Casualty of War

Not all casualties of war die on the battlefield. In the wake of World War II, Yugoslavia purged its territory of the ethnic Germans who had formed a part of its human mosaic. Tarrred with their ethnic origins and the conscription of their fighting-age men into the Waffen SS, the Volksdeutsche, as these settlers were called, were rounded up at the war's end and herded into concentration camps. Those who were not murdered or did not die from the harsh conditions were expelled from the village homes their families had known and loved for three hundred years. Nine years old when she entered the concentration camp in 1945, author Luisa Lang Owen survived the persecution of the Danube Swabians, eventually finding herself in America, where she made a new life for herself, a life that nonetheless held within it the memories and lessons of the atrocities she had experienced in her homeland. Like thousands of other Germans in the Danube Valley at the end of the war, Luisa and her family were chased from their home, lodged in a sheep stall, and resettled in camps with other Germans from her village. Shorn of their possessions, given little food or fuel, pressed into hard labor, beaten by guards, and separated from their families, many despaired and many died. Luisa barely survived as others succumbed to malnutrition, disease, and exposure. Her haunting memoir provides a window into the ethnic cleansing that preceded the recent exterminations in Bosnia and Kosovo by fifty years—an episode of horrors that has not appeared as even a footnote in descriptions of the more recent atrocities practiced in that region. Her testament, as a casualty of war, bears historic witness and gives insight into the personal experiences of ethnic cleansing. It stands as witness to a massive crime that has been conveniently forgotten, a corrective to a bit of neglect that did away with its victims as a people, and a personal depiction of what ethnic cleansing is really about. "The problem was not just that they did not want us to have or to be," Luisa Lang Owen writes, "they wanted us not to have been."

Old Soldier Sahib

'...A remarkable and fascinating account...' --Phil Carradice, BBC From the author of the celebrated Great War memoir Old Soldiers Never Die, Old Soldier Sahib is Frank Richards' account of his experiences as a Royal Welch Fusilier in India and Burma at the dawn of the 20th century.

Old Soldiers Never Die

The author had enlisted in 1901 in the Royal Welsh Fusiliers and was a reservist when the First World War broke out. He rejoined his old, 2nd Battalion and landed in France with them on 11 August 1914. He

went right through the war with the battalion, never missing a battle, winning the D.C.M. and M.M. Here is a typical soldier of the pre-1914 regular army, and this book is a delight, written in his own unpolished manner. Fighting, scrounging, gambling, drinking, dodging fatigues, stolidly enduring bombardment and the hardships of trench warfare, always getting his job done. This is one of the finest of all published memoirs of the Great War, truly a classic of its kind. A tribute to the army that died on the Western Front.

Casualties of War

The searing account of a war crime and one soldier's heroic efforts to bring the perpetrators to justice. First published in the *New Yorker* in 1969 and later adapted into an acclaimed film starring Michael J. Fox and Sean Penn, *Casualties of War* is the shocking true story of the abduction, rape, and murder of a young Vietnamese woman by US soldiers. Before setting out on a five-day reconnaissance mission in the Central Highlands of South Vietnam, Sergeant Tony Meserve told the four men under his command that their first objective would be to kidnap a girl and bring her along "for the morale of the squad." At the end of the mission, Meserve said, they would kill their victim and dispose of the body to avoid prosecution for abduction and rape—capital crimes in the Uniform Code of Military Justice. Private First Class Sven Eriksson was the only member of the patrol who refused to participate in the atrocity. Haunted by his inability to save the young woman's life, he vowed to see Meserve and the others convicted of their crimes. Faced with the cynical indifference of his commanding officers and outright hostility from his fellow infantrymen, Eriksson had the tenacity to persevere. He went on to serve as the government's chief witness in four courts-martial related to the infamous Incident on Hill 192. A masterpiece of contemporary journalism, *Casualties of War* is a clear-eyed, powerfully affecting portrait of the horrors of warfare and the true meaning of courage.

Material Cultures of Childhood in Second World War Britain

How do children cope when their world is transformed by war? This book draws on memory narratives to construct an historical anthropology of childhood in Second World Britain, focusing on objects and spaces such as gas masks, air raid shelters and bombed-out buildings. In their struggles to cope with the fears and upheavals of wartime, with families divided and familiar landscapes lost or transformed, children reimagined and reshaped these material traces of conflict into toys, treasures and playgrounds. This study of the material worlds of wartime childhood offers a unique viewpoint into an extraordinary period in history with powerful resonances across global conflicts into the present day.

Stand in the Trench, Achilles

A study of the ways in which British poets of the First World War used classical literature, culture, and history as a source of images, ideas, and even phrases for their own poetry. Elizabeth Vandiver offers a new perspective on that poetry and on the history of classics in British culture.

The Cruel Sea

The story of the Atlantic Ocean, two ships and 150 men, this classic tale of maritime warfare describes the author's own experiences in the Royal Navy. In this novel the heroines are the ships, and the villain, the cruel sea.

The Man Who Mistook His Wife for a Hat

Celebrating Fifty Years of Picador Books If a man has lost a leg or an eye, he knows he has lost a leg or an eye; but if he has lost a self – himself – he cannot know it, because he is no longer there to know it. In this extraordinary book, Dr. Oliver Sacks recounts the stories of patients struggling to adapt to often bizarre worlds of neurological disorder. Here are people who can no longer recognize everyday objects or those they love; who are stricken with violent tics or shout involuntary obscenities, and yet are gifted with unusually acute artistic or mathematical talents. If sometimes beyond our surface comprehension, these brilliant tales illuminate what it means to be human. A provocative exploration of the mysteries of the human mind, *The Man Who Mistook His Wife for a Hat* is a million-copy bestseller by the twentieth century's greatest neurologist. Part of the Picador Collection, a series showcasing the best of modern literature.

All that is Solid Melts Into Air

The experience of modernization -- the dizzying social changes that swept millions of people into the capitalist world -- and modernism in art, literature and architecture are brilliantly integrated in this account.

The Master and Margarita

The masterpiece of the German experience during World War I, considered by many the greatest war novel of all time—with an Oscar-winning film adaptation now streaming on Netflix. “[Erich Maria Remarque] is a craftsman of unquestionably first rank.”—The New York Times Book Review I am young, I am twenty years old; yet I know nothing of life but despair, death, fear, and fatuous superficiality cast over an abyss of sorrow. . . . This is the testament of Paul Bäumer, who enlists with his classmates in the German army during World War I. They become soldiers with youthful enthusiasm. But the world of duty, culture, and progress they had been taught breaks in pieces under the first bombardment in the trenches. Through years of vivid horror, Paul holds fast to a single vow: to fight against the principle of hate that meaninglessly pits young men of the same generation but different uniforms against one another . . . if only he can come out of the war alive.

All Quiet on the Western Front

Matthew Arnold praised the Iliad for its 'nobility', as has everyone ever since -- but ancient critics praised it for its enargeia, its 'bright unbearable reality' (the word used when gods come to earth not in disguise but as themselves). To retrieve the poem's energy, Alice Oswald has stripped away its story, and her account focuses by turns on Homer's extended similes and on the brief 'biographies' of the minor war-dead, most of whom are little more than names, but each of whom lives and dies unforgettably - and unforgotten - in the copiousness of Homer's glance. 'The Iliad is an oral poem. This translation presents it as an attempt - in the aftermath of the Trojan War - to remember people's names and lives without the use of writing. I hope it will have its own coherence as a series of memories and similes laid side by side: an antiphonal account of man in his world... compatible with the spirit of oral poetry, which was never stable but always adapting itself to a new audience, as if its language, unlike written language, was still alive and kicking.' - Alice Oswald

Memorial

In this “vividly compelling” New York Times Notable Book, a surgeon recounts his experiences in war zones (The Washington Post). From treating the casualties of apartheid in Cape Town to operating on Kurdish guerrillas in Northern Iraq at the end of the Gulf War, Jonathan Kaplan has saved (and lost) lives in the remotest corners of the world in the most extreme conditions. He has been a hospital surgeon, a ship’s physician, an air-ambulance doctor, and a trauma surgeon. He has worked in locations as diverse as England, Burma, Eritrea, the Amazon, Mozambique, and the United States. In his “eloquent . . . beautifully written” memoir of unforgettable adventure and tragedy, Dr. Kaplan explores the great challenge of his career—to maintain his humanity in the face of incredible pain and suffering (The New York Times Book Review). “Packed with moments of searing intensity,” The Dressing Station is an “extraordinary” look into the nature of human violence, the shattering contradictions of war, and the complicated role of medicine in the modern world (The Washington Post). “In this refreshingly unsentimental memoir, [Kaplan] offers a vivid look at what it’s like to practice medicine in places where there are always too many casualties and not enough resources. His descriptions of surgery are unflinching . . . Kaplan gives us a remarkable self-portrait of the war junkie.” —The New Yorker

From Switzerland

'A work of formidable imaginative scope' Daily Telegraph The first casualty when war comes is truth . . . Flanders, June 1917: a British officer and celebrated poet, is shot dead. , He is killed not by German fire, but while recuperating from shell shock well behind the lines. A young English soldier is arrested and, although he protests his innocence, charged with his murder. Douglas Kingsley is a conscientious objector, previously a detective with the London police, now imprisoned for his beliefs. He is released and sent to France in order to secure a conviction. Forced to conduct his investigations amidst the hell of The Third Battle of Ypres, Kingsley soon discovers that both the evidence and the witnesses he needs are quite literally disappearing into the mud that surrounds him. Ben Elton's tenth novel is a gut-wrenching historical drama which explores some fundamental questions: What is murder? What is justice in the face of unimaginable daily slaughter? And where is the honour in saving a man from the gallows if he is only to be returned to die in a suicidal battle?

The Financial Crisis Inquiry Report, published by the U.S. Government and the Financial Crisis Inquiry Commission in early 2011, is the official government report on the United States financial collapse and the review of major financial institutions that bankrupted and failed, or would have without help from the government. The commission and the report were implemented after Congress passed an act in 2009 to review and prevent fraudulent activity. The report details, among other things, the periods before, during, and after the crisis, what led up to it, and analyses of subprime mortgage lending, credit expansion and banking policies, the collapse of companies like Fannie Mae and Freddie Mac, and the federal bailouts of Lehman and AIG. It also discusses the aftermath of the fallout and our current state. This report should be of interest to anyone concerned about the financial situation in the U.S. and around the world. THE FINANCIAL CRISIS INQUIRY COMMISSION is an independent, bi-partisan, government-appointed panel of 10 people that was created to "examine the causes, domestic and global, of the current financial and economic crisis in the United States." It was established as part of the Fraud Enforcement and Recovery Act of 2009. The commission consisted of private citizens with expertise in economics and finance, banking, housing, market regulation, and consumer protection. They examined and reported on "the collapse of major financial institutions that failed or would have failed if not for exceptional assistance from the government." As Long As the Lemon Trees Grow

"In this book I have written about some aspects of the war which, I believe, the world must know and remember, not only as a memorial of men's courage in tragic years, but as a warning of what will happen again-surely-if a heritage of evil and of folly is not cut out of the hearts of peoples. Here it is the reality of modern warfare not only as it appears to British soldiers, of whom I can tell, but to soldiers on all the fronts where conditions were the same." This book is part of the World War One Centenary series; creating, collating and reprinting new and old works of poetry, fiction, autobiography and analysis. The series forms a commemorative tribute to mark the passing of one of the world's bloodiest wars, offering new perspectives on this tragic yet fascinating period of human history. Each publication also includes brand new introductory essays and a timeline to help the reader place the work in its historical context.

Invisible Man

In the course of Europe's twentieth century, freedoms were won at the cost of terrible sacrifice. The physical remains of war, conflict and ideological struggle lie everywhere around us. The question of what to do with this common past, in which we all share an interest, lies at the centre of this important book. From a variety of professional backgrounds, the contributors consider a wide range of conflict-heritage sites in the context of international and national histories and regional and local historical narratives. Questions of who 'owns' the past, the ambiguities over how people identify with the local community or nation state, and whether or how to make moral judgements, are central. The book illustrates the challenges of documenting and describing what are often extensive, contested and

sometimes enigmatic and ambiguous buildings and monuments. The priorities of conservation, and how we ensure that documents, artefacts, sites and buildings can be given adequate and appropriate protection and care, are also addressed. This book will be of interest to a wide range of professional practitioners, academics and policy-makers, as well as the general reader, and will open the way to a deeper understanding of the significance of Europe's conflict heritage.

Theodor Seuss Geisel, creator of Horton the Elephant, the Grinch, the Cat in the Hat, and a madcap menagerie of the best-loved children's characters of all time, stands alone as the preeminent figure of children's literature. But Geisel was a private man who was happier at the drawing table than he was across from any reporter or would-be biographer. Under the thoughtful scrutiny of Charles D. Cohen, Geisel's lesser known works yield valuable insights into the imaginative and creative processes of one of the 20th century's most original thinkers.

This book is about six people whose minds are strictly on the money and will stop at nothing or allow anything or anyone to come between them and their come up. Smoke, K-9, Toe-Tag, Smooth, Bag-um, and Keisha take you all on a journey that's impossible for any of you to ever forget. So if you're not ready to witness the treachery, murder, and mayhem-this book is not for you. If you're not ready to witness the true definition of getting it from tha mud in blood-then this book is not for you. And if you're not willing to go all out and let your gangsta rep for itself on your mission to get paid-this book is not for you. But if you're about your business and your heart is built like that; and your gangsta plus your swagger is Presidential, Bona-fide, and Official-this book was written strictly for you. And that's real talk!

A Billion Dollars in Blood Money

Keisha had just received a call from one of her warehouse employees informing her that two large crates had arrived and were awaiting inspection by her. Keisha replied, Im on my way, and hung up the phone. Keisha got out of her limo and her people led her to tha two large crates. And as soon as she saw them she said, Open em up. And as soon as they did Keisha saw Loco and his family inside of the crates, and didnt even flinch as she stared at their headless bodies and their heads. Keisha said to one of her guards. Hand me that bloody letter. And as soon as she had the letter she read it, balled it up, and threw it back inside tha crate. Keisha left the warehouse and got into her limo and called her Army base. On the third ring a male voice answered, Commander Hopkins. Keisha said, Commander Hopkins, this is Mrs. Washington. I need you to get some airstrike teams and some ground teams together for a mission that I need handled immediately. Keishas plans were to send two Steath bombers, four Harrier jets, and five thousand ground team soldiers to New Delhi and to wreck complete havoc on the ones responsible for the death of Loco and his family. Keishas final instructions to Commander Hopkins were, As as soon as tha Stealth bombers have dropped tha last of their bombs send in tha Harrier jets to assist tha ground team. And Commander, call me on my cell two minutes before they make it to their target. Keisha was sitting in her gazebo holding her daughter when her cell started ringing. And as soon as she answered it Commander Hopkins said, Our people are two minutes away from the target. And Keisha said, Good, and ended the call. Keisha scrolled through her list of numbers on her cell until she found the one she was looking for. Then with a smile that would scare Satan himself, she pressed the send button and waited for someone to answer...

Blood Money

Blood, Money, & Power exposes the secret, high-level conspiracy in Texas that led to President John F. Kennedy's death and the succession of Lyndon B. Johnson as president in 1963. Attorney Barr McClellan, a former member of L.B.J.'s legal team, uses hundreds of newly released documents, including insider interviews, court papers, and the Warren Commission, to illuminate the maneuvers, payoffs, and power plays that revolved around the assassination of Kennedy and to expose L.B.J.'s involvement in the murder plot. In addition to revealing new information, McClellan answers common questions surrounding the assassination of our thirty-fifth president. Who had the opportunity, motive, and means to assassinate J.F.K.? Who controlled the investigation and findings of the Warren Commission? This historically significant book is proof that absolute power, money, blood, corruption, and deception were

at the heart of politics in the early 1960s, and it represents the very best investigative journalism has to offer.

Blood Money

Named a Best Book of 2018 by the Financial Times and Fortune, this "thrilling" (Bill Gates) New York Times bestseller exposes how a "modern Gatsby" swindled over \$5 billion with the aid of Goldman Sachs in "the heist of the century" (Axios). Now a #1 international bestseller, Billion Dollar Whale is "an epic tale of white-collar crime on a global scale" (Publishers Weekly), revealing how a young social climber from Malaysia pulled off one of the biggest heists in history. In 2009, a chubby, mild-mannered graduate of the University of Pennsylvania's Wharton School of Business named Jho Low set in motion a fraud of unprecedented gall and magnitude--one that would come to symbolize the next great threat to the global financial system. Over a decade, Low, with the aid of Goldman Sachs and others, siphoned billions of dollars from an investment fund--right under the nose of global financial industry watchdogs. Low used the money to finance elections, purchase luxury real estate, throw champagne-drenched parties, and even to finance Hollywood films like The Wolf of Wall Street. By early 2019, with his yacht and private jet reportedly seized by authorities and facing criminal charges in Malaysia and in the United States, Low had become an international fugitive, even as the U.S. Department of Justice continued its investigation. Billion Dollar Whale has joined the ranks of Liar's Poker, Den of Thieves, and Bad Blood as a classic harrowing parable of hubris and greed in the financial world.

"Quiet Complicity provides for the first time a comprehensive accounting of the hidden role that the Canadian government played in Vietnam during the period 1945-1975. The result is a story of diplomatic skulduggery, ill-advised economic entanglement, and political duplicity. Through a detailed study of Canada's commercial ties to Southeast Asia, Levant argues convincingly that Canada had a definite and direct economic stake in the U.S. prosecution of the war. He shows how Canada placed its own assets-- including its aid program, its supply of French-speaking public servants, and its international reputation for peace-keeping-- at the service of the U.S. war machine. Based on a wealth of new research including access to government files and cables, Quiet Complicity is sure to become the definitive record of Canada's less than honourable role in the Vietnam War." --

Blood, Money and Greed

Investigative journalist Judith Reitman delivers the never-before-told story of the American Red Cross's fall from grace--an incredible account of gross mismanagement and shocking neglect. From the Red Cross's decision in 1983 not to use an HIV-screening test, to May 1993 when the FDA brought an unprecedented lawsuit against the organization and its president for thousands of violations of federal blood safety laws, this explosive true account exposes a system that is slowly killing the very people it has sworn to protect.
