## Lost Ireland

A photographic history of the vanishing face of Ireland The latest in this series takes a look at the most cherished sites of the country that time, progress, and fashion have swept aside. Since the dawn of photography in the mid-19th century, the face and economy of Ireland has changed dramatically, from a rural farming community to a rising industrial and tech-savvy "Celtic Tiger." It has also shaken off British rule and found itself embroiled in a bloody civil war. Featuring some of the most famous sites from across the 32 counties of Ireland (including locations used in "Game of Thrones"), this collection of photos shows the buildings, institutions, and infrastructure that have been lost along the way.

## Lost Lives

This is a unique work filled with passion and violence, with humanity and inhumanity. It is the story of the Northern Ireland troubles told through the lives of those who have suffered and the deaths which have resulted from the conflict.

## Lost and Found

Archaeologists and historians find it easy to chat about their finds and experiences but rarely commit these to paper in such an informal way. The 31 essays that make up this book include personal insights and experiences from an array of people investigating, researching and just being interested in the history and archaeology of Ireland. The pitch of the essays is towards the general reader and thus the first chapter begins: My favourite discovery occurred just before Christmas 2000...'. Other titles include

Two stones make a line' (Stefan Bergh), Do you think you will find the Ark of the Covenant before Indiana Jones?' (Mairead Carew), The elephant and the tunnel' (Conor Newman), and A day in the life of a medieval fisherman' (Aidan O'Sullivan) .

### The Lost Secret of Ireland

An enchanting summer romance set on the gorgeous Irish coast, where fresh starts are made, love beckons and secrets are sure to unfold... In the tiny village of Sandy Cove in Ireland, Ella Caron is trying to recover. When she moved from Paris to a beautiful coastguard cottage on the sea, she wanted peace and quiet and the space to grieve after her mother's death. She never imagined that her mother's eccentric best friend Lucille would insist on moving in to keep her company. With Lucille by her side, Ella finds herself laughing more than she has in years and it soon becomes clear that Lucille has her own reasons for coming to Sandy Cove: she wants Ella to help her move to her own little cottage by the sea. But then Lucille's son Rory comes to town and her dream is under threat: he wants her in Tipperary, where she can safely grow old in their family home. Ella admires Lucille's sense of adventure but she can't help but wonder if Rory is right. Especially when she sees the rickety old cottage Lucille intends to buy and realises that the real reason she wants to escape could turn Rory's life upside down. As Ella and Rory get closer, sharing a moment under the stars that feels meant to be, Ella finds herself caught between the man she is falling for and the loyalty she has to Lucille. Ella knows that she must convince Lucille to tell her family the truth, but it may force them to leave her and Sandy Cove for good... A dreamy Irish romance that will warm your heart and show you that it's never too late for a second chance. For fans of Debbie Macomber, Sheila O'Flanagan and Mary Alice Monroe. What readers are saying about Susanne O'Leary: 'OMG! OMG!! I cannot remember the last time I was so gutted to come to the end of a book!! I absolutely fell in love and it genuinely felt like I was packing my bags and being whisked away from my Irish holiday... Absolutely gorgeous!!!... an absolutely stunning, heart-warming romance that will have you heading off to Ireland in the blink of an eye.' Bookworm 86, 5 stars

### Was It For This?

Ireland today stands at a defining moment. The prosperity of the Celtic Tiger years has given way to the sudden crash, the turbulence of the euro crisis, and the loss of our sovereignty to the faceless technocrats of Europe and the IMF. Our leaders seem impotent and rage, bewilderment and despair have swept through Irish society. Was It For This...? delves into the Irish psyche to answer the questions: What happened to our hopes and dreams? What is at the heart of the sense of betrayal that we feel? In the rush to modernity, did we throw away everything of true value? Have we lost the ideals of nationhood and patriotism set out by those who dreamt of the Irish Republic? John Waters' remarkable new book sweeps through the pages of our recent history to get to the heart of our political, social and existential identity crisis. Ranging across a vast canvas, Was It For This...? argues that the Celtic Tiger was built on a collective delusion, and that the seeds of its destruction were sown many years before it even began, when we exchanged our colonial shackles for a no-less destructive dependency for short-term gain. Ireland's sovereignty was given up long before the IMF came to town. Along the way, Waters ponders our love/hate relationship with Fianna Fáil; the undercurrents that ran through the 2011 presidential election; why our political leaders and commentators have clung onto the remnants of 1960s revolutionary fervour long after the revolution was won; how our denial of an authoritative father figure has led to a leaderless 'sibling society'; the emptiness of our 'youth culture' and the suppression of real thought and discussion through cynicism and irony; and why we have lost the very language that once enabled us to speak of 'Ireland' with pride.

### The Lost Promise of Ireland: A Heart-warming and Unforgettable Second Chance Romance Set in Ireland

A completely gorgeous story about lost loves and small-town secrets that will sweep you away to the Irish coast. Maggie remembers her summers in the village of Sandy Cove in Ireland like they were yesterday. She and her family would swim in the crystal-clear waters, collect beautiful seashells and relax on the sand. So when she sees that her family's old coastguard cottage is available, she wonders if renting it for the summer will finally help her move on from the man who just broke her heart. As soon as Maggie arrives she is delighted to find her childhood best-friend Sorcha and Sorcha's cousin Brian still living in town. They enjoy cosy nights in the local harbour pub, with its stunning views across the ocean, as if no time has passed. And when Brian reveals he had a fierce teenage crush on Maggie, she can't help but notice just how handsome he has become. But then Maggie finds a worn metal box

hidden in the attic of the house, full of love letters she exchanged with a sweet American boy she met one summer. During their last night together, star-gazing on the beach, they promised to find each other again. Soon it becomes clear that Maggie is not the only one returning to Sandy Cove. Torn between her growing feelings for Brian and the romance she's held in her heart for many years, Maggie realises that her summer may be more complicated than she'd expected. Will Maggie finally find a true love who can sweep her off her feet or will this holiday in Sandy Cove be her last? Fans of Mary Alice Monroe, Sheila O'Flanagan and Debbie Macomber will fall head over heels for this enchanting, feel-good romance. What readers are saying about Susanne O'Leary: 'OMG! OMG!! I cannot remember the last time I was so gutted to come to the end of a book!! I absolutely fell in love and it genuinely felt like I was packing my bags and being whisked away for my Irish holiday... Absolutely gorgeous!!!!... #### Ireland for Beginners, Or, Get Lost in Ireland

Northern Ireland's Lost Opportunity is a unique in-depth investigation into working-class Loyalism in Northern Ireland as represented by the Ulster Volunteer Force (UVF), the Red Hand Commando (RHC) and their political allies. In an unorthodox account, Tony Novosel argues that these groups, seen as implacable enemies by Republicans and the left, did develop a political analysis of the Northern Ireland conflict in the 1970s which involved a compromise peace with all political parties and warring factions – something that historians and writers have largely ignored. Distinctive, deeply informed and provocative, Northern Ireland's Lost Opportunity is the first study to focus not on the violent actions of the UVF/RHC but on their political vision and program which, Novosel argues, included the potential for a viable peace based on compromise with all groups, including the Irish Republican Army.

The ancient laws of Celtic Ireland were used from the time before Patrick until the 17th century when they were outlawed and disappeared. Crafted by judges, known as Brehons, the laws were surprisingly modern in their approach to timeless issues and reflect a complex and sophisticated society. This book gives an outline of the main features of the laws and their history, and ultimately focuses on certain themes that are significant to the modern reader, such as equity and fairness, transparent legal process and women's rights. Many of the legal manuscripts have been lost or destroyed and the laws were not translated into English until modern times. As a result, they have mostly remained obscure and unstudied. Only recently have they given up their secrets. The ancient laws provide a window into society in early Ireland where learning was revered, social mobility was expected and fairness and harmony were social goals. Their resilience demonstrates their value and effectiveness. The Brehon legal system came to an end officially in 1605 after enduring for over a thousand years.

A 12-year-old boy, mourning the death of his mother, takes refuge in the myths and fairytales she always loved--and finds that his reality and a fantasy world start to meld.

#### The Book of Lost Things

These evocative images of rural life form a narrative thread with the not-so-distant past. Fitzgerald's camera focuses on the back roads of the countryside, and records intimate moments of people in their cottages and farms. The dimly-lit rooms of Ireland prior to the arrival of electricity are eloquently remembered in his first-hand account of his childhood years; his early experiences observing light and

shadow in a world illuminated by candlelight. The result is a unique album that is both compelling and graceful.

### Dark Ireland

The curiously claustrophobic 'lost years' of the Second World War were a watershed for neutral Ireland and the Irish. While many Irishmen volunteered to serve in the British forces, others crowded into Ireland's own defence forces, and German spies were rumoured to be forging links with the IRA. Draconian emergency powers orders used the (often ludicrous) weapon of censorship to protect the nation's neutrality and the war came closer than the news reports from distant battlefields when bombs fell on Belfast and Dublin, raising questions about the viability of neutrality. Gray recreates the 'lost years' with wit and vigour and a comprehensive knowledge of the period. Drawing on personal recollections of his life in Ireland during the war he brings to life a unique slice of history and a time of great change.

### The Lost Years

Rediscover the lost words of an ancient land in this new and updated edition of an international bestseller. Most people associate Britain and Ireland with the English language, a vast, sprawling linguistic tree with roots in Latin, French, and German, and branches spanning the world, from Australia and India to North America. But the inhabitants of these islands originally spoke another tongue. Look closely enough and English contains traces of the Celtic soil from which it sprung, found in words like bog, loch, cairn and crag. Today, this heritage can be found nowhere more powerfully than in modern-day Gaelic. In *Thirty-Two Words for Field* Máiréad Magán explores the enchantment, sublime beauty and sheer oddness of a 3000-year-old lexicon. Imbuing the natural world with meaning and magic, it evokes a time-honoured way of life, from its 32 separate words for a field, to terms like *loisideach* (a place with a lot of kneading troughs), *bróis* (whiskey for a horseman at a wedding), and *iarmhaireacht* (the loneliness you feel when you are the only person awake at cockcrow). Told through stories collected from Magán's own life and travels, *Thirty-Two Words for Field* is an enthralling celebration of Irish words, and a testament to the indelible relationship between landscape, culture and language.

### When We Got Lost in Dreamland

Lost Ireland: 1860 1960 presents a panoramic sweep of Ireland's forgotten built heritage. From war and insurrection, to prosperity and development, the changes wrought by history have meant that a whole swathe of our built past no longer survives, save through the magic of the camera lens. Drawing on a variety of photographic archives, this book offers a wide sample of what was lost to these changes: the humble mud huts of the transient labourer, and the thatched mansions of the prosperous farmer; the edifices of industrial innovation and technology; the grand homes of the well-to-do, including the infamous big house. Organized by county, Lost Ireland reveals a layer of Irish history which is both fascinating and nostalgic, not just in its bricks and mortar but also in the events and the people who inhabited those settings."

### Sydney Mackenzie Knocks 'Em Dead

Scotch may now be the most popular whisky in the world, but over a century ago, it was Irish whisky which was most commonly drunk. Today, only three producing units exist: at Midleton, County Cork; Bushmills, County Antrim; and Cooley at Dundalk, County Louth. The author of this work has researched the lost distilleries of Ireland and details what happened to them. He relates the origins of distilling in Ireland - an Arabic hand-down to Irish monks; the links with Scotland; the wild years when illicit distilling was rampant and shebeens proliferated as corruption increased; the coming of legitimacy and temperance; the development of Coffey still (and its contribution to the ultimate sinking of the industry); the golden years; prohibition in the USA and the emergence of the Free State in 1922.

### The Lost Tide Warriors

Since the Good Friday Agreement, Northern Ireland seems changed almost beyond recognition. Violent incidents that were once commonplace are now rare and a younger generation has emerged with identities and interests more fluid and cosmopolitan than their parents. At the same time, however, the region remains in the long shadow of its recent turbulent history. The marginalisation of those who were victims, and indeed agents, of violence proves emblematic of a society still unable to deal with the traumas of the past. Northern Ireland a generation after Good Friday seeks to capture the complex and often contradictory realities of the region's peace process. Across nine original essays, the authors provide a critical and comprehensive reading of a society that seems to have left its violent past behind but at the same time remains subject to its gravitational pull.

### The Lost Children

Danny Ellis is a survivor, strong and resilient. A proclaimed singer-songwriter, he is proud of the way in which he handled his difficult past: poverty in the 1950s Dublin slums and the brutality of the notorious Artane Industrial School. He felt as though he had safely disposed of it all, until one night, while writing a powerful song that would launch his commendable album, *800 Voices* ("A searing testament." —Irish Times), Danny's past crept back to haunt him. Confronted by forgotten memories of betrayal and abandonment, he was stunned to discover that his eight-year-old self was still trapped in a world he thought he had left behind. Although unnerved by his experience, Danny begins an arduous journey that leads him back to the streets of Dublin, to the tenement slums, and, ultimately, to the malice and innocent mischief of the Artane playground. What he discovers with each twist and turn of his odyssey will forever change his life. Included within are insightful photos of his early childhood, the ghostly halls of his orphanage, and his eager beginnings with music. Elegantly written, this is a brutally honest, often harrowing depiction of a young boy's struggle to survive orphanage life, and stands as an inspiring testament to the healing power of music and love. Skyhorse Publishing, along with our Arcade, Good Books, Sports Publishing, and Yucca imprints, is proud to publish a broad range of biographies, autobiographies, and memoirs. #### Lost Dublin

For centuries, the Lord Lieutenant of Ireland, or viceroy, was the representative of the British monarch in Ireland. For almost every viceroy who served at Dublin Castle there was also a vicereine; a wife who served with him. Once prominent in Irish life, the vicereines and their legacies are now almost entirely overlooked. This book sets out to recapture their lost stories by exploring the portraits and personal objects they left behind. Opulently dressed and elegantly posed, the women who gaze out from these paintings were often as dynamic, bold and influential as their husbands during their time at

the apex of Irish society. They were activists, artists and aid workers; international campaigns to prevent famine in Ireland, the design of interiors, the popularisation of Irish fabrics at the royal courts of Europe and the development of hospitals were just some of their now overlooked achievements. Featuring critical essays by leading experts, analytical readings of key artworks and objects, and stunning colour portraits of the protagonists themselves, *Vicereines of Ireland* uncovers the considerable contributions these women behind the throne made to the social and cultural life of
