The Provisional American Faction

The 1960s was a period of great civil unrest in Northern Ireland. The IRA and Protestant militants were in constant battle. The British entered the scene in 1969 only to be caught in the middle. No one could see a resolution. Rory McCaan, a young man raised in Londonderry, and transplanted in the U.S. after becoming an orphan, leads an obscure band that only a few in his homeland know exists. He acquires vast resources, and with his companions, he attempts to redress crimes that both sides commit. As the story unfolds, one sees that Rory is not simply a vigilante. He has a larger purpose, one that he seeks to fulfill through the fortuitous association with Nealen McGowen, a young congressional staffer with equal fervor. While Rory returns to Ireland to inflict his various forms of retribution, Nealen ascends to fill his boss's seat. As Nealen's obsession haunts him, he conspires with Rory to bring the troubles to America. His goal. to stir the passion of Irish-Americans and to get the U.S. involved.

The Provisional American Faction

The 1960s was a period of great civil unrest in Northern Ireland, and the IRA and Protestant militants were in constant battle. The British entered the picture in 1969 only to be caught in the middle. No one could see a resolution. Rory McCaan, a young man raised in Londonderry, and transplanted in the U.S. after becoming an orphan, leads an obscure band that only a few in his homeland know exists. He acquires vast resources and, with his companions, he attempts to redress crimes that both sides commit. As the story unfolds, one sees that Rory is not simply a vigilante. He has a larger purpose, one that he seeks to fulfill through his fortuitous association with Nealen McGowen, a young congressional staffer with equal fervor. While Rory returns to Ireland to inflict his various forms of retribution, Nealen ascends to fill his boss's seat. As Nealen's fixation on "the troubles" haunts him, he conspires with Rory to bring the conflict to America. His goal... to stir the passion of Irish-Americans and to get the U.S. involved. A fast moving fictional tale about the futility of revenge, The Provisional American Faction takes the reader through a sequence of obsession, aggression, retribution, closure, and ultimately, peace.

American Zionism from Herzl to the Holocaust

This eBook is a co-edition Plunkett Lake Press/University of Nebraska Press. Vienna journalist Theodore Herzl realized that anti-Semitism, dramatically illustrated by the Dreyfus Affair in 1890s France, would never be stemmed by the attempts of Jews to assimilate. The publication of his *Der Judenstaat* in 1896 began the political movement for a Jewish homeland in Palestine. It caught on in Europe but was moribund in the United States until World War I. Urofsky shows how the Zionist movement was Americanized by Louis D. Brandeis and other reformers. He portrays the disputes between assimilationist and conservative Jews and the difficulties impeding the movement until Arab riots in Palestine, British treachery, and the Nazi horrors of World War II reunited American Jewry. *American Zionism from Herzl to the Holocaust* won the Jewish Book Council's Morris J. Kaplan Award in 1976. "One of the most important books in the field of American-Jewish history to appear in years. Superbly researched and written, it is a major contribution to the understanding of the paradoxical weaknesses and strengths of American Zionism in our time... This book belongs in any collection of works on American Jewry, world Jewry, American foreign affairs or Israeli-Arab conflict background." — Choice "How American Zionism, culturally so different from European Zionism, helped create the movement as a political power is the theme of this absorbing history. It is must reading for anyone who would understand American foreign policy involvements in the Middle East." — Christian Science Monitor "[Urofsky's] study is a first-rate piece of work." — David Singer, *Commentary Magazine* "[Urofsky] has relied on an impressive array of primary source material including archival and manuscript collections, newspapers, magazines, and the reports of Zionist congresses and conventions. They emerge from his pen as a coherent, readable and, oft times, fascinating whole... In a fascinating and readable style he focuses on the most interesting events and personalities... He has succeeded in adroitly molding innumerable facts and details into a cohesive and coherent body of material... a significant addition to the study of American Zionism." — Deborah E. Lipstadt, *Jewish Social Studies* "[A] well-written, penetrating narrative... Much of what he discusses — how Brandeis fused Zionism with Americanism, the fight for communal power between the wealthy stewards of the American Jewish Committee and the recent immigrants, the part played by the Americans in the Balfour Declaration negotiations, the rift between the Weizmann and Brandeis factions — has been told before. But Urofsky's data, gleaned from numerous manuscript collections, and his skillful collation of far-flung monographic material have put a definitive stamp on a long-needed synthetic history of those events." — Naomi W. Cohen, *The Journal of American History* "Melvin I. Urofsky argues in this, the most complete analysis yet published of American Zionism, that the most sensible perspective for understanding American Zionism is American history." — Edward S. Shapiro, *American Jewish Historical Quarterly* "*American Zionism from Herzl to the Holocaust* is a monument to the interplay between the Zionism of America and that of Europe, resulting in the creation of a thoroughly American movement with worldwide influence... Urofsky's thesis is both convincing and thoroughly supported." — Peter S. Margolis, *H-Judaic*

Quiet Odyssey

Mary Paik Lee left her native country in 1905, traveling with her parents as a political refugee after Japan imposed control over Korea. Her father worked in the sugar plantations of Hawaii briefly before taking his family to California. They shared the poverty-stricken existence endured by thousands of Asian immigrants in the early twentieth century, working as farm laborers, cooks, janitors, and miners. Lee recounts racism on the playground and the ravages of mercury mining on her father's health, but also entrepreneurial successes and hardships surmounted with grace. With a new foreword by David K. Yoo, this edition reintroduces *Quiet Odyssey* to readers interested in Asian American history and immigration studies. The volume includes thirty illustrations and a comprehensive introduction and bibliographic essay by respected scholar Sucheng Chan, who collaborated closely with Lee to edit the biography and ensure the work was true to the author's intended vision. This award-winning book provides a compelling firsthand account of early Korean American history and continues to be an essential work in Asian American studies.

American and British Claims Arbitration

This edited collection examines the effects of the Great War and the signing of the Treaty of Versailles in East Asia. Contributors to this collection highlight how Japanese, Chinese, Korean, and Mongolian groups and individuals actively sought to envision a global order in which the center of gravity lay in the Western Pacific, not the Northern Atlantic.

Beyond Versailles

About the Book Since the end of the American slave era, the descendants of enslaved Africans remain among the most marginalized and underrepresented groups in the United States, ranking last in wealth and education. Most Black populations live in urban areas where other groups own the land and properties where they reside. This book introduces the African American Reparations Act of 2030. Who will receive reparations? How will it pass into law and then be implemented? African American Reparations handles those questions deftly as well as providing suggestions on how to build consensus among the U.S. government by engaging the American people in a national conversation.

About the Author Bryant W. Holt has over 30 years of leadership experience in strategic planning, enterprise portfolio management, and continuous process improvement. He earned his Associate of Science degree in Applied Sciences from Wayne County Community College, a Bachelor of Business Administration from Olivet Nazarene University, and a Master of Science focused on Land Planning and Design from Columbia University in New York City. He is a member of the American Society of Landscape Architect, a certified member with the American Association of Airport Executives, as well as an experienced Six Sigma black belt and portfolio project management professional. Mr. Holt served as the chief development officer, where he developed strategic business plans, written several white papers related to large hub commercial airports and mobility innovations, as well as led a comprehensive master for the 10th largest airport system in the United States. He has a long history of community service, starting in his hometown of Detroit, MI as a community organizer, Newark, DE as a civic association president, and Jersey City, NJ where he was elected as district ward. Holt was also appointed by the Jersey City mayor to serve as commissioner of the environmental commission. Mr. Holt and his wife, Shari Lynn Beasley Holt, have always dedicated their time to making a difference in their community, no matter where they call home. They have two sons, Bryant Vance Holt and Brendon Alexander Holt. Bryant is married to Alejandra Bueno-Galon Holt, and they have a son named Ra Beasley Holt.

American Foreign Policy Current Documents

The only full-scale history of Syngman Rhee's (1875–1965) early career in English was published nearly six decades ago. Now, in *The Making of the First Korean President*, Young Ick Lew uncovers little-known aspects of Rhee's leadership roles prior to 1948, when he became the Republic of Korea's first president. In this richly illustrated volume, Lew delves into Rhee's background, investigates his abortive diplomatic missions, and explains how and why he was impeached as the head of the Korean Provisional Government in 1925. He analyzes the numerous personal conflicts between Rhee and other prominent Korean leaders, including some close friends and supporters who eventually denounced him as an autocrat. Rhee is portrayed as a fallible yet charismatic leader who spent his life fighting in the diplomatic and propaganda arena for the independence of his beleaguered nation—a struggle that would have consumed and defeated lesser men. Based on exhaustive research that incorporates archival records as well as secondary sources in Korean, English, and Japanese, *The Making of the First Korean President* meticulously lays out the key developments of Rhee's pre-presidential career, including his early schooling in Korea, involvement in the reform movement against the Taehan ("Great Korean") Empire, and his six-year incarceration in Seoul Prison for a coup attempt on Emperor Kojong. Rhee's life in the U.S. is also examined in detail: his education at George Washington, Harvard, and Princeton universities; his evangelical work at the Seoul YMCA; his extensive activities in Hawai'i and attempts to maintain prestige and power among Koreans in the U.S. Lew concludes that, despite the manifold shortcomings in Rhee's authoritarian leadership, he was undoubtedly best prepared to assume the presidency of South Korea after the onset of the Cold War in the Korean Peninsula. Essential reading for anyone with an interest in modern Korean history, this work will serve as a lasting portrait of one of the pivotal figures in the evolution of Korea as it journeyed from colonial suppression to freedom and security.

SDS Plans for America's High Schools

"Dommen's book promises to be the definitive political history of Indochina during the Franco-American era." -- William M. Leary, E. Merton Coulter Professor of History, University of Georgia This magisterial study by Arthur J. Dommen sets the Indochina wars 'French and American' in perspective as no

book that has come before. He summarizes the history of the peninsula from the Vietnamese War of Independence from China in 930-39 through the first French military actions in 1858, when the struggle of the peoples of Indochina with Western powers began. Dommen details the crucial episodes in the colonization of Indochina by the French and the indigenous reaction to it. The struggle for national sovereignty reached an acute state at the end of World War II, when independent governments rapidly assumed power in Vietnam and Cambodia. When the French returned, the struggle became one of open warfare, with Nationalists and Communists gripped in a contest for ascendancy in Vietnam, while the rulers of Cambodia and Laos sought to obtain independence by negotiation. The withdrawal of the French after their defeat at Dien Bien Phu brought the Indochinese face-to-face, whether as friends or as enemies, with the Americans. In spite of an armistice in 1954, the war between Hanoi and Saigon resumed as each enlisted the help of foreign allies, which led to the renewed loss of sovereignty as a result of alliances and an increasingly heavy loss of lives. Meticulous and detailed, Dommen's telling of this complicated story is always judicious. Nevertheless, many people will find his analysis of the Diem coup a disturbing account of American plotting and murder. This is an essential book for anyone who wants to understand Vietnam and the people who fought against the United States and won.

American and British Claims Arbitration

Today, no single issue dominates the global political landscape as much as terrorism. Aware of their unique position in the newly unipolar world, terrorist leaders have articulated that economic warfare is a key component of the new terrorist agenda. Governments have accentuated the role of economic tools in their counter-terrorism policies while maintaining emphasis on the application of military force, or 'hard power', even though such tools often prove unnecessarily blunt or even sorely inadequate. Given the complexity of the global threat posed by modern transnational terrorist groups, combating terrorism with a mix of 'hard' and 'soft power' is more important than ever. As an invaluable new book in terrorism studies, *Terrornomics* brings together contributions from renowned international scholars and practitioners to provide a multifaceted view of contemporary financial counterterrorism and terrorist funding efforts. It employs key concepts, terms, case studies and policy recommendations to advance our understanding of the threats and possible courses of action, thus enabling us to grasp the critical financial and economic issues while providing potential counterterrorist strategies.

African American Reparations

Born and raised in San Francisco, Lai was trained as an engineer but blazed a trail in the field of Asian American studies. Long before the field had any academic standing, he amassed an unparalleled body of source material on Chinese America and drew on his own transnational heritage and Chinese patriotism to explore the global Chinese experience. In *Chinese American Transnational Politics*, Lai traces the shadowy history of Chinese leftism and the role of the Kuomintang of China in influencing affairs in America. With precision and insight, Lai penetrates the overly politicized portrayals of a history shaped by global alliances and enmities and the hard intolerance of the Cold War era. The result is a nuanced and singular account of how Chinese politics, migration to the United States, and Sino-U.S. relations were shaped by Chinese and Chinese American groups and organizations. Lai revised and expanded his writings over more than thirty years as changing political climates allowed for greater acceptance of leftist activities and access to previously confidential documents. Drawing on Chinese- and English-language sources and echoing the strong loyalties and mobility of the activists and idealists he depicts, Lai delivers the most comprehensive treatment of Chinese transnational politics to date.

The Cambridge History of Latin America

Fazio examines the significance of the US-Australian Korean engagement, 1947–53, in the evolution of the relationship between the two nations in the formative years of the Cold War. In the aftermath of World War Two, divergent American and Australian strategic and security interests converged and then aligned on the Korean peninsula. Fazio argues that the interactions between key US and Australian officials throughout their Korean engagement were crucial to shaping the nature of the evolving relationship and the making of the alliance between the two nations. The diplomacy of Percy Spender, John Foster Dulles, and James Plimsoll was particularly crucial. He demonstrates that the American evaluation of the geo-strategic significance of Korea was a significant factor in the making of the ANZUS alliance and events in Korea remained central to the evolving US-Australian relationship. Their Korean engagement showed the US and Australia had similar and overlapping, rather than identical interests, and that their relationship was much more nuanced and problematic than commonly perceived. Fazio

challenges the Australian mythology on the origins of the ANZUS Treaty and presents a cautionary insight into the limits of Australia's capacity to influence US policy to benefit its interests. An insightful read for diplomatic historians, providing greater depth to understanding the broader historical context of the trajectory of the US-Australian relationship and alliance since the beginning of the Cold War.

Foreign Relations of the United States

World War I did not bypass Latin America. Within days of the war's outbreak, European belligerents mobilized intelligence assets and secret diplomacy to compete for Latin America's allegiances and resources. This intelligence war entangled all of the American republics and even Japan. Dreary consular offices from the Rio Grande to the Straits of Magellan were abruptly thrust into covert activities, trafficking in fugitives, running contraband and conducting sabotage. Revolutionary and counter-revolutionary movements, big oil, international banks and businesses were also drawn in. Drawing on long-classified U.S. intelligence documents, this narrative of the Latin American intelligence war reveals the complexity and chaos behind the placid veneer of wartime Pan-America. The author connects the dots between Mexico City, Buenos Aires, Guatemala City, Lima, Havana, Santiago, Rio de Janeiro, Berlin, London, Washington, Tokyo and dozens of safe houses, front companies, consulates, legations and headquarters in between. Scores of unrecognized veterans of the intelligence war are revealed.

Papers Relating to the Foreign Relations of the United States

Founded in 1943, Negro Digest (later "Black World") was the publication that launched Johnson Publishing. During the most turbulent years of the civil rights movement, Negro Digest/Black World served as a critical vehicle for political thought for supporters of the movement.

The Making of the First Korean President

Examining the social and intellectual collision of the American reform tradition with immigrant Marxism during the Reconstruction era, Timothy Messer-Kruse charts the rise and fall of the International Workingman's Association (IWA), the first international socialist organization. He analyzes what attracted American reformers--many of them veterans of antebellum crusades for abolition, women's rights, and other radical causes--to the IWA, how their presence affected the course of the American Left, and why they were ultimately purged from the IWA by their orthodox Marxist comrades. Messer-Kruse explores the ideology and activities of the Yankee Internationalists, tracing the evolution of antebellum American reformers' thinking on the question of wage labor and illuminating the beginnings of a broad labor reform coalition in the early years of Reconstruction. He shows how American reformers' priority of racial and sexual equality clashed with their Marxist partners' strategy of infiltrating trade unions. Ultimately, he argues, Marxist demands for party discipline and ideological unity proved incompatible with the Yankees' native republicanism. With the expulsion of Yankee reformers from the IWA in 1871, American Marxism was divorced from the American reform tradition.

The Indochinese Experience of the French and the Americans

Examine recent transitions to democracy and the prospects for democratic stability in Argentina, Brazil, Chile, the Dominican Republic, Peru, Portugal, Spain and Uruguay.

Terronomics

Designed as a reference work for those interested in the combat history of the U.S. Marine Corps, this book describes the engagements from the formation of the Continental Marines to the Corps' great exercise at the Battle of Okinawa. Organized chronologically, the individual skirmishes illustrate how each of the Marine Corps' engagements contributed to the formation and evolution of the United States. Persons and divisions of note are mentioned, including key players, commanders and medal recipients.

Chinese American Transnational Politics

China's recent economic reforms have opened its economy to the world. This policy, however, is not new: in the late nineteenth century, the United States put forward the Open Door Policy as a counter to European exclusive 'spheres of influence' in China. This book, based on extensive original archival research, examines and re-evaluates China's Open Door Policy. It considers the policy from its inception in 1899 right through to the post-1978 reforms. It relates these changes to the various shifts in China's

international relations, discusses how decades of foreign invasion, civil war and revolution followed the destruction of the policy in the 1920s, and considers how the policy, when applied in Taiwan after 1949, and by Deng Xiaoping in mainland China after 1978, was instrumental in bringing about, respectively, Taiwan's 'economic miracle' and mainland China's recent economic boom. The book argues that, although the policy was characterised as United States 'economic imperialism' during the Cold War, in reality it helped China retain its sovereignty and territorial integrity.

Korea and the Evolution of the American-Australian Relationship, 1947–53

This Dictionary provides an impartial and valuable background to the Latin American region, vital for anyone interested in the current affairs, recent history and economy of this vast area. Entries provide definitions of terms, concepts, names and organizations key to discussions of Central and South America. Covering some 48 countries and territories, this volume offers a unique insight to the political and economic dimensions of this diverse region.

Encyclopedia of U.S. Political History

Immerse yourself in the captivating narrative of "The French Prairie," a three-chapter gem unearthed from John d'Arc Lorenz III's masterful "Beyond Blue Earth to the French Prairie Volume II." This brilliantly crafted piece illuminates the lives of three Metis families who indelibly etched their names in the annals of Oregon's nascent history. In the first chapter, journey alongside Joseph Rocquebrune and Lisette Wallawalla as they deftly traverse the intricacies of the Pacific Northwest fur trade. Witness their resilience as they, along with Joseph's fur brigade, navigate uncharted territories and harsh landscapes, finding their initial refuge in Cowlitz before ultimately establishing roots in the fertile soils of the French Prairie. The narrative continues to unfurl with the tale of Francois Bernier, a devoted miller from Quebec. Experience the emotional gravity of his decision as he bids farewell to his wife and newborn child, embarking on a life-altering voyage to St. Paul, Oregon. It is here that his destiny intertwines with that of Etienne Lucier, another trailblazing pioneer. As their paths cross, Bernier finds solace and a fresh start with Lucier's daughter, Pelagie, weaving another thread into the rich tapestry of Oregon's history. As the story reaches its zenith, you will be riveted by the tale of Etienne Lucier's granddaughter, Marie Bernier, and her charismatic husband, Amedee Choquette. Their epic saga resounds with resilience, fortitude, and sheer will. Be enthralled as you follow Amedee's perilous journey along the infamous Oregon Trail, surviving a harrowing grizzly bear attack and eventually finding his way to St. Paul. Once there, he ascends to prominence as one of the region's largest landowners, creating a prosperous hop farming industry and breeding French Trotters who go on to be prize-winners. Lorenz's exquisite storytelling paints an authentic picture of the trials and challenges these pioneering families had to surmount. Their stories of undying resilience in the face of catastrophic natural disasters, such as the cataclysmic Champoege floods, serve as a testament to their unwavering spirit and resilience. "The French Prairie" transcends the constraints of a conventional historical narrative. It is a poignant homage to Oregon's rich and diverse history, a celebration of the relentless human spirit, and a tribute to those audacious pioneers who dared to chart a new course. For anyone intrigued by Oregon's complex past and the indelible legacies forged by its early settlers, this mesmerizing account is an absolute must-read.

The Intelligence War in Latin America, 1914-1922

The Jewish attachment to Zion is many centuries old. While the modern Zionist movement was organized a little more than a century ago, the roots of the Zionist idea reach back close to 4,000 years ago, to the day that the biblical patriarch Abraham left his home in Ur of the Chaldees to settle in the Promised Land, where the Jewish state subsequently arose. From that day to the establishing of the state of Israel in 1948, the Jewish people have been in a constant struggle to either regain or maintain their homeland. Although 60 years have now passed since the establishment of Israel, many of the political and religious factions that made up the Zionist movement in the pre-state era remain active. The A to Z of Zionism_ through its chronology, maps, introductory essay, bibliography, and over 200 cross-referenced dictionary entries on crucial persons, organizations, and events_ is a valuable contribution to the appreciation for both the diversity and consensus that characterize the Zionist experience.

The American Whig Review

Although 60 years have now passed since the establishment of Israel, many of the political and religious factions that made up the Zionist movement in the pre-state era remain active. The second edition of

the Historical Dictionary of Zionism through its chronology, maps, introductory essay, bibliography, and over two hundred cross-referenced dictionary entries on crucial persons, organizations, and events is a valuable contribution to the appreciation for both the diversity and consensus that characterize the Zionist experience.

Where did your surname come from? Do you know how many people in the United States share it? What does it tell you about your lineage? From the editor of the highly acclaimed Dictionary of Surnames comes the most extensive compilation of surnames in America. The result of 10 years of research and 30 consulting editors, this massive undertaking documents 70,000 surnames of Americans across the country. A reference source like no other, it surveys each surname giving its meaning, nationality, alternate spellings, common forenames associated with it, and the frequency of each surname and forename. The Dictionary of American Family Names is a fascinating journey throughout the multicultural United States, offering a detailed look at the meaning and frequency of surnames throughout the country. For students studying family genealogy, others interested in finding out more about their own lineage, or lexicographers, the Dictionary is an ideal place to begin research.

New Dictionary of American Family Names

Defines the meanings of American surnames and lists their geographical origins.

Dictionary of American Family Names: G-N

Dictionary of American Family Names

A dictionary like no other, the Dictionary of American Family Names documents 70,314 surnames giving their meaning, nationality, alternate spellings, common forenames associated with them, and the frequency of each surname and forename. For students studying family genealogy, or others interested in finding out more about their own lineage, the Dictionary is an ideal place to begin research.

Dictionary of American Family Names

This dictionary contains data not only on the origins of French surnames in Québec and Acadia, a great many of which eventually spread to many parts of North America, but also on those which arrived in the United States directly from various French-speaking European and Caribbean countries. In addition to providing the etymology of the original surnames, it also lists the multifarious variants that have developed over the last four centuries. A unique feature of this work in comparison to other onomastics dictionaries is the inclusion of genealogical information on most of the Francophone migrants to this continent, something which has been rendered possible not only by the excellent record-keeping in French Canada since the very beginnings of the colony, but also through the explosion of such data on the internet in the last couple of decades. In sum, this dictionary serves the dual purpose of providing information on the meanings of French family names on the North American continent, as well as on the migrants who brought them there.

Dictionary of American Family Names

A survey of nearly 70,000 common surnames and many other rarer ones in the English speaking world that are of European derivation, including names of North and South America, Australasia, Southern Africa and other parts of the world where surnames are of European origin. Each entry gives information about the language or region in which the surname originated and the derivation or original meaning; lists any variant diminutives, and other derivative names, as well as cognate names in other languages; notes peculiarities of regional distribution; and briefly, family history about early bearers. Dictionary of French Family Names in North America

Surnames. We all have them, but whose names were they originally? Whose are they? What do they mean and where do they come from? Elsdon Smith, America's leading authority on names, is the one man who definitely knows, and his book, American Surnames, is designed to answer these questions and more ...

A Dictionary of Surnames

"Origins and meanings of over 2,500 names"--Cover.

A Dictionary of English and Welsh Surnames

Containing entries for more than 45,000 English, Scottish, Welsh, Irish, Cornish, and immigrant surnames, The Oxford Dictionary of Family Names in Britain and Ireland is the ultimate reference work on family names of the UK. The Dictionary includes every surname that currently has more than 100 bearers. Each entry contains lists of variant spellings of the name, an explanation of its origins (including the etymology), lists of early bearers showing evidence for formation and continuity from the date of formation down to the 19th century, geographical distribution, and, where relevant, genealogical and bibliographical notes, making this a fully comprehensive work on family names. This authoritative guide also includes an introductory essay explaining the historical background, formation, and typology of surnames and a guide to surnames research and family history research. Additional material also includes a list of published and unpublished lists of surnames from the Middle Ages to the present day.

American Surnames

A Dictionary of English and Welsh Surnames

This Dictionary is part of the Oxford Reference Collection: using sustainable print-on-demand technology to make the acclaimed backlist of the Oxford Reference programme perennially available in hardback format. The fascinating and informative Dictionary of First Names covers over 6,000 names in common use in English, including the very newest names as well as traditional names. From Alice to Zanna and Adam to Zola this book will answer all your questions: it will tell you the age, origin, and meaning of the name, as well as how it has fared in terms of popularity, and who the famous fictional or historical bearers for the name have been. It covers alternative spellings, short forms and pet forms, and masculine and feminine forms, as well as help with pronunciation. The book includes extensive appendices covering names from languages including Scottish, Irish, French, German, Italian, Arabic, and Chinese names. Tables of the most popular names by year and by region are also included. From the traditional to the rare and unconventional, this book will tell you everything you need to know about names.
