Serpentine Belt Renewal - Serpentine Belt Renewal by ScrewsNutsAndBolts 886,397 views 3 years ago 4 minutes, 9 seconds - Changing the serpentine belt on a 2001 to 2008 Peugeot 307 1.4 petrol **engine**,. Thanks for watching. If you found this video ...

Mark the direction of the belt if you intend to refit it

Working from underneath the car, use a 15mm spanner to move the tensioner Pulley from the belt

As you rotate the tensioner pulley, the belt becomes slack enough to remove

Remove the belt from the pulleys

Check the belt for any bad wear or damage

It's not in very bad condition but I've decided to renew the belt anyway

Place the new belt around the pulleys

Place the belt around the outside of the crank and alternator pulleys and inside the tensioner Pulley

Make sure the belt ribs are properly seated onto the pulleys

Now rotate the tensioner pulley to slacken the belt again

When the belt is slack enough, fit it onto the remaining pulley (the A/C pulley in this case)

Again, make sure the belt is properly seated onto all the pulleys

Now start the engine to check the operation of the new belt

Looking good!

How To STOP ALTERNATOR BELT Squeaking & Chirping Noise FOREVER!!! - How To STOP ALTERNATOR BELT Squeaking & Chirping Noise FOREVER!!! by Sweet Project Cars 3,211,375 views 6 years ago 3 minutes, 13 seconds - ARE YOU sick of the alternator belt squeaking and chirping like a flock of birds?
