In distant Aztlan, the young priestess, Pyra wonders if her horrific nightmares are mere dreams. Aztlan's titans bask in hi-tech indolence over an empire enslaved by hypno-engineered superstition aided by the techno-sorceress Pandura, Pyra's grandmother. Then Pyra discovers terrible secrets under the temple laboratories... U'Sumi faces death on a vast scale when the Seer Clan combats Aztlan's invasion. All his life, his father warned him of the coming World-end. Now horrors of bio-mechanized warfare and gnawing doubts bring harrowing changes to U'Sumi's life when he is trapped inside the abomination of the enemy's most fearsome weapon. Here he discovers the hideous nature of Aztlan's power-a force already running amok and unraveling the very fabric of life on Earth...

Clash of Faiths

"Does it seem reasonable to you that a Regency continues—into an Emperor's thirtieth year " "No, m'lord," Shoka said. "Not to us, either. Not to many of us. We were ready to make that objection—when lord Gitu overran Yijang and Hua.... Assassinations, elsewhere. Hired killers. Bands of mercenaries traveling under imperial orders. The Emperor's seal, and the Regent's orders. How do we stop such a thing How do we prevent it—when every lord able to lead is apprehended, assassinated, when they strip us of men, even boys out of the fields—go to Saukendar, some said. Go to Saukendar. They urged me to send to you. This time he has to listen, they said. But if I had sent—and Ghita had known—you understand—" Reidi gave an uncomfortable twitch of the shoulders. His horse shifted again. "I had no true hope that you'd come. You'd indicated to the villagers—that you had no wish to hear from anyone. That you would refuse any such petitions—" "You were watching me." "It's my village, m'lord—as the Regent pointed out to me again and again, and threatened my life should you leave that mountain. Of course the word came to me. I tried to get a messenger down the road to you when I knew you'd left Mon.... We believed you'd come back to deal with Ghita and his partisans." Shoka felt cold, cold all the way to the bones. "There are men ready to follow you, lord Saukendar. There are men who've committed their lives to this— We didn't know the hour. We only believed. Now you've come back ..." "It's gripping drama, tightly focussed and inexorable as Taizu herself. Read The Paladin and you'll never settle for another ordinary sword-wielding female." —Faren Miller LOCUS At the publisher's request, this title is sold without DRM (Digital Rights Management)

DUNGEONS & DRAGONS

JUST ONE RED SWORD COULD DEFEAT AN ARMY ³/₄ AND THE ENEMY HAD A WHOLE ARSE-
NAL! Every schoolboy knows that Mordred the Great defeated King Arthur the Tyrant in the twelfth century, and Mordred's heirs had preserved the British crown through the Age of Crisis, and extended its reach halfway across the globe. By the 17th century, much of Europe, Asia and the New world was ruled from Londinium by the the kings of the Pendragon dynasty, protecting the Crown against the still-powerful Holy Roman Empire as much as the onset of the Dar Al Islam. The ragged band of outlaws that had been created as Mordred the Great's bodyguards had, over the centuries, become the paladins of the Order of Crown, Shield, and Dragon, dedicated to the Pendragons, each one taking the vow of "Service, honor, faith, obedience. Justice tempered only by mercy; mercy tempered only by justice." But knights of the Order had more than vows to preserve the Crown. During the Age of Crisis, the Great Wizards had forged live swords to be weapons of the Order knights. Weapons of such power that could be trusted to no lesser mortals, because White swords held the souls of saints, while the Red swords imprisoned the souls of those who were anything but saints, and in the wrong hands, Red swords were capable of unspeakable destruction. The art of making live swords had perished with the Great Wizards at end of the Age of Crisis. Or so everyone thought. But now, as the Crown, the Empire,

and the Dar Al Islam sit astride the world in a precarious balance, three knights of the Order have discovered a brand new, previously unknown Red sword which has been very recently forged. Worse, the tortured soul imprisoned in the sword remembers that it was only one of many which were cached in the hold of a mysterious sailing ship, origin unknown, and destination uncertain.... Irobu's Odyssey of Deceit

"Imagine knowing something, knowing it so well that it's burned deep into your gut. You'd question your own name before you questioned this. And then...one day...the whole world changes, and you know nothing." ---- Having fled the defeat at the Green Gulch, Darius and Jerico, believing themselves the last two paladins of their kind, must separate once more in order to survive. While Jerico rushes to the aid of Lord Arthur and the siege at his Castle of Caves, Darius travels east, determined to remove the bounty on his head. But on his way, he encounters a young priest following an older way of faith, whose desire for their return will risk destruction upon all the North. THE OLD WAYS by David Dalglish Sacrifice must be made in blood.

Proceedings, American Philosophical Society (vol. 114, No. 6, 1970)

Old ways have been broken in the blood and smoke of the Battle of Thornhurst by Allystaire Stillbright and followers of the Goddess. Now the Paladin must recover from his ordeal, carve out a hopeful future for the shattered Baronies, and prepare for the next attack upon the Goddess's new and fragile following. But the corrupt deity, Braech, the Sea-Dragon, will not easily let go of the power that has long been his. Braech's minions, led by the calculating Archpriest Symod, march on the now-weakened Baronies. The final battle, a crusade against the Mother and all of her followers, is near, and Allystaire, the Arm of the Mother, is left to rally the survivors—including some of his oldest enemies—to face a foe that will not rest until all the Mother's faithful are broken and each Barony submits to the Sea Dragon once more.

The Iliad and the Odyssey are two epic poems written by Homer around the 9th century BC. They are two of the oldest recorded written works in history. The Iliad deals with a ten-year war between the Greeks and Trojans, called the Siege of Troy. It centers around Achilles, the great Greek hero who was dipped in the river Styx when he was young and whose only weak spot was his heel. He was killed when Apollo helped one of his enemies shoot an arrow into his heel. The Odyssey is about Odysseus's voyage from the war back home to Ithaca, which took another 10 years. Homer (around the 9th century BC) is the author of the Iliad and the Odyssey, and is revered as the greatest of ancient Greek epic poets. Homer's works, which are about fifty percent speeches, provided models in persuasive speaking and writing that were emulated throughout the ancient and medieval Greek worlds. Homer and His Age by Andrew Lang was written in 1906. Lang was highly regarded as a Homeric scholar and Homer and His Age is one of the works he contributed to this area of study. Andrew Lang (1844–1912) was a Scottish poet, novelist, literary critic, and contributor to the field of anthropology. He is best known as a collector of folk and fairy tales. The Andrew

Crusade

Very little is known for certain of one of the most important events in the history of the world, the coming of the Englishmen to England. It took a long time, fully a century, from 450 A.D. to 550 A.D., and they came constantly, in small detachments for the most part, landing on the coast, in all directions, from the Forth to the Isle of Wight. They came amidst the ruins of the mighty Roman Empire, a new race of empire-founders, with all the germs of a still mightier future. The new-comers from the older Angeln or England, now called Sleswig, came in the greatest numbers. We know not why, but it certainly was a wholesale movement. They kept launching their small fleets of dragon ships, and crossing the North Sea with their gods, their doorposts, and their beautiful golden-haired wives and children, until none were left. They brought with them all the deep religious feeling, all the imaginative mythology, all the heroic tales of the old land. They first disembarked on the coast between the Forth and the Tees, driving back the natives into Strathclyde, after a struggle which lasted for many years. Among them came Ida the son of Eoppa, with twelve sons, in forty dragon ships full of English warriors. He founded the castle of Bambrough on the coast, which was at first surrounded with a hedge and afterwards with a wall; and in 547 A.D. he became king of the country of Bernicia, between the Forth and the Tees. Ida was surnamed the "Flame-bearer." He reigned for twelve years in Bernicia, when Ethelric his son succeeded him. Many more warriors landed on the coast between the Tees and the Humber. In 559 A.D. their Eolderman, named Ella, the son of Iffi, the son of Wuscfreea, and 12th in descent from Woden, became king of the more southern Northumbrian kingdom of Deira. When they were settled in their kingdom of Deira, with Ella as their king, and Elfric as their leader in war, the sea-rovers became farmers, ready to defend their possessions and to fight for the acquisition of more territory for their countrymen. They were the ceorls or freemen assembling in communities of families, within a boundary or mark, and known by a common name with the addition of the patronymic ing. The ceorl owned a hide of land, bore arms, had a vote, and took part in the thing, or general assembly of his mark. The union of marks formed a wapentake (Vopnatak), from the custom of touching the chief's spear in token of fealty. The union of Wapentakes formed the Scire or Shire with its Shiremót. The Ceorl was the freeman, while the Eorl was the nobleman or chief in peace and war, and the Eolderman was a prince of the family of the Cyning (from cyne, generous) or king, who wore the cynehelm or circlet of gold. The Englishmen came with their immemorial gods, and their grand old traditions. Woden was their All-father and Creator, Thor the mighty enemy of giants and trolls, Tyr the god of war. They invoked Balder the bright and fair of aspect; Freyr, who presided over rain and sunshine; Niord, who ruled the winds; Ægir, god of the ocean; and many more. "Our forefathers derived comfort in affliction, support in difficulty, from the belief that the gods watched over them. They bent in gratitude for the blessings they conferred, and were guided and directed in the daily business of life by the conviction of their responsibility to higher powers than any which they recognised in the world around them." A religious feeling was the basis of their respect for law—of their loyalty, of their free institutions, and of those customs and habits of thought which were the foundation-stones of the edifice of English liberty. These old warriors brought with them to their new homes all those germs which were fertilised by their virtues, and watered with the lifeblood of their valour, until, in the course of centuries, they grew up to form the greatest nation this earth has ever seen, a fruitful and beneficent tree, spreading its branches far and wide round the world.

The Paladins of Edwin the Great

Written after the First World War when he was living in Sicily, Sea and Sardinia records Lawrence's journey to Sardinia and back in January 1921. It reveals his response to a new landscape and people

and his ability to transmute the spirit of place into literary art. Like his other travel writings the book is also a shrewd inquiry into the political and social values of an era which saw the rise of communism and fascism. On one level an indictment of contemporary materialism, *Sea and Sardinia* is nevertheless an optimistic book, celebrating the creativity of the human spirit and seeking in the fundamental laws which governed human nature in the past fresh inspiration for the present. This 1997 edition restores censored passages and corrects corrupt textual readings to reveal for the first time the book Lawrence himself called 'a marvel of veracity'.

A new edition of this classic illustrated history of the operations and operatives of MACV-SOG in the Vietnam War. In 1972 the U.S. military destroyed all known photos of the top-secret Studies and Observations Group, with the intention that details could never be made public. But unknown to those in charge, SOG veterans had brought back with them hundreds of photographs of SOG in action and would keep them secret for more than three decades. In this new edition of *SOG: A Photo History*, more than 700 irreplaceable photos bring to life the stories of SOG legends Larry Thorne, Bob Howard, Dick Meadows, George Sisler, "Q" and others, and document what really happened deep inside enemy territory: Operation Tailwind, the Son Tay raid, SOG's defense of Khe Sanh, Hatchet Force operations, Bright Light rescues, HALO insertions, string extractions, SOG's darkest programs and much more.

The Ship who Sang

"The brain was perfect, the tiny, crippled body useless. So technology rescued the brain and put it in an environment that conditioned it to live in a different kind of body - a spaceship. Here the human mind, more subtle, infinitely more complex than any computer ever devised, could be linked to the massive and delicate strengths, the total recall, and the incredible speeds of space. But the brain behind the ship was entirely feminine - a complex, loving, strong, weak, gentle savage - a personality, all-woman, called Helva..."

Gifted with the voice of an angel and being virtually indestructable, Helva XH-834 antipitated a sublime immortality. Then one day she fell in love!

Brain Ships

Now in one volume--in two bestselling sequels to to Anne McCaffrey's "The Ship Who Sang," two physically impaired young girls become "brains" controlling their own starships.

The Ship Who Saved the Worlds

Two complete novels in one huge volume: *The Ship Who Won*: Like Helva, the Ship Who Sang, Cerialle was born severely physically disadvantaged; and like Helva, Cerialle decided she would strap on a spaceship. Her brawn is a guy named Keff. Searching the galaxy for intelligent beings, they found fuzzy little aliens, polite and eager to please. Unfortunately, they were slaves to a race of sorcerers, who possess powers of frightening potency, and who were neither polite nor the least bit eager to please. *The Ship Errant*: Cerialle and Keff had succeeded in liberating the "globe-frogs" from their servitude to dictatorial humans, but now they must return them from whence they came. And to get there, they must transit a sector where Cerialle was stopped and boarded, experiencing a trauma so intense it nearly destroyed her mind. And it's beginning to look as if the beings who caused this are the very globe-frogs they have just made friends with. . . . At the publisher's request, this title is sold without DRM (Digital Rights Management). "Fast, furious and fun." ^¾Chicago Sun-Times "Bright and bubbly entertainment." ^¾Kirkus Reviews "Oodles of fun." ^¾Locus "Readers will find themselves riveted by the nonstop action adventure that constantly surpasses even the most jaded reader's expectations, and by a relationship as beautiful as it is indestructible." ^¾Affaire de Coeur

The City and the Ship

Two novels in one large volume, both set in the same universe as *The Ship Who Sang*: *The City Who Fought*: Simeon was bored with running the mining and processing station that made up his "body." If anyone was to survive, somehow he must transform his wargaming hobby into the real thing and become *The City Who Fought*. *The Ship Avenged*: Ten years later, Joat, the eleven year old techno-demon heroine of the first novel is now an adult herself. She and her ship are on the trail of the Kolnari space raiders, trying to stop them before they can spread an infectious, mind-destroying disease among the inhabited stars and destroy civilization throughout the galaxy. At the publisher's request, this title is sold without DRM (Digital Rights Management). "Anne McCaffrey and S.M. Stirling have, in *The City Who Fought*, combined her brain-ships and his military expertise to produce a superior book." ³/₄Chicago Sun-Times "McCaffrey and Stirling create vivid heroes and villains in a complex and deadly game." ³/₄Publishers Weekly "Intriguing . . . McCaffrey and Stirling have produced a book that expands the boundaries of the series to which it belongs, yet remains consistent with the cycle's overall design. Fans of both writers should be more than pleased." ³/₄Dragon "[The Ship Avenged is a] compelling story of resourcefulness and politics in space." ³/₄Midwest Book Review

The Ship who Won

Carielle was born so physically disadvantaged that her only chance for life was as a shell person. Like others before her, she decided to become a spaceship. With her brawn Keff, they search for intelligent beings. When they arrive on the planet Ozran, nothing is as it seems.

The City Who Fought

A SCIENCE FICTION CLASSIC BACK IN PRINT! Simeon was a shell-person—the brain who ran Space Station SSS-900 on the fringes of human space. But things hadn't been going too well lately, and he was more than a little discontented. Though normally he enjoyed his work, these days it seemed boring. To make matters worse, his long-time partner had just retired and he was having a hard time adjusting to his newly assigned brawn—a strong-willed woman named Channa Hap who seemed to feel it her duty to keep him in line. He's buried himself in his favorite pastime—wargaming. Simeon's hobby would find unexpected uses when the brutal Kolnari attack the nearby colony planet Bethel. Sheltering the colony's refugees brought "the city" an invitation to serious trouble with Kolnari pirates. And only Simeon and Channa working together can save the city. At the publisher's request, this title is sold without DRM (Digital Rights Management). The Ship Who Sang

The brain was perfect, the tiny, crippled body useless. So technology rescued the brain and put it in an environment that conditioned it to live in a different kind of body - a spaceship. Here the human mind, more subtle, infinitely more complex than any computer ever devised, could be linked to the massive and delicate strengths, the total recall, and the incredible speeds of space. But the brain behind the

ship was entirely feminine - a complex, loving, strong, weak, gentle savage - a personality, all-woman, called Helva...

Partnership

The first of a series set in the same universe as *The Ship Who Sang*. Nancia is her name, NX-928 her designation. A brand new member of the elite Courier Service of the Central Worlds, she's the brains within one of the most advanced interstellar ships around.

The Ship Who Sang

Helva had been born human, but only her brain had been saved and implanted into the titanium body of an intergalactic scout ship. But first she had to choose a human partner, to soar with her through the daring adventures and exhilarating escapades in space.

Crystal Singer

"No dragons, but [Crystal Singer] has all of [Anne] McCaffrey's gifts for world-building and characterization . . . an excellent book."—Chicago Sun-Times Her name was Killashandra Ree; and after ten grueling years of musical training she was young, beautiful—and still without prospects. Then she heard of the mysterious Heptite Guild on the planet Ballybran, where the fabled Black Crystal was found. For those qualified, the Guild was said to provide careers, security, and the chance for wealth beyond imagining. The problem was, few people who landed on Ballybran ever left. To Killashandra the risks were acceptable . . .

Illegal Alien

When a disabled spaceship enters Earth's atmosphere, seven members of the advanced Tosok race are welcomed by the world. Then a popular scientist is murdered, and all evidence points to one of the Tosoks. Now, an alien is tried in a court of law-and there may be far more at stake than accounting for one human life.

Dragonsong

Fifteen-year-old Menolly allies with magnificent dragons in the first book in the Harper Hall trilogy, set within science fiction legend Anne McCaffrey's beloved and bestselling *Dragonriders of Pern* series. For centuries, the world of Pern has faced a destructive force known as Thread. But the number of magnificent dragons who have protected this world and the men and women who ride them are dwindling. As fewer dragons ride the winds and destruction falls from the sky, Menolly has only one dream: to sing, play, and weave the music that comes to her so easily—she wishes to become a Harper. But despite her great talents, her father believes that a young girl is unworthy of such a respected position and forbids her to pursue her dreams. So Menolly runs away, taking shelter in a cave by the sea. Miraculously, she happens upon nine fire lizards that could possibly save her world...and change her life forever.

Restoree

There was a sudden stench of a dead sea creature. There was the sudden horror of a huge black shape closing over her. There was nothing... Then there were pieces of memory, isolated fragments that were so horrible her mind refused to accept them. Intense heat and shivering cold; excruciating pain; dismembered pieces of the human body. Sawn bones and searing screams. And when she awoke she found she was in a world that was not earth, and with a face and body that were not her own. She had become a Restoree...

Dragonsinger

Menolly needs more than music's power to make it as a Harper in the second book in the Harper Hall trilogy, set within science fiction legend Anne McCaffrey's beloved and bestselling *Dragonriders of Pern* series. In the world of Pern, Harpers are more powerful than kings, for the music they play can control the minds of others. For young Menolly, her dreams of becoming a Harper have nothing to do with power, but rather her love of music. Now she is finally living out her musical dreams as an apprentice Harper, but it's turning out to be more challenging than she thought. Formerly forbidden to study music

because of her gender, Menolly quickly encounters hostility from a number of her male peers and masters. With the help of new friends, teachers, and her nine tiny, colorful dragons, Menolly finds that her musical talents may be stronger than anyone could imagine.

Far Horizons

The universe of the mind is a limitless expanse of wonders, filled with worlds and secrets that cannot be fully explored within the pages of a single novel. Here, science fiction's most beloved and highly honored writers revisit their best-known worlds in perhaps the greatest concentration of science fiction ever in one volume.

World Divided: Book Two of the Secret World Chronicle

After an Earth-scarring apocalyptic battle, the meta-humans have turned back a massive invasion of super-science powered Nazi war machines. Now meta-hero organization Echo and sometime Russian ally CCCP must battle back. Task one: to hunt down the secret puppetmasters behind the Nazi robot invasion, the Thule Society. It's "go time" once again for the meta-heroes, including fire-bender John Murdock, hacker-witch Vikki Nagy, healer Belladonna Blue, super-quick Mercurye^{3/4} and most of all for their ghostly ally, Seraphym, the spirit of the world who uses her secret influence to direct the fight against a Thulian-based tyranny of evil and slavery that is fast descending upon the entire universe! At the publisher's request, this title is sold without DRM (Digital Rights Management).

The Ship Avenged

Hoping to settle old scores with the Kolnari who destroyed her home and with an unscrupulous uncle, Joat is challenged to overcome a "breakout" disease that destroys its victims' minds and is threatening the entire universe.

Two Top-Selling Sequels to Anne McCaffrey's *The Ship Who Sang* in One Volume Two novels in one large volume, both set in the same universe as *The Ship Who Sang*: *The Ship Who Searched*: Tia, a bright and spunky seven-year old contracted an unknown neural disorder which made her lose control of her body. So she became a shell person^{3/4}controlling a spaceship as if it were her body and searching for the origin of the disease that laid her low, so that no other little girl will ever suffer the fate of *The Ship Who Searched*. *PartnerShip*: Nancia is a brand new member of the elite Courier Service of the Central Worlds. She's the "brains" of an advanced interstellar ship. The last thing she needed was a cynical "brawn" partner like Forister. But idealistic Nancia and worldly-wise Forister together just might save the galaxy. The Last Canadian

A fresh collection of cryptic crosswords, filled with all the irreverent wordplay--anagrams, reversals, homophones, charades, double definitions, and palindromes--for which Henry Hook is known.

The Ship who Sang

Helva had been born human, but only her brain had been saved and implanted into the titanium body of an intergalactic scout ship. But first she had to choose a human partner, to soar with her through the daring adventures and exhilarating escapades in space.

Fleet of Knives

From award-winning author Gareth L. Powell, the second book in the critically acclaimed Embers of War space opera series. The former warship Trouble Dog and her crew of misfits is called upon by the House of Reclamation to investigate a distress call from the human starship the Lucy's Ghost. Her crew abandon their crippled ship and seek refuge abroad an abandoned, slower-than-light generation ship launched ten thousand years before by an alien race. However, the enormous ship contains deadly secrets of its own. Recovered war criminal, Ona Sudak, faces a firing squad for her actions in the Archipelago War. But, at the last moment, she is smuggled out of her high security prison. The Marble Armada has called for her to accompany its ships as observer and liaison, as it spreads itself across the human Generality, enforcing the peace at all costs. The alien ships will not tolerate resistance, and all dissenters are met with overwhelming and implacable force. Then her vessel intercepts messages from the House of Reclamation and decides the Trouble Dog has a capacity for violence which cannot be allowed to endure. As the Trouble Dog and her crew fight to save the crew of the Lucy's Ghost, the ship finds herself caught between chaotic alien monsters on one side, and on the other, destruction at the hands of the Marble Armada.

To Ride Pegasus

The telepathic Talents which they shared set them apart. They met with suspicion, then outright hostility from the un-Talented. Disaster loomed large when freaks, wild Talents, brought dissension to the group and threatened to destroy it. By the author of The Ship Who Sang and Damia.

Freedom's Landing

Kristin Bjornsen lived a normal life, right up until the day the spaceships floated into view above Denver. As human slaves were herded into the maw of a massive vessel, Kristin realized her normal life was over and her fight for freedom was just beginning... The alien Catteni value strength and intelligence in their slaves—and Kristin has managed to survive her enslavement while hundreds of other humans have not. But her trial has just begun, for now she finds herself part of a massive experiment. The aliens have discovered a new world, and they have a simple way of finding out if it's habitable: drop hundreds of slaves on the surface and see what happens. If they survive, colonization can begin. If not, there are always more slaves.

The Rowan

Let Anne McCaffrey, storyteller extraordinaire and New York Times and Sunday Times bestselling author, open your mind to new worlds and new concepts: alien nations, psychic powers, telepathy and planetary systems. Their gifts were many and varied, ranging from the gently telepathic, to the rare and extremely valued Primes. On the Primes rested the entire economic wealth and communications systems of the civilised worlds. But Primes were scarce - only very rarely was a new one born. And now, on the planet Altair, in a small mining colony on the western mountain range, a new Prime existed, a three-year-old girl - trapped in a giant mud slide that had wiped out the rest of the Rowan mining community. Every Altarian who was even mildly talented could 'hear' the child crying for help, but no one knew where she was buried. Every resource on the planet was centred into finding 'The Rowan' - the new Prime, the first ever to be born on Altair, an exceptionally unique Prime, more talented, more powerful, more agoraphobic, more lonely, than any other Prime yet known in the Nine Star league...

Ancillary Justice

The record-breaking debut novel that won every major science fiction award in 2014, Ancillary Justice is the story of a warship trapped in a human body and her search for revenge. Ann Leckie is the first author to win the Arthur C. Clarke, the Nebula and the Hugo Award for Best Novel in the same year. They made me kill thousands, but I only have one target now. The colossal warship called The Justice of Toren has been destroyed - but one ship-possessed soldier has escaped the devastation. Used to controlling thousands of hands, thousands of mouths, The Justice now has only two hands, and one mouth with which to tell her tale. The Rime of the Ancient Mariner

Besides the sea, on Mr Pepper's place, there lived a cow, a donkey, a sheep, a pig, and a tiny little mouse. One warm sunny morning for no particular reason, they decided to go for a row in the bay . . .

Who Sank the Boat?

Amidst the grandeur of the emerald countryside, a magnificent story unfolds. . . . They are the Carradynes, who for more than 200 years have bred and trained horses of the finest caliber on Cornanagh—a land so beautiful it inspires the soul. But all is not idyllic at hearth and home. At the center of the conflict is Catriona, the youngest child, a girl who dreams of riding her family's big jumpers and show horses. Her father, Michael, is keenly aware of her immense talent, and he urges her on—only to lock wills with his insufferably pious and overbearing wife, Isabel, a woman who cannot bear horses, who cannot bear his touch. Her goal is to put stiff dresses, tight shoes, and perfect manners on Catriona. It is a stalemate of pride and passion—until the day Lady Selina Healy enters their lives. Poised, beautiful, and warm, she too knows imprisonment in a loveless marriage, she too admires good horses, she too finds enchantment in Cornanagh. She falls in love . . . with Catriona, who becomes the child she never had; with the splendid lush land; and with Michael, the consummate horseman and gentleman.

The Lady

Doona was a jewel of a planet -- a pastoral paradise with rivers, lakes, mountains and seas. The Hrrubans needed it to revitalise their decadent race, to give it back something of the old pioneering spirit. The Terrans needed it as an overspill from the hysterical crowding of Earth, a place to breathe and move without restrictions. So they both sent a colonising party -- and they both began to think of Doona as Home. And then one day the smooth-skinned, two-legged mammal known as Man came face to face with the furry, four-pawed mammal known as Hrruban...

Decision At Doona

A tale of courage and adventure, set in the same universe as The Ship Who Sang. A precocious seven-year-old girl has been afflicted by a paralyzing alien virus, and cannot survive outside a mechanical support system. She straps on a spaceship and sets out to find what it was that laid her low.

The Ship who Searched

In the year 2000, Stephen Graham King was diagnosed with a rare, aggressive cancer known as synovial sarcoma, beginning a four-year ordeal of radiation, chemotherapy, physiotherapy, and multiple recurrences. After having trouble with his left knee for much of his adult life, King finally saw a doctor following a bump to the leg that almost made him pass out from the excruciating pain. After the diagnosis, he endured five major, invasive surgeries that cost him a large portion of his left leg and half of his left lung, radically changing his body, mind, and self-image forever. And in the end, forcing him to relearn many things: some as basic as re-learning how to walk. As a gay man who is part of an image-conscious subculture within our image-driven society, he was forced to confront his feelings about his body on the long road back to health. Now, in Just Breathe, King shares his journey from health to illness and back to health again through prose and journal entries written during the battle.

Told with candour and humour, this is the story of his challenging recovery and the love of life, friends, and family that helped him to survive.

The Harper Hall of Pern

At a convention for the cult science fiction show *Beyond Earth*, Adrian Monk meets fans as obsessive-compulsive as he is. Though he's not preoccupied with the program, Monk can understand the phenomenon. Who wouldn't want to live in an imaginary world? But there may be a killer in the *Beyond Earth* community: Someone in a starship uniform has gunned down the show's legendary creator. Could a fan be that furious at him for selling out to Hollywood? Or is more going on behind the scenes? Luckily, Monk's agoraphobic brother, Ambrose, is an expert on the TV series, and together they'll search the earth and beyond for the murderer. That is, if Ambrose can bring himself to leave the house. A new story starring Adrian Monk by Edgar® Award-nominated screenwriter Lee Goldberg. It's compulsive, page-turning fun. "Even if you aren't familiar with the TV series *Monk*, this book is too funny to not be read."—The Weekly Journal
