

All Or None

[#all or none principle](#) [#binary choice](#) [#complete commitment](#) [#everything or nothing](#) [#high stakes decision](#)

The 'All Or None' concept describes a situation where there are only two possible outcomes, with no intermediate options. It implies a binary choice requiring complete commitment, leading to either total success or total failure. This philosophy often applies to high-stakes decisions where partial efforts are insufficient, emphasizing the need for an everything-or-nothing approach.

Ask: "What function does this faulty thinking serve?"
