Stranger, Father, Beloved

"Debut novel about a wealthy man who has reached a crossroads after a lifetime of repression and denial, sending him--and his family--into a slow spiral towards a total breakdown"--

Beloved Strangers

Interfaith marriage is a visible and often controversial part of American life--and one with a significant history. This is the first historical study of religious diversity in the home. Anne Rose draws a vivid picture of interfaith marriages over the century before World War I, their problems and their social consequences. She shows how mixed-faith families became agents of change in a culture moving toward pluralism. Following them over several generations, Rose tracks the experiences of twenty-six interfaith families who recorded their thoughts and feelings in letters, journals, and memoirs. She examines the decisions husbands and wives made about religious commitment, their relationships with the extended families on both sides, and their convictions. These couples--who came from strong Protestant, Catholic, and Jewish backgrounds--did not turn away from religion but made personalized adjustments in religious observance. Increasingly, the author notes, women took charge of religion in the home. Rose's family-centered look at private religious decisions and practice gives new insight on American society in a period when it was becoming more open, more diverse, and less community-bound.

Strange Tales from Liaozhai - Vol. 4

The weird and whimsical short stories in Strange Tales from Liaozhai show their author, Pu Songling (1640-1715), to be both an explorer of the macabre, like Edgar Allan Poe, and a moralist, like Aesop. In this first complete translation of the collection's 494 stories into English, readers will encounter supernatural creatures, natural disasters, magical aspects of Buddhist and Daoist spirituality, and a wide range of Chinese folklore. Annotations are provided to clarify unfamiliar references or cultural

allusions, and introductory essays have been included to explain facets of Pu Songling's work and to provide context for some of the unique qualities of his uncanny tales. This is volume 4 of 6.

God's Child

The importance of blacks for Jews and Jews for blacks in conceiving of themselves as Americans, when both remained outsiders to the privileges of full citizenship, is a matter of voluminous but perplexing record. A monumental work of literary criticism and cultural history, *Strangers in the Land* draws upon politics, sociology, law, religion, and popular culture to illuminate a vital, highly conflicted interethnic partnership over the course of a century.

OVER 4 MILLION COPIES SOLD WORLDWIDE Shortlisted for the Whitbread First Novel Award and the Guardian First Book Award; longlisted for the Man Booker Prize 'Unquestionably the finest English novel of the fantastic written in the last seventy years ... Funny, moving, scary, otherworldly, practical and magical' NEIL GAIMAN The year is 1806. centuries have passed since practical magicians faded into the nation's past. But scholars of this glorious history discover that one remains: the reclusive Mr Norrell, whose displays of magic send a thrill through the country. Yet the cautious, fussy Norrell is challenged by the emergence of another magician: the brilliant novice Jonathan Strange. Young, handsome and daring, Strange is the very antithesis of Norrell. So begins a dangerous battle between these two great men which overwhelms that between England and France. And their own obsessions and secret dabblings with the dark arts are going to cause more trouble than they can imagine.

"Daniel Randolph Deal is a Southern aristocrat, having the required bloodline, but little of the nobility. A man resistant to the folly of ethics, he prefers a selective, self-indulgent morality. He is a confessed hedonist, albeit responsibly so."--Back cover

Jonathan Strange and Mr Norrell

Winner of the Pulitzer Prize, Toni Morrison's *Beloved* is a spellbinding and dazzlingly innovative portrait of a woman haunted by the past. Sethe was born a slave and escaped to Ohio, but eighteen years later she is still not free. She has borne the unthinkable and not gone mad, yet she is still held captive by memories of Sweet Home, the beautiful farm where so many hideous things happened. Meanwhile Sethe's house has long been troubled by the angry, destructive ghost of her baby, who died nameless and whose tombstone is engraved with a single word: *Beloved*. Sethe works at beating back the past, but it makes itself heard and felt incessantly in her memory and in the lives of those around her. When a mysterious teenage girl arrives, calling herself *Beloved*, Sethe's terrible secret explodes into the present. Combining the visionary power of legend with the unassailable truth of history, Morrison's unforgettable novel is one of the great and enduring works of American literature.

A Strange Vineyard in Palestina ...

The Bible is probably the most enduring book in all of Western History, yet modern day readers can easily forget that each book of the Bible is the product of inspired, yet very human authorship. This is particularly evident in the New Testament, as inspired authors address the real needs of their communities through their work. Biblical scholar Fr. David Kaczmarek, T.O.R. examines how the authorship of the Gospel according to John, using the evolving language concepts of their Christian

community, told the story of Jesus in unique fashion and responded to issues in the life of the local church.

Beloved

A short fairy tale following the courtship of a scholar and a beautiful farmer's daughter.

Congressional Record

Unprecedented in scope and detail, *Brothers and Strangers* is a vivid history of how the mythic Africa of the black American imagination ran into the realities of Africa the place. In the 1920s, Marcus Garvey—convinced that freedom from oppression was not possible for blacks in the Americas—led the last great African American emigrationist movement. His U.S.-based Universal Negro Improvement Association worked with the Liberian government to create a homeland for African Americans. Ibrahim Sundiata explores the paradox at the core of this project: Liberia, the chosen destination, was itself racked by class and ethnic divisions and—like other nations in colonial Africa—marred by labor abuse. In an account based on extensive archival research, including work in the Liberian National Archives, Sundiata explains how Garvey's plan collapsed when faced with opposition from the Liberian elite, opposition that belied his vision of a unified Black World. In 1930 the League of Nations investigated labor conditions and, damningly, the United States, land of lynching and Jim Crow, accused Liberia of promoting "conditions analogous to slavery." Subsequently various plans were put forward for a League Mandate or an American administration to put down slavery and "modernize" the country. Threatened with a loss of its independence, the Liberian government turned to its "brothers beyond the sea" for support. A varied group of white and black anti-imperialists, among them W. E. B. Du Bois, took up the country's cause. In revealing the struggle of conscience that bedeviled many in the black world in the past, Sundiata casts light on a human rights predicament which, he points out, continues in twenty-first-century African nations as disparate as Sudan, Mauritania, and the Ivory Coast.

An Introduction to Language in the Johannine Community

'I am with you always, even unto the end of the world . . .' Peter Leigh is a missionary called to go on the journey of a lifetime. Leaving behind his beloved wife, Bea, he boards a flight for a remote and unfamiliar land, a place where the locals are hungry for the teachings of the Bible - his 'book of strange new things'. It is a quest that will challenge Peter's beliefs, his understanding of the limits of the human body and, most of all, his love for Bea. *The Book of Strange New Things* is a wildly original tale of adventure, faith and the ties that might hold two people together when they are worlds apart. This momentous novel, Faber's first since *The Crimson Petal and the White*, sees him at his expectation-defying best. WINNER OF THE SALTIRE BOOK OF THE YEAR AWARD SHORTLISTED FOR THE ARTHUR C. The Scholar and the Farmer's Daughter

This book is an astute rethinking of theology and pastoral ministry that overcomes sentimental notions of hospitality.

Brothers and Strangers

In this comprehensive and insightful reinterpretation of antebellum culture, Anne C. Rose analyzes the major shifts in intellectual life that occurred between 1830 and 1860 while exploring three sets of concepts that provided common languages—Christianity, democracy, capitalism. Whereas many interpretations of American culture in this period have emphasized a single theme or have been preoccupied with the ensuing Civil War, Rose considers sharply divergent tendencies in religion and politics and a wide range of reformers, authors, and other public figures.

The Book of Strange New Things

Now in an updated second edition, Gabriel Said Reynolds tells the story of Islam in this brief illustrated survey, beginning with Muhammad's early life and rise to power, then tracing the origins and development of the Qur'an juxtaposed with biblical literature, and concluding with an overview of modern and fundamentalist narratives of the origin of Islam. Reynolds offers a fascinating look at the structure and meaning of the Qur'an, revealing the ways in which biblical language is used to advance the Qur'an's religious meaning. Reynolds' analysis identifies the motives that shaped each

narrative--Islamic, Jewish, and Christian. The book's conclusion yields a rich understanding of diverse interpretations of Islam's emergence, suggesting that its emergence is itself ever-developing.

Welcoming the Stranger

A scholar of Southern literature and culture, Jan Whitt has written a personal narrative about adoption, childhood abuse, and fifty years of searching for her family in rural Appalachia. This book unflinchingly explores death and loss at the same time that it celebrates the transformative power of love and literature.

Voices of the Marketplace

In the mid-nineteenth century, the study of English literature began to be divided into courses that surveyed discrete "periods." Since that time, scholars' definitions of literature and their rationales for teaching it have changed radically. But the periodized structure of the curriculum has remained oddly unshaken, as if the exercise of contrasting one literary period with another has an importance that transcends the content of any individual course. *Why Literary Periods Mattered* explains how historical contrast became central to literary study, and why it remained institutionally central in spite of critical controversy about literature itself. Organizing literary history around contrast rather than causal continuity helped literature departments separate themselves from departments of history. But critics' long reliance on a rhetoric of contrasted movements and fateful turns has produced important blind spots in the discipline. In the twenty-first century, Underwood argues, literary study may need digital technology in particular to develop new methods of reasoning about gradual, continuous change.

The Emergence of Islam, 2nd Edition

Spanning a century, from Kate Chopin and Fannie Hurst to J. California Cooper and Elana Dykewomon, this bold and deeply satisfying anthology of women's stories explores women's relationships to, and perceptions of, their physical selves. Addressing the peculiarities, the pleasures, and the shames of body politics, these stories of bodies that refuse to be contained offer a variety of perspectives on fully inhabiting the flesh. Whether celebrating bodies deemed transgressive or simply daring to acknowledge that such bodies exist, these diverse literary representations of fatness render the excessive body brilliantly, unapologetically visible. As the first major encyclopedia of its kind, *The Oxford Encyclopedia of the Bible and Gender Studies* (OEBGS) is the go-to source for scholars and students undertaking original research in the field. Extending the work of nineteenth and twentieth century feminist scholarship and more recent queer studies, the Encyclopedia seeks to advance the scholarly conversation by systematically exploring the ways in which gender is constructed in the diverse texts, cultures, and readers that constitute the world of the Bible. With contributions from leading scholars in gender and biblical studies as well as contemporary gender theorists, classicists, archaeologists, and ancient historians, this comprehensive reference work reflects the diverse and interdisciplinary nature of the field and traces both historical and modern conceptions of gender and sexuality in the Bible. The two-volume Encyclopedia contains more than 160 entries ranging in length from 1,000 to 10,000 words. Each entry includes bibliographic references and suggestions for further reading, as well as a topical outline and index to aid in research. The OEBGS builds upon the pioneering work of biblically focused gender theorists to help guide and encourage further gendered discussions of the Bible.

Why Literary Periods Mattered

White, heterosexual, middle-class men have long served as the standard for masculine “beauty,” even if such men have refused to embrace this term. This study seeks to denaturalize this standard by exploring the connections between beauty and the broad spectrum of masculinities. The chapters included in *Hunks, Hotties, and Pretty Boys* contribute primarily to the field of gender studies, specifically masculinity studies. They consider twentieth-century representations of male beauty through a variety of mediums: performance, literature, art, photography, film and television. Although the contributors hail from both the humanities and the social sciences, all share a concern for how beauty informs, shapes, defines, and re-defines our understanding of masculinity itself. These scholars investigate a range of historical periods and draw from a broad scope of critical approaches. Some interrogate male beauty through the female gaze and look to the influence of female performance on notions of masculine beauty. Others examine how queer and racial constructions of male beauty refuse and offer alternatives to hegemonic models of identity. Another revisits previous philosophical and theoretical conceptions of beauty, only to deconstruct gendered conceptions of the beautiful and the sublime. In all, these essays complicate masculine beauty by examining Chicano, Asian, working class, and female constructions of male beauty in Western culture.

The Unit

Set between the rise of the U.S. and Japan as Pacific imperial powers in the 1890s and the aftermath of the latter’s defeat in World War II, *Strange Fruit of the Black Pacific* traces the interrelated migrations of African Americans, Japanese Americans, and Filipinos across U.S. domains. Offering readings in literature, blues and jazz culture, film, theatre, journalism, and private correspondence, Vince Schleitwiler considers how the collective yearnings and speculative destinies of these groups were bound together along what W.E.B. Du Bois called the world-belted color line. The links were forged by the paradoxical practices of race-making in an aspiring empire—benevolent uplift through tutelage, alongside overwhelming sexualized violence—which together comprise what Schleitwiler calls “imperialism’s racial justice.” This process could only be sustained through an ongoing training of perception in an aesthetics of racial terror, through rituals of racial and colonial violence that also provide the conditions for an elusive countertraining. With an innovative prose style, *Strange Fruit of the Black Pacific* pursues the poetic and ethical challenge of reading, or learning how to read, the black and Asian literatures that take form and flight within the fissures of imperialism’s racial justice.

Through startling reinterpretations of such canonical writers as James Weldon Johnson, Nella Larsen, Toshio Mori, and Carlos Bulosan, alongside considerations of unexpected figures such as the musician Robert Johnson and the playwright Eulalie Spence, Schleitwiler seeks to reactivate the radical potential of the Afro-Asian imagination through graceful meditations on its representations of failure, loss, and overwhelming violence.

Strange Tales from Liaozhai - Vol. 1

This book offers a new approach to thinking about liberty in the wake of decades of criticism of liberalism from feminists, communitarians, & conservatives alike.

Hunks, Hotties, and Pretty Boys

Strangers in New Homelands is a collection of papers emanating from Annual International Conferences on the Social Reconstruction of the concept of “home” among immigrants in the diaspora. For many immigrants in the diaspora, the concept of “home”, around which this conference has revolved, evokes confusion, fear, hopes, and aspirations. The presentations in this book therefore seek to throw light on what this concept means for many people who have uprooted themselves from their familiar environments and settled or seek to make new homes out of strange and unfamiliar environments. The contributors in this publication were drawn from the field of researchers on immigrant and refugee movements and settlements, education, community development and front-line immigrant and refugee settlement workers. They draw on experiences from their research, field practice vignettes, personal experiences and case work examples to highlight and explore the critical issues involved in the field of forced and voluntary migration and resettlement around the world, and the settlement of migrants and refugees in new societies. Cumulatively, the contributors examine the challenges of settlement, integration and adaptation that new comers face in host societies. The critical approaches and strong balance of research with applications show the implications of the issues for the profession of social work and allied fields. The scholarship presented here also highlights the implications of the issues discussed for further research and social policy development. Anyone interested in learning about the challenges and intricacies of the migration process around the world must read this book. It is highly recommended for politicians, policy makers, social work professionals, educators and organizations dealing with immigrants and refugees.

Kwaidan – Stories and Studies of Strange Things

Treatment of and reference to the Song of Songs by a variety of authors including Spenser and Milton. Many English Renaissance texts offer readings of the Song of Songs, by both well-known authors, such as Shakespeare, and the long neglected (William Baldwin, Robert Aylett, Abiezer Coppe and Lawrence Clarkson). This new study looks at the different traditions they represent, and most notably the balance in the tension of the Song of Songs as oral and written, carnal and spiritual. The introduction presents a historical and theoretical discussion of Canticles, using a Rabbinic model for juxtaposing orality and textuality; the author goes on to argue that from the time of ancient Sumer through medieval England motifs found in the Song of Songs are simultaneously sexual and spiritual just as they are likewise oral and textual. By attempting to recover oral approaches to any text, we encounter a series of forces that act to balance an open, oral, and sexual understanding of the erotic biblical text against a more closed, textual and spiritual reading. This balance is then traced through works by Baldwin, Spenser, Aylett, Coppe, Clarkson and Milton. NOAM FLINKER is currently Chairperson at the Department of English, University of Haifa.

However research has shown that proficiency in English is not always the key to success in English-medium publishing. This guide aims to help scholars explore the larger social practices, politics, networks and resources involved in academic publishing and to encourage scholars to consider how they wish to take part in these practices—as well as to engage in current debates about them. Based on 10 years of research in academic writing and publishing practices, this guide will be invaluable both to individuals looking for information and support in publishing, and to those working to support others' publishing activities.
