Principles of Marketing

Outstanding marketing companies go to great lengths to learn about and understand the customers' needs, wants, and demands. 1. true

Customer relationship management (CRM) deals with all aspects of acquiring, keeping, and growing customers. 1. true 2. false

Human welfare, want satisfaction, and profits are the three considerations underlining the concept known as 1. societal marketing

There are five alternative concepts under which organizations design and carry out their marketing strategies: the production, product, selling, marketing, and societal marketing concepts.

The customer's evaluation of the difference between benefits and costs of a product/service as it relates to the competition is called customer perceived value.
