Intro

How does the Pentagon view climate change and why are they interested in it?

What are the Pentagon's main priorities besides climate change?

What are the objectives of career officers at the Pentagon and how do they see climate change?

The perspectives of Pentagon career officers and the Trump administration on climate change

How is the Pentagon's view of climate change unique and important?

How climate change exacerbates existing difficulties and the issue of threat multiplication

How will climate change increase the tensions between the nuclear weapons states of India, Pakistan, and China?

What happened to Tacloban City and how is it relevant?

Why does the US military provide global humanitarian assistance?

How has climate change impacted the conditions in Nigeria and how does this inform the Pentagon's perspective?

What is the ladder of escalation for climate change related issues?

What is "all hell breaking loose?"

What is the geopolitical situation arising from the melting of the Arctic?

Why does the Bering Strait matter for the Arctic?

The Arctic as a main source of conflict for the great powers in the coming years

Are there ongoing proposals for resolving territorial disputes in the Arctic?

Nuclear weapons risk and climate change

How does the Pentagon intend to address climate change?

Hardening US military bases and going green

How climate change will affect critical infrastructure

Do lethal autonomous weapons fit into the risks of escalation in a world stressed by climate change?

How does this all affect existential risk?

Are there timelines for when climate change induced stresses will occur?

Does tying existential risks to national security issues benefit awareness of such issues?

Does relating climate change to migration issues help with climate messaging?

A summary of the Pentagon's interest, view, and action on climate change
