A Little Stuck

A specially adapted board book edition of Oliver Jeffers' laugh-out-loud classic, *Stuck*. Floyd gets his kite stuck up a tree. He throws up his shoe to shift it, but that gets stuck too. So he throws up his other shoe and that gets stuck, along with... a ladder, a pot of paint, the kitchen sink, an orang-utan and a whale, amongst other things! Will Floyd ever get his kite back? A hilarious book with a wonderful surprise ending.

A Little Stuck

From the illustrator of the #1 smash *The Day the Crayons Quit* comes another bestseller--a giggle-inducing tale of everything tossed, thrown, and hurled in order to free a kite! When Floyd's kite gets stuck in a tree, he's determined to get it out. But how? Well, by knocking it down with his shoe, of course. But strangely enough, it too gets stuck. And the only logical course of action . . . is to throw his other shoe. Only now it's stuck! Surely there must be something he can use to get his kite unstuck. An orangutan? A boat? His front door? Yes, yes, and yes. And that's only the beginning. *Stuck* is Oliver Jeffers' most absurdly funny story since *The Incredible Book-Eating Boy*. Childlike in concept and vibrantly illustrated as only Oliver Jeffers could, here is a picture book worth rescuing from any tree.

The Stuck Book

We've all felt unsure of what to do next. Experts, articles offering advice, and well-meaning loved ones amplify the anxiety. What they are saying you need to do feels like worn-out-hand-me-down clothes that don't fit. Conventional wisdom won't help you. Their answers aren't your answers. You're in a different season. You need customized wisdom. There is a skill that will help you achieve clarity about your next step. You have to figure out where you are. The stuck book is a short book you can pick up when you have a question and get an answer for what needs to be done. Seize the day? Wait and ponder? Whether it's your job or a relationship there are 4 simple answers for your 1,000,000 questions.

The Rime of the Ancient Mariner

From the New York Times and Sunday Times bestselling author of *The Love Hypothesis* comes a new steamy, STEM-inist novella... Nothing like a little rivalry between scientists to take love to the next level. Mara, Sadie, and Hannah are friends first, scientists always. Though their fields of study might take them to different corners of the world, they can all agree on this universal truth: when it comes to love and science, opposites attract and rivals make you burn... Logically, Sadie knows that civil engineers are supposed to build bridges. However, as a woman of STEM she also understands that variables can change, and when you are stuck for hours in a tiny New York elevator with the man who broke your heart, you earn the right to burn that brawny, blond bridge to the ground. Erik can apologize all he wants, but to quote her rebel leader - she'd just as soon kiss a Wookiee. Not even the most sophisticated of Sadie's superstitious rituals could have predicted such a disastrous reunion. But while she refuses to acknowledge the siren call of Erik's steely forearms or the way his voice softens when he offers her his sweater, Sadie can't help but wonder if there might be more layers to her cold-hearted nemesis than meet the eye. Maybe, possibly, even burned bridges can still be crossed... To read Mara and Hannah's

stories look for the novellas *Under One Roof* and *Below Zero*. Ali Hazelwood's latest novel, *Love on the Brain* is out now.

Whale is Stuck

A very funny collection of 100 X-ray images showing foreign objects ingested or inserted into human bodies, accidentally or on purpose. The human imagination truly knows no limits. Without it, there would be no great art, no advances in science and technology, and no extreme sports. Without it, we'd also be deprived of the many insights into human nature that we get out of witnessing other people do shockingly imprudent things and then try to rationalize them. *Stuck Up!* capitalizes on this human capability of coming up with creative applications for everyday (and not-so everyday) items way beyond their designated uses, and features 100 X-ray images of foreign objects inserted into human bodies, accidentally or on purpose. "It was a million-to-one shot, Doc." "My hands were full." "I fell." These and many other ludicrous excuses are what emergency room doctors hear every day from patients who check in with various items inserted where the sun don't shine, stuck in various orifices, or ingested in other ways. How exactly did that cell phone end up there? Was it on vibrate? And is the rectum truly the best place to store your bronzed baby shoes? It is at least somewhat understandable to find a rectal thermometer in its intended place, but how about your six-year-old daughter's Barbie doll? Start browsing this hilarious collection of images – you'll be surprised at the patients' creativity and the medical information provided. And: Don't try this at home....

A coming-of-age story about a boy who is used to flying under the radar, and the classroom of kids determined to help him stand out. This touching friendship tale is the perfect read for fans of *Fish in a Tree* and *Song for a Whale*. "Austin's narration is conversational and observant." -Publishers Weekly, Starred Review If Austin picked a color to describe his life, it would be tumbleweed brown. Austin doesn't like standing out. He's always the new kid, and there's no hiding his size. Plus, Austin has a secret: he struggles to read. Then Austin meets Bertie, who is razzmatazz. Everything about Bertie is bursting! But the best part of his newest school is the Safety Squad, with their laser lemon vests. Their easy confidence and leadership stand out in the coolest way. And the more Austin speaks up, the more he finds he may not be that different after all.

"One Huey wears a new sweater to be different from the other identical Hueys, only to have them decide to be different too--by wearing sweaters" --Provided by publisher.

The Hueys in the New Sweater

Ketchvar III's mission is simple: travel to Planet Earth, inhabit the body of an average teenager, and determine if the human race should be annihilated. And so Ketchvar—who, to human eyes, looks just like a common snail—crawls into the brain of one Tom Filber and attempts to do his analysis. At first glance, Tom appears to be the perfect specimen—fourteen years old, good health, above average intelligence. But it soon becomes apparent that Tom Filber may be a little too average—gawky, awkward, and utterly abhorred by his peers. An alien within an alien's skin, Ketchvar quickly finds himself wrapped up in the daily drama of teenage life—infuriating family members, raging bullies, and undeniably beautiful next-door neighbors. And the more entangled Ketchvar becomes, the harder it is to answer the question he was sent to Earth to resolve: Should the Sandovinians release the Gagnerian Death Ray and erase the human species for good? Or is it possible that *Homo sapiens* really are worth saving? Wickedly wry and hysterically skewed, David Klass's take on teen life on our fabulously flawed Planet Earth is an engrossing look at true friends, truer enemies, and awkward alien first kisses. *Stuck on Earth* is a 2011 Bank Street - Best Children's Book of the Year.

It happens in little ways and big ways. There is a way out. We just need to find it. We get stuck because of fear, negative emotions, erroneous beliefs, our attempts to control what we can't, and our lack of skills needed to be free. But the biggest reason? We won't take the steps necessary. They all come down to one question: "So Now What?" Progress in our lives depends on our physical, mental, and spiritual health. These three elements build on one another and support each other when any of them wavers. The answers to your relationship questions may rely on your physical health. When you get unstuck, you will look better, feel better, and do better. You will have freedom. You will have love. **AUTHOR BIOGRAPHY** Catherine A.
