... **Sociological Imagination**, Mills' Claims about **Sociology**,: ...

The Sociological Imagination The sociological Imagination is: A quality of mind A way to grasp "history and biography and the relations between the two within society."

The Sociological Imagination The features of social life have meanings for us These meanings profoundly affect the values, character and behavior of the men and women who make up a society (a sociocultural system)

The Sociological Imagination Mills felt strongly that: The promise of the social sciences is to bring reason to bear on human affairs To fulfill this mission, he felt we should: "Avoid furthering the bureaucratization of reason and of discourse."

"What I am suggesting is that by addressing ourselves to issues and to troubles, and formulating them as problems of social science, we stand the best chance, I believe the only chance, to make reason democratically relevant to human affairs in a free society, and so to realize the classic values that underlie the promise of our studies" (1959).

The Sociological Imagination Mills proposes his own concept of how a sociologist should go about their work. He encourages us to be intellectuals, who concentrate on the nature of humankind and who seek out work that is significant to society.

How does the Sociological Imagination work in a practical way, for you?

Their political obsessions undermine the film.

The character arcs are all over the place or nonexistent.

They don't understand what they're attempting to satirize.

Lady Ballers is bad even at being propaganda.

This movie really hates women.

The whole thing is based on a false premise.

Here's some other dumb shit in the movie.
