Goals and Benefits - The Montessori Method

She opened the first Montessori school—the Casa dei Bambini, or Children's House—in Rome on January 6, 1907. Subsequently, she traveled the world and wrote extensively about her approach to education, attracting many devotees. There are now thousands of Montessori schools in countries worldwide.

Who was Maria Montessori? - American Montessori Society

Maria Montessori discovered that experiential learning in this type of classroom led to a deeper understanding of language, mathematics, science, music, social interactions and much more. Most Montessori classrooms are secular in nature, although the Montessori educational method can be integrated successfully into a ...

What is Maria Montessori Theory?

It provides children with the environment, materials, and guidance to learn to do and think for themselves. It views children as born learners who are capable and willing to teach themselves when provided with the right stimulus. The ultimate goal of Montessori education is independence.

Montessori education

by C Ruhl · Cited by 1 — This theory of teaching understands that children have an innate interest to learn and will be able to do so in a suitable environment. It strives to create a classroom that is filled with order, cleanliness, beauty, and harmony.

What Is Montessori Education

Montessori spent two years working at the Orthophrenic School, experimenting with and refining the materials devised by Itard and Séguin and bringing a scientific, analytical attitude to the work; teaching and observing the children by day and writing up her notes by night. The relationship with Giuseppe Montesano had ...

Who was Maria Montessori?

Maria Montessori (1870-1952) was a physician, educator and multiple nominee for the Nobel Peace Prize. She developed a system that nurtures and develops children's natural desire to learn. Her approach has been repeatedly validated by neuroscience in recent years. The Montessori approach concentrates ...

Montessori Education

4 Nov 2019 — It's a specific child-centered method of education that involves child-led activities (referred to as "work"), classrooms with children of varying ages and teachers who encourage independence among their pupils. Dr. Montessori believed that children learn better when they're choosing what to learn, and ...
