Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste

Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates.

'Remember when you played cards or knucklebones or noughts and crosses? Or what about charades, murder in the dark, I spy or hide and seek? Or made chatterboxes, those devices made from a square of paper that you flipped open between thumbs and forefingers with wishes and dreams under the flaps. This book has the lot. It may even ween you off the telly. Remember blind man's buff? What about conversations, in which players discuss a topic by starting each sentence with a consecutive letter of the alphabet? Great family fun ' Sun Herald Written by two young mums, Parlour Games for Modern Families sets out to revive the tradition of indoor family games. This book is bursting with games of logic and memory, wordplay, card games, role-play, and rough and tumble. No game requires any equipment beyond a pack of cards, a dictionary, dice, paper, and pen. Games are organised thematically and referenced for age-appropriateness. All are set out with clear rules and instructions. There are games that will challenge and stimulate you, and games that will have you in fits; games that can last all night, and games to fill that empty half-hour before tea; games for adults and older children, and games to keep all the kids at a four-year-old's birthday party happy. Every family and every home needs a copy.
