex mix of muscle and brain, of toughness and heart, of doing wrong and only sometimes getting it right. A Negro and an Ofay reads like a long lost Raymond Chandler, one that he wrote from the south side of Chicago." —Lori Rader-Day, Mary Higgins Clark Award-winning author of Little Pretty Things and The Black Hour "Danny Gardner's masterful debut engenders echoes of the greats. I had the impression I had somehow stumbled across a previously undiscovered work of Chester Himes, or Jim Thompson, or Walter Mosley or all three

magically rolled into one.” David Corbett, prize-winning author of *The Mercy of the Night* “Immersive, poignant and utterly enthralling. Written from the middle of America’s great racial divide, it’s satirical, cool and irrevocably honest; imbued with an inherent nobility that rivals any modern day hero.” —Tom Avitabile, bestselling author of *Give Us This Day* “A Negro and an Ofay is a smart, crisp, historically accurate, and unapologetically racial narrative that signals the arrival of a strong, necessary voice in crime fiction. This is the best debut you’ll read in a long time.” —Gabino Iglesias, author of *Zero Saints* “Hard-boiled don’t get much harder than this. Danny Gardner hits all the right notes, but with enough swagger and voice to make it completely his own. Elliot Caprice is a fantastic character, stuck between two worlds—black and white, good and bad—and I really hope to see more of him.” —Rob W. Hart, author of *South Village* “One of the best tools Gardner has in his toolbox...is his sense of humanity.” —Scott Waldyn, *Literary Orphans Journal* “...it manages to be smart, historical, and about identity/racial issues while retaining all the entertainment value that pulpy thrillers bring to the table. This is a book with a carefully crafted plot that touches on a lot of issues that were as relevant six decades ago as they are now.” —*Out of the Gutter Review* “This is a stunning debut! A powerful combination of brilliant storytelling and a breathtaking grasp of dialog subtext that strongly reminds of Mamet. Gardner is destined to become a big name in this writing game.” —Les Edgerton, author of *The Genuine, Imitation, Plastic Kidnapping* “Elliot Caprice is a trouble magnet and that makes for a great character.” —Simon Wood, author of *The One That Got Away* “Plenty of hardboiled patter and a dense plot with a great sense of place and wonderful dialogue.” —Eric Beetner, author of *Rumrunners* “A Negro and an Ofay forces us to look into the brutal mirror of our past in the hope we might understand our future. With his sharp as a whip crack writing, Gardner may just change the world” —Paul Bishop, author of *Lie Catchers*

Readers will find this an invaluable guide to the preoccupations and features of Micheaux's remarkable career and the insight it provides into the African American experience of the 1920s and 30s.

The Negro

The Crisis, founded by W.E.B. Du Bois as the official publication of the NAACP, is a journal of civil rights, history, politics, and culture and seeks to educate and challenge its readers about issues that continue to plague African Americans and other communities of color. For nearly 100 years, The Crisis has been the magazine of opinion and thought leaders, decision makers, peacemakers and justice seekers. It has chronicled, informed, educated, entertained and, in many instances, set the economic, political and social agenda for our nation and its multi-ethnic citizens.

With a Crooked Stick—The Films of Oscar Micheaux

From the mind of brilliant historian Robin Kelley comes the first full biography of legendary jazz musician Thelonious Monk, including full access to the family's archives, dozens of interviews, and an afterword for Monk's 2017 centennial. Thelonious Monk is the critically acclaimed, gripping saga of an artist's struggle to "make it" without compromising his musical vision. It is a story that, like its subject, reflects the tidal ebbs and flows of American history in the twentieth century. To his fans, he was the ultimate

hipster; to his detractors, he was temperamental, eccentric, taciturn, or childlike. His angular melodies and dissonant harmonies shook the jazz world to its foundations, ushering in the birth of "bebop" and establishing Monk as one of America's greatest com-posers. Elegantly written and rich with humor and pathos, Thelonious Monk is the definitive work on modern jazz's most original composer

Here is a kaleidoscopic assemblage and poetic history of New York: an unparalleled and original homage to the city, composed entirely of quotations. Drawn from a huge array of sources-histories, memoirs, newspaper articles, novels, government documents, emails-and organized into interpretive categories that reveal the philosophical architecture of the city, Capital is the ne plus ultra of books on the ultimate megalopolis. It is also a book of experimental literature that transposes Walter Benjamin's unfinished magnum opus of literary montage on the modern city, The Arcades Project, from 19th-century Paris to 20th-century New York, bringing the streets to life in categories such as "Sex," "Commodity," "Downtown," "Subway," and "Mapplethorpe." Capital is a book designed to fascinate and to fail-for can a megalopolis truly be written? Can a history, no matter how extensive, ever be comprehensive? Each reading of this book, and of New York, is a unique and impossible passage.

The Negro Equalled by Few Europeans

When the actor Ted Danson appeared in blackface at a 1993 Friars Club roast, he ignited a firestorm of protest that landed him on the front pages of the newspapers, rebuked by everyone from talk show host Montel Williams to New York City's then mayor, David Dinkins. Danson's use of blackface was shocking, but was the furious pitch of the response a triumphant indication of how far society has progressed since the days when blackface performers were the toast of vaudeville, or was it also an uncomfortable reminder of how deep the chasm still is separating black and white America? In Racechanges: White Skin, Black Face in American Culture, Susan Gubar, who fundamentally changed the way we think about women's literature as co-author of the acclaimed The Madwoman in the Attic, turns her attention to the incendiary issue of race. Through a far-reaching exploration of the long overlooked legacy of minstrelsy--cross-racial impersonations or "racechanges"--throughout modern American film, fiction, poetry, painting, photography, and journalism, she documents the indebtedness of "mainstream" artists to African-American culture, and explores the deeply conflicted psychology of white guilt. The fascinating "racechanges" Gubar discusses include whites posing as blacks and blacks "passing" for white; blackface on white actors in The Jazz Singer, Birth of a Nation, and other movies, as well as on the faces of black stage entertainers; African-American deployment of racechange imagery during the Harlem Renaissance, including the poetry of Anne Spencer, the black-and-white prints of Richard Bruce Nugent, and the early work of Zora Neale Hurston; white poets and novelists from Vachel Lindsay and Gertrude Stein to John Berryman and William Faulkner writing as if they were black; white artists and writers fascinated by hypersexualized stereotypes of black men; and nightmares and visions of the racechanged baby. Gubar shows that unlike African-Americans, who often are forced to adopt white masks to gain their rights, white people have chosen racial masquerades, which range from mockery and mimicry to an evolving emphasis on inter-racial mutuality and mutability. Drawing on a stunning array of illustrations, including paintings, film stills, computer graphics, and even magazine

morphings, *Racechanges* sheds new light on the persistent pervasiveness of racism and exciting aesthetic possibilities for lessening the distance between blacks and whites.

Distinguished linguistics scholar Anatoly Liberman set out the frame for this volume in *An Analytic Dictionary of English Etymology*. Here, Liberman's landmark scholarship lay the groundwork for his forthcoming multivolume analytic dictionary of the English language. *A Bibliography of English Etymology* is a broadly conceptualized reference tool that provides source materials for etymological research. For each word's etymology, there is a bibliographic entry that lists the word origin's primary sources, specifically, where it was first found in use. Featuring the history of more than 13,000 English words, their cognates, and their foreign antonyms, this is a full-fledged compendium of resources indispensable to any scholar of word origins.

The Negro Novel in America

A Tribute for the Negro: Being a Vindication of the Moral, Intellectual, and Religious Capabilities of the Coloured Portion of Mankind; with Particular Reference to the African Race Authored by Wilson Armistead

Capital

Set against the backdrop of the black struggle in society, *Slow Fade to Black* is the definitive history of African-American accomplishment in film--both before and behind the camera--from the earliest movies through World War II. As he records the changing attitudes toward African-Americans both in Hollywood and the nation at large, Cripps explores the growth of discrimination as filmmakers became more and more intrigued with myths of the Old South: the "lost cause" aspect of the Civil War, the stately mansions and gracious ladies of the antebellum South, the "happy" slaves singing in the fields. Cripps shows how these characterizations culminated in the blatantly racist attitudes of Griffith's *The Birth of a Nation*, and how this film inspired the N.A.A.C.P. to campaign vigorously--and successfully--for change. While the period of the 1920s to 1940s was one replete with Hollywood stereotypes (blacks most often appeared as domestics or "natives," or were portrayed in shiftless, cowardly "Stepin Fetchit" roles), there was also an attempt at independent black production--on the whole unsuccessful. But with the coming of World War II, increasing pressures for a wider use of blacks in films, and calls for more equitable treatment, African-Americans did begin to receive more sympathetic roles, such as that of Sam, the piano player in the 1942 classic *Casablanca*. A lively, thorough history of African-Americans in the movies, *Slow Fade to Black* is also a perceptive social commentary on evolving racial attitudes in this country during the first four decades of the twentieth century.

The Negro Around the World

When African American intellectuals announced the birth of the "New Negro" around the turn of the twentieth century, they were attempting through a bold act of renaming to change the way blacks were depicted and perceived in America. By challenging stereotypes of the Old Negro, and declaring that the New Negro was capable of high achievement, black writers tried to revolutionize how whites viewed blacks--and how blacks viewed themselves. Nothing less than a strategy to re-create the public face of "the race," the New Negro became a dominant figure of racial uplift between Reconstruction and World War II, as well as a central idea of the Harlem, or New Negro, Renaissance. Edited by Henry Louis Gates, Jr., and Gene Andrew Jarrett, *The New Negro* collects more than one hundred canonical and lesser-known essays published between 1892 and 1938 that examine the issues of race and representation in African American culture. These readings--by writers including W.E.B. Du Bois, Paul Laurence Dunbar, Alain Locke, Carl Van Vechten, Zora Neale Hurston, and Richard Wright--discuss the trope of the New Negro, and the milieu in which this figure existed, from almost every conceivable

angle. Political essays are joined by essays on African American fiction, poetry, drama, music, painting, and sculpture. More than fascinating historical documents, these essays remain essential to the way African American identity and history are still understood today.

The Negro in American Fiction

Presents articles on the period known as the Harlem Renaissance, during which African American artists, poets, writers, thinkers, and musicians flourished in Harlem, New York.

The Negro as Capitalist

Twenty-nine collected essays represent a critical history of Shakespeare's play as text and as theater, beginning with Samuel Johnson in 1765, and ending with a review of the Royal Shakespeare Company production in 1991. The criticism centers on three aspects of the play: the love/friendship debate.

"Theatre reviews is a complete guide and record of the New York stage, reprinted from New York sun, New York times, New York herald tribune, New York post, New York daily news, New York world telegram" 1940- ; reprinted from the New York daily news, Wall Street journal, Time, New York post, Women's wear daily, New York times, Christian science monitor, Newsweek, NBC ,1976-

The Conquest

First published in 1965, this is a unique text in the history of the American Civil Rights Movement. Robert Penn Warren interviewed a wide range of African American leaders, activists, and artists across the country, among them Martin Luther King, Malcom X, and James Baldwin. Sections from the transcripts of these interviews are combined with the author's reflections on the interviewees and the Civil Rights Movement as a whole to create a powerful oral history of this all-important struggle. A new introduction by David W. Blight places Warren's book in historical perspective. " In this new edition introduced by the eminent historian David Blight, *Who Speaks for the Negro?* reveals a provocative admixture of history's variance. Warren's book is a burden of the past from which we cannot escape. It summons us to awaken a more vital national heartbeat of reparations for an American dilemma."—Houston Baker, Vanderbilt University
