"This is why we read fiction at all" raves the Washington Post: Family life meets historical romance in this critically acclaimed, "gorgeous, sweeping novel" (Ms Magazine) about two people who find each other when abandoned by everyone else, marking the signal American debut of an award-winning writer who richly deserves her international acclaim. On the outskirts of a small town in Bengal, a family lives in solitude in their vast new house. Here, lives intertwine and unravel. A widower struggles with his love for an unmarried cousin. Bakul, a motherless daughter, runs wild with Mukunda, an orphan of unknown caste adopted by the family. As Mukunda and Bakul grow, their intense closeness matures into something else, and Mukunda is banished to Calcutta. He prospers in the turbulent years after Partition, but his thoughts stay with his home, with Bakul, with all that he has lost—and he knows that he must return.

The Oxford Companion to Food

Funny, outrageous, passionate, and unrelenting, Vogue's food writer, Jeffrey Steingarten, will stop at nothing, as he makes clear in these forty delectable pieces. Whether he is in search of a foolproof formula for sourdough bread (made from wild yeast, of course) or the most sublime French fries (the secret: cooking them in horse fat) or the perfect piecrust (Fannie Farmer--that is, Marion Cunningham--comes to the rescue), he will go to any length to find the answer. At the drop of an apron he hops a plane to Japan to taste Wagyu, the hand-massaged beef, or to Palermo to scale Mount Etna to uncover the origins of ice cream. The love of choucroute takes him to Alsace, the scent of truffles to the Piedmont, the sizzle of ribs on the grill to Memphis to judge a barbecue contest, and both the unassuming and the haute cuisines of Paris demand his frequent assessment. Inevitably these pleasurable pursuits take their toll. So we endure with him a week at a fat farm and commiserate over low-fat products and dreary diet cookbooks to bring down the scales. But salvation is at hand when the French Paradox (how can they eat so richly and live so long?) is unearthed, and a "miraculous" new fat substitute, Olestra, is unveiled, allowing a plump gourmand to have his fill of fat without getting fatter. Here is the man who ate everything and lived to tell about it. And we, his readers, are hereby invited to the feast in this delightful book.

The Man Who Ate Everything

These essays offer fascinating insights into the role played by gastronomy in Irish literature and culture. They explore the importance of food in Irish writing; culinary practices among the 1950s Dublin working class; new trends among Ireland's 'foodie' generation; and the economic and tourism possibilities created by gastronomic nationalism.

When novels, plays and poems refer to food, they are often doing much more than we might think. Recent critical thinking suggests that depictions of food in literary works can help to explain the complex relationship between the body, subjectivity and social structures. A History of Food in Literature provides a clear and comprehensive overview of significant episodes of food and its consumption in major canonical literary works from the medieval period to the twenty-first century. This volume contextualises these works with reference to pertinent historical and cultural materials such as cookery books, diaries and guides to good health, in order to engage with the critical debate on food and literature and how ideas of food have developed over the centuries. Organised chronologically and examining certain key writers from every period, including Chaucer, Shakespeare, Austen and Dickens, this book's enlightening critical analysis makes it relevant for anyone interested in the study of food and literature.

It can be intimidating to shop for seafood. You wonder if it's healthy for you, you worry about whether it's overfished and whether it's caught in ways that harm other species or the environment. Making smart seafood choices has never been more confusing or more important for the planet and our health. Chef and seafood advocate Becky Selengut knows from good fish, and in a voice that's informed but down-to-earth, she untangles the morass surrounding seafood today. From shellfish to finfish to littlefish, fifteen good fish are featured, and the accompanying seventy-five recipes will appeal to a wide range of home cooks: from beginners, to busy parents trying to put a healthy weeknight meal on the table, to the more adventurous who want to create special-occasion dishes. Sommelier April Pogue provides wine pairings for each recipe. Good Fish is an invaluable resource for anyone living on the Pacific Coast. Chef Becky Selengut is an advocate for seafood sustainability and seasonal, regional cuisine. Her writing has been featured in Seattle Homes and Lifestyles and Edible Seattle magazines. She lives in Seattle.

In Salman Rushdie's novels, images are invested with the power to manipulate the plotline, to stipulate actions from the characters, to have sway over them, seduce them, or even lead them astray. Salman Rushdie and Visual Culture sheds light on this largely unremarked – even if central – dimension of the work of a major contemporary writer. This collection brings together, for the first time and into a coherent whole, research on the extensive interplay between the visible and the readable in Rushdie's fiction, from one of the earliest novels – *Midnight's Children* (1981) – to his latest – *The Enchantress of Florence* (2008).

Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

I Will Survive is the story of Gloria Gaynor, America's "Queen of Disco." It is the story of riches and fame, despair, and finally salvation. Her meteoric rise to stardom in the mid-1970s was nothing short of phenomenal, and hits poured forth that pushed her to the top of the charts, including "Honey Bee," "I Got You Under My Skin," "Never Can Say Goodbye," and the song that has immortalized her, "I Will Survive," which became a #1 international gold seller. With that song, Gloria heralded the international rise of disco that became synonymous with a way of life in the fast lane - the sweaty bodies at Studio 54, the lines of cocaine, the indescribable feeling that you could always be at the top of your game and never come down. But down she came after her early stardom, and problems followed in the wake, including the death of her mother, whose love had anchored the young singer, as well as constant battles with weight, drugs, and alcohol. While her fans always imagined her to be rich, her personal finances collapsed due to poor management; and while many envied her, she felt completely empty inside. In the early 1980s, sustained by her marriage to music publisher Linwood Simon, Gloria took three years off and reflected upon her life. She visited churches and revisited her mother's old Bible. Discovering the world of gospel, she made a commitment to Christ that sustains her to this day.

The Financial Crisis Inquiry Report, published by the U.S. Government and the Financial Crisis Inquiry Commission in early 2011, is the official government report on the United States financial collapse and the review of major financial institutions that bankrupted and failed, or would have without help from the government. The commission and the report were implemented after Congress passed an act in 2009 to review and prevent fraudulent activity. The report details, among other things, the periods before, during, and after the crisis, what led up to it, and analyses of subprime mortgage lending, credit expansion and banking policies, the collapse of companies like Fannie Mae and Freddie Mac, and the federal bailouts of Lehman and AIG. It also discusses the aftermath of the fallout and our current state. This report should be of interest to anyone concerned about the financial situation in the U.S. and around the world. THE FINANCIAL CRISIS INQUIRY COMMISSION is an independent, bi-partisan, government-appointed panel of 10 people that was created to "examine the causes, domestic and global, of the current financial and economic crisis in the United States." It was established as part of the Fraud Enforcement and Recovery Act of 2009. The commission consisted of private citizens with expertise in economics and finance, banking, housing, market regulation, and consumer protection. They examined and reported on "the collapse of major financial institutions that failed or would have failed if not for exceptional assistance from the government." Schools of Thought

Anthony has two dollars and three quarters and one dime and seven nickels and eighteen pennies. Nicholas has one dollar and two quarters and five dimes and five nickels and thirteen pennies. Alexander has...bus tokens. And even when he's rich, pretty soon all he has is bus tokens. He was rich. Last Sunday. Grandma Betty and Grandpa Louie came and gave Anthony and Nicholas and Alexander each a dollar. Alexander was saving his. Maybe for a walkie-talkie. And then there was bubble gum, some bets with Anthony and Nicholas (that Alexander lost), a snake rental, a garage sale, and all kinds of other things to spend money on. And now all he has is bus tokens. When he used to be rich last Sunday.
