The Golden Bough

First published in 1890, The Golden Bough is a seminal work of modern anthropology. A classic study of the beliefs and institutions of mankind that traces the development and confluence of thought from magic and ritual to modern scientific theory, it has been a source of great influence upon such diverse writers as T.S. Eliot, Wyndham Lewis, and D.H. Lawrence. This edition restores many of the controversial passages expurgated in the 1922 edition that elucidate Frazer's bolder theories, and sets them within the framework of a valuable introduction and notes.

The Golden Bough: A Study in Magic and Religion (Third Edition, Vol. 03 of 12)

The primary aim of this book is to explain the remarkable rule which regulated the succession to the priesthood of Diana at Aricia. When I first set myself to solve the problem more than thirty years ago, I thought that the solution could be propounded very briefly, but I soon found that to render it probable or even intelligible it was necessary to discuss certain more general questions, some of which had hardly been broached before. In successive editions the discussion of these and kindred topics has occupied more and more space, the enquiry has branched out in more and more directions, until the two volumes of the original work have expanded into twelve. Meantime a wish has often been expressed that the book should be issued in a more compendious form. This abridgment is an attempt to meet the wish and thereby to bring the work within the range of a wider circle of readers. While the bulk of the book has been greatly reduced, I have endeavoured to retain its leading principles, together with an amount of evidence sufficient to illustrate them clearly. The language of the original has also for the most part been preserved, though here and there the exposition has been somewhat condensed. In order to keep as much of the text as possible I have sacrificed all the notes, and with them all exact references to

my authorities. Readers who desire to ascertain the source of any particular statement must therefore consult the larger work, which is fully documented and provided with a complete bibliography.

The Golden Bough: A Study of Magic and Religion

This is a new release of the original 1927 edition.

The Golden Bough

Presents an abridged version of Frazer's classic study of the origins of magic and religion

The Golden Bough

Sir James George Frazer originally set out to discover the origins of one ancient custom in Classical Rome - the plucking of the Golden Bough from a tree in the sacred grove of Diana, and the murderous succession of the priesthood there - and was led by his investigations into a twenty-five year study of primitive customs, superstitions, magic and myth throughout the world. The monumental thirteen-volume work which resulted has been a rich source of anthropological material and a literary masterpiece for more than half a century. Both the wealth of his illustrative material and the broad sweep of his argument can be appreciated in this very readable single volume.

The Golden Bough

Frazer's groundbreaking study of myth and magic was among the first works of trans-historical anthropology, examining the world-wide beliefs in magic held by ancient peoples, and illuminating the ancient practices of nature worship, the myths of the dying god, and the divine sacrifice of kings.

The Golden Bough

This 1890 study offers a monumental exploration of the cults, rites, and myths of antiquity and their parallels with those of early Christianity. Abridged by the author from his 12-volume work.

Golden Bough

Before Joseph Campbell became the world's most famous practitioner of comparative mythology, there was Sir James George Frazer. The Golden Bough was originally published in two volumes in 1890, but Frazer became so enamored of his topic that over the next few decades he expanded the work sixfold, then in 1922 cut it all down to a single thick edition suitable for mass distribution. The thesis on the origins of magic and religion that it elaborates "will be long and laborious," Frazer warns readers, "but may possess something of the charm of a voyage of discovery, in which we shall visit many strange lands, with strange foreign peoples, and still stranger customs." Chief among those customs--at least as the book is remembered in the popular imagination--is the sacrificial killing of god-kings to ensure bountiful harvests, which Frazer traces through several cultures, including in his elaborations the myths of Adonis, Osiris, and Balder.

The golden bough

Sir James George Frazer (1854-1941) caught the popular imagination with his vast and enterprising comparative study of the beliefs and institutions of mankind, which in its third edition numbered 12 volumes. Reissued here is Frazer's own single-volume abridgement of 1922.

The Golden Bough

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

The Golden Bough: A Study in Magic and Religion (Third Edition, Vol. 08 of 12)

With this third part of The Golden Bough we take up the question, Why had the King of the Wood at Nemi regularly to perish by the hand of his successor? In the first part of the work I gave some reasons for thinking that the priest of Diana, who bore the title of King of the Wood beside the still lake among the Alban Hills, personated the great god Jupiter or his duplicate Dianus, the deity of the oak, the thunder, and the sky. On this theory, accordingly, we are at once confronted with the wider and deeper question, Why put a man-god or human representative of deity to a violent death? Why extinguish the divine light in its earthly vessel instead of husbanding it to its natural close? My general answer to that question is contained in the present volume. If I am right, the motive for slaying a man-god is a fear lest with the enfeeblement of his body in sickness or old age his sacred spirit should suffer a corresponding decay, which might imperil the general course of nature and with it the existence of his worshippers, who believe the cosmic energies to be mysteriously knit up with those of their human divinity.

The Golden Bough: A Study in Magic and Religion (Third Edition, Vol. 04 of 12)

Differentiated book- It has a historical context with research of the time-This book contains a historical context, which helps us understand this literary work. We must pay special attention to those events that especially influenced the world of culture and art and also to those events that were especially reflected in literature, in the life of its writer or that affected it. There are many examples in which historical events have shaped the content and forms of literature, as well as this has often been the best testimony to the importance of certain events throughout history. This context is formed by everything that, in some way, influences the event when it happens. A fact is always tied to its time: that is, to its time.(The Golden Bough: A Study in Magic and Religion) is a major comparative study of mythology and religion, written by Scottish anthropologist James George Frazer (1854-1941). First published in 1890 in two volumes, it had a second edition of three volumes in 1900 and a third (1907-1915) that increased to twelve volumes, which the author later summarized in one volume in 1922, corresponding to the version commonly published and read.The golden branch tries to define the common elements of religious beliefs, ranging from ancient belief systems to relatively modern religions such as Christianity. His working thesis is that the old religions were fertility cults that took place around the worship and periodic sacrifice of a sacred king. This king was the reincarnation of a god who died and revived, a solar deity who carried out a mystical marriage with the goddess of Earth

The Golden Bough; A Study in Magic and Religion; Abridged Edition;

Sir James Frazer's massive tome of comparative religion and magical practices. & ; & ;Written and published in 12 volumes between 1890 and 1915, Frazer's work is an immense reference of people, places and things in the religious world of humankind. & ; & ;A must for any student of religion, the occult or Anthropology, The Golden Bough scandalized Europe and served as a cornerstone of research for the scholars who followed.

The Golden Bough

Excerpt from *The Golden Bough*, Vol. 6: A Study in Magic and Religion Dying God found its most systematic and most tragic expression. There is nothing, so far as I am aware, to shew that the men and women, who in Mexico died cruel deaths in the character of gods and goddesses, were regarded as scapegoats by their worshippers and executioners; the intention of slaying them seems rather to have been to reinforce by a river of human blood the tide of life which might else grow stagnant and stale in the veins of the deities. Hence the Aztec ritual, which prescribed the slaughter, the roasting alive, and the flaying of men and women in order that the gods might remain for ever young and strong, conforms to the general theory of deicide which I have offered in this work. On that theory death is a portal through which gods and men alike must pass to escape the decrepitude of age and to attain the vigour of eternal youth. The conception may be said to culminate in the Brahmanical doctrine that in the daily sacrifice the body of the Creator is broken anew for the salvation of the world. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. The Golden Bough: A Study in Magic and Religion (Third Edition, Vol. 11 of 12)

A modern abridgement of Sir James Frazer's 1925 one-volume version of his longer multi-volume work on "the study of magic and origins of religion" from an anthropological viewpoint.

The Golden Bough, A Study of Magic and Religion (Annotated)

The Golden Bough: A Study in Magic and Religion is a wide-ranging, comparative study of mythology and religion, written by Scottish anthropologist Sir James George Frazer. It was first published in 1890. The work was aimed at a wide literate audience raised on tales as told in such publications as Thomas Bulfinch's *The Age of Fable, or Stories of Gods and Heroes* (1855). It offered a modernist approach to discussing religion, treating it dispassionately as a cultural phenomenon rather than from a theological perspective. The impact of *The Golden Bough* on contemporary European literature was substantial. This is Vol II of the 1922 edition. Sir James George Frazer FRS FRSE FBA OM (1 January 1854 – 7 May 1941), was a Scottish social anthropologist influential in the early stages of the modern studies of mythology and comparative religion. He is often considered one of the founding fathers of modern anthropology. His most famous work, *The Golden Bough*, documents and details similar magical and religious beliefs across the globe. Frazer posited that human belief progressed through three stages: primitive magic, replaced by religion, in turn replaced by science.

Golden Bough: a Study in Magic and Religion. Abridged Edition

The Golden Bough

This collector-quality edition includes the complete text of Sir James G. Frazer's landmark study of primitive myths, magic and ancient religion, in a freshly edited and newly typeset edition. With a large 7.44"x9.69" page size, this Summit Classic edition is printed on hefty 60-lb. bright white paper with a fully laminated cover featuring an original full color design. Page headers, modern, readable fonts that preserve the feel of classic books and freshly edited and typeset text exemplify the attention to detail given this volume. Originally published in a two volume, heavily annotated edition in 1890, Sir James G. Frazer's wide-ranging, comparative study of mythology and religion was a landmark work intended as both a scholarly treatise and a work of general interest. Presupposing a broadly literate audience familiar with tales from the age of fable and Greek and Norse mythology, Frazer took a modernist approach to religion, analyzing it as a cultural phenomenon rather than theological dogma. While not the first to consider religion from a cultural perspective, the breadth and detail of Frazer's work as a social anthropologist made him an influential early voice in the studies of comparative religion and mythology and he is widely considered one of the founding fathers of modern anthropology. By the time a third edition of *The Golden Bough* was published in 1915 it had grown to twelve heavily annotated volumes and become inaccessible to the average reader. So a single volume abridged edition was published in 1922. This volume contains the complete text of that 1922 edition. All footnotes and the bibliography were removed by Frazer when this edition was originally published, and it is intended for a general and more casual readership, rather than as a scholarly reference work or primary source material. Some of Frazer's theories, such as the natural "Darwinian" progression from magic to religion to science, have been displaced. But some modern criticism of his work is unjustified, relying on the abridged work to come to the conclusion that he made broad assumptions unsupported by evidence when in fact the archaeological support for his conclusions is clearly included in the heavily annotated multi-volume treatise. Frazer's work remains an accessible treasure trove of information on ancient myths, cults, religious beliefs and practices and a view of how primitive man and the ancients thought, the fascinating result of a journey that began with the investigation of an obscure Roman cult centered around an Italian lake and ended with a sweeping view of the development of primitive beliefs in magic, myth and religion in cultures around the world.

The Golden Bough

The Golden Bough: A Study in Comparative Religion (retitled *The Golden Bough: A Study in Magic and Religion* in its second edition) is a wide-ranging, comparative study of mythology and religion, written by the Scottish anthropologist Sir James George Frazer.

The Golden Bough: A Study in Magic and Religion (Third Edition, Vol. 09 of 12)

Excerpt from The Golden Bough, Vol. 6: A Study in Magic and Religion With The Scapegoat our general discussion of the theory and practice of the Dying God is brought to a conclusion. The aspect of the subject with which we are here chiefly concerned is the use of the Dying God as a scapegoat to free his worshippers from the troubles of all sorts with which life on earth is beset. I have sought to trace this curious usage to its origin, to decompose the idea of the Divine Scapegoat into the elements out of which it appears to be compounded. If I am right, the idea resolves itself into a simple confusion between the material and the immaterial, between the real possibility of transferring a physical load to other shoulders and the supposed possibility of transferring our bodily and mental ailments to another who will bear them for us. When we survey the history of this pathetic fallacy from its crude inception in savagery to its full development in the speculative theology of civilized nations, we cannot but wonder at the singular power which the human mind possesses of transmuting the leaden dross of superstition into a glittering semblance of gold. Certainly in nothing is this alchemy of thought more conspicuous than in the process which has refined the base and foolish custom of the scapegoat into the sublime conception of a God who dies to take away the sins of the world. The Golden Bough

Initially intended as an anthropological study, the original Golden Bough became a study of the origins of magic and religion. This abridged edition holds a magnifying glass to Frazer's insights into the nature of magic and religion and focuses on the central theme of sympathetic magic. Illustrated throughout with art, artifacts and images from around the world, it draws on historical and social evidence to reveal the spiritual essence of man.

Myths of the Norsemen

"The great Norse sagas, full of adventures, magic and heroic deeds."--Cover.

Myths of the Norsemen

A retelling of the Norse sagas about Odin, Freya, Thor, Loki and the other gods and goddesses who lived in Asgard before the dawn of history.

Myths of the Norsemen

A retelling of the Norse sagas about Odin, Freya, Thor, Loki and the other gods and goddesses who lived in Asgard before the dawn of history.

The Saga of Asgard

This book showcases the variety and vitality of contemporary scholarship on Old Norse and related medieval literatures and their modern afterlives. The volume features original new work on Old Norse poetry and saga, other languages and literatures of medieval north-western Europe, and the afterlife of Old Norse in modern English literature. Demonstrating the lively state of contemporary research on Old Norse and related subjects, this collection celebrates Heather O'Donoghue's extraordinary and enduring influence on the field, as manifested in the wide-ranging and innovative research of her former students and colleagues.

Myths of the Norsemen

This awe-inspiring collection brings together the complete mythologies of the Norse peoples, from the story of Brunhild to the tricks of Loki. Guerber's prose beautifully captures the spirit, humor and romance of these stories and are perfect for anyone wanting an excellent grounding in the Norse myths. A chapter comparing Norse mythology with Greek mythology is a fascinating additional draw to this edition. Evoking a land of gods, giants, elves and dwarves, Myths of the Norsemen will enthrall anyone interested in the legends of the Nordic countries. ABOUT THE SERIES: Arcturus Classic Myths and Legends brings together beautiful retellings of mythologies from different traditions, from Celtic to Native American.

The Medieval North and Its Afterlife

The Booker Prize-winning author of Possession breathes life into the Ragnarok myth through the novel of a young British girl during World War II. Ragnarok retells the finale of Norse mythology: a story of the destruction of life on this planet and the end of the gods themselves. What more relevant myth could any modern writer choose? As the bombs of the Blitz rain down on Britain, one young girl is evacuated to the countryside. She is struggling to make sense of her new wartime life. Then she is given a copy of Asgard and the Gods—a book of ancient Norse myths—and her inner and outer worlds are transformed. War, natural disaster, reckless gods, and the recognition of impermanence in the world

are just some of the threads that A.S. Byatt weaves into this most timely of books. Linguistically stunning and imaginatively abundant, this is a landmark. A Globe and Mail (Toronto) Best Book “A gorgeous, brilliant, and significant performance.” —Booklist, starred review “Byatt’s prose is majestic, the lush descriptive passages—jewelled one minute, gory the next—a pleasure to get lost in.” —The Telegraph

Myths of the Norsemen

THE NO. 1 SUNDAY TIMES AND NEW YORK TIMES BESTSELLER FROM THE CO-AUTHOR OF GOOD OMENS, NOW A MAJOR AMAZON PRIME SERIES 'With the deftest of touches, the characters are once again brought to life' JOANNE HARRIS 'The halls of Valhalla have been crying out for Gaiman to tell their stories' OBSERVER The great Norse myths, which have inspired so much of modern fiction, are dazzlingly retold by Neil Gaiman. Tales of dwarfs and frost giants, of treasure and magic, and of Asgard, home to the gods: Odin the all-father, highest and oldest of the Aesir; his mighty son Thor, whose hammer Mjollnir makes the mountain giants tremble; Loki, wily and handsome, reliably unreliable in his lusts; and Freya, more beautiful than the sun or the moon, who spurns those who seek to control her. From the dawn of the world to the twilight of the gods, this is a thrilling, vivid retelling of the Norse myths from the award-winning, bestselling Neil Gaiman. *This book has been printed with two different cover designs. We are unable to accept requests for a specific cover. The different covers will be assigned to orders at random*

Ragnarok

Norse Mythology A to Z, Third Edition examines the characters, objects, and places whose stories make up the folklore of the Norse people, who lived in the region known today as Scandinavia. Passed down through the generations by word of mouth and finally written down in the 13th century and later, these myths include tales of gods and goddesses; heroes, giants, and dwarfs; and serpents and dragons that inhabit enchanted realms. This colorful volume brings to life many of these Nordic myths. Entries of this title include: the most famous gods and goddesses, such as Odin, Thor, and Freya; plants and animals important to Norse mythology, such as the oak tree and the eagle; stories and poems, such as ""Tales of the Dwarfs"" and the ""Poetic Edda""; and, much more.

Myths of the Norsemen; the Saga of Asgard

'Love. Hate. So what? It's family. It's business.' Fifteen-year-old Sigurd, son of King Sigmund, is the last surviving member of the Volson clan. His father's kingdom – the former city of London – is gone. And his father's knife, a gift from the gods, has been shattered to dust. Armed with a powerful sword forged from the remnants of the knife, Sigurd faces death, fire and torment as he travels through Hel and back to unite his country once again. Packed with political intrigue and violence, love, lust and family feuds, Bloodsong is perfect for fans of Game of Thrones. 'Burgess's great triumph is not so much in inventing new stories as in finding fresh ways of retelling the ones that are themselves in danger of falling into extinction' Guardian 'A gripping story of horrific proportions from a prize-winning author' - Publishing News 'Teenage boys with strong stomachs should enjoy it' - Independent on Sunday 'A thrillingly readable and evocative narrative' - Daily Telegraph

Robin Hood and His Merry Men

As the Vikings began to migrate overseas as raiders or settlers in the late eighth century, there is evidence that this new way of life, centred on warfare, commerce and exploration, brought with it a warrior ethos that gradually became codified in the Viking myths, notably in the cult of Odin, the god of war, magic and poetry, and chief god in the Norse pantheon. The twelfth and thirteenth centuries, when most of Scandinavia had long since been converted to Christianity, form perhaps the most important era in the history of Norse mythology: only at this point were the myths of Thor, Freyr and Odin first recorded in written form. Using archaeological sources to take us further back in time than any written document, the accounts of foreign writers like the Roman historian Tacitus, and the most important

repository of stories of the gods, old Norse poetry and the Edda, Christopher Abram leads the reader into the lost world of the Norse gods.

National Union Catalog

The great Norse Myths are among the most dramatic and unforgettable stories in all human history. These fascinating, fantastical tales have inspired centuries of art, culture and literature, including the storytelling of Tolkien, Neil Gaiman, George RR Martin's Game of Thrones, Wagner's Ring Cycle and Marvel Comics. The Norse Myths takes us on a thrilling journey through the Norse cosmos, from the creation of the world to Ragnarok, the final world-destroying conflict; via the Nine Worlds, and the exploits of the mighty gods and goddesses - mystical Odin, malicious Loki, mighty Thor and more - and their quarrel with the giants. Bringing to life the magical world of monsters and mythical creatures, this also introduces the adventures of humankind: folk heroes and tricksters; Sigmund's great battle in the Volsung Saga; the exploits of Kings and Princes; and Viking exploration and settlement of new lands including Iceland, Greenland, America, and Viking life in the Mediterranean and the East. As well as a treasure trove of these epic stories of heroism and cruelty, squabbles and seductions, The Norse Myths is a comprehensive study of their origins, survival and interpretations - as academically important as it is exhilarating.

The National Union Catalogs, 1963-

A complete and wonderfully satisfying assembly of all the legends and tales of the Norse gods, collected and retold with authentic detail from the original Eddas and Sagas. Drawing upon original sources, this collection of tales will provide the reader with an inclusive overview of the fabulous stories which make up the entire pantheon of Norse gods, telling the story from the world's creation to the final end at Gotterdammerung. Along the way, the reader will learn all there is to know about Odin, Frigga, Thor, Tyr, Freya, Heimdall Loki, Balder, the Giants, the Elves, the Dwarves and much more besides. The author also shows how many classic European folk stories -such as the legends of Sleeping Beauty the Pied Piper of Hamelin, among others, originated in the Norse tales. In addition, this book shows how even the concepts of Christmas ("yule"), Easter, and Hell, all originate in the Norse legends, along with the names of most of the days of the week. The last chapter compares classical Greek and Norse mythology, showing their similarities. This edition also contains indices, glossary, a pronunciation guide and a full index.

Norse Mythology

Recounts the life and adventures of Robin Hood, who, with his band of followers, lived as an outlaw in Sherwood Forest dedicated to fighting tyranny.

Writers Directory

Here's quick access to more than 490,000 titles published from 1970 to 1984 arranged in Dewey sequence with sections for Adult and Juvenile Fiction. Author and Title indexes are included, and a Subject Guide correlates primary subjects with Dewey and LC classification numbers. These cumulative records are available in three separate sets.

Norse Mythology A to Z

Theories of Mythology provides students with both a history of theories of myth and a practical 'how-to' guide to interpreting myth, the most elementary form of narrative. Both a history of theories of myth and a practical 'how-to' guide to interpreting myth. Introduces the major theories of myth from the nineteenth century to the present day. Covers comparative approaches, psychoanalysis, ritual theories of myth, structuralism, and ideological analysis. Supplies readers with the theoretical tools for imitating each method. Features detailed exemplary readings of familiar myths.

Bloodsong

Annotation. "From Asgard to Valhalla is the first book to show how and why the Norse myths have so powerfully resonated from era to era: from the Viking-age stories of ice and fire to the epic poetry of Beowulf; from the twilight of the gods in Wagner's Gotterdammerung to Marvel Comics' Mighty Thor; and from Neil Gaiman's American Gods to the cult appeal of Viking Metal. Heather O'Donoghue, who is an expert on Old Norse culture, shows in what ways the Norse myths have impacted on the western mind, across the fields of literature, art, music and politics. She considers the wider contexts of Norse mythology, including its origins, medieval expression and reception in post-medieval societies right up to the present, distinguishing the myths in their original form from a host of later accretions, distortions and transformations."--Jacket.

Myths of the Pagan North

First Choice

The Dictionary of Mythology

Who was Artemis and what part did she play in the battle of the Giants? Who was the whale-monster Qaqwaii and how did he hunt his prey? This dictionary of mythology is a wonderful and invaluable reference guide to the various myths and legends from across the globe. Dip into this A-Z guide to discover the names of devious gods, enchanted objects and ancient cities, as well as the cultures that these tales originate from. These myths are taken not only from the familiar Greek, Roman and Norse traditions but also Mesopotamian, Haitian, Tibetan, Native American and many more. Painstakingly researched over 25 years, this incredible resource provides more than just scholarly information but also showcases the staggering creativity and imagination of our ancient belief systems. This beautiful hardback edition is presented in a handsome slipcase, making a perfect collectable or gift for any mythology enthusiasts.

The Dictionary of Mythology

Identifies key gods, goddesses, heroes, heroines, themes, and symbols from the mythologies of the world.

The Dictionary of Mythology

Jenny March's acclaimed Dictionary of Classical Mythology, first published in 1998 but long out of print, has been extensively revised and expanded including a completely new set of beautiful line-drawing illustrations for this Oxbow edition. It is a comprehensive A – Z guide to Greek and Roman mythology. All major myths, legends and fables are here, including gods and goddesses, heroes and villains, dangerous women, legendary creatures and monsters. Characters such as Achilles and Odysseus have extensive entries, as do epic journeys and heroic quests, like that of Jason and the Argonauts to win the Golden Fleece, all alongside a plethora of information on the creation of the cosmos, the many metamorphoses of gods and humans, and the Trojan War, plus more minor figures – nymphs, seers, kings, rivers, to name but a few. In this superbly authoritative work the myths are brilliantly retold, along with any major variants, and with extensive translations from ancient authors that give life to the narratives and a sense of the vibrant cultures that shaped the development of classical myth. The 172 illustrations give visual immediacy to the words, by showing how ancient artists perceived their gods and heroes. The impact of myths on ancient art is also explored, as is and their influence in the postclassical arts, emphasising the ongoing inspiration afforded by the ancient myths. Also included are two maps of the ancient world, a list of the ancient sources and their chronology, the more important genealogies, and an index of recurrent mythical motifs.

Illustrated Dictionary of Mythology

"The myths and legends of the ancient worlds, from Greece, Rome and Egypt to the Norse and Celtic lands, through Persia and India to China and the Far East. A comprehensive A to Z of the classic stories of gods and goddesses, heroes and mythical beasts, wizards and warriors"--Page 1 of cover.

Dictionary of Classical Mythology

An encyclopedic A-to-Z guide, this beautifully illustrated volume offers hundreds of rich, fascinating definitions of 700 major and minor characters, creatures, and places of classical mythology. Classical Mythology A-to-Z is a comprehensive and engrossing guide to Greek and Roman mythology. Written by Annette Giesecke, PhD, Professor of Classics and Chair of Ancient Greek and Roman Studies at the University of Delaware, this brilliant reference offers clear explanations of every character and locale, and captures the essence of these timeless tales. From the gods and goddesses of Mount Olympus and the heroes of the Trojan War to the nymphs, monsters, and other mythical creatures that populate these ancient stories, Giesecke recounts, with clarity and energy, the details of more than 700 characters and places. Each definition includes cross-references to related characters, locations, and myths, as well their equivalent in Roman mythology and cult. In addition to being an important standalone work, Classical Mythology A-to-Z is also written, designed, and illustrated to serve as an essential companion to the bestselling illustrated 75th-anniversary edition of Mythology by Edith Hamilton, including 10 full-color plates and 2-color illustrations throughout by artist Jim Tierney.

The Ultimate Encyclopedia of Mythology

A classic reference work on mythology, this book provides detailed entries on the gods, goddesses, heroes, and monsters of Greek and Roman mythology, as well as the myths and legends that surround

them. Written in a clear and engaging style, the book is an indispensable resource for anyone interested in the fascinating world of classical mythology. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in the "public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Classical Mythology A to Z

Describes the themes, characters, and legends of Greek and Roman mythology.

A Mythological Dictionary

It's not easy keeping track of all the creatures, gods and heroes in mythology! The Greek Mythology Dictionary is an easy-to-read reference for learning mythology terms for the Greeks, Romans, Scandinavians and more! Ideal for Grades 4-6!

Illustrated Dictionary of Mythology : Heroes, Heroines, Gods, and Goddesses from Around the World

"From the ancient past come the myths that color our present. Like the symbols that haunt our dreams and guide our inner journeys, the myths of the Western world touch something deep within us, awakening old nightmares and new yearnings. Some of the gods, tales, and mythic creatures in Bergen Evan's 'Dictionary Of Mythology' are as familiar as the disturbing tale of Oedipus. Others may seem strange, wonderful, or chillingly macabre: Lycaon, the murderer, who is transformed into a wolf by an angry god; Cronus (Time) who devours his won children; Pan, the god of the animal in man, who fills us with overmastering fears that sweep courage and prudence aside; the hero Sigurd, who seeks a magic ring and finds a maiden. . .in a ring of fire. These tantalizing stories and dozens more make this book a perfect addition to any library, as delightful for browsing as it is essential for reference." -- Amazon.

The Illustrated Dictionary of Greek and Roman Mythology

Jenny March's acclaimed Dictionary of Classical Mythology, first published in 1998 but long out of print, has been extensively revised and expanded including a completely new set of beautiful line-drawing illustrations for this Oxbow edition. It is a comprehensive A -- Z guide to Greek and Roman mythology. All major myths, legends and fables are here, including gods and goddesses, heroes and villains, dangerous women, legendary creatures and monsters.

The Greek Mythology Dictionary

Taken from Daniel 12:3, "Those Who Are Wise Will Shine" uncovers God's awesome power at work in the lives of those He chose to bear His message of Redemption, from Adam to Christ. The lives of these faithful brightly shined forth with His presence in the face of a world full of darkness. They knew He spoke to them, called them, and in turn, they were constrained to follow Him. There is no better way to shine for the Lord than to know with determined faith, who He really is and that where He leads, you will faithfully follow! These ancient pioneers of faith displayed just that! This work seeks to take the readers back to the basics of Redemption and Sanctification through the unfolding of the "Redemptive Thread" that links the blood lineage of our ancient forefathers to the rise of our Messiah, Jesus Christ. It ends with the joyous events still to come at His Second Advent. From creation to the cross, redemption and sanctification are certainly defined as two of the zealous desires of the Lord. The overall central theme of the Holy Scripture is redemption. Humanity is fallen, separated from God, and in dire need of reconciliation. The Lord's perfect gift of redemption reconciles the breach. His work in us is what follows. Immediately He begins that work, and it will never be complete until we see Him face-to-face!! He calls us to be holy and set apart for His service. Never underestimate the value He has placed on you as a vessel chosen with purpose to be His emissary shining His light into this dark world. It is God's foundational will for each of us to emanate the fragrance of Christ in all He calls us to be. Today, Christians in most places are still in need of the milk of the word. They lead a very shallow and powerless Christian life. It is one of the reasons the church is so lifeless in many places. It is not enough

to know of the elementary principles of Christianity, we must also understand their meaning in terms of God's continual work in us. We must take them to heart. This volume seeks to lay a foundation of trusting God by understanding how God worked in the lives of past saints to make sure His message of redemption went unhindered so it could be ours today. Millions in the past millennia have gone beyond the superficial and with God's help, stood firmly and boldly on His side! A proper understanding of Redemption will only lead you to rejoice with "joy unspeakable" as you stand in unrestricted service to God. He has liberated us to fulfill our redemptive purpose. He truly has set us free! Hebrews 13:9b teaches us, "For it is good that the heart be established by grace..." The word established comes from $\beta\alpha\tau\alpha\iota\sigma\tau\alpha\iota$ which means to be firm or secure, literally propped up, as in a stick holding up a tent. If our heart is truly established by the true teaching of Grace, which comes from the nature of the Father, then when we fall, we still stand. Rejoice in Him...For Redemption provides just that!

Dictionary of Mythology, Mainly Classical

A Mysterious Group of People came to settle in southern Mesopotamia, sometime around 5400BC. What is now the modern state of Iraq, the first city of Mesopotamia was founded named Eridu. Although historians have generally regarded this as the world's first city, we have seen this challenged on numerous occasions by recent discoveries too numerous to mention here. Eridu had all the things we ordinarily associate with an ancient city: temples, administrative buildings, housing, agriculture, markets, art, and, of course, walls to keep out unsavoury characters. The elusive aspect is we have absolutely no idea where they acquired their language, and bizarre language it is, we have no idea what they originally looked like. Their language, which we call Sumerian, and the subsequent Akkadian derivative were linguistic isolates. Sumerian is the oldest known written language on Earth, and any languages it might have derived from or developed alongside have been lost to time. Figuring out what their baffling ethnic identity based on their art is a doomed effort, because their art was so stylized that a good case could be made that it portrays people of any ethnicity, or the people they encountered. The Sumerian language was not Semitic, and the Akkadian conquests of 2334 BCE disrupted the ethnic and cultural isolation of the Sumerian people. By about 2000 BCE, the Sumerians were speaking Akkadian and the Sumerian and Akkadian civilizations were regarded as a single enterprise. Does this mean that we'll never know how the Sumerian language developed, or where the Sumerians originally came from? Well if any reasonably well-preserved Sumerian bones can be found DNA testing could tell us their ethnic origin. Although this all sounds murky, we have literature left in the form of cuneiform writing that speaks volumes on their day to day life and their highly unusual gods. The Sumerian pantheon reads like wild science fiction at times and although they often speak of their own origins in terms of their gods and family ties many have chosen to label this as mythology, ignore it, or merely treat it in a literature aspect.

Dictionary of Classical Mythology

A comprehensive A-to-Z reconstruction of the oral tradition of the Rom--gypsies--based on sources never before available in English • Presents the origin myths and magical traditions of the gypsies, including their legendary ties to Egypt, animal ancestors, and tree spirits • Examines the three major settings of gypsy folktales--the forest, the waters, and the mountain--and shows how their world is full of spirits • Shows how the religious concepts of the Rom testify to a profound syncretism of the pagan traditions and Christianity Although their own myths and their common name point to Egyptian origins for the gypsies, the Rom, as they call themselves, originated in India, as evidenced by studies of their language. They arrived in Europe in the ninth century and spread across the continent from East to West, reaching England in the 15th century and Scandinavia by the end of the 16th century. A nomadic people, these wanderers were reviled by local populaces wherever they went and regarded as misfits, intruders, foreigners, and thieves. Drawing on a number of sources never before available outside of Eastern Europe, Claude Lecouteux reconstructs the gypsy oral tradition to provide a comprehensive A-to-Z look at gypsy mythology, including their folktales, rites, songs, nursery rhymes, jokes, and magical traditions. His main source is material collected by Heinrich Adalbert von Wlislöcki (1856-1907), an ethnologist who lived with gypsies in Romania, Transylvania, and Hungary in the latter half of the 19th century. He presents the origin myths of the gypsies, legends which form the ancestral memory of the gypsy tribes and often closely touch on their daily life. Lecouteux explores the full range of supernatural beings that inhabit the gypsy world, including fairies, undines, ogres, giants, dog-people, and demons, and he examines the three major settings of gypsy folktales--the forest, the waters, and the mountain, which they worshiped as a sacred being in its own right. He also reveals how coexisting with peoples of different religions led the gypsies to adapt or borrow stories and figures from these

groups, and he shows how the religious concepts and sacred stories of the Rom testify to a profound syncretism of pagan traditions and Christianity. Complete with rare illustrations and information from obscure sources appearing for the first time in English, this detailed reference work represents an excellent resource for scholars and those seeking to reconnect to their forgotten gypsy heritage.

Those Who Are Wise Will Shine!

The Esoteric Codex: Demons and Deities of Wind and Sky collects curated articles regarding demons and deities, gods and goddesses, of the wind and the sky.

Sumerian Origins

The Sumerians are today's wonder of the day and another incredible ancient society. Ancient Sumer, a group of city-states, was in Mesopotamia. The Sumerians invented arithmetic geometry, writing, and armies. Furthermore, their publications educate readers about Sumerian culture today. The Sumerian civilization flourished between 4100 and 1750 B.C. "Sumer" was named after the "land of cultured rulers." Sumer was one of the earliest to divide the day into hours and minutes. They also had a sophisticated religion centered on gods known as the Anunnaki. The Sumerians' destiny was thought to be in the hands of the Anunnaki. The Anunnaki were often depicted in myths as judging humankind. The gods were also known as the children of the Earth and the Sky. Most people regard these tales as myths, just like the Greek gods. Others, though, wonder whether there is more to the story. Some scientists think the Anunnaki were actual people. They might have come from another planet, according to popular belief. Many individuals believe they are from the enigmatic planet X, which they claim passed incredibly close to Earth thousands of years ago. Why would aliens come to Earth and behave like gods? Of course, to enslave humans! According to this theory, the Anunnaki compelled the Sumerians to dig for gold for them. The Anunnaki departed for Planet X after they had all they needed. According to some, the Anunnaki were a kind of reptile humanoid. They argue that these reptiles assisted the Sumerians in the development of their writing and mathematical systems. Furthermore, they believe that reptiles still exist and have influence over people. Were the Anunnaki genuine? Or have they fabricated gods? One thing is sure: these ancient Sumerian deities continue to attract humans.

Dictionary of Gypsy Mythology

Igigi unrest leading to the Zu Incident was just a harbinger of other troubles to come-troubles inherent in long-term interplanetary missions, and female companionship was one of the significant problems. The problem was less acute with the Earth-stationed Anunnaki since they contained females from the first landing party (some named and assigned tasks in Enki's autobiography). In addition, a group of nurses led by their daughter of Anu was sent to Earth. She was known as Ninmah (= 'Mighty Lady'); her role on Earth was that of Sud (= 'One who gives succor'): she served as the Anunnaki's Chief Medical Officer and was crucial to any subsequent events. Its ancient tide echoed its opening words: Inuma ilu awilum ('When the gods became like men'): however, there was also trouble among the Earth-based Anunnaki, especially those assigned to mining duties. Several unintended consequences resulted from the Anunnaki's Mutiny in the Atra-Hasis Epic, which tells of an uprising by the Anunnaki who refused to work in the gold mines. While the gods, like men, bore the toil and work. There was great toil for the gods, and the result was heavy; there was much distress. The very Akkadian term, Awilu, means 'employee,' rather than simply 'Man,' as it is usually translated. In the Epic tale, the man takes over the work of the gods. Despite the absence of men on Earth, the gods toiled as though they were men. Enki and Ninmah achieved that feat, but it was not a story with a happy ending, as far as Enlil was concerned.

The Esoteric Codex: Demons and Deities of Wind and Sky

Leonard Woolley, an archaeologist from Britain, returned to Iraq in 1922, almost 4,000 years after the nuclear ancient catastrophe, to uncover ancient Mesopotamia. An imposing ziggurat standing out in the desert plain drew him to the nearby site of Tell el-Muqayyar, where he began excavating. As old walls, artifacts, and inscriptions were unearthed, he realized he was digging up ancient Ur-Ur of the Chaldees. Twelve years of his work were conducted through a joint expedition between the British Museum in London and the University of Pennsylvania Museum in Philadelphia. For those institutions, Sir Leonard Woolley found some of the most dramatic objects and artifacts in Ur. However, what he discovered may well surpass anything ever exhibited before. In the course of removing layers of soil deposited by desert sands, the elements, and time from the ruins, the ancient city began to take shape-here were

the walls, there were the harbors and canals, the residential quarters, the palace, and the Tummal, the elevated sacred area. Woolley's discovery of a cemetery dated thousands of years ago included unique 'royal' tombs discovered by digging at its edge is the find of the century. The excavations in the city's residential sections established that Ur's inhabitants followed the Sumerian custom of burying their dead right under the floors of their dwellings, where families continued to live. It was thus highly unusual to find a cemetery with as many as 1,800 graves in it. From predynastic (before Kingship began) to Seleucid times, they were concentrated mainly within the sacred precinct. The graves were buried on top of each other, burials were interred in another grave, and some graves were apparently re-interred. To date graves more accurately, Woolley's workers dug trenches of up to fifty feet deep to cut through layers.

Sumerian Gods of Nibiru

The Sumerian people once inhabited the region near the Persian Gulf, known as Iraq. Greeks called this country Mesopotamia, which means the land between the rivers, as the Euphrates and Tigris, rising in Anatolia, flowed through Syria and Iraq before discharging into the Persian Gulf. 'Simurru' is the name given to the northern region by the Semitic peoples later, like the word Sumerian, which was later used for the southern region. According to the Sumerians, their land was called Kien-gi, or 'land of the lordly En,' after the priest-king of Sumer (En). Sometime after 4000 BC, the Sumerians moved to this coastal area, but it's unclear from where they came. There is no connection between their language and any other language spoken in the region. After sailing upriver from the Persian Gulf, they migrated inland from the coastal area. On the other hand, Sumerians came from the northeast of Mesopotamia and traveled down the river to the south. 'Simurru' could indicate that the Sumerians once lived in the northern region. The Sumerians must have encountered people who had already settled in the Persian Gulf area for a long time when they entered since a few cities had names that did not match Sumerians but were most likely derived from an unknown language. Examples include Uruk, Ešnunna, and Shuruppak. Similarly, Buranuna, the name of the Euphrates River, makes no sense in Sumerian, whereas Idigna, the name of the Tigris River, might be explained as 'the blue river. Farmers had established small settlements along these two great rivers during the fifth millennium BC. To irrigate agricultural crops, they diverted water from rivers through canals. There was little rainfall in this area, and the sun burned mercilessly during the summer months, so everyone lived entirely off floodwater from the rivers. The rivers could be dangerous, though, as the land was flat, and there was always the danger that the river would overflow its banks and change its course, inundating new areas and destroying crops and water supplies. The great rivers carried silt through the plain, forming swamps along the Persian coast. Here, the inhabitants grew cane for making little reed houses for the gods. God Enki was responsible for this domain. He brought civilization to the Sumerians and lived underground in a freshwater residence, the Abzu, located below the earth's surface but above the ocean's saltwater expanse.

The Rise of the Igigi

The earliest history of Babylon is little known. Among the many cities flourishing in southern Iraq, the town first appears in texts in the third millennium BC. Until the last century of the third millennium, few references existed to Babylon; however, offerings made to the temple of Enlil in Nippur during this period (when Babylon was part of an empire ruled by Ur) suggest a city already of some size and wealth. From relative obscurity in the middle of the 18th century BC, Babylon emerged as the political center of southern Mesopotamia. It held this position almost continuously for the next 1,400 years. Near Baghdad, around 85 kilometers south of the Euphrates, is the site of Babylon. The area is located north of the great alluvial plain of southern Iraq, a landscape of silts deposited by the Tigris and Euphrates into a vast rift created by tectonic movement as the Arabian plate slips beneath the neighboring Eurasian plate. In addition to defining modern-day Iraq's northern and eastern boundaries, the Taurus and Zagros mountain ranges were created by the same collision. As a result, Mesopotamia encompasses several environmental zones, but Babylon itself is found in the flat alluvial plain in southern Iraq. In addition to containing one of the world's earliest cities³, the table is subject to several significant environmental constraints that have shaped human settlements since long before the foundation of Babylon. Rain-fed agriculture is beyond the reach of this area due to its high temperatures. Despite the little precipitation this part of Iraq receives, it is uneven and unreliable: the bulk of a season's rain can fall in a single downpour, damaging crops as severe droughts.⁴ Human habitation is dependent on the two great rivers, and the permanent settlement requires irrigation. Upon establishment, However, on the levees of canals, such a system could benefit from the rich alluvial soils and support highly productive agriculture.

In explaining the region's early urbanization and accompanying economic development, many contend that the region's ability to produce large agricultural surpluses played a significant role, though in what way is hotly contested. Herodotus was undoubtedly impressed. As a grain-bearing country, Assyria [meaning Mesopotamia] is the richest globally, he writes in his description of the fifth century BC. Figs, grapes, olives, or other fruit trees are not grown there, but the grain fields tend to produce crops two hundredfold and three hundredfold in exceptional years. At least three inches wide are the wheat and barley blades. Millet and sesame grow to an astonishing size, as I know, but those who have not visited Babylon have refused to believe even what I have already described as its fertility. Sesame oil is the only oil they use, and date palms, most of which bear fruit, provide them with food, wine, and honey.

Archaeology of the Anunnaki Sumerians

The Sumerian celestial object Nibiru signified the deity Marduk. The name is of Akkadian origin and means "crossroads" or "transition point." The vast majority of Babylonian literature relates it to Jupiter. In Tablet 5 of the Enuma Elish, the pole star at the time may have been Thuban or Kochab (Ursa Minor). The term "Nibiru" is taken from 5,000-year-old Sumerian literature and cuneiform tablets. The Sumerian civilization flourished in the fertile regions between the Euphrates and Tigris rivers in the southern area of modern-day Iraq. Its cuneiform symbol was often a cross or a variety of winged discs. Nibiru is often referred to as the "Planet of the Crossing." In the reconstruction of Tablet V of the Enuma Elish by Landsberger and Kinnier Wilson, the term "pole star" is rendered as "ni-bi-ri." It has several variations, such as "ni-bi-ru" and "ni-bi-a-na." Landsberger and Kinnier Wilson think it alludes to a permanent point in the skies since it is contrasted with the term itebbiru, which signifies "who previously crossed." Tablet V's referenced translation uses the phrase "polar star" despite substantial evidence that neberu was a planet in the late eras, either Jupiter or Mercury, according to the authors' remarks. According to the discoveries of ancient astronomers, Nibiru is an actual planet or brown dwarf inside our solar system. Established scientific organizations in astronomy and archaeology consider these hypotheses pseudoscience or fringe science. According to Sumerian cosmology, the twelfth planet in the solar system was Nibiru (which includes 10 planets, the Sun, and the Moon). The Earth, the asteroid belt, and the Moon would have originated due to a catastrophic collision between the planet and Tiamat, a planet between Mars and Jupiter. This was caused by a collision between one of Nibiru's host satellites and Tiamat, which created significant rifts in the Pacific Ocean's crust and left half a planet resembling modern Pangea (our present notion of all continents as one land mass). It was previously believed that such massive celestial bodies could not crash due to the magnetic field's strength. However, the discovery of the Orpheus Theory and the modeling of a collision between two Earth-sized objects have breathed fresh life into this theory.

The Role of the Sumerian Goddess

A retelling of all the great tales of Greek mythology in language that is simple, swift and highly dramatic.

Ancient Anunnaki and the Babylonian Empire

Identifies key gods, goddesses, heroes, heroines, themes, and symbols from the mythologies of the Middle East, China, India, South and Central America, North America, Japan, Europe, Greece, and Rome

Lords of Nibiru in Mesopotamia

Illustrated in full color throughout, this delightful collection puts the riches of world mythology at the fingertips of students and storytellers alike. It is a treasury of favorite and little-known tales from Africa, Asia, Europe, the Americas, Australia, and Oceania, gracefully retold and accompanied by fascinating, detailed information on their historic and cultural backgrounds. The introduction provides an informative overview of mythology, its purpose in world cultures, and myth in contemporary society and popular culture. Mythic themes are defined and the often-misunderstood difference between myth and legend explained. Following this, the main sections of the book are arranged thematically, covering The Creation, Death and Rebirth, Myths of Origins, Myths of the Gods, and Myths of Heroes. Each section begins by comparing its theme cross-culturally, explaining similarities and differences in the mythic narratives. Myths from diverse cultures are then presented, introduced, and retold in a highly readable fashion. A bibliography follows each retelling so readers can find more information on the culture, myth, and deities. Character, geographical, and general indexes round out this volume, and a master bibliography facilitates research. For students, storytellers, or anyone interested in the wealth of

world mythology, *Mythology: Stories and Themes from Around the World* provides answers to common research questions, sources for myths, and stories that will delight, inform, and captivate.

Heroes & Monsters of Greek Myth

A knowledge of mythology may not be a necessity to success in business, or in any other sphere except a purely scholastic one. At the same time, it greatly adds to one's enjoyment of literature, art and conversation to possess some acquaintance with the imaginary characters, places and incidents of the ancient myths, which have been such an inspiring influence to writers of all ages. Few people outside literary and educational workers have opportunity or leisure sufficient to acquire or keep up a knowledge of this particular branch of learning. Thus, it may be useful to present in dictionary form the stories in brief of the classic gods, heroes, places, and things of the old Greek and Roman literature and mythology. It will lead to a better understanding of the countless references that are made from time to time in the literature of the day to classic subjects. It is a great wonderland, and forms a realm all its own. Originally published in the 1800s as a portion of "Pears' Shilling Cyclopaedia," this paperback edition includes more than 400 entries concerning mythological gods, heroes, places, and things.

The Dictionary of World Myth

The great myths and legends of the ancient world continue to capture the imaginations of children. With this unique wide-ranging work, they will learn why myths developed and explore the common themes that are echoed across cultural and geographical boundaries. Full color.

Mythology for Storytellers

Identifies key gods, goddesses, heroes, heroines, themes, and symbols from the mythologies of the Middle East, China, India, South and Central America, North America, Japan, Europe, Greece, and Rome

Dictionary of Mythological Gods, Heroes, Places and Things

A guide to myths and legends. Lists entries for 1,250 characters and their origins.

Goddesses, Heroes, and Shamans

"Here there be dragons"--this notation was often made on ancient maps to indicate the edges of the known world and what lay beyond. Heroes who ventured there were only as great as the beasts they encountered. This encyclopedia contains more than 2,200 monsters of myth and folklore, who both made life difficult for humans and fought by their side. Entries describe the appearance, behavior, and cultural origin of mythic creatures well-known and obscure, collected from traditions around the world.

The Dictionary of World Myth

Every culture has in its folklore and mythology beings of immense size and strength, as well as other preternatural humanoids great or small who walk among us, serving the divine or fulfilling their own agendas. This book catalogs the lore and legends of more than 1,000 different humanoid species and individual beings, including the Titans, Valkyries, Jotnar, yMkai, biblical giants, elves, ogres, trolls and many more.

The Macmillan Illustrated Encyclopedia of Myths & Legends

This important new publication is an instantly accessible encyclopedia that is fully cross-referenced, detailing the pantheon of Asian gods through authoritative text and 500 color illustrations of sacred people and holy places drawn from original sources. Readers will travel through exotic realms of high adventure, thrill at the exploits of warrior-gods, and become immersed in the legend and folklore that bring both ancient stories to life and an understanding of contemporary Asian cultures.

The Astrotheological Origins of the Mithraic Mysteries, Judaism and Christianity

Provides information on the gods, heroes, rituals, beliefs, symbols, and stories of Norse mythology.

Encyclopedia of Beasts and Monsters in Myth, Legend and Folklore

Explore classic stories of the great Greek and Roman heroes, gods, and monsters. Who's Who in Classical Mythology is an indispensable guide to all the Greek and Roman mythological characters, from major deities such as Athena and Bacchus, to the lesser-known wood nymphs and centaurs. Also included, of course, are the heroic mortals, figures such as Jason, Aeneas, Helen, Achilles, and Odysseus, all brought to life in a fascinating series of portraits drawn from a wide variety of ancient literary sources. Each entry offers a small window into a timeless mythological world, one filled with epic battles, bizarre metamorphoses, and all sorts of hideous and fantastic monsters. The perfect book for casual browsers and folklore enthusiasts alike, Who's Who in Classical Mythology offers a rich and readable guide to some of the greatest stories ever told.

Encyclopedia of Giants and Humanoids in Myth, Legend and Folklore

Now in its eighth edition, this magisterial work offers a comprehensive survey of the stories of Greek myth, from the Olympian gods, through the lesser gods and deities, to the heroes, adventures, and foundation myths of the ancient Greek world. The Routledge Handbook of Greek Mythology sets out to provide a comprehensive history of the divine order and mythical prehistory of Greece, as systematized on a genealogical basis by Hesiod and the ancient mythographers, while also taking into account the ways in which individual myths have changed and evolved over time in different genres of literature. This new edition has been extensively rewritten and reorganized to make it more accessible to readers who may have no particular knowledge of the ancient world and Greek mythology, and to ensure that information on each myth or mythical figure is easy to find within the book. This new edition of the handbook continues to offer an essential reference resource for all students of Greek mythology, and it provides an accessible and comprehensive overview of these stories for anyone with an interest in the classical world.

The Encyclopedia of Eastern Mythology

A comprehensive reference source to the ancient world's most fascinating mythologies, bringing together the Classical legends of ancient Greece and Rome; the fairytale myths of the Celtic world; and from Northern Europe, tales of Germanic gods, Nordic warriors and giants.

Norse Mythology

What makes something mythic? What do mythic events and narratives have to do with us? In *Mythology*, David Leeming offers an unusual and effective approach to the subject of mythology by stressing universal themes through myths of many cultures. This anthology collects a wide array of narrative texts from the Bible to English literature to interpretations by Joseph Campbell, C.G. Jung, and others, which illustrate how myths serve whole societies in our universal search for meaning. Leeming illustrates the various stages or rites of passage of the mythic universal hero, from birth to childhood, through trial and quest, death, descent, rebirth, and ascension. The arrangement of texts by themes such as "Childhood, Initiation and Divine Signs," "The Descent to the Underworld," and "Resurrection and Rebirth" strip mythic characters of their many national and cultural "masks" to reveal their archetypal aspects. Real figures, including Jesus and Mohammed, are also included underlining the theory that myths are real and can be applied to real life. This edition is updated to include additional heroine myths, as well as Navajo, Indonesian, Indian, Chinese, and African tales.
